"Universal" Languages

Volapuk (1879) Johann M. Schleyer, Germany Esperanto (1887) Dr. L. L. Zamenhoff, Warsaw. Universala (1893) Eugene Heintzeler, Germany. Novilatin (1895) E. Beerman, Leipsig, Germany. Idiom Neutral (1902) M. Rosenberger, Leningrad. Ro (1906) Rev. E. P. Foster, Marietta, Ohio. Steteri-Radio-Code, a universal language without grammar or vocabulary based on the seven notes of the musical scale.

Ido (1907), otherwise known as Esperanto formed, constructed and projected by an in national body of philologists and linguists.

Basic English (1930), C. K. Ogden, Cambr England.

Anglic, a new international language, proj by Prof. R. E. Zachrisson in 1930, is based o analysis of all English words in general use.

Air Force Library Service

The Air Force Library Service provides technical, recreational and educational reading materials to all USAF personnel. It includes 102 libraries within the U. S. continental limits, and 68 overseas libraries in addition to 52 special libraries within the U. S. continental limits, and are included in the Air Force Library collections, with an annual circulation of 1,250,000 boo year. Each Air Force Library is supplied technical books and periodicals in the fiel of aviation by a central procurement directe the Library Section at Headquarters USAF. D tions of books may be made to individual libr at any USAF base.

College Degrees Set Mark

The United States Office of Education reported that in 1949 the nation's colleges and universities handed out approximately 430,000 degrees. The report was based on returns received from about 1,000 degree-granting institutions. It was mated that 375,000 bachelor's or first professi degrees were granted—an increase of 38 per over the previous year—and 55,000 advanced grees.

American College Fraternities; Societies and Sororities

Source: World Almanac Questionnaire

dest American college Greek Letter Fraternity is Phi Beta Kappa, organized at William and llege, Williamsburg, Va., Dec. 5, 1776. The United Chapters were organized in 1885.

appa Alpha Society, founded Nov. 26, 1825, is the oldest of all the Greek Letter Fraternities to aintained a continuous existence.

orresponding Secretary of the National Interfraternity Conference is Dr. Wilbur H. Cramblet, College, Bethany, W. Va.

ecretary-Treasurer of the Professional Interfraternity Conference is John R. Kuebler, 5503 ington St., Indianapolis 19, Ind.

ecretary-Treasurer of the Association of College Honor Societies is Dean Robert W. Bishop, ty of Cincinnati, Cincinnati 21, Ohio.

ecretary of the National Conference on College Fraternities and Societies is Mrs. Clarence M. 09 Lenox Drive, Fort Worth 7, Texas.

ecretary of the National Panhellenic Conference is Mrs. E. Granville Crabtree, 85 Dean Road, e, Mass.; and of the Professional Panhellenic Association, Miss Vera A. Gerhart, c/o E. A. Co., 2545 N. Broad St., Philadelphia 32, Pa.

Illiteracy

Illiteracy had declined to a new low in the United States by October 1947. Of the then 106 million persons who were 14 years of age and over about 2.8 million (2.7 per cent) were unable to read and write, either in English or in any other language, and were therefore classed as illiterate.

Illiterate percentages, by decades, compiled by the U. S. Bureau of the Census, follow: (1870) 20.0; (1880) 17.0; (1890) 13.3; (1900) 10.7; (191 (1920) 6.0; (1930) 4.3. No data was collec 1940.

In 1930 illiteracy among native whites a 1.5 per cent and among Negroes 16.3; amo groes in cities, about 5.0. Among foreig whites the average was 9.9 per cent, rangin 0.3 among Scots and 0.6 among English and dians, to 36.9 among persons from the Azore

rce—National League of Nursing Education.

National Spelling Bee Champions

National Spelling Bee, conducted by Scripps-Howard Newspapers and other newspapers since as instituted by the Louisville (Ky.) Courier-Journal (1925). Children under 16 years of age red by participating newspapers are eligible to compete for the cash prizes and prize trips.

Frank Neuhauser, The Courier-Journal, sville, Ky.
Pauline Bell, The Courier-Journal, Louis- Ky.
Dean Lucas, The Akron (Ohio) Beacon- nal.
Betty Robinson, The South Bend (Ind.) s-Times.
Virgina Hogan, The Omaha (Neb.) World- ld.
Helen Jensen, The Des Moines (Iowa) Regis- and Tribune.
Ward Randall, The White Hall (N. Y.) Reg- and Republican.
Dorothy Greenwald, The Des Moines (Iowa) ster and Tribune.
Alma Roach, The Akron (Ohio) Beacon- nal.
Sarah Wilson, The Portland (Ore.) Evening ess.
Clara Mohler, The Akron (Ohio) Beacon- nal.
Jean Trowbridge, The Des Moines (Iowa) ster and Tribune.
Waneeta Beckley, The Courier-Journal, sville, Ky.
Marian Richardson, The Louisville (Ky.) es.

1939—Elizabeth Ann Rice, The Worcester (Mass.) Telegram and Gazette.
1940—Laurel Kuykendall, The Knoxville (Tenn.) News-Sentinel.
1941—Louis Edward Sissman, The Detroit (Mich.) News.
1942—Richard Earnhart, The El Paso (Tex.) Herald-Post.
1946—John McKinney, The Des Moines (Iowa) Register & Tribune, champion; Mary McCarthy, New York World-Telegram, second; Leslie Dean, Passaic (N. J.) Herald News, third.
1947—Mattie Lou Pollard, Thomaston, Ga. (Atlanta (Ga.) Journal, champion. Sonya Rodolfo, Chicago (Chicago (Ill.) Daily News), second; Suzanne Gelin, Parma, Ohio (Cleveland (Ohio) Press), third.
1948—Jean Chappelear, Black Horse, Ohio (Akron (Ohio) Beacon-Journal), champion; Darrel Flavelle, Washington, D. C. (Washington Daily News), second; Rosemary Schirmer, White Oak, Ohio (The Cincinnati Post and Station WCPO), third.
1949—Kim Calvin, Canton, Ohio (Canton Repository), champion; James Shea, Brooklyn, N. Y. (New York World-Telegram), second; Fred Shoup, Palo Alto, Calif. (San Francisco News), third.

Benjamin Franklin on Good Writing

Benjamin Franklin (1706-1790), editor of Poor Richard's Almanac, was described, during his lifetime, as the first American to be read by Englishmen for his English style. Yet Franklin did not attempt to write literature. His views on writing are as pertinent today as when first expressed, nearly 200 years ago:

"To be good it ought to have a tendency to benefit the reader, by improving his virtue or his knowledge. But, not regarding the intention of the author, the method should be just; that is, it should proceed regularly from things known to things unknown, distinctly and clearly wi confusion. The words should be the most expr that the language affords, provided that the the most generally understood. Nothing shou expressed in two words that can be well exp in one; that is, no synonyms should be us very rarely, but the whole should be as sh possible, consistent with clearness; the should be so placed as to be agreeable to th in reading; summarily, it should be smooth, and short, for the contrary qualities are pleasing."

ol Enrollment of the Civilian Non-Institutional Population

The Principal Languages of the World

Source: Editorial Reference Department of the New Standard Dictionary

The actual number of languages computed by officers of the French Academy is put at 2,796.

The English language is spoken by more than 270,000,000 of people of which more than half are Americans. Of these 150,500,000 are citizens of the United States of America, 1,000,000 are Liberians, and 70,900,000 are English-speaking people of England, Scotland, Northern Ireland, and Wales, and the Channel Islands, the Isle of Man, and Ireland, Gibraltar and Malta and Canada, Australia, New Zealand and South Africa. The population of the various other self-governing units or dependent colonies of Great Britain, which combined form the British Empire, has been computed at 391,084,000 persons. Assuming that one-eighth of this number understands and uses English speech in barter, trade exchange, or other manner of communication, a total of 47,633,000 more persons is to be added to the number who understand and speak English.

The reputable English language contains approximately 700,000 words. Possibly 300,000 more terms may be stigmatized as nonce, obsolete, vulgar, low, etc., and therefore seldom or never sought in dictionaries designed for the home.

Of the bulk—700,000 terms—nearly one-half consists of scientific terminology seldom met outside of text books and of archaic or obsolete terms.

Various estimates of the sources of English words have been made at different times. W. W. Skeat in the fourth edition of his "Etymological Dictionary" which contains approximately 20,000 words, shows the following sources:

Anglo-Saxon and English, 3,681; Low German, 126; Dutch, 207; Scandinavian, 693; German, 333.

French from Low German, 54; French from Dutch or Middle Dutch, 45. French from Scandinavian, 63; French from (1) German, 85, French from (2) Middle High German, 27; French from (3) Old High German, 154; French from (4) Teutonic, 225; French (Romance languages), French from Latin, 4,842; French from Late L 828; French from Italian, 162.

Celtic, 170; Latin (direct), 2,880; Provencal, Latin, 25; Italian, 99; Spanish, 108; Portugues

Greek direct or through Latin, Late L French or other sources, 2,493; Slavonic, 31; uanian, 1.

Asiatic: Indo-Iranian languages, including sian and Sanskrit, 163; European non-Aryan guages, 20. Semitic; Hebrew, 99; Arabic, 272.

Asiatic: Non Indo-Iranian, not Hamito-Se including Malay, Chinese, Japanese, Tartar, tralian, 135, African languages, 32; America dian, 102; hybrid, 675; unknown, 12. Total, 1

The select vocabulary of the New Stan Dictionary of the English Language totals ap imately 460,000 words. If the dead words o speech be added, the total, as shown by the English Dictionary on Historical Principles, reach 700,000 words for the English tongue, and dead.

The latter work admits to a vocabulary of 4 terms in use in the literary language. It ha specialized in scientific terminology.

The vocabulary of the New International tionary, Second Edition, as reported by its Ed in-Chief, Dr. W. A. Neilson, (July 2, 1934) placed at 550,000 entries, which total was incr to 600,000 by adding 36,000 names in the Gaze 13,000 in the Biographical Section, and 5,00 breviations.

The German word-book (Kurschner's Univ Konversations—Lexikon) contains not more 300 000 words, including personal names.

The principal other languages of the worl listed below, followed by the number of p speaking them according to the latest offici ports available. but not including losses or resulting from war.

TABULATION OF THOSE WHO SPEAK THE CHIEF LANGUAGES

Abyssinian, Ethiopic, Galla, Geez, Amharic and Tigré	7,600,000	Danish	3,707,000	Italian	43,700,000	Russian and dialects	166,0

		Hindi and Other languages (See Note below)	216,000,000	Polish	32,000,000	Tibeto-Burmese	17,0
		Hungarian	8,001,112	Portuguese	48,800,000	Turkish	16,1
				Punjabi	24,000,000	Urdu (See Note be	
				Rumanian	19,400,000		

Dutch and French figures include those living in present and former colonial areas.

Italian, Portuguese, and Spanish figures include those living in South America and former colonial areas.

German figures include German-speaking citizens of Switzerland and elsewhere.

The effect of the recent mass migrations in Poland and other European States upon the languages of those peoples cannot be reliably computed.

The population of India including Feudatory States is reported as consisting of 388,997,995 persons. The languages spoken have been classified as belonging to Indo-Iranian (or Aryan), Dravidian, Munda, and Tibeto-Burman stocks. No computation of reliable character that shows the number of persons speaking these languages is available, for none has been or could be made.

Of the stocks the Indo-Iranian subfamily embraces the Vedic, the earliest accessible form of Aryan speech in India. From this, through the development of grammatical and phonetic studies, came a literary language—the Sanskrit, a word that signifies "correctly or completely formed"; hence, cultivated or polished. Thereafter followed Pali and Maharashtri, of Behar and Mahratta—dialects that were called Prakrits, i.e., common, vulgar or derived (from the Sanskrit). The chief vernacular languages of India are Bengali (Bengal), Oriya (Orissa), Hindi (Upper Provinces) with Punjabi and Nepali, the closely allied language of the Gurkhas, the ruling class of Nepal, Sindhi (Lower Indus), Kashmiri, Marathi, Gujarati (the last of which is sometimes classed as a dialect of Hindi), Assamese (once considered a dialect of Bengali), Brahui (one of the two languages of Baluchistan), and Sinhalese (the speech of the southern half of the island of Ceylon).

The Dravidian family includes fifteen d languages, among them Tamil, Bhil, B Telugu, Kanarese, Malayalam, Kulu, Kodagu Kota, Gond, Khond, Oraon, and Malto. languages are spoken in the following reg districts of India; Southeastern, northe northwestern, and southwestern, the Malabar. Coorg (adjoining the Malabar coast), Nilgir Central India, Northwest Orissa, the Ra hills of Bengal. Tamil is spoken also in the no part of Ceylon.

The Mohammedan people of India and P numbering nearly 70,000,000 generally spe language—Hindustani or Urdu. The Mohamm of Eastern Bengal speak Bengali. In general, and Persian are known as classic languages Mohammedans of India, but are not spok them.

Hindustani-Urdu (from West Hindi) wi addition of Persian and Arabic words, writ the Persian character, originated after th hammedan conquest through official interco Persian-speaking rulers with their Hindu s A southern variant of it is Dakhani.

The Munda subfamily consists of sever guages, of which the best known are the (spoken by a tribe which inhabits the weste tier of Lower Bengal) and the Mundari (spo the Mundas, Bhumij, and Larka Kols). Mo 2,000,000 persons have been said to speak languages.

The Tibeto-Burman group has not ye completely surveyed. It has been divided by dict to six groups: Tibetan-Kanauri, Bohin Abor-Min-Dafla, Burmese-Lolo, Konyok, and Alaga.*

Grand Army of the Republic (April 6, 1866), 1426-18th St., N.W., Washington 6, D. C.; Sec., Miss Cora E. Gillis. (Held its 83rd and final encampment in August, 1949, in Indianapolis, Indiana. Only six of the sixteen surviving GAR members were present. The oldest veteran attending was James A. Hard, 108, and Joseph Hovese, 105, last Negro member, was also present. The youngest member to attend was Theodore A. Penland, 100 years old, the last Commander-in-Chief. At the close of the session he said in a weak voice: "I close the final business session of the Grand Army of the Republic." However, the organization will exist until the last member passes away. In 1890 the peak of the membership was reached, 408,489.)

Actors' Fund of America

Source: An Official of the Institution

The Actors' Fund of America was incorporated June 8, 1882, by Edwin Booth, Joseph Jefferson, Lawrence Barrett, William J. Florence, Bartley Campbell, Louis Aldrich, A. M. Palmer, Augustin Daly, Lester Wallack, Edward Harrigan, William Henderson, and others.

The first regular meeting was held in Wallack's Theatre, New York City, June 15, 1882, and Lester Wallack was elected first President.

The Actors' Fund of America is a "national" institution, and the appeals for financial aid come from every section of our country. It is a theatrical charity and not a benefit society. Annual dues are $2, and the paid-up membership as of April 30, 1948, was 2,798.

The Actors' Fund Home was founded by Louis Aldrich, the fourth President of the Fund, and was opened at W. New Brighton, Staten Island, in May, 1902. The Home was transferred to Englewood, New Jersey, in April, 1928. Offices are at 1619 Broadway, New York 19, N. Y.; Walter Vincent, president; Robert Campbell, secretary.

PERCY WILLIAMS HOME FOR ACTORS

The Percy Williams Home for Actors, Pine Acres is at East Islip, Long Island, N. Y. The Direction is made up of Actors' Fund Trustees and members of The Lambs. The president is Harry Sommers. The Home was founded in 1923 and endowed by the late Percy Williams. On a 50-acre estate it accommodates 45 veterans of the stage without regard to sex.

AWARDS—MEDALS—PRIZES

The Alfred B. Nobel Prize Winners

The Swedish scientist, Alfred B. Nobel, inventor of dynamite, on his death (Dec. 10, 1896) bequeathed $9,000,000, the interest of which should be distributed yearly to those who had most contributed to the benefit of mankind during the preceding year.

The physics and chemistry awards are made by the Swedish Academy of Science; those for medicine or physiology by the Stockholm Faculty of Medicine; those for literature by the Swedish Academy of Literature; those for peace by a committee of five persons elected by the Norwegian Parliament (Storthing). The Nobel Fund is managed by a board of directors, the head of which is appointed by the Swedish Government.

The founder made the express stipulation in his will that "no consideration whatever shall be paid to the nationality of the candidates, that is to say, that the most deserving be awarded the prize, whether of Scandinavian origin or not." In the following table the nationality of the winner at the time of the award is given. In cases of double nationality, the nation of birth is added.

Year	Physics	Chemistry	Medicine and Physiology	Literature	Peace
1901..	W. C. Röntgen(G.)	J. H. van't Hoff (D.)	E. A. von Behring (G.)	R. F. A. Sully Prudhomme (F.)	H. Dunant (Swi.) Frederick Passy(F.)

The Pulitzer School of Journalism

The School of Journalism (graduate) at Columbia University, founded and endowed by the late Joseph Pulitzer, opened (Sept. 1912) and entered (1913) its new building at 116th St. and Broadway, New York City. The dean is Carl W. Ackerman. The school has a reference library of 15,800 books and 4,350 bound newspaper volumes, a file of 50 daily papers (American and foreign) and a "morgue" of 1,400,000 newspaper clippings of which the private collection of Dr. Talcott Williams, former Dean, formed the basis.

Advisory Board—President Dwight D. Eisenhower, of Columbia University; Sevellon Brown (1952)—The Providence (R. I.) Journal; Robert Choate (1950)—The Boston (Mass.) Herald; Kent Cooper (1952)—The Associated Press, New York City; Gardner Cowles, Jr. (1950)—Des Moines (Iowa) Register and Tribune; John S. Knight (1950)—Knight Newspapers, Chicago, Ill.; Arthur Krock (1951)—The New York Times, Washington Bureau, Washington, D. C.; William R. Mathews (1952)—Arizona Star, Tucson, Ariz.; Stuart Perry (1949)—The Adrian (Mich.) Telegram; Harold S. Pollard (1951)—New York (N. Y.) World Telegram; Joseph Pulitzer (1951)—St. Louis (Mo.) Post-Dispatch. Dean Carl W. Ackerman, Secretary, Columbia University.

Pulitzer Prizes in Journalism and Letters

The Pulitzer Prizes in Journalism and in Letters, established by the late Joseph Pulitzer in a bequest to Columbia University, New York City, are awarded annually by the trustees of Columbia University on recommendation of the Advisory Board of the School of Journalism at Columbia.

Juries selected to pass on the year's productions for 1935 made no selection of prize-winners but submitted to the Advisory Board for its guidance a list of eligible candidates for each prize with a statement of reasons for each recommendation. The specifications for the prize winning play and novel for 1934 and after carry the phrase "preferably dealing with American life."

Prizes are awarded for work done in the preceding year.

MERITORIOUS PUBLIC SERVICE

For the most disinterested and meritorious public service rendered by an American newspaper during the year—$500 gold medal.

1918—The New York Times for publication official reports, documents and speeches relating to the World War.

American Rhodes Scholarships

ccording to the will of Cecil John Rhodes, 32 olarships, tenable at the University of Oxford, assigned annually to the United States. Each ointment is made for two years in the first ance, with a possible third year at the discre- of the Trustees. No restriction is placed upon hodes Scholar's choice of studies.

o be eligible for a Scholarship a candidate t be—(a) A male citizen of the United States unmarried; (b) Over 19 and not over 25 years at the time of entrance; (c) have at least junstanding in some recognized degree granting versity or college in the United States.

A competition is held every year in every state. Candidates may apply either from the state in which they live or from the state in which they have received at least two years of their college education. Detailed information may be obtained from Dr. Frank Aydelotte, American Secretary to the Rhodes Trustees, Institute for Advanced Study, Princeton, N. J.

The regular stipend of a Rhodes Scholarship is £400 a year, but for the present this stipend is augmented by an extra grant of £100 a year, making a total of £500. An appointment to a Rhodes Scholarship is tenable for two years with a third year at the discretion of the Trustees.

SPECIAL AWARDS, GRANTS, FELLOWSHIPS

Robert S. Abbott Award

Established in memory of the pioneer Negro journalist who founded The Chicago Defender, a weekly, 1949: President Harry S. Truman.

American Acad. of Arts and Letters

Medal for Good Speech on the American Stage: 1947, Alfred Lunt; **1948,** Judith Anderson; **1949,** Jose Ferrer. **Award of Merit Medal** (yearly to an outstanding person in America representing either painting, sculpture, novel, poetry or drama): **1947,** Andrew Wyeth, for painting; **1948,** Donal Hord, for sculpture; **1949,** Thomas Mann, for fiction. **The Gold Medal. 1948,** Bruce Rogers, distinction in designing books; **1949,** Frederick Law Olmstead, for architecture.

National Inst. of Arts and Letters
(Parent Body of the Academy)

Award for Distinguished Service to the Arts: 1949, Mrs. Edward MacDowell.

Fifteen $1,000 "Arts and Letters Grants" are awarded annually to non-members to further creative work in the arts—$10,000 by the Academy, and $5,000 by the Institute.

1947 recipients: **Art:** Peter Blume, Dorothea Greenbaum, Joseph Hirsch, Victoria Hutson Huntley, Mitchell Jamieson, Carl Schmitz. **Music:** Alexei Haieff, Ulysses Kay, Normand Lockwood. **Literature:** Nelson Algren, Eleanor Clark, Lloyd Frankenberg, Robert Lowell, Elizabeth Parsons, James Still.

1948 recipients: **Art:** Louis Bosa, Robert Cook Jr., Stephen Csoka, Philip Guston, Oronzio Maldarelli, John W. Taylor. **Music:** Henry D. Cowell, Lou Harrison, Vincent Persichetti. **Literature:** Bertolt Brecht, Dudley Fitts, Harry Levin, James F. Powers, Genevieve Taggard, Allen Tate.

1949 recipients: **Art:** Federico Castellon, Carl Hall, Henry Kreis, John McCrady, William Pachner, Harry Wickey. **Music:** John Cage, Louis Mennini, Stefan Wolpe. **Literature:** Leonie Adams, James Agee, Joseph Campbell, Alfred Kazin, Vincent McHugh, James Stern.

American Chemical Society

ACS Award in Pure Chemistry, estab. 1931. Gold medal and $1,000. **1949,** Richard T. Arnold. **1950,** Verner Schomaker.

Borden Award in Chemistry of Milk, estab. 1938. Gold medal and $1,000. **1949,** George R. Greenbank.

Eli Lilly & Co. Award in Biological Chemistry, estab. 1934. Gold medal, $1,000, plus $150 for traveling expenses to prize meeting. **1949,** Irving M. Klotz. **1950,** William Shive.

Fisher Award in Analytical Chemistry, estab. 1947. $1,000, an etching and travel allowance of $150. **1949,** G. E. F. Lundell. **1950,** Isaac M. Kolthoff.

Fritzsche Award for research in essential oils, estab. 1948. Gold medal and $1,000. **1949,** John L. Simonson. **1950,** A. J. Haagen-Smit.

Garvan Gold Medal for distinguished services by women chemists, estab. 1936. **1949,** Agnes Fay Morgan. **1950,** Pauline Beery Mack.

Iptieff Prize, for research in catalysis, estab. 1943, given every three years. Income from a trust fund and diploma. **1947,** Louis Schmerling.

Paul-Lewis Laboratories Award in Enzyme Chemistry, estab. 1945. Gold medal, $1,000 and $150 for travel expense. **1949,** Henry A. Lardy. **1950,** Britten Chance.

Precision Scientific Co. Award in Petroleum Chemistry, estab. 1948. $1,000. **1949,** B. H. Sage. **1950,** Kenneth S. Pitzer.

Priestley Medal for distinguished services in chemistry, estab. 1922. Gold medal and $150 travel expenses. **1949,** Arthur B. Lamb.

American Geographical Society

1948. Cullum Medal, Hugh H. Bennett. **Charles P. Daly Medal,** Henri Baulig. **David Livingstone Centenary Medal,** Frank Debenham.

American Institute of Architects

Gold Medal, established in 1906, to Sir Aston Webb, Charles Follen McKim, George B. Post, Jean Louis Pascal, Victor Laloux, Henry Bacon, Sir Edwin Landseer Lutyens, Bertram Grosvenor Goodhue, Howard Van Doren Shaw, Milton Bennett Medary, Ragner Ostberg, Paul Philippe C Louis Henry Sullivan (posthumous), Eliel Sa nen, Charles Donagh Maginnis, and Frank L Wright.

Craftsmanship Medal, established in 1915 Henry C. Mercer in ceramics; Samuel Yelli iron work; Frederick W. Goudy in typogra Charles Jay Connick in stained glass; V. F. Lossberg in metal work; Frank J. Holmes in c mics; William D. Gates in ceramics; Ch Brothers in textiles; John Kirchmayer in v carving; Leon V. Solon in terra cotta and fale Walter W. Kantack in metals in glass and illus ating fixtures; John J. Early in masonry and crete; Joseph Dulles Allen in ceramics; Wi Herbert Burnham in stained glass; Dor Wright Liebes in field of textiles, and Wi Herbert Burnham in stained and leaded glass

Fine Arts Medal, established in 1919, to Manship in sculpture; Arthur F. Mathews painting; John Singer Sargent in painting; Leopold Stokowski in music; Lee Lawrie in sc ture; M. Siddons Mowbray (posthumously) painting; Diego Rivera in painting; Adolph A ander Weinman in sculpture; Frederick Law O sted in landscape architecture; James H Breasted in literature pertaining to the Fine A Robert Edmond Jones in design for the thea Carl Milles in sculpture; John Taylor Arm etching; Samuel Chamberlain in etching; C Marin in painting; and Louis Conrad Rosen in etching.

Exhibition Medal, established in 1921 for st in building, has been discontinued.

American Inst. Electrical Engine

Edison Award, 1947: Joseph Slepian, for pion ing achievements in radio, and invention of grid-controlled vacuum tube. **1948:** Morris E. Le for contributions to industry through developn and production of electrical precision measu devices and controls. **Lamme Medal. 1947:** A. MacCutcheon, for distinguished accomplishm in development of motors for industrial ne **1948:** V. K. Zworykin, for outstanding contribu to the concept and design of electronic appar basic to modern television.

American Irish Historical Socie

Miss America Pageant of Atlantic City, N. J.

The Miss America Pageant of Atlantic City, N. J., held Sept. 5-11, 1949, originated in 1920 as a modest promotion scheme on the part of a few "side-avenue" hotels (half a block or more from the Boardwalk) to stir up business after Labor Day. A number of merchants and hotelmen "grudgingly" contributed $5,916 for the first pageant, a "fall frolic" with a parade of floats. In 1921 the late Herbert C. Test, a newspaper reporter, suggested a Miss America contest to the hotelmen. This grew for seven years, then slumped. In 1933 it was tried again, but ended in the red. In 1935 it gained substantial backing, and since then this "season-extender" has become the biggest resort promotion device in the country, attracting 250,000 visitors and nearly 2,000 newspaper, magazine, radio and newsreel reporters annually. It has inspired numerous similar contests throughout the country.

Since 1942 Miss Leonora Slaughter, who bec secretary of the Pageant Board in 1935, directed the beauty contest, travelling to l and state contests a large part of the y Contestants are chosen locally, under the direc of Junior Chambers of Commerce. They may c from the United States, Canada, Hawaii Puerto Rico, and must have a high school edu tion. In 1945 Miss Slaughter, stung by critic that the pageant represented "beauty with brains," originated the Scholarship Foundat under the sponsorship of industrial leaders. gives a $5,000 scholarship to Miss America 16 scholarships to finalists, making a total v of $25,000. Canada now gives $10,000 to se contestants. Many state and local organizat have provided scholarships and girls chosen beauty titles are now studying in many coll and universities.

Long-Run Plays

Harvey, by Mary Coyle Chase, opened Nov. 1, 1944, starring Frank Fay. It was produced by Brock Pemberton and directed by Antoinette Perry. It had 1,775 performances in New York before it closed Jan. 15, 1949, and 1,569 on tour at the close of the 1949 season in July. Two touring companies are headed by Frank Fay and Joe E. Brown, the latter having played the leading role on the road almost continuously from December, 1945, except for summer vacations and a brief New York run. Actors who have appeared in the leading role in New York are Frank Fay, Joe E. Brown, Rudy Vallee, James Dunn and Brock Pemberton. The play also has been produced abroad in English, and in September, 1949 opened in Danish in Copenhagen.

Annie Get Your Gun, a musical play by Herbert and Dorothy Fields, music by Irving Berlin, starring Ethel Merman, opened May 17, 1946, and had 1,147 performances in New York before closing Feb. 12, 1948. It was produced by Rodgers & Hammerstein and directed by Joshua Logan. It was also played on tour and by companies in London and several of the British Dominions.

What it Costs to Produce a Typical Broadway Comedy

Broadway is the name by which the play producing center of America is known to professionals, although many of the theatres involved are not actually located on the famous street. Although play production is extremely hazardous and the success of a play cannot be forecast with exactitude, enough plays make sizable fortunes for their owners to lure others to seek public favor.

To present an idea of the cost of producing a typical play in the legitimate theatre, the World Almanac has had recourse to the balance sheets of producers. A typical non-musical comedy, using one set of scenery and employing good actors but avoiding names that are paid extra for their reputation, would incur the following expense before the curtain goes up on the premiere:

Advance advertising	$ 700
Costumes	1,500
Electrical and lighting equipment, lighting fee	2,000
Furniture and props	1,000
Producer's office expense, accounting, legal fees, etc.	2,500
Rehearsal salaries for cast, stage hands executive staff	4,500
Rehearsal expenses	500
Designing, building, painting scenery	6,500
Total	$19,200

Bonds covering two weeks' salary must be posted with the various unions, plus author's advance royalty.

After the play opens the following expenses are incurred every week without counting royalties to author or theatre rental:

Salaries	$ 4
Advertising	
Departmental bills	
Rental of equipment	
Office expense	
Taxes on salaries	
Insurance	
Total operating cost	$ 5

Royalties are based on a minimum of 5% on first $5,000; 7½% on the next $2,000, and 10% all over, of the box office receipts. Theatre rent is based on 35% of the gross receipts, against guarantee to the theatre of $3,500 a week or mo

Many incidental charges cannot be applied equ ly to all productions. It is not customary to music between the acts nowadays because of extra expense. However, a theatre which has contract with the musicians' union, must use minimum of four men when there is a play at theatre, and share this cost with the producer the same basis as receipts are shared. If the pr ducer does not need musicians, the theatre a the producer must come to some agreement abo this expense. If the musicians are not used, h salary must be paid. If a theatre does not ha a regular contract with the musicians, and a pr ducer who wishes to have music rents the house penalty rate, at least one-third higher than t regular rate, is paid to the musicians. If the auth of the play should have prescribed the playing a record off-stage, the producer must hire at le four musicians at the regular union scale, whet they play or not.

Extraordinary feat in reducing avoirdupois reported by the Saturday Evening Post, July 1949, of dancing comedian Ray Bolger, star of Where's Charley: "This 12-minute dance s is so exhausting that Ray loses between 3 and 5 pounds each night."

Opera and Concert Season, 1948-49

METROPOLITAN OPERA, NEW YORK

Metropolitan Opera Assn., New York: The regular 16-week subscription season began Nov. 29, 1948, ended Mar. 19, 1949, included 117 operas in 113 performances, plus one mixed bill for the Milk Fund. There were 25 different operas in four languages. Nine works were returned to the repertory: L'Amore dei Tre Re, L'Elisir d'Amore, Falstaff, Gianni Schicchi, Mignon, Le Nozze di Figaro, Pelleas et Melisande, Salome. The only opera in English was Britten's Peter Grimes (four performances). Other operas:

In French—Carmen, Louise, Pelleas et Melisande, Mignon.

In German—Salome, Die Goetterdaemmerung, Parsifal, Siegfried, Tristan, Die Walkuere.

In Italian——L'Elisir d'Amore, Lucia di Lammermoor, L'Amore dei Tre Re, Le Nozze di Figaro, Gianni Schicchi, La Boheme, Madama Butterfly, Barbiere di Siviglia, Aida, Falstaff, Otello, Rigoletto, La Traviata, Il Trovatore.

Events of the opening night, Nov. 29, were related for the first time on television.

During Holy Week, April 12-16, seven performances were given, including two of Parsifal. In Philadelphia the Metropolitan presented nine operas. Between the close of the regular New York season and Holy Week the company gave 24 performances in Baltimore, Boston, Cleveland and Rochester.

After the Holy Week performances the company embarked on the longest tour in its history, in cooperation with S. Hurok and the National Concert Artists Corp. Two special trains carried artists and chorus (90); orchestra (88); ballet (40), technical staff and stage crew. Scenery, wardrobes and accessories filled 20 baggage cars. The company scheduled 61 operas at Atlanta, Memphis, Dallas, Los Angeles, Denver, Des Moines, Minneapolis, Bloomington, Ind., Lafayette, Ind., and St. Louis, in the order named. The Greater Los Angeles Plan, Inc., sponsor of the operas there reported attendances of over 5,000 for a number of performances, making a total of 69,846 paid admissions and a gross income of $311,464.43 for 14 performances.

Sudden death, so often the basis of operatic tragedy, became reality on tour when John Garris, tenor, was found murdered in an Atlanta street, April 21, 1949.

Edward Johnson Resigns

Edward Johnson who joined the opera company in 1922 and became general manager in May, 1935, resigned his office to take effect June 1, 1950. The board on May 25, 1949, chose Rudolf Bing to succeed him. Mr. Bing is a Vienna-born naturalized Briton, who has been artistic director of the Edinburgh festival and general manager of the Glyndebourne Opera Co. in England.

Fritz Reiner joined the staff of conductors and Fausto Cleva, Thomas Mayer the musical staff. Aubrey Hitchins became ballet master. Debuts who appeared for the first time with the Metropolitan were Anne Bollinger, Marilyn Cotton, Gertrude Ribla, Ljuba Welitsch, Jean Brownlee, Madeira, Paul Franke, Frank Guarrera, Italo Tajo and Lubomir Vichegonow.

In spite of partial freedom from property taxes (theater, not offices, exempted), the Metropolitan Opera continues to incur deficits. The report of the 1947-48 season, made public in 1949, showed income revenue of $3,024,688.78 and a deficit of $33,357.08. To meet the deficit for 1949-50 the Metropolitan Opera Guild conducted a successful drive for $250,000.

Cost of Producing Opera

The cost of America's major opera enterprise is shown in these figures from the 1947-48 report:

Income included $1,734,946.91 from New York performances; $819,806.39 from tours; $197,738.77 from broadcasting; $129,003.33 from building rent and $126,928.63 from concessions.

Expenses for salaries were: artists and conductors, $721,455.98; orchestra, $588,737.43; chorus, $215.25; ballet, $68,026.50; executive and clerical staff, $176,648.74; stage departments, $522,072.56; wardrobe and scenic departments, $74,679.27.

Winners of the Metropolitan Opera Auditions of the Air for 1949 were Lois Hunt, 23, soprano of Philadelphia, and Denis Harbour, 29, bass-baritone, of Sudbury, Que., Canada.

NEW YORK CITY OPERA CO.

New York City Opera Co. opened its 11th six-week season Mar. 24, 1949, gave 33 performances and closed May 1 at New York City Center. Attendance was approximately 85,000, 3 per cent larger than that of the fall, 1948, season, which ran eight weeks. Director was Laszlo Halasz. Final performance was the premiere of Troubled Island, music by William Grant Still, text by Langston Hughes, dealing with the career of the Negro liberator of Haiti, Dessalines. Julius Rudel conducted.

Operas sung included Aida, La Traviata, Tosca, Madama Butterfly, Marriage of Figaro, La Boheme, Cavalleria Rusticana, I Pagliacci, Don Giovanni, The Old Maid and the Thief, The Medium and Carmen. Conductors included Thomas P. Martin, Jean Morel, Joseph Rosenstock, Lee Shaynen, George Balanchine was ballet choreographer.

The fall, 1948, season of 8 weeks (Oct. 6-Nov. 28) brought as new singers to the company Richard Bonelli, Alberta Masiella, Leona Scheunemann, Lillian Shelby, Dorothy MacNeil, Muriel O'Malley, Frances Bible, Laszlo Szemere, Luigi Velucci, Lawrence Winters and John Tyers.

Revival of Chicago Opera

Following the fall season the company opened in Chicago Dec. 1 with Salome for 18 performances, (closed Dec. 21) at the invitation of the Chicago Citizens Committee for Opera, Mayor Martin H. Kennelly chairman. A fund of $40,000, of which the Chicago Music Foundation raised $25,000, was guaranteed and the foundation made good the small deficit. Performances took place in the Civic Opera house. Arrangements were made to give three weeks of opera in Chicago in December, 1949, following the fall season of eight weeks in New York, opening Sept. 29.

The New York City Opera Co. was projected by Fiorello La Guardia, late mayor of New York, and Newbold Morris, now chairman of the board of the City Center of Music and Drama, the executive body of the opera company. It opened Feb. 21, 1944, with borrowed scenery and costumes, and now has a repertory of 28 operas.

SALMAGGI OPERA, NEW YORK

Popular Price Grand Opera, Inc., Alfredo Salmaggi, artistic director, gave 36 performances of 16 different operas at the Brooklyn Academy of Music, Brooklyn, N. Y., from Sept. 11, 1947 to May 7, 1948. Revivals were Giordano's Andre Chenier, Rossini's Moses and Mascagni's L'Amico Fritz. The repertory also included Carmen, Faust, Hansel and Gretel, La Boheme, Madama Butterfly, Tosca, Aida, Il Trovatore, La Forza del Destino, La Traviata, Rigoletto, Cavalleria Rusticana and I Pagliacci. The Brooklyn season was followed by 12 outdoor performances at Triborough Stadium, Randall's island, New York, June 18 to Sept. 3, 1949. The fall season began Oct. 1, 1949.

SAN CARLO

San Carlo Opera Co., Fortune Gallo, director, opened its spring 1949 season at Center Theatre, New York, May 4 for 16 performances after completing its 38th annual tour. Operas: Aida, Madama Butterfly, La Traviata, Carmen, Il Trovatore, Rigoletto, La Boheme, Tosca, Barber of Seville, Cavalleria Rusticana, I Pagliacci, Faust. Carlo Moresco, conductor.

LEMONADE OPERA, NEW YORK

Lemonade Opera, New York, N. Y., gave its first performances of three operas in English at Greenwich Mews Playhouse in 1947; its name refers to the custom of serving lemonade between acts. In 1948 it played six nights a week for 17 weeks, June 1 to Sept. 25, giving 51 performances of The Duenna, by Prokovieff, first time in the United States; 36 of Mozart's Don Giovanni and 11 of a combination bill of La Serva Padrona of Pergolesi and Hansel and Gretel of Humperdinck. At Easter, April 20-23, 1949, it gave four performances of Hansel and Gretel. On June 7 it opened its third season with the American premiere of Joseph Haydn's The Man in the Moon, English libretto by John Gutman from Goldoni, and added Down in the Valley, by Kurt Weill and Mendelssohn's The Stranger, closing a 16-week run Sept. 22, total 90 performances. Its first fall season was scheduled to open Sept. 28 with Hansel and Gretel and Down in the Valley, continuing its repertory with four performances a week.

CINCINNATI

Cincinnati Opera Assn. gave its 28th season of summer opera at Opera Pavilion, Zoological Gar-

dens, June 26 to Aug. 6, 1949, with 36 performances of these 16 operas: Aida, La Boheme, Madama Butterfly, Andrea Chenier, Faust, Don Giovanni, Lohengrin, Love of Three Kings, Masked Ball, Rigoletto, Salome, Samson and Delilah, Tristan and Isolde, La Traviata and Il Trovatore. Artists from Metropolitan Opera included Varnay, Swarthout, Roman, Jessner, Harshaw, Altman, Conley, Jagel, Kullman, Tucker, Vinay, Lazzari, Tajo, Singher, Valentino and Weede. Members of the chorus were chosen from the Metropolitan. Music by Cincinnati Symphony orchestra, with conductors Fausto Cleva, Paul Breisach, Wolfgang Martin, Thomas Mayer, Antonio dell'Orefice and Mario Mazzoni. Ballet was headed by Prideaux and Arlova. Oscar F. Hild is managing director.

NEW ORLEANS

New Orleans Opera House Assn.: Oct. 7, 1948 to May 7, 1949, two performances each of Lucia di Lammermoor, La Boheme, Otello, Tristan and Isolde, Carmen, I Pagliacci, Secret of Suzanne, La Traviata. Walter Herbert, general director and conductor; artists included Rivera, Gonzalez, Menkes, Svanholm, Flagstad, Harshaw, Jagel, Janssen, Swarthout, Shelby, Thompson, Steber, etc.

PHILADELPHIA LA SCALA

Philadelphia La Scala Opera Co. sang 12 operas in Philadelphia, opening with Rigoletto, Oct. 22, 1948. Also performed were Il Trovatore, La Gioconda, La Traviata, Carmen, La Boheme, Lohengrin, Madama Butterfly, Cavalleria Rusticana, I Pagliacci, Tosca, Fedora and Aida. Fedora had not been heard in Philadelphia since 1923. The company gave five performances in Baltimore and eight in Detroit. A. Victor Pelosi, brother of the artistic director, Francesco Pelosi, who died Aug. 2, 1948, is general manager.

PITTSBURGH

The Pittsburgh Opera, Inc., Richard Karp, artistic and musical director, gave 10 performances of five different operas at Syria Mosque, Pittsburgh, Pa., between Nov. 11, 1948, and April 23, 1949. The operas were Carmen, The Barber of Seville, La Traviata, La Boheme and Rigoletto. Leading roles were sung by stars of the Metropolitan Opera, including Swarthout, Jobin, Lenchner, Martini, Pechner, Lazzari, Conner, DiStefano, Cassel, Albanese, Weede, Peerce and Lazzari. Also starred were Carlos Alexander, Graciele Rivera, Adelaide Bishop, Mario Binci, Eva Likova.

SAINT LOUIS

St. Louis Municipal Opera, 31st season, June 9 through Sept. 5, 1949, gave 87 performances in the open-air theatre in Forest Park. Only two performances were cancelled by rain. Attendance records were broken for season and individual performances; season, 898,448, an increase of 77,403 over 1948; single performance, 12,016, set by Roberta, Aug. 14. In 31 years the opera has played to 19,630,255 persons. The season will show a profit, although operating costs have risen. Light operas produced were The New Moon, Bloomer Girl, The Fortune Teller, The Firefly, The Chocolate Soldier, Bitter Sweet, Irene, The Vagabond King, Roberta, The Red Mill, Song of Norway. The opera has 1,500 seats available free of charge every night, and except for box seats all admission fees are under $2. Paul Beisman is manager.

SAINT PAUL

Saint Paul Civic Opera Assn.; Sept., Oct. and Dec., 1948, three performances of the double bill, The Telephone and I Pagliacci, and three of Mignon. Principals included Shorbund, Daniels, Fredericks, Shelby, Perkins, Leech, Loomis, Markow, Cooper, Johnson, Wiener, Bomar, Lloyd, Pegors. Leo Kopp, conductor; E. A. Furni, Mgr.

SAN ANTONIO

Symphony Society of San Antonio presented its fifth grand opera festival in the Municipal Auditorium Feb. 12, 13, 19 and 20, 1949. Operas were Il Trovatore, Der Rosenkavalier, La Boheme, Lohengrin. Stars included Rose Bampton, Dorothy Kirsten, Novotna, Bjoerling, Mack Harrell, John Tyers, Walter Cassel, Hertha Glatz, Leslie Chabay, Lloyd Harris. Musical Director, Max Reiter. For the 1950 opera season the society scheduled Carmen, La Traviata, Tristan and Isolde and the Marriage of Figaro, the latter in English with an all-American cast.

SAN FRANCISCO

San Francisco Opera Assn. gave 48 performances in the 1948 season, which opened Sept. 14 in the War Memorial Opera House. There were 30 performances at home and 18 on tour, with 14 in Angeles, and the rest in Sacramento, San Jose Bakersfield. Operas included Falstaff, Mar Meistersinger, La Forza del Destino, Cavalle Rusticana, I Pagliacci, Boris Godounoff, Carm Madama Butterfly, Elixir of Love, Siegfried, Traviata, La Boheme, Il Trovatore, Otello, Giovanni, Rigoletto, Barber of Seville, and Gioconda. For the 1949 season the opera scheduled to open in San Francisco Sept. 20 close in Los Angeles, Nov. 6, with 39 performan of 12 operas.

BERKSHIRE FESTIVAL

The 1949 Berkshire Festival of the Boston Sy phony Orchestra, at Tanglewood, between Le and Stockbridge, Mass., drew crowds of 25,000 certain days of the five-week program, July Aug. 14. Serge Koussevitzky conducted 10 sy phony concerts; Leonard Bernstein and Elea de Carvalho also conducted. Soloists were Leon Pennario, Alfred Zighera, Sylvia Marlowe, Lu Foss, William Kroll, Joseph de Pasquale, Clau Arrau, E. Power Biggs, Jascha Heifetz, Gre Piatigorsky, Janice Moudry, David Lloyd, Jar Stagliano. Two operas were given: Iphigenia Tauris, by Gluck, and Albert Herring, by Ben min Britten (premiere). The festival for 1950 scheduled to run five weeks beginning in J with Charles Munch and Serge Koussevitzky co ducting.

CARNEGIE HALL, NEW YORK

TOSCANINI BROADCASTS

Of national scope and importance was the 19 49 season of the N. B. C. Symphony orches (National Broadcasting Co.). The season inclu 23 concerts, 16 of which were conducted by Art Toscanini. His programs were given Oct through Dec. 11, 1948, and Feb. 12 through A 2, 1949. Two guest conductors directed the ot seven weeks. Ernest Ansermet conducted Dec. 25 and Jan. 8. Guido Cantelli conducted Jan 22, 29 and Feb. 5. Cantelli, aged 28, made American debut.

Highlights of Toscanini's concerts included six-week cycle of the music of Johannes Brah from Oct. 23 through Nov. 27. The opening c cert featured Vladimir Horowitz, pianist. Ot soloists in the series were Mischa Mischakoff, v linist; Frank Miller, cellist, and Joseph Kahn Arthur Balsam, pianists. The Robert Shaw Ch ale also participated. The other major event Toscanini's season was the presentation of complete opera, Aida, in two parts on March and April 2, 1949. This performance was televis Leading singers were Herva Nelli, Eva Gustavs Giuseppe Valdengo and Norman Scott.

FASHIONS, 1949

Women Prefer Pencil Silhouette to New Look; Rich Evening Fabrics

Source: Fairchild Publications, Inc.

e slim, comparatively short, pencil silhouette
ppriated the fashion picture, taking over
letely from the long and ample exaggera-
of the 1947-48 New Look. Tubular skirts for
me, with curve-of-the-calf lengths (12 to 14
:s from the floor, depending on individual
it) replaced billowing models which had
erly swung to the ankles. Padless shoulders,
necks and stand-up collars carried the
ght, slender line to a new complementary
ire of short, flat almost boyish curls. Hats
-rmed with close-fitting shapes and mini-
l trimmings, either draped sharply over one
le, worn cap-like or pulled snugly to one
In a generous version of the beret.

spite such basic simplicity, however, details
varied and permitted the utmost in feminin-
nd imagination. Close knife pleats, tiny hem-
slits, diversified pocket interest and scissor
s, relieved day-light frocks, while floor-
ing flanges, kite folds, full overskirts, peplums
flowing ends, and even long trains en-
d fitted skirts for late afternoon and eve-

the first time in many seasons, black ceased
top fashion, though it was still in the
ng. Navy blue took precedence to the extent
even furs were dyed in its various deep
s. For contrast, there were warm mink
s, bright reds, delicate mauves and lavend-
ream taupes, gold lamés, pale topaz, plaids
eable colors and the gamut of pastel shades.
ns against such backgrounds were dainty
than bold.

rics for summer were supple and sheer, with
voile and chiffon taking top place, soft
second and organdy rather a poor third.
s and woolens launched a new cycle of cas-
ualness for Fall and Winter sports clothes, while velours, camel hair and chinchilla cloth were used for heavy top coats, their luxury softness topped by lavish collars of fur.

Knitted fashions returned to the 1949 picture with more assurance than in any previous season because machine knits had finally achieved the perfection of those made by hand, with scarcely a difference to be noted. Sweaters for morning, afternoon and evening, as well as for the college campus (where the Sloppy Joe look had been replaced with neatness and a degree of chic), were provided with a whole new bag of tricks—tucks, contrasting skirts and, after sundown, elaborate embroidery.

Cocktail, dinner and evening fabrics were rich and romantic. Chinese brocades, stiff taffeta and faille, lustrous velvets, slipper and upholstery satins and damasks with Oriental, fruit and flower patterns, glorified simple lines and gave authority to the more complex.

In shoes, 1949 made a further bid for the closed toe with only half success. Platform shoes, despite a tendency to relinquish them entirely, also remained, though in moderation. High heels conceded in some measure to lower ones because of the shorter skirt, but the ballet slipper was definitely discarded. Whatever the last or style, however, materials ranged from the durable suede, calfskin and reptile to satin and velvet. To match the new "plush" look, colors were both bright and delicate, with, of course, the usual variation in blacks and browns.

One innovation from France came down to final defeat on the resort beaches of America, despite several years of widespread and persistent publicity. It was the Bikini bathing suit originally designed by a Paris house. Fashioned from no more than half a yard of material (two halves of a square handkerchief for the bottom with matching arrangement for the top) it was not only rejected but prohibited in many places. Hollywood after several attempts at re-design, eventually compromised on a brief but nonetheless comparatively modest affair, all in one piece.

Men's Fashions Emphasize Comfort and Light Weight Clothing

Source: Esquire; Finchley

culine fashions finally achieved a slogan of
own for 1949. It was the "bold look" and it
troduced in flamboyant neckwear (although
pensive hand-painted tie had been replaced
nt designs), shirts of solid pastel shades,
-colored, wide-ribbed socks, footwear with
crepe or red rubber soles, and massive jewel-
clip, key chain and cuff links.

of the major changes, however, was the
concession to comfort in the light weight
als used in everything from sports clothes
ning dress. Rayon and cotton blends, soft
s and tweeds, unfinished and clear-faced
ds had all been woven with an eye to the
who worked and relaxed indoors.

s in suits and topcoats continued with but
variations. The double-breasted suit with
ll lapels, buttons set low and worn without
won steady popularity over the single-
d model. Overcoats, some, in the luxury
of finest cashmere, either lacked shoulder
gs entirely or had greatly modified ones. A
our-pocket jacket met with cold response
e only preference for such an extra was
in the outside change pocket, with flap
el finish.

all the "gold look" in color at least had
way to the demands of good taste. Where
had been made in definite pastels, they
ow of the softest ivory tones in color, with
stitching on widespread collars. Ties were
ight, but the designs were conservative and
again conventional. Spring suitings of light tans, blues and greys had darkened to "charcoal" blues, browns and greys. Fine stripes and blends shared equal honors with single colors. Hats of the Homberg, snapped brim style had wider brims and came in soft green as well as brown and grey.

Nylon shirts—For the ordinary consumer, the price was still two high and he had to be content with cotton broadcloth; to the man who could afford it, the fact that it could be laundered without pressing meant much less than its collars "blistered" and its freshness lost quickly; to the fashion conscious, the nylon shirt could only be purchased in white. There were only two possible backers without reservation; the bachelor who did his own laundry, and the traveller whose time was limited and whose baggage had to be light. There was no doubt as to the failings of nylon for ties, and in underwear its worth was also questioned.

The drop in the pound sterling must have some definite effect on the men's fashion market. While the war years sent even top trade from Savile Row and Bond Street to Fifth Avenue, devaluation of the pound (Sept. 19) might move it right back again. Certainly it had an immediate effect on such articles of apparel as sweaters from England and Scotland, Argyle socks, linen handkerchiefs and imported necktie silks. It left the retailer with such stocks bought and paid for six months previously at the high rate of $4.03 to the pound now forced to sell to eager customers at reduced prices to meet the new low exchange of $2.80.

H. L. Mencken, author of The American Language, an encyclopedic study of the language spoken in the United States, announced in the New Yorker, Oct. 1, 1949, that research proves O. K. was invented in the presidential campaign of 1840 and signified Old Kinderhook, the place of Martin van Buren, the Democratic candidate. The first meeting of an O. K. Club was in New York Mar. 24, 1840. The slogan O. K. spread quickly over the country. Mr. Mencken says origin was traced by Allen Walker Read and displaces all earlier explanations that it stood for Correct", or started in the Civil War, or was Choctaw, as Woodrow Wilson believed.

Other schools in the as also receive funds. Other objectives of st are the maintenance of hospitals, and e of superannuated Methodist preachers phans. To the original endowment was 10,000,000 and two-thirds of the estate.

Elk National Foundation, Boston 8, Mass., ablished in 1928. Functions under consti- amendment adopted by the Grand Lodge B. P. Order of Elks. Its purpose is to uch charitable, educational and benevolent s of the Order as the Trustees may de- Capital assets as of April 30, 1949, were 09; expenditures, $362,050.

Faurice and Laura Falk Foundation, Pitts- 2, Pa., confines activity to the financing of e research studies of economic problems g development of American industry, trade ance as the basis for improvement of the welfare of the people of the United States. s not itself conduct research. It makes o outside research organizations for specific studies. Organizations receiving such grants are required to report their findings.

The Henry C. Frick Educational Commission, Pittsburgh, Pa., was set up in 1909 in Pittsburgh for the improvement of teaching in the city's public schools. The original fund was later increased to $2,500,000, by Mr. Frick.

The Lou Gehrig Memorial Fund, established in May, 1949, is an integral part of the National Multiple Sclerosis Society, 270 Park Ave., New York 17, N. Y. The Fund has been most successful in beginning to arouse the attention of the public towards the problem of multiple sclerosis, and, together with the National Multiple Sclerosis Society, aims to "stimulate, co-ordinate, and support research into, and to obtain and disseminate information respecting the causes, prevention, alleviation and cure of multiple sclerosis and other diseases of the nervous system; to aid individuals who are in any way disabled as a result of such diseases; and to make grants of money from the funds of the Corporation, to individuals and to lawfully established agencies for the purpose of carrying out the foregoing objectives, and for the prevention, diagnosis, treatment, alleviation or cure of multiple sclerosis or other nervous diseases.

The General Education Board, New York 20, N. Y., was endowed by John D. Rockefeller with the stated object of "promoting education within the United States of America, without distinction of race, sex or creed." The present program, concentrating on education in southern states, gives consideration primarily to quality of education, especially graduate work, and aid to a few strong educational centers. It emphasizes instruction in fields related to economic development of the South; aids research in social and natural sciences, humanities and agriculture; promotes training of personnel and improvement of library service. Through state governments and other agencies, it aids development of undergraduate schools and helps reinforce teaching and personnel in public schools.

The Georgia Warm Springs Foundation, New York 5, N. Y., was established in 1927, as a sanitarium and hospital at Warm Springs, Ga., to aid those suffering from the after-effects of infantile paralysis, and is a training center for professional workers in the field of treatment of poliomyelitis after-effects. Assets as of Sept. 30, 1948, were $2,142,840; expenditures, $1,042,658.

The Daniel and Florence Guggenheim Foundation, New York 5, N. Y., has for its objects "the promotion, through charitable and benevolent activities, the well-being of mankind throughout the world."

The Ford Foundation, Detroit 21, Mich., a nonprofit corporation, was organized under the laws of the State of Michigan (Jan. 13, 1936) for receiving and administering funds for scientific, educational and charitable purposes, all for the public welfare. It has been financed by contributions.

The John Simon Guggenheim Memorial Foundation, New York 17, N. Y., grants fellowships to citizens and permanent residents of the United States, to assist research in any field of knowledge and creative work in any of the fine arts. Fellowships are awarded to men and women who have demonstrated unusual capacity for productive scholarship or unusual creative ability in the fine arts. They are granted for varying periods, depending on the amount of time needed by the Fellows for the work they propose. The stipends granted Fellows are normally $3,000 a year. Fellows may go to any part of the world where their work can best be done. A limited number of Fellowships are also offered, for work in the United States, to Canadians and, on its Latin American Fellowship plan, to Puerto Ricans, and citizens of Argentina, Bolivia, Brazil, Chile, Colombia, Cuba, Ecuador, Mexico, Panama, Paraguay, Peru, Uruguay and Venezuela.

The Charles Hayden Foundation was founded in 1937. Administrative offices, 25 Broad St., New York 4, N. Y. Charles Hayden gave his residuary estate to establish this foundation to assist needy boys and young men, stating in his will that he was "firmly convinced that the future of this nation . . . depends in no small part upon the young men of the United States and that if they receive proper training in boyhood and youth . . . and are encouraged in the manner of right and proper living . . . we shall rear a nobler race of men who will make better and more enlightened citizens, to the ultimate benefit of mankind." The Founder was particularly interested in boys' clubs, boys' camps, and similar projects dealing with underprivileged boys, and for the time being most of the Foundation's activities are devoted to that type of aid. As the will suggests, preference is given to the metropolitan areas of Boston and New York.

The Heckscher Foundation for Children, New York 28, N. Y., was founded in 1921 by August Heckscher. The first 24 years of the Foundation's operations were carried on in its own building at 1 East 104th Street, for recreation and education for children in the neighborhood. Present activities include the distribution of new clothing and milk to needy families; donations to organizations, hospitals, nursery schools, school lunch rooms and recreational programs. Special gifts of equipment are also made. The Foundation's financial position is not made public.

Industrial Hygiene Foundation of America, 4400 Fifth Ave., Pittsburgh, Pa., is a national, non-profit research association for the advancement of health in industry. Studies are conducted by the Foundation's staff of physicians, chemists and engineers, for the prevention of industrial diseases among workmen and for the general improvement of working conditions. The Foundation serves as an informational exchange. Research grants are made to other institutions.

The James Foundation, incorporated in Missouri in April, 1941, in accordance with the wishes of the late Lucy Wortham James, is financed by The New York Community Trust. It serves as an administrative agency for a program of charitable projects, principally in Phelps and Crawford Counties, Mo. Its assets at December 31, 1948, were $99,959, and its expenditures $138,432.

Juilliard Musical Foundation, New York 5, N. Y., was set up by Augustus D. Juilliard to aid in completing the musical education of worthy students; also to provide musical entertainment for the general public.

The W. K. Kellogg Foundation, of Battle Creek, Mich., was founded in 1930. During its first 12 years the Foundation's operations were largely local or regional to promote the health, education and welfare of mankind, but principally of children and youth, directly or indirectly, without regard to sex, race, creed, or nationality. During World War II, the Foundation revised its program to direct as large a part of its resources as possible into activities contributing to the war effort. Since the end of hostilities, this expanded scope has been maintained. Present activities are in the fields of medicine, education, dentistry, nursing, public health and hospital administration.

The Sister Elizabeth Kenny Foundation, Minneapolis 2, Minn., was founded in 1943, to combat poliomyelitis through the application of the most effective diagnostic and treatment techniques, as developed by Sister Kenny, and to perform research into the nature of the disease and its prevention. A broad and comprehensive medical and public information program is maintained. Scholarships are provided for qualified registered nurses and physical therapists who receive Kenny technician training. Activities are financed entirely by public contributions. Assets in April, 1949, $1,148,386; expenditures, $4,813,017.

The general purposes of the **Kresge Foundation,** Detroit, Mich., as set forth in the declaration of trust by S. S. Kresge, are: "The purposes for which this Foundation is created are the promotion of eleemosynary, philanthropic and charitable means of any or all of the means of human progress, whether they be for the benefit of religious, charitable, benevolent or educational institutions or public benefactions of whatsoever name or nature."

The John and Mary R. Markle Foundation, New York City, limits its activities to grants to institutions in support of specific projects primarily in medicine in the area of the United States and Canada. Sums are being appropriated to "Scholars in Medical Science," as part of a program to keep young doctors on teaching and research staffs of medical schools.

The Mayo Association, Rochester, Minn., was founded in 1919 by Dr. W. J. Mayo and Dr. C. H. Mayo, for the advancement of medical education and research; to aid and advance the study and investigation of human ailments and injuries, and the causes, prevention, relief and cure thereof, the study and investigation of problems of hygiene, health and public welfare, and the promotion of medical, surgical and scientific learning, skill, education and investigation; to engage in and conduct and to aid and assist in medical, surgical and scientific research in the broadest sense.

The A. W. Mellon Educational and Charitable Trust of Pittsburgh, Pa., Washington 6, D. C., is located in Pittsburgh, Pa., and was founded by Andrew W. Mellon by deed of trust dated Dec. 30, 1930, which provides that the Trust is to be administered and operated exclusively for the benefit of such religious, charitable, scientific, literary, and educational purposes as shall be in furtherance of the public welfare and tend to promote th doing and well-being of mankind, or for t of the United States, any state, territory, political subdivision thereof, or the Dist Columbia, for such exclusively public purp the Trustees shall determine. The Trustee adopted a general policy to devote the rem funds of the Trust to educational and cha projects, institutions, and purposes in and Pittsburgh, Pa.

The Milbank Memorial Fund, New York, was established and endowed by Mrs. Eli Milbank Anderson in 1905 as a memorial father and mother, Jeremiah and Elizabet Milbank. The general purpose of the Fund improve the physical, mental and moral co of humanity and generally to advance cha and benevolent objects." Mrs. Anderson in her gifts from year to year until they amou $9,315,175 at the time of her death in 192 Fund assists official and private agencies and tutions in the field of public health and me education, social welfare and research. En is given to activities which are preventive than palliative.

The National Foundation for Infantile Pa New York 5, N. Y., was founded in 1938 by lin D. Roosevelt to lead the fight against in paralysis. Funds are derived from voluntar tributions during the annual March of Dim the last two weeks of January. Half of the raised goes to the National Foundation for its national program of scientific research, tion and emergency aid in epidemics. The I is retained by chapters for care and treatm polio patients and for epidemic aid. The through recognized health and welfare age

The National Foundation does not maint own research laboratory, but makes of money to institutions throughout the c for investigations on the cause, preventio cure of polio. Since its establishment the N Foundation had authorized, as of De 1948, $41,781,531. As of that date assets we 943,688, of which $6,193,305 was authoriz specific projects; expenditures totaled $43,8

The New York Community Trust, New City, a composite charitable foundatio cludes 100 philanthropic funds ranging less than $1,000 to more than $1,000,000. lished in 1924 its resources at the close were $18,201,629. Two of the oldest popular cures for snoring, according to Dr. James F. Bender, director of the National Institute for Human Relations and author of How to Sleep, are still in wide use. men stop snoring, at least for a time," he declares, "if you whistle softly to them while they Those who snore with mouth wide open stop it when you drop a piece of soap into the mouth culprit." Dr. Bender also advises wives not to be hasty in their judgments if the husband cries ary!" or some other woman's name in his sleep. He may be dreaming about a companion of arten days, suddenly recalled to his subconscious memory.

POSTAL INFORMATION

Mail and Money Order Rates

As of July 1, 1949, there was a total of 41,607 post offices throughout the United States and Possessions. Of this number, 2,521 were First Class, 5,797 Second Class, 12,790 Third Class, and 20,499 Fourth Class. There were 32,412 rural routes covering 1,465,198 miles in the 48 States and District of Columbia.

I—U. S. DOMESTIC MAILS

First-Class (limit 70 pounds), 3¢, including that for local delivery, except "drop letters" and other first-class matter, when mailed at offices where letter-carrier service is not established, provided there is no service by rural or star route carriers—1¢ for each ounce or fraction.

Postal Cards: Single cards, 1¢; reply (double) cards, 2¢.

Special Delivery—On first-class matter (in addition to regular postage), 15 cents to 2 lbs.; 25 cents, from 2 lbs. to 10 lbs.; 35 cents when more than 10 lbs. On matter other than first-class, up to 2 lbs., 25 cents; from 2 lbs. to 10 lbs., 35 cents; over 10 lbs., 45 cents. For special handling (4th class matter only) 15 cents to 2 lbs.; 20 cents from 2 lbs. to 10 lbs.; 25 cents over 10 lbs.

Air Mail—Six cents an ounce or fraction thereof, up to and including 8 ounces:

1. Within the Continental United States, including all Dependencies and places where the United States mail service is operated.

2. Within or between any of the Territories or Dependencies of the United States.

3. To or from members of the armed forces of the United States stationed outside the continental United States whose address includes an Army post office number or a fleet post office designation; also to or from civilian personnel authorized to receive mail through such Army or Navy post offices. (**Note**—Only letters in their usual and ordinary form not weighing in excess of 8 ounces (except official mail) may, at the present time, be accepted for transmission by air mail to overseas APOs and Navy post offices except an APO in care of Postmaster, New Orleans, La., or Seattle, Wash.)

Over 8 ounces, consult Air Parcel Post Service table. The use of air-mail stamps on other than air mail is not permissible. Air mail should be conspicuously endorsed immediately below the stamps, above the address "Via Air Mail."

Postal Cards—Air mail, 4 cents, for domestic use only.

Air Parcel Post Service:

The following zone rates apply to domestic mail weighing over 8 ounces, fractions of a pound being charged as a full pound. Rates, based on the 8 postal zones applicable to 4th-class (parcel post) mail are:

Printed matter for the blind—For all destinations, 1 cent each 2 pounds 3 ounces tion. Limit of weight—15 pounds, 6 ounce mensions—same as for letters.

United States Postage Stamps

Prior to the issuance of the first stamps, letters accepted by postmasters for dispatch were marked "Paid" by means of pen and ink or hand stamps of various designs. Such letters usually contained the town post mark and date of mailing.

United States adhesive postage stamps were first issued under act of March 3, 1847, and placed on sale at New York, N. Y., July 1, 1847. The series consisted of two stamps, one for 5 cents with a portrait of Benjamin Franklin, and one for 10 cents with a portrait of George Washington. Colors, light brown and black respectively.

Books of stamps were first issued April 16, 1900.

Coils of stamps were first issued February 18, 1908.

Postal cards were first issued May 1, 1873, under act of June 8, 1872.

Stamped envelopes were first issued in June 1853 under act of August 31, 1852.

Printed stamped envelopes were first issued in the Spring of 1865.

Newspaper wrappers were first issued in October 1861 under act of February 27, 1861.

Air-mail service was established May 15, 1918, between Washington, Philadelphia, and New York. The rate was fixed at 24 cents per ounce or fraction thereof, which included special-delivery service.

Postage stamps have been issued to honor all deceased Presidents of the United States from Washington to Franklin D. Roosevelt

Commemoratives Issued During 1949

Date	Stamp	Value	Fr
Mar. 3	Minnesota Territory Centennial	3c	St. Pau Min
Apr 12	Washington & Lee University	3c	Lexing Va.

(*) Air mail stamp.

During 1948 twenty-nine commemorative were issued, including the New York Golden versary 5c air mail on July 31.

amples of merchandise—For all foreign destinations 1½ cents each 2 ounces or fraction, with minimum charge of 3 cents. Limit of weight—unces. Dimensions—same as for letters.

ommercial papers—To all foreign destinations, cents for each 2 ounces or fraction, with a imum charge of 5 cents. Limit of weight—unds, 6 ounces. Dimensions—same as for let-

nall packets—Three cents for each 2 ounces, a minimum charge of 15 cents per packet. t of weight—2 pounds 3 ounces. Dimensions me as for letters. (See Part II of the Official al Guide, for list of countries which accept l packets.) Small packets must bear the green l (Form C1), Form 2976. They must also be mpanied by the paper form of customs declara- (Form 2976-A), properly completed by the er and enclosed in the small packet. It is likewise permissible to enclose in small packet an open invoice reduced to its essential terms. Every small packet must be clearly marked on the wrapper by the sender with the words "small packet."

8-ounce merchandise packages—Packages of merchandise weighing 8 ounces or less for the countries mentioned under "Letters", 2 cents for each 2 ounces or fraction thereof, except that when the contents consist of seeds, scions, plants, cuttings, bulbs, or roots, the rate is 1½ cents for each 2 ounces or fraction. (This is not parcel post, must not have customs declarations attached and must not be sealed except when addressed for delivery in Canada, in which case such package should be marked "This may be opened for postal inspection if necessary." There is also an exception with respect to sealing in the case of C. O. D. 8-ounce merchandise packages for Mexico, which may be sealed.)

Proposed Federal and Private Health Insurance Projects

ays to safeguard the health of the American
le and extend present facilities for medical
became the subject of national debate in
On Jan. 4 President Truman appealed to
ress for the third time for the enactment of
ompulsory government health program. On
5 Senator James E. Murray introduced Senate
No. 5, the National Insurance and Public
th Act. Opposition was voiced by the Amer-
Medical Association and by the Bureau of
th and Hospitals of the National Catholic
are Conference, the National Conference of
olic Charities and the Catholic Hospital Ass'n.
submitted plans for voluntary health in-
nce and education. On April 22 President
man, in a special message to Congress, urged
enactment of "a nation-wide system of health
rance" with appropriations "on the pattern of
existing social insurance plans."

**revised National Health Insurance and Public
th Act** was introduced in the two chambers of
ress April 25, 1949 (Senate bill 1,679; House
epresentatives bill 4,312). Principal provisions:

yments for Training Personnel in medicine,
ng, dentistry, sanitary engineering, dental
ne, hospital administration, public health:
to $350 per student "up to average past en-
ent"; $800 to $2,400 per student "in excess
verage past enrollment" in professional and
eering schools, for 1950, 1951, 1952. Payments
o exceed 50% of costs of instruction. Author-
such sums as necessary to the states on the
of population and need for at least two
arships and maintenance, each recipient to
the state or the U. S. for one year for every
cademic years. Authorizes $15,000,000 yearly
administration expenses to support approved
plans for practical nurse training, under
Commissioner of Education.

nts for Research—U. S. Surgeon General to
lish national research institutes for diseases,
ling poliomyelitis, diabetes, rheumatism, ar-
s, multiple sclerosis, cerebral palsy, epilepsy;
a national advisory council for each institute,
s-in-aid and 30 professional administrators.

pital Construction—Extends Public Health
e Act until June 30, 1957 (now 1941). Au-
es $150,000,000 yearly (now $75,000,000) for
als, including facilities for group practice,
d among states. Federal aid to be one-third
o-thirds of cost (now one-third). Authorizes
,000 for Surgeon General to assist states in
g up plans. Demands 20-year hospital use
buildings.

cial Appropriations—$35,000,000 a year for
years for income, operating expenses, etc.,
courage personnel to "settle in disppropor-
ely shorthanded areas." Provides $10,000,000
ar ending June 30, 1950 and $15,000,000 for
ing four years for 50 farmers' medical co-
tives, each to serve 5,000 persons or more,
al aid to be 50% of total first two years,
one-third. Also $10,000,000 for the year
g June 30, 1950, "and afterwards such sums
cessary" for National Advisory Council on
rch in Child Life, under Federal Security
inistrator. Also $25,000,000 for maternal and
health services and $25,000,000 for crippled children's services for the year ending June 30, 1950, "and afterwards such sums as necessary" for distribution by Federal Security Administrator to states. One provision authorizes "such sums as necessary" for distribution by Surgeon General to states for improvement of local and state public health services, covering prevention, treatment and control of all disease and publication.

What the Citizen Would Get—Prepaid personal health service including medical, dental, home nursing, hospital; laboratory services, including X-ray, radium, physiotherapy, optometry, chiropody, expensive drugs, eye-glasses. A patient may select his doctor, if hospital consents. "Any person who (1) has received at least $150 during the first four of the last six calendar quarters preceding the benefit year (exclusive of a total disability of 6 months); (2) who is entitled to an old age and survivors' insurance benefit or to a civil service retirement annuity; (3) is a dependent of a person eligible under (1) or (2), is eligible for benefits." Individuals not automatically insured, including those eligible for relief, may be covered through premiums paid by public agencies. Federal Social Security grants available.

National Health Insurance Board—Five members, including three appointed by President with concurrence of Senate at $12,000 for six years; Surgeon General and Commissioner for Social Security. Also national advisory Medical Policy council, 17 members. Authorizes $10,000,000 in 1952 and a maximum of $15,000,000 per year thereafter for board "to promote education in the provision or administration of personal health services."

Financing—Creates Personal Health Services account in Treasury; appropriates for 1952 and each year following: (1) 3% on earnings up to $4,800 a year; (2) sums equal to the estimated cost of furnishing dental and home nursing services; (3) any further sums required. In 1951, 1% of all wages for an initial reserve. Aggregate appropriations to the account pursuant to (1) and (2) in 1952-54 shall not exceed ½% and in 1955-57 1%, of the annual average of wages received. States to get 90% during 1952-54; 95% thereafter.

Also submitted to the Senate: the **Voluntary Health Insurance Act** (Senate bill 1,456, Sen. Hill) providing for appropriations to the states to encourage voluntary enrollment in prepayment plans, with employer participation and protection to persons unable to pay charges. Also the **National Health Act** (Senate bill 1,581; Sens. Taft, Smith, O'Donnell). Creates a National Health Agency; authorizes $50,000,000 to states for survey of needs on a 50% cost basis; appropriates $150,000,000 for first year, $200,000,000 for second, $300,000,000 for third to states with approved plans. Provides for state controlled non-profit voluntary insurance plans, with part payment by state. Appropriates $35,000,000 a year for state health services and prevention in schools; amends Public Health Service Act, increasing to $150,000,000 amount for construction of hospitals for each year through 1955. Provides help for medical training schools, with "no unreasonable restrictions against out-of-state students and no distinction on account of race or color, except where equivalent facilities are provided."

American Medical Association Proposals

program of the American Medical Associa-
for the advancement of medicine and public
" stipulated:

ral Department of Health—Would have as
ary a doctor of medicine, with cabinet status,
ombine all Federal health activities except
nilitary activities of the medical services of
rmed forces."

ical Research—A National Science Founda-
ould give grants for research to qualified
institutions.

ntary Insurance—Wider coverage and ex-
into rural areas. Aid through the states to
medically indigent" by the utilization of
ary hospital and medical care plans with
'administration" and supervision.

Medical Authority—A medical care au-
in each state, administering funds "with
representation of medical and consumer
t."

nsion of Facilities—New health centers and
l services, local in origin and control,
he National Hospital Survey and Construction Act; public or private administration.

Public Health—"Establishment of local public health units and services and incorporation in health centers and local public health units of such services as communicable disease control, vital statistics, environment sanitation, control of venereal diseases, maternal and child hygiene and public health laboratory services. Remuneration of health officials commensurate with their responsibility."

Mental Hygiene and Education, with aid to clinics. Health education programs, by state and local agencies, to publicize facilities.

Aged and Veterans—Rehabilitation of the aged and chronically diseased, increased medical care of the veteran in his own community by physician of his choice.

Industrial Medicine—Extension of safeguards in industries and prevention of accidents on the highway, at home and on the farm.

Medical Education—Support of medical, dental, nursing and other schools with funds free from political control.

Catholic National Health Program

The Bureau of Health and Hospitals of the Social Action Dept. of the National Catholic Welfare Conference, together with the National Conference of Catholic Charities and the Catholic Hospital Assn., published, March 25, proposals in opposition to the Government's compulsory health program. It declared the Government's plan might become an exclusive state system with a compulsory tax that would ruin private health agencies, including the Blue Cross, Blue Shield and all fraternals.

Federal Health Council under the Federal Security Administration, with similar councils at state and local levels.

Hospital Construction by Federal Grants, to be increased from present $75,000,000 a year to $200,000,000, matched by beneficiaries on a sliding scale, making possible 40,000 to 50,000 new beds. Subsidy not exceeding $25,000,000 to help defray expenses in scattered and rural areas.

Training Physicians, Dentists, Nurses—Aid to medical colleges up to 50% of salaries of teaching staff, about $10,000,000; grants for equipment, $50,000,000; fund for loan scholarships at $1,000 a year—$10,000,000 repayable after graduation in ten years' time and five years' federal service; Federal commissions of $2,500 to doctors in difficult areas, fund $5,000,000. Medical research fund, $25,000,000. Dentists likewise, fund $15,000,000. Nurses, $250 a year for tuition and $250 for living costs, with a pledge of three-year service; fund, $25,000,000 a year. Commissions to nurses in r areas, fund $10,000,000. Professional person fund $12,500,000. Practical nurses' training, $12,500,000.

Community Health Centers, under local di tion, where needed; fund, $25,000,000 a year.

Financing—Out of general funds, not ta

Prepayment Insurance—To stimulate enrollm in voluntary insurance systems, amendment income tax law permitting deduction of premi up to $75 for all with income of $5,000 or un Estimated loss to the Government will be $1,5 000,000, which, with suggested appropriati would cost a little over $2,000,000,000 a year against a tax of $6,000,000,000 on wage ear under Government's compulsory program. Sc Security to include payment for disability du sickness, in same category as unemployment. appropriation of $200,000,000 to be allocated the states to assist those in lowest income brac to buy voluntary health insurance, if certifie charitable agencies as "medically indigent." $10,000,000 to assist states to provide prepayn of hospital and medical care.

Prepayment medical service plans are in op tion throughout the United States, operatin private organizations and under state and mu ipal control, with varying fees and degree coverage. The California Physicians Service covers 800,000 persons, including nearly 100 on farms arrangement with the State Gra

Blue Cross Plans are local non-profit organizations that provide hospital service to members. Enrollment Dec. 31, 1948 constituted 20.69% of the population of the United States and 19.99% of that of Canada. During 1948, Blue Cross Plans paid $270,928,123 to hospitals for care of 3,501,356 members for 26,780,487 days of bed care. This amount represented 85.34% of total income, the remainder being devoted to total operating expense, 9.72% of income, and reserves, 4.94%.

Blue Cross Plans provide service in semi-private accommodations in 4,000 hospitals, for an average base period of 30 or more days plus from 60 to 180 days at half benefits. All plans provide board and room, general nursing care, use of operating and delivery rooms, routine laboratory service, routine drugs and medications, routine dressings and casts. Most of the pans cover the followig services in varying degrees: special diets, emergency room care, anesthesia, X-ray, electrocardiograms, basal metabolism tests, physical therapy, oxygen therapy and pathology.

Average monthly subscription rates are for an individual and $2.75 for a family inclu husband, wife and unmarried children under Members of one plan moving into the area another plan usually may transfer their mem ships. A reciprocal program, the Inter-Service Benefit Bank, supplemented by schem of benefits in non-member hospitals, assures ceipt of care in any recognized general hospit the world.

Medical and surgical care are available thr 55 prepayment plans affiliated with 65 Blue C Plans. Forty-six of the plans are known as Shield Plans. Enrollment in these medical totaled 9,537,819 on December 31, 1948. The la medical plans, as of March 31, 1949, were covering Michigan (1,329,044 members), m politan New York City (1,294,650 members) Massachusetts (765,538 members). Average scription rates approximate those of Blue Cro

Population estimates used to obtain per capita consumption figures are official Census estimates of total population adjusted for underenumeration of children under 5 and for military personnel not eating out of civilian supplies.
[1]Data on calendar year basis except for dried fruits which are on a pack year basis; fresh citrus fruits and peanuts on a crop year basis, rice on August 1 year. All years begin in year indicated except for fresh citrus, which begins in October of the previous year and rice which begins in August of previous year. [2]Preliminary. [3]Excludes canned food products containing small quantities of fish such as clam chowder, etc. [4]In terms of number of eggs, the apparent per capita consumption was 298 in 1935-39, 397 in 1945, 374 in 1946, 380 in 1947, 388 in 1948 and 380 forecast for 1949. [5]Computed from unrounded data. [6]Average 1937-39. Data prior to 1937 are not available. [7]All barley food products in terms of malt equivalent. [8]Includes white, whole wheat, and Semolina flour. [9]Green bean basis.

Forest Fires Devastate Millions of Acres, 1948-49

Source: Forest Service, U. S. Department of Agriculture

Forest fires in national forests only, excluding state and private lands, for the first six months of 1948 and 1949:

	6 mos., 1949	6 mos., 1948	Average 1944-48
Total No. of fires	3,740	3,391	3,849
Fires caused by man	2,509	2,626	3,206
Area burned, in acres	41,791	56,704	97,487

Forest fire reports for 1948 were published July, 1949, by the Forest Service, based on returns from its field services, cooperating states and the Department of the Interior, Soil Conservation Service and Tennessee Valley Authority. Unprotected areas, which have no fire wardens, cannot be fully reported and their figures are only approximate.

Forest fires in national and state forests by divisions of the country, 1948:

	Fires	Acres Burned	Est. Loss
Pacific Coast	4,377	222,326	$ 2,212,486
Rocky Mt. States	4,139	233,422	1,932,494
Eastern States	13,445	377,297	1,066,882
Southern States	137,848	14,477,460	24,083,243
N. Central States	14,380	1,246,275	3,166,699
Totals, 1948	174,189	16,556,780	$32,461,804

The Pacific Coast figures include Hawaii. A major fire burning 45,000 acres occurred in California in Sept., 1948. Colorado and Wyoming experienced the driest summer and fall in 10 years. Fire Arizona and New Mexico lasted until Dec. 1 the Forest Service reports "there were more h ers' fires than usual." An extremely dry sum in the Rocky Mountain states caused the bu area of Utah to be doubled over 1947. Floods rain held down fires in Oregon and Washingto the lowest number in many years. Louisiana Texas had losses above their averages. Exce rainfall in Alabama, Georgia and Florida gated damage. Losses in Minnesota and Wisc exceeded their five-year averages. Michigan fo were closed Sept. 30 to Oct. 11; Minnesota, Oc to Nov. 4; Wisconsin, June 17 to June 28 and 27 to Nov. 12.

High Rate of Incendiarism

Causes of fires disclosed the irresponsible fir as the greatest menace to American forests. of 67,776 causes reported to the Forest Service, 047 are ascribed to incendiarism. This was w in the following states: Alabama, 2,070 f Florida, 2,519; Louisiana, 3,250; Mississippi, 3 South Carolina, 1,003; Texas, 1,308 and Miss 1,419.

Other causes of fires were: lightning, 4,392; roads, 4,525; campers, 3,064; smokers (inclu that burning cigarette stub, tossed out of a m car), 14,988; debris, 11,101; lumber, 1,840; cellaneous, 7,819.

American Purebred Livestock Organizations

Source: Breeder's Gazette

A survey of the 1948 work of 84 purebred livestock record associations showed a registration of 397,000 animals, an increase of 62,000 over 1947. Although the increased interest in pedigreed vestock has been substantial, only 2% of farm animals are purebred. Interest of cattlemen in nproving the breeds is shown by the high registration by one organization alone—the American ereford Assn., which recorded 352,888 pedigrees, one-fourth of all those registered.

BEEF CATTLE

American Aberdeen-Angus Breeders' Ass'n, nion Stock Yards, Chicago 9, Ill. Frank Richds, Sec'y. (84,548 registered.)

American Brahman Breeders Ass'n, 2711 S. ain St., Houston 2, Texas. Harry P. Gayden, c'y. (15,145)

[1]Or its equivalent in cheese, evaporated milk, or dry milk.

[2]Count 1½ pounds of bread as 1 pound of flour. Use as much as possible in the form of whole-gra enriched, or restored products.

[3]For small children and pregnant and nursing women, cod-liver oil or some other source of vitamin is also needed. For elderly persons and for persons who have no opportunity for exposure to clear su shine, a small amount of vitamin D is also desirable.

[4]To meet iron allowance, 1 large or 2 small servings of liver or other organ meats should b served each week.

[5]The nutritive content of the weekly food quantities for a man and a woman 60 years or over wi based on the National Research Council's recommended daily allowances for the sedentary man a woman.

Nutritive Value of 1 Pound of Selected Foods, as Purchased

urce: Bureau of Human Nutrition and Home Economics, Department of Agriculture, in cooperation with the National Research Council

Note: Parentheses, imputed value; trace, small amounts.

*Data subject to further revision.

[1]In addition to regular commercial exports the data for war and postwar years include aid and re- shipments as shown in the table on page 639. Goods supplied to occupied areas through United Sta armed forces are included beginning 1947. Supplies shipped to United States armed forces abroad their own use are excluded.

[2]"General imports" include merchandise entered immediately upon arrival into merchandising consumption channels, plus commodities entered into bonded customs warehouse for storage.

[3]"Imports for consumption" include merchandise entered immediately upon arrival into merchandis or consumption channels, plus withdrawals from bonded customs warehouse for consumption.

[4]The data on general imports and duty-free imports for consumption do not include upw adjustments made in the value of tin ore imports as follows: 1942, $11,032,000; 1943, $149,000; 19 $9,596,000; 1945, $12,084,000; 1946, $23,670,027; 1947, $22,332,000; and 1948, $39,771,000.

U. S. Merchandise Imports[1] and Exports,[2] By Continent

Food Stores Sell 30 Percent of all Candy in U. S.

A report on food stores as distributors of candy was presented to the convention of the National Confectioners Ass'n in Chicago in June, 1949, by Robert W. Mueller, managing editor, The Progressive Grocer. He reported that 99% of all food stores stock candy, selling 30% of all ca sales made in the U. S., at a gross of $500,000,0 Of the candy dollar, 48.9 cents went for ca bars and gum; 36.32 cents for cello-bar car 4.3 cents for box candy; 8.8 cents for bulk car and 1.7 cents for candy in jars. (A. P. repo

1948	13,373,321	7,378,010	23,559,313	55,080,866	23,502,911	8,248,11

The cargo traffic on the Panama Canal (1948) from the Atlantic to the Pacific totaled 8,486,670 tons; Pacific to the Atlantic 15,016,241 tons.

Panama Canal cargo traffic figures given above are for ocean-going tolls paying traffic only. During the war years 1942 through 1945 a great number of vessels transited the Canal free of tolls carrying supplies for the Army and Navy as a direct part of the war effort. The total cargo carried by vessels exempt from the payment of tolls, which is in addition to that listed in the table above, is as follows: 1942, 654,432 tons; 1943, 1,299,222 tons; 1944, 9,334,430 tons; and 1945, 11,291,515 tons.

Canadian totals include duplications: thus 23,559,313, stripped of duplications, becomes 19,607,857.

The Suez Canal, 104.50 miles long, connects the Mediterranean with the Red Sea. It was begun (April, 1859) and opened (Nov. 17, 1869) to traffic. The minimum width of the canal is 196 feet 10 inches, the maximum draught of water allowed for vessels passing through 34 feet.

The canal is operated by the Compagnie Universelle du Canal Maritime de Suez with its administrative seat in Paris. Benjamin Disraeli, t British Premier, bought (Nov. 24, 1875) 176,60 its shares for £3,976,582 from the Khedive Ismai Egypt. Shares were numerically doubled in and H. M. Government now holds 225,940 Ca Shares and 127,564 "Jouissance" Shares out c total of 502,500 and 297,500 respectively. The g erning board is composed of 19 French, ten Brit two Egyptian and one Netherlands directors.

The Corps of Engineers of the Departmen the Army states that Lake Commerce pas through the American and Canadian Canals Sault Ste. Marie, Michigan and Ontario for seascn was; total freight traffic in short t (1947) 83,267,105; (1948) 86,855,190.

The tonnage for each decade since the canal been in commission follows: (1855-64) 1,203, (1865-74) 4,829,247; (1875-84) 14,868,639; (1885 80,343,218; (1895-1904) 253,002,697; (1905-14) 5 926,068; (1915-24) 763,934,346; (1925-34) 651,0 593; (1935-44) 869,618,024; (1945) 112,982, (1946) 91,586,895; (1947) 110,731,572; (1948) 1 893,446.

Information on World Railways

Source: The Railway Gazette, London, England

gest tunnel: Simplon No. II, length 12 miles ards, Swiss Federal and Italian State Ry., rland and Italy. **Longest station platform:** ur, B. & N. W. R., India, 2,415 feet. **Highest** ile on world's railways: Height above datum, feet, location of summit, Montt, Antofagasta) & Bolivia Ry. **The longest stretch of** t railway belongs to the Transcontinental Railway, Australia, which is dead straight for 328 miles across the Nullarbor Plain, but not dead-level. Next, probably, comes the Junin and Machenna stretch of the Buenos Aires & Pacific Ry. of Argentina, which is dead straight for 205 miles and level also. The longest stretch of line without a curve in the U. S. is the 79 miles on the Seaboard Airline Railway between Wilmington and Hamlet, N. C.

Development of World's Railway Mileage to 1949

Source: The Railway Gazette, London, England.

While the following mileage totals show approximately the development of public railways in the leading countries, the figures are not strictly comparable by reason of: (a) changes in political boundaries (although progressive figures within the present boundaries are given where possible); (b) divergence in practice as to inclusion of light railways, secondary lines, steam tramways, and interurban electric lines.

* The figures include the whole of the U.S.S.R. in both Europe and Asia, including Siberia and Russian Turkestan.

** Taken over by the Canadian National Railways on March 31, 1949.

† Includes Alaska.

‡ Includes Korea and Karafuto.

§ In view of political and territorial changes, and wartime destruction, it is not possible to include complete comparative figures more up to date than for 1937 in respect of the countries indicated.

Express Service by Rail and Plane

Source: Railway Express Agency

Express service in the United States began operating on March 4, 1839, and is a recognized medium of expedited shipping on the passenger trains and planes coordinated through the Railway Express Agency into a nationwide system, with 23,000 offices and 60,376 men and women employed. Service is from point to point, in most cases providing pick-up at point of origin and delivery at destination. Traffic carried is shown in the following table:

Year	No. of Shipments Handled
1940	160,777,326
1941	172,615,839
1942	165,024,682
1943	179,208,360
1944	200,289,443
1945	209,181,380
1946	234,661,737
1947	189,271,314
1948	141,696,370

On July 1, 1949, 16,846 motor vehicles, one of the largest fleets under commercial management, used in maintaining collection and delivery of express shipments. The Express Agency operates on a total mileage of 312,000, which includes 195,985 on railroad lines.

Air Express service was started on a commercial basis (Sept. 1, 1927) when the express company contracted with the existing airlines to carry express on regularly scheduled flights.

More than 4,000 shipments were handled during the first four months while in the first full year of operation, 17,000 shipments were flown.

Year	Number of Shipments	Gross Weight	Aver. Wt. Per Shipment
1940	1,078,189	7,699,772	7.1
1941	1,306,629	11,240,204	8.60
1942	1,405,320	21,704,323	15.4
1943	1,543,729	30,713,062	19.9
1944	1,773,823	34,276,834	19.3
1945	2,146,650	40,126,755	18.7
1946	3,245,524	55,339,958	16.7
1947	3,825,157	68,707,545	17.8
1948	4,111,435	75,723,209	18.3

Air Express is flown in all certificated passenger and all-cargo flights of domestic airlines of the United States and through connections with International Airline Routes to Canada, Mexico, Central and South America, the West Indies, Alaska, Europe, Africa, the Pacific and the Far East. Domestic planes fly over 90,000 miles of air route.

Hosiery Manufacture—Nylons

Report of National Ass'n. of Hosiery Manufacturers for 1948, issued April, 1949. Figures quoted are for dozens of pairs.

A marked rise in the production of nylon hosiery and consequent decrease in silk and rayon hosiery for women and in misses and women's anklets took place in 1948.

The total production of women's full-length hosiery in 1948 was 53,222,936 dozen pairs, of which 44,705,957 were full-fashioned and 8,516,979 were seamless. The total production of misses' and women's anklets was 13,448,712.

The production of nylon hosiery, full-fashioned and seamless, all-nylon and part-nylon, aggregated 46,662,837 dozen pairs in 1948. This compares with a similar total of 37,337,387 in 1947. The nylon production represented 87.6 per cent of the total production of women's hosiery other than anklets. Misses' and women's anklets in 1948 numbered 3,231,750 fewer than in 1947.

The total production of silk hosiery for women in 1948 was 445,652, of which 403,373 were full-fashioned and the balance seamless. This compares with a total of 1,100,683 in 1947. The ratio of silk hosiery to the total production was only 0.9 per cent in 1948, whereas in 1940 silk represented 75.6 per cent. The industry produced in 1948 a total of 2,876,724 of rayon stockings for women, compared to 7,003,255 in 1947, and 33,254,212 in 1942.

GAIN IN SLACK SOCKS

Men's Hosiery—Production of men's seamless half-hose totalled 16,131,435 dozen pairs in 19 as against 24,661,638, in 1947. Men's slack soc totalled 25,938,791, as against 21,911,372 in 19 Heaviest losses in the seamless half-hose catego were in rayon, 6,140,130 in 1948 as against 8,634,2 in 1947, and in cotton, 7,953,436 in 1948 as again 12,156,164 in 1947. The increase occurred in me slack socks, rayon reaching 9,444,260 in 1948 against 8,142,624 in 1947, and cotton 14,608,917 1948 as against 11,656,696 in 1947.

Imports—Of 366,838 dozen pairs of wool hosie imported, 319,546 came from the United Kingdo 35,222 from Canada and 8,844 from Austria. Cott hosiery imports in 1948 totaled 21,317 dozen pai an increase of 8,056 over 1947. These came pri cipally from France (12,764 dozen pairs) and t United Kingdom (8,172 dozen pairs).

Silk hosiery imports in 1948 totaled 3,962 doz pairs, of which the United Kingdom shipped 3,81

Exports—Exports of women's nylon hosiery 1948 were 2,565,477 dozen pairs, compared w 2,840,599 in 1947, a decline of 9.7 per cent.

Exports of all types to Europe were 1,122,4 dozen pairs, a decline of 1,051,369 or 48.4 per ce In large part this reflected the scarcity of Americ dollars and foreign governmental restrictions.

Employment—The peak of employment, in 19 had 157,000 workers; the low point, in 1945, 104,0 In 1948 128,060, were employed.

Cotton, Wool, Rayon Textile Manufacturing Industry

SIZE OF INDUSTRY

e cotton textile manufacturing industry ranks t in employment in the United States. The ber of its employees, men and women, is be- n 450,000 and 500,000 in the 1200 textile mills finishing plants in operation. Approximately of the industry is located in the cotton grow- States of the South, with North Carolina ing first. About 20% of the industry is lo- d in the New England States, with Massa- etts ranking first.

Retail Sales in 1948

Source: Department of Commerce, Office of Business Economics.

Sales at all retail stores in 1948 amounted to 130 billion dollars—10 percent higher than in 1947. While the increase was substantial, the rate of gain was well below the 17 percent advance in 1947 and 32 percent in 1946.

The slackening in upward movement appeared in both durable- and nondurable-goods stores. Durable-goods store sales were up 19 percent and nondurables up 6 percent in 1948, compared to 40 and 11 percent, respectively, in 1947. The rate of gain in each of these groups was approximately halved from 1946 to 1947 also.

Much of the increase in dollar sales in 1948 represented higher prices. The average price of goods sold in retail stores was up about 7 percent for the year, the advances for durable and nondurable goods being roughly the same. Consequently there appeared to be little change from 1947 in the physical quantity of goods sold in non-durable-goods stores, but there was an appreciable gain in volume for the durable-goods stores.

The rise in trade activity in 1948 was not uniform throughout the year. The upward trend evident in the previous years continued through the first half, although at a somewhat slower rate. In the second half, however, gains were small, and sales fluctuated within a narrow range about the June figure.

Sales at Peak in December

There were some indications of hesitancy in retail buying during the fall. In several important categories sales fell below the dollar totals of the previous year. However, sales recovered in December, and on a seasonally adjusted basis exceeded slightly the previous high point reached in September.

Although dollar sales ended the year at a new high, most of the forward impetus characterizing the postwar sellers' market had disappeared.

Many Nondurables Off From Peaks

Until 1948, practically every kind of nondurable-goods business showed a steady advance in sales following the end of the war. However, during this past year a number of trades reported declines. In some lines, a downward movement in prices accompanied the slowing in demand.

Sales tended downward in apparel stores, except for women's wear. For men's clothing and for shoe stores, the latter half of 1947 was the peak 6-month period, and business declined throughout most of 1948. Women's apparel, in contrast, was the strongest of the nondurable-goods lines, and sales continued to rise without any important interruption.

The value of food-store sales pushed upward more slowly as a drop in retail food prices occur in the latter half of the year. Department-st sales also showed narrower year-to-year chan in the last months of 1948. Sales of filling stati leveled off in the fall, after a large gain in first half. Drug stores and eating and drink places reported only small changes from the p ceding year.

Among the durable-goods stores the automot group again registered a strong advance. Sales the year were up about a fourth over 1947. building material and hardware stores also repor a big increase in 1948, but in this group sales the latter part of the year fell below their su mer peaks.

Furniture and Appliances Lower in Final Quar

Sales at stores in the homefurnishings gr were only about 7 percent above 1947. Moreover the last quarter of the year there was actuall decline in sales. This decline occurred in b household appliance and radio stores and furnit and housefurnishings stores. The restoration credit restrictions, which apparently led to so anticipation of fourth-quarter buying in S tember, may have been partly responsible for drop.

The drop in appliance sales showed up stron in the appliance departments of department sto Dollar sales of refrigerators, washing machin vacuum cleaners, and other major appliances the third quarter of 1948 were running 10 perc higher than in the corresponding period of the y before, but in the fourth quarter they fell ab 25 percent behind 1947. The furniture and the ra departments were similarly affected, although so severely. In contrast, sales in the women's w departments—except for furs and some accesso —were well ahead of year-ago figures in b quarters.

There was a phenomenal increase in the num of television sets sold. Nearly a million sets w bought—five times as many as in the previous ye

Jewelry-store sales continued the decline wh had started in 1946. However, activity in this lin still far above prewar. The tendency for downw movement in sales of luxury goods is underlined tax reports, which showed significantly lower turns from excise taxes on furs, jewelry, and ca aret entertainment.

In general, the pattern of retail trade in 1 implied growing restraint on the part of consum Supply had caught up with backlogs in most li and price and quality competition was becom increasingly important. However, the volume activity was still the highest in history.

International Ladies' Garment Workers' Union

The I. L. G. W. U., of the A. F. of L., of which David Dubinsky is president and general secretary, represents 11,000 employers and 400,352 clothing workers in an annual $4 billion (at wholesale level) industry. A solid supporter of the anti-Communist Left, its 489 locals, in 38 States and 4 Canadian provinces, have jurisdiction over all branches of the women's garment industry including coats, suits, dresses, blouses, corsets, underwear, embroidery, neckwear, artificial flowers, knitwear and children's wear.

The heart of the industry is in the New York metropolitan area, where almost three quarters of all women's garments are designed and marketed. Chicago, Philadelphia, Boston, Baltimore, St. Louis, Los Angeles, Atlanta, San Francisco, Cincinnati, Kansas City and Cleveland are also important centers. I. L. G. W. U. has five buildings in New York and 16 in other cities. It also owns three radio stations in New York, Chattanooga and Los Angeles.

Organized, 1900, by 2,000 workers whose sweatshop wages constituted $5 for an 80-hour week, the I. L. G. W. U. has raised industry earnings to an average $70 for a standard 35-hour week. It has bettered working conditions by market-wide collective agreements, limitation of the number of contractors a jobber may employ, establishment of the jobber's responsibility for wages of workers employed in his contractors' shops, settlement of the same piece rates for the same garment whether produced in manufacturers' or contractors' shops, encouragement of efficiency in production and establishment of impartial chairmen offices to arbitrate industrial disputes.

The I. L. G. W. U. has not had a major strike 15 years.

The union's Health Center, formed 1913 in N York City, provides diagnostic services and a bulatory medical care, including preunion adm sion examinations, and today has a staff of physicians, 33 nurses, 27 technicians and 5 ph macists. Similar health programs are function in Philadelphia, St. Louis, Fall River, Ma Boston and Los Angeles.

In 1941 I. L. G. W. U. established a Mana ment Engineering department, to help garm factories improve production. It has an Edu tional department, which directs educational recreational activities in 61 cities, gives st courses in history of the labor movement, mu dancing, dramatics, etc., and provides schol ships to Harvard and the University of Wisco Unity House, in the Pocono mountains of Pe sylvania, is a non-profit recreation project on acres for members. Rates there begin at weekly. Dues and initiation fees of local uni vary, but universal benefits include free med treatment, sickness insurance, vacation pay, age pensions and $500 to beneficiaries of decea members.

Receipts and Disbursements of General I. L. W. U. Funds (Other than Welfare Funds) J 1 through Dec. 31, 1948: Receipts, $15,029,325 Disbursements, $11,444,886.55.

Employer Contributed Welfare Funds, Jan through Dec. 31, 1948: Receipts, $27,168,812 Disbursements, $17,712,093.73.

Other Welfare Funds, Jan. 1, through Dec. 1948: Receipts, $1,301,982.89; Disbursem $734,458.66.

†N.A.—Not available.
‡Table above includes sales of military vehicles.
Prior to 1940 station wagons and other vehicles built on passenger car chassis are included with motor trucks. In 1940 and later years such vehicles built on passenger car chassis are included with passenger cars.
Federal excise taxes are excluded in all years.
A substantial part of the trucks reported comprises chassis only, without bodies; hence, the value of bodies for these chassis not included.
Actual values of passenger car factory sales for 1943 and 1944 are not available. Value figures shown are approximations based on the average value per unit in 1942. While production of passenger cars ended in February, 1942, some vehicles remained in factory stocks to be sold under licensing orders in 1942-45.

[1]Revised to include 172,910 M feet b.m. of timber in New England, salvaged from the hurricane 1938 and sold to the Northeastern Timber Salvage Administration.

[2]Data for Eastern lumber production in 1942 and succeeding years are not strictly comparable w earlier years. This is due to the fact that better coverage of the numerous small mills in the East w obtained.

[3]All known sawmills were enumerated for the years and states specified: 1947, all states; 1946, Weste and Southern States, and New Hampshire and Vermont; 1945, Western States, and Michigan. Minneso New Hampshire, Rhode Island, Vermont, and Wisconsin; 1944, Western and Northeastern States; 19 Western States and Rhode Island; previous years, all mills. Estimates for other states, 1943 throu 1946, are based on sample surveys and are subject to sampling errors.

[4]Combined to avoid disclosing operations of individual establishments.

Softwood production 1947, 27,937,398 M feet, b.m; hardwood production, 7,466,814.

Western lumber production 1947 by principal species (in M feet b.m.): Douglas fir, 9,042,423; Ponde osa pine, 3,839,058; White fir (including noble), 672,870; Hemlock, 647,968; Redwood (including "I Tree"), 529,921; Sugar pine, 343,173; Larch, 287,366; Spruce, 265,099. Production data for the East the principal species (in M feet, b.m.): Southern yellow pine, 9,473,360; Oak, 3,192,482; White pi 1,118,556; Red gum, 803,043; Yellow poplar, 635,521; Maple, 623,569; Hemlock, 595,606; Tupe 407,973; Cottonwood and aspen, 374,587; Beech, 330,111; Cypress, 240,445.

Production of lath in 1947: 197,078 thousand pieces. Production of shingles in 1946: West, 3,441,(squares; East, 20,796 squares; data for Northern states not available. Data for shingles in 19 not available.

*Preliminary

Preliminary figures on installed capacity of electric generating plants as of December 31, 1948 are watts): hydro 15,652,862, steam 39,234,257, internal combustion 1,576,390, total 56,463,509.

Preliminary data on combined utility and industrial production of electric energy for 1948 show a total 6,335,478,000 kilowatt-hours; combined capacity was 69,485,881 kilowatts.

Electric operating revenues of the larger privately owned utilities were $4,156,461,000 as indicated by preliminary total of 1948.

United States Imports for Consumption of Leading Commodities

*Includes gin. (1) Prior to fiscal year 1947 spirits-fruit were included with brandy.

Estimated World Production (Shipments) of Natural Rubber

Source: Office of Domestic Commerce, Rubber Division

These statistics represent total world shipments of rubber except for 1948, for which they represe estimated production. Since 1940, shipments have involved estimates to a greater extent than former

(In long tons)

ginning with 1941 the total figures under "Tobacco" include the following pounds of scrap
ing tobacco: 1941—44,208,645; 1942—48,345,599; 1943—51,414,141; 1944—52,866,763; 1945—47,748,343;
-46,117,134; 1947—42,138,634.
af tobacco used for year 1947 in making the above products totalled 1,355,116,546 pounds, of which
37,838 pounds went into cigars and 1,055,593,977 pounds into cigarettes.

Golden Eagles at Hawk Mountain

Hawk Mountain, near Reading and Hamburg, is the site of Hawk Mountain Bird Sanctuary. ld peak of Tuscarora sandstone that has a r cliff of 1,000 feet to a valley and overlooks counties. Here Maurice Broun, naturalist, who red purchase of the locality, has observed sands of hawks, including the bald eagle and golden eagle, migrating from northern forests inter in the South. In Hawks Aloft (1949) he s: "The majestic golden eagle, king of birds, es over most parts of the northern hemis- e. At Hawk Mountain I have studied eagles very plumage, sailing or sweeping past the ut at every conceivable angle. Once, as I motionless and partially concealed by a great of rock, an adult golden eagle came within 30 feet of me . . . The golden color of the hind head is seen in immatures as well as in adults. The latter show more or less gray on their dark backs and grayish lesser wing-covers are usually distinct. Young birds are readily identified by the conspicuous white areas in their wings and by their white tails, with broad dark terminal bands . . . It has always seemed to me that the tail of the golden eagle is perceptibly longer than and not quite so square as that of the bald eagle . . . It has been my good fortune during 12 fall seasons to see the astonishing number of 1,360 eagles. The drama of this seasonal pageant is all the more heightened when we keep in mind that these symbols of the wilderness are found little more than 100 miles from the Empire State Building."

MINERAL PRODUCTION

Mineral Products of U. S. and Principal Producing States

Source: Bureau of Mines; data are for 1947

Rank in Value	Product	Principal Producing States[1]	
		In Order of Quantity	In Order of Value

World silver production (1939-1945 subject to revision) not comparable due to omission of data f some countries in specified years.
Treasury price for domestic silver mined prior to July 1, 1946, $0.7111 per fine ounce (Act of July 1939); and that mined after July 1, 1946, $0.905 per fine ounce (Act of July 31, 1946).
Largest production of silver in 1915—74,961,075 fine ounces.

According to the United States Bureau of Mines Minerals Yearbook of 1945, more salt is used in the manufacture of chemicals than any other material. The average American uses about six pounds a year to season food.
DDT, now being produced from salt and salt compounds by more than 10 companies, is being used not only in homes and camps but is being sprayed from airplanes over fields and forests for inse control. Moreover, the material is incorporated paints and wall washes and in use as a sheep dip.
Michigan ranks first in domestic production sodium chloride (NaCl), the chemical nome clature for table salt. New York is second. S is found in 19 states and produced in commerci quantities in 13.

LAW SUMMARIES

Federal Income Tax Law

Source: Bureau of Internal Revenue

ing law governing Federal income tax and nternal revenue taxes is embodied in the al Revenue Code. The most recent amend- to the Code are contained in the Revenue 1945 (approved Nov. 8, 1945) and the Rev- ct of 1948, enacted over the President's veto 2, 1948). The 1945 Act is primarily a tax on measure for 1946 and 1947, with some or 1945 in the form of additional allowances commissioned officers and enlisted men in ned forces and special treatment of war loss ies of corporations for purposes of the de- value excess profits tax. The 1948 Act is tax reduction and tax equalization bill. The luction features, applicable only to individ- nclude a general increase in exemptions, a on in tax rates, and special exemptions for ver 65 and for the blind. The tax-equaliza- atures of the bill apply both to the individual tax and to the estate and gift taxes. They signed to produce uniform treatment for ts of common-law and community property

income tax applies to individuals and to tions. Partnerships, as such, are not taxed, embers reporting the income in their own . Estates and trusts are subject to the same tax rates as individuals, but there are cer- fferences in the computation of tax liability estates and trusts include the interests of ely taxable beneficiaries.

INDIVIDUAL TAXES

ges of Law: The present method of collect- es on individuals is commonly known as the you-go system. Under it, most individ- ay all or a large part of their income ing the year in which they receive their The tax is withheld from their wages or quarterly installments as estimated tax. Since these payments do not exactly equal ual tax liability, it is necessary for each r to file a return at the end of the year his actual tax liability, so that any addi- amount due may be collected or any over- t made may be refunded.

he calendar year 1949, it is not necessary to eparate computations of normal tax and A tentative combined normal tax and sur- computed at variable rates that begin at 20 (3 percent normal tax plus 17 percent sur- nd increase by steps, frequently called s, to successively higher percentages for mounts of income. This tentative combined hen reduced by 17 percent of the first $400 e tax, plus 12 percent of the tentative tax 00 and not in excess of $100,000, plus 9.75 of the tentative tax over $100,000. The im amount of combined normal tax and which may be imposed on any taxpayer is ent of net income.

mputing the combined normal tax and sur- re is a uniform exemption of $600 per tax- whether single or married, an additional on of $600 if he or she was 65 before the close of his or her taxable year, and an additional exemption of $600 if he or she was blind at close of such year. If a taxpayer is married and makes a separate return, and if the wife or husband has no gross income for the calendar year in which the taxable year of the taxpayer begins and is not the dependent of another taxpayer, all of their exemptions can be claimed in the return. There is also an exemption of $600 for each dependent for whom the taxpayer furnishes more than half the support, provided the claimed dependent (1) is closely related to the taxpayer, (2) had less than $500 of gross income, and (3) does not file a joint return with a spouse.

Employers must withhold the tax from wages paid to their employees. Since the purpose of withholding income tax from wages is the collection at the source of approximately full tax liability on at least the first $5,000 of wages, the amount which the employer is required to withhold depends (a) on the amount of wages or salary, and (b) on the number of withholding exemptions claimed by the employee in a statement which he may file with his employer for withholding purposes. If no such statement is filed with the employer, the latter will be required to withhold on the gross wages, thus increasing the credit which the employee may report on his return as tax paid at the source. After the end of each year or at the end of employment, employers must furnish to each employee from whose wages tax has been withheld, or would have been withheld if such employee had claimed no more than one withholding exemption, statements on Form W-2 showing the total amount of wages paid and the amount of tax withheld, if any, during the previous calendar year. The information in these statements may be used by the employee in making his income tax return after the close of the year.

Filing Requirements: An income tax return must be filed for 1949 by every citizen or resident of the United States (including a minor) who had $600 or more of gross income in the taxable year. In computing gross income, all income that is wholly exempt from tax should be omitted.

Form of Return: There are three methods of making an income tax return:

1. Employee's Optional Return, Form 1040A.—A Form 1040A may be used as a return if total income for the year was less than $5,000, consisting wholly of wages shown on Withholding Statements, or of such wages and not more than a total of $100 of other wages, dividends, and interest. All Withholding Statements, Form W-2, should be attached to the return. The tax will be figured by the Government.

2. Short-form Return—If income was less than $5,000 Form 1040 may be used as a short-form return by computing the tax according to the table on page 4. If income was wholly from salaries, wages, dividends, and interest, only page 1 need be filled in; but if other income was received, page 2 should also be filled in with necessary information. Pages 3 and 4 should be torn off and discarded. Forms may be obtained from your Collector, post office or bank.

1949 INCOME TAX RATES

r existing federal income tax law, the income tax is computed on the basis of the tentative hown below, and then reducing the result by various percentages according to the amount of e tax, as indicated in Paragraph Four above. Therefore, all results indicated by this table e reduced to determine the correct tax. The tax as shown will be the combined normal surtax. The tentative rates shown below were made up by adding the normal tax (a flat 3%) surtax (excess over 3% shown below).

he net income is:		
t over $2,000		20%
er $2,000 but not over	$4,000	$400, plus 22% of excess over $2,000

er $150,000 but not over	$200,000	$111,820, plus 90% of excess over $150,000
er $200,000		$156,820, plus 91% of excess over $200,000

3. Long-form Return—If income of $5,000 or more was received, or if any deductions are being claimed on the return, Form 1040 should be used as a long-form return, computing the tax liability on page 3. Instructions accompanying the form should be followed in completing the form.

SOCIAL SECURITY TAXES

The social security tax rates of one percent on the employees were continued for the year 1949.

CORPORATE TAXES

Normal Tax: Rates for income of $50,000, or less, range from 15% on the first $5,000 to 31% on all over $25,000. For corporations with normal-tax net incomes over $50,000, the rate is a flat 24% of the entire amount.

Surtax: Rates for surtax net income of not more than $50,000 are 10% for 1945 (6% for later years) on the first $25,000 and 22% on the balance. Surtax net income of more than $50,000 is taxable at 16% for 1945 (14% for later years) of the entire amount. Affiliated corporations filing consolidated returns are taxed at rates 2% higher.

Excess Profits Tax: The excess profits tax was repealed for taxable years beginning after December 31, 1946; however, for the purpose of a two-year carry-back to 1944 and 1945, the law retains the unused excess profits credit for 1946. A special computation is provided for fiscal-year taxpayers. For fiscal years begun in 1945 and ending in 1946, the unused excess profits credit carry-back is allowed in full, but the excess profits tax is prorated to an amount which bears the same proportion to the total tentative tax for the entire fiscal year as the number of days in the taxable year prior to Jan. 1, 1946, bears to the total number of days in the entire fiscal year. For fiscal years beginning in 1946 and ending in 1947, the unused excess profits credit carry-back is prorated to an amount which bears the same proportion to the total tentative credit for the entire fiscal year as the number of days in the year prior to Jan. 1, 1947, bears to the total number of days in the entire fiscal year. The war credit of 10% of excess profits tax p been repealed by the Tax Adjustment Act o permitting corporations to cash in their p bonds as early as Jan. 1, 1946.

CAPITAL STOCK AND DECLARED VA EXCESS-PROFITS TAX

The capital stock tax and the declared excess-profits tax have been repealed, effect taxable years ending after June 30, 194 June 30, 1946, respectively.

ESTATE AND GIFT TAXES

An estate tax return must be filed for citizen or resident of the United States gross estate, including insurance, exceeds in value at the time of death. In the cas nonresident not a citizen a return must b if his gross estate in the United States at th of his death exceeds $2,000. The return m filed within 15 months after the decedent's The estate tax rates range from 3 percent portion of the net estate not over $5,000 to cent on the portion of the net estate in exc $10,000,000. The rate on the portion b $60,000 and $100,000 is 28 percent; between $ 000 and $1,250,000, 39 percent; and between $ 000 and $6,000,000, 67 percent.

Any citizen or resident who within a ca year makes gifts in excess of $3,000 to an individual, or any gift of a future interest n less of value, must file a gift tax return. donor was a nonresident not a citizen th tax applies only to gifts of property situated United States. The return must be filed before March 15 following the close of the ca year. In the case of a citizen or resident emption of $30,000 is allowable which, at the

EXCISE TAXES

The stamp tax on passage tickets was repealed (1947) on trans-Atlantic, trans-Pacific travel and travel to South America. It still applies to travel in or near North America, Central America and the West Indies. The tax on furs applies to articles of which fur is the component material only if the value of the fur is greater than three times the value of the next component material. Other excise tax rates are:

	Wartime Rate
Admissions	1c for each 5c or major fraction
Billiard and Pool Tables	$20 per table
Bowling Alleys	$20 per alley
Cabarets, Roof Gardens, etc.	20%
Dues, Initiation or Membership Fees	20%
Electric Light Bulbs	20%
Jewelry, Furs, Toilet Preparations	20%
Luggage, Handbags, Billfolds, Toilet Kits	A retailer of 20
Local Telephone Service	15%
Long Distance Telephone Service	25%
Telegraph, Cable or Radio Messages within U. S.	25%
Travel Tickets, Seats and Berths	15%
Beers	$8 per ba
Distilled Spirits	$9 per ga
Still Wines:	
Not over 14% alcohol	15c per ga
Not over 21% alcohol	60c per ga
Not over 24% alcohol	$2 per ga

e taxpayer, may be taken all in one year or
d over a number of years. The gift tax rates
from 2¼ percent on the portion of the
gate net gifts not over $5,000 to 57¾ percent
e portion of the aggregate net gifts exceeding
0,000. The rate on the portion between
,000 and $1,250,000 is 29¼ percent.

The estate and gift tax laws were amended by the Revenue Act of 1948 to permit tax-free gifts and bequests between spouses, limited, however, to one-half of the estate or gift. The amendments also provide an option whereby a gift by husband or wife to a third party may be regarded as a gift of which one-half is made by each spouse.

How to Become a Citizen of the United States

Source: Department of Justice; Immigration and Naturalization Service

erson who desires to be naturalized as a
of the United States may obtain the neces-
pplication form as well as detailed informa-
om the nearest office of the Immigration
turalization Service or from the clerk of a
handling naturalization cases.

rally, a person cannot be naturalized in the
States unless he has been lawfully admitted
United States for permanent residence.
belonging to the following racial groups
come citizens by naturalization: white per-
egroes, descendants of races native to North
th America or nearby islands, Filipinos,
persons, and persons of races native to
However, these requirements are waived in
es of certain veterans of the United States
forces.

first step of an applicant for citizenship in
al case is to make a declaration of intention
office of the clerk of any naturalization
The declaration may be made at any time
rival in this country. A fee of $3 must be
the clerk. Many persons are exempt from
quirement. The most important classes of
ts so exempt are persons married to citi-
d certain veterans of our armed forces.

son who is required to make a declaration
tion may not apply for his final citizenship
until he has lived in the United States
ously for five years. When he makes his
plication he must show that he has lived
state for at least the last six months. These
e requirements are modified in the cases
us exempt classes of applicants. For exam-
plicants who are married to citizens are
to have lived in the United States for only
, or three years, depending on the date of
e and the date of the spouse's naturaliza-
Similarly, certain veterans of our armed forces are required to establish in lieu of periods of residence that they have served honorably in the armed forces for the periods set forth in special statutory provisions.

Every person who files a petition for naturalization must:

(1) sign the petition in his own handwriting, if physically able to write;

(2) be able to speak English, if physically able to speak;

(3) have been a person of good moral character, attached to the principles of the Constitution, and well disposed to the good order and happiness of the United States for five years just before filing the petition or for whatever other period of residence is required in his case; and

(4) have a fair knowledge and understanding of our form of government and the fundamental principles of the Constitution.

The petitioner also is obliged to have two witnesses who are persons of good moral character and citizens. These witnesses must have personal knowledge of the applicant's character, residence, loyalty, and other qualifications.

When he files his petition, the applicant must pay the clerk of the court a fee of $8. The cost of the certificate of naturalization is included in this fee.

When the court grants a petition for naturalization, the applicant takes an oath of allegiance to the United States and renounces his former allegiance.

	10,001-15,000	2	An optional simplified tax return is provided. [17]				

x credit deductible from amount of tax rather than from net income. Sum in parenthesis ex- s tax credit as income exemption on assumption that latter is always deducted from lowest income t.

x credit deductible from amount of tax rather than from net income. Sum in parenthesis is the t by which the first dependent raises the level at which a married person or head of family will ecome taxable.

emptions shown are applicable to taxable years beginning after December 31, 1944 and before y 1, 1949. Permanent exemptions are $2,000 and $3,500.

emptions shown are applicable to the period May 1, 1947 to December 31, 1948, and March 1, o June 30, 1951. Permanent exemptions are $1,000 and $2,500 and the credit for dependents is An additional exemption of $750 is allowed for taxpayers over 65 years of age or blind, and for xpayer's spouse if separate returns are filed.

r taxable years 1949 and 1950 the exemptions will be $1,040 for a taxpayer and $520 for a de- nt. A spouse dependent upon and receiving his or her chief support from the taxpayer is con- d a dependent.

x credits shown are applicable for the years 1947-1950. Permanent credits are $10 for single per- 20 for married couples, and $5 for dependents.

the case of a dependent father, mother or grandparent, the taxpayer may take a deduction of n lieu of $7.50 tax credit.

e exemptions and credits for dependents are deductible from the lowest income bracket and are ent to tax credits of $20, $50, and $8, respectively.

additional exemption of $1,000 is allowed for blind persons.

e exemptions shown consist of a specific exemption of $2,000 on earned income, in addition to a al exemption on earned income of $500 for husband or wife and a credit for each dependent of A person whose total income from all sources does not exceed $1,000 and whose income together is spouse's does not exceed $1,500 may have an exemption of $1,000 on his property income.

x applies only to interest and dividends.

additional exemption of $1,000 is provided for a married woman with a separate income.

veterans of World War II, the exemptions for the years 1946-49 are $2,700 for a single person, ,300 for a married person or head of family.

additional $500 exemption is allowed to taxpayers over 65 years of age or blind.

purposes of the surtax, an additional tax credit of $37.50 is allowed.

licable to taxable years beginning after December 31, 1949, the exemptions will be $4,000 for a er and $500 for a dependent. A spouse with income of less than $500 is defined as a dependent. combined gross income of husband and wife exceeds $4,000 and each spouse has a gross income ss of $500, a separate return must be filed by each spouse.

[17]An optional simplified tax table which allows a standard deduction is provided in ten States for individuals with incomes below specified levels:

An optional standa
duction, but not a s
fied tax table, is pr
in three States:

State	Applicable to individuals with incomes of	Standard deduction allowed on table
Calif.	Adjusted gross income of $5,000 or less	6%
Colo.	"	10
Ky.	"	10
N. Y.	"	10
Minn.	"	10
Okla.	"	10
Ore.	"	6
Vt.	"	Not indicated
Md.	Gross income of $10,000 or less	10 (approx.)
Mo.	Adjusted gross income of $10,000 or less	5
Wis.	Gross receipts of $3,500 or less	9

State	Deduction
Kans.	10%
La.	10
Miss.	8

The District of Columbia provides for taxable years 1947-1949 an optional simplified tax table app
to individuals with gross income, less allowance for dependents, of $5,000 or less. The table al
standard deduction of 10 percent. For taxable years after 1949, the provision for the optional t
repealed but the 10-percent standard deduction (maximum $500) is retained.

[18]Gross income in excess of $200 derived from dividends, royalties, and interest is subject
2-percent surtax.

[19]Capital gains are taxed at one-half the regular rates. Income from unincorporated busin
taxed at 3 percent through 1948 and 4 percent thereafter.

[20]Applicable to taxable years beginning after December 31, 1949 the rates will be:
First $5,000 (1.5%); $5,001-$10,000 (2); $10,001-$15,000 (2.5%); over $15,000 (3).

[21]For taxable years 1949 and 1950 the net income tax with rates shown here has been replace
tax based on "gross income" (defined to allow deductions in the case of income from business o
estate). The rates to be applied to "gross income" after personal exemptions are:
First $3,000 (1.25%); $3,001-10,000 (2.25); $10,001-20,000 (3.25); $20,001-30,000 (4.25); $3
50,000 (5.25); Over $50,000 (6.25).

[22]For taxable years through 1958, an additional tax equal to 5 percent of the tax is imposed.

Patent Law

Source: United States Patent Office

A patent for an invention gives the inventor, his heirs or assigns, "the exclusive right to make, use and vend" the invention for the term of 17 years throughout the United States and its territories. What is granted is the right to exclude others, but a patent does not give any right to the inventor to make, use or sell his own invention if doing so would violate any Federal or State laws or the prior rights of others.

By law a patent is granted to the inventor of any new and useful art, machine, manufacture, or composition of matter, or any new and useful improvement in these classes of subject matter. Patents are also granted for distinct and new varieties of plants. An original and ornamental design for an article of manufacture may be patented, but in this case the duration of the patent is 3½, 7, or 14 years as the inventor may elect.

A patent is not granted upon a mere idea or suggestion, nor upon an invention which lacks utility, nor for machines that will not operate, particularly for alleged perpetual motion machines. Printed matter and methods of doing business are not patentable.

Medicines consisting of mere mixtures of known ingredients, or amounting to physicians' prescriptions can not ordinarily be patented. So-called patent medicines are not patented, the phrase "patent medicine" does not have the meaning that the medicine is patented.

A patent is granted only upon a regularly filed application, complete in all respects and the payment of the fees required by law, and after an examination by the Patent Office.

The application for patent must be made by the inventor. If two or more persons made the invention jointly they must join in the application; a patent issued to more than one person as inventors where only one was actually the inventor is invalid. If the inventor is dead or insane the application may be made by the administrator or executor of the estate, or by the guardian.

An application for patent consists of a petition, specification, oath, drawings if the invention can be illustrated, and the government filing fee. The petition and specification must be signed by the inventor, and the oath must be executed by the inventor. The specification must give a full and complete description of the invention and must contain a claim or claims pointing out the invention. The fee for filing the application is $30 (with $1 additional for each claim in excess of twenty) but is less in the case of design applications.

The application is examined to see if it is complete and proper in form and a search is made to see if the invention is new. The patent or any of the claims may be refused on the ground that the invention claimed is not new or on the ground that the differences between what is claimed and what is known in the prior art are not sufficient to constitute a new invention. A patent cannot be obtained if the invention has been described in a printed publication, or has been in public use or on sale before the date the invention was made or more than one year to the filing of the application. The reasc refusing a patent are communicated in w to the applicant or his attorney and opportu given to ask for reconsideration and p arguments why the patent should be grantec or without amendment of the claims. Or application is filed new matter may not be duced in that application by way of amend

If the examiner persists in the rejectio applicant may appeal to the Board of A in the Patent Office. From an adverse d of the Board of Appeals there is a further to the Court of Customs and Patent Appe in the alternative, the applicant may file action in the United States District Cou the District of Columbia.

When two or more applications are filed ing substantially the same patentable inv or when an application which is otherwise p able claims the same invention as an patent, an interference proceeding is ins by the Patent Office to determine from ev which may be submitted which party is the inventor and should receive the patent. decision of the Patent Office is reviewable courts.

When the examiner finds an application able a notice is sent to the applicant and fee (except in the case of design patents) be due and the patent is issued after the paym this fee. Note: The final fee is not always the as filing fee since the number of claims allowed may differ from the number of claim inally filed. The rights conferred by a patent on the date it is granted; the terms "patent ing" or "patent applied for" have no legal s cance, they merely convey the information someone has been or is attempting to a patent.

The patent or an interest therein may signed, either before or after it is granted

If a patent is infringed the patentee m in the appropriate federal court for the re of damages, and an injunction. The cou then decide the validity of the patent. patentee notifies anyone of infringement person may ask a court to render a jud on the matter.

A patentee may not use his patents to f combination in restraint of trade in violation anti-trust laws, nor may he fix resale pri attempt to exercise control over unpatente terials.

During times of war the Commissioner of P is authorized to withhold the issuance of a and order the invention to be kept secret publication would be detrimental to public or national defense. Likewise during such p a license must be obtained before an appli for patent can be filed in a foreign country.

Pamphlet copies of the Patent Laws, the of Practice of the United States Patent Off General Information Concerning Patents, c obtained from the Patent Office.

State Sales Taxes, Types and Rates

k—Indicates States imposing a use tax.

Type of tax: (1) Retail Sales—Imposed upon sales of tangible personal property at retail or for nsumption. In most States applies also to admissions and restaurant and public utility sales. General Sales—Applies to wholesaling, extractive industries and manufacturing in addition to sales retail. (3) Gross Receipts—Includes sales of public services and personal and professional services addition to transactions and receipts under (1) and (2). (4) Gross Income—Applies, in addition to transactions and receipts under (1), (2) and (3), to receipts from non-business activities such as ges and salaries of employes, interest, rents and dividends. [2]New automobiles only.

Rates in cities or incorporated towns bordering other States same as that in adjoining State.

Rate applies to all public utilities except transportation, in Missouri, all except transportation of ight.

Telephone and telegraph services, gas and electricity sales. In Illinois the rates on utilities are posed under a separate Act.

The rate is 1% from April 1, 1948 to June 30, 1949 and 2% from July 1, 1949 to June 30, 1951.

The 2% rate is applied to 98% of gross receipts.

Sales of new motor vehicles are taxed under the use tax and are exempt from the sales tax while les of used motor vehicles are taxed under the sales tax.

Tax applies to rentals as well as sales. [10]Applies to gas and electricity only.

The rate on retail sales of pasteurized milk is 1%. [12]Applies to automobiles, trucks and tractors.

The rate on industrial sales of gas and electricity is 1%. [14]Maximum tax of $15 on a single article.

The sales tax specifically exempts sales of motor vehicles but a special excise tax of 2% is levied n the transfer of ownership and the use of a vehicle registered in the State and upon the use of ehicle registered for the first time in the State.

All public utilities except water and transportation of freight. [17]Effective April 1, 1949.

Specifically excluded are street railway fares and intrastate movements of freight and express.

Effective July 1, 1949, an additional veterans' bonus will be imposed at the rate of ½ of one percent gross income subject to the ½ of one percent rate and at the rate of one percent of all other gross ome.

Interest Laws and Small Loan Interest Rates

Source: Department of Consumer Credit Studies, Russell Sage Foundation for data to June 30, 1945; subsequent data by F. B. Hubachek of the Chicago Bar

The regulation of interest rates is a form of police power which is generally exercised by state legislatures. Interest laws may be divided for convenience into four classes.

1. Statutes fixing the legal rate of interest. Every state has established a legal or conventional rate of interest which applies on judgments, on matured obligations, and in loan contracts in which no interest rate is stated. This rate is usually 6 per cent a year, but in some states it is 5 per cent, 7 per cent, or 8 per cent a year.

2. Laws fixing the maximum contract rate of interest. Five states—Arkansas, California, Oklahoma, Tennessee, and Texas—have constitutional provisions restricting the maximum contract rate of interest. All other states, except Colorado, Maine, Massachusetts, and New Hampshire, have statutory restrictions upon the maximum rate of interest which may be contracted for in the absence of specific statutory authorization to the contrary. They are generally known as the usury statutes. The most common maximum contract rates are 6 per cent and 8 per cent a year, but a few states permit rates as high as 12 per cent a year. Penalties for infraction range from forfeiture of excess interest to loss of the entire principal and even to imprisonment. Corporations are usually exempted from the protection of these laws.

3. Regulatory small loan statutes. These statutes apply only to loans of small sums, but within this area they apply to all lenders not specifically exempted. Forty jurisdictions have comprehensive small loan statutes, most of which are modeled after the Uniform Small Loan Law drafted by the Russell Sage Foundation. Nine of these statutes, however, differ substantially from the Uniform Law or are inoperative because the minimum rate is too low. The Uniform Law requires those engaged in the business of lending sums of $300 or less at rates in excess of those fixed by the usury statutes to be licensed, bonded, and supervised by the state banking department.

4. Specific enabling acts. Most states specifically exempt certain types of lending agencies from the regulations of the small loan and usury statutes, and authorize these agencies to make higher charges than those allowed by the usury statutes. Among these are pawnbrokers, whose rates are restricted in some states by statute and in other states by municipal ordinances to charges ranging generally from 2½ to 10 per cent a month; industrial banks or discount companies, which are authorized to make charges ranging generally from 1½ to 2½ per cent a month; credit unions, which are generally authorized to charge 1 per cent a month; and banks and building and loan associations. In a few instances, such statutory authorization has been granted to single institutions.

The states with small loan laws, the dates of the enactment of the laws and the rates of interest, as of Aug. 1, 1949, follow:

State	General History	Maximum Rate (Monthly, unless otherwise stated)
Alabama	1927; new act 1932; new act 1945	8% per annum
Arizona	1919; amended 1935	3½%
Arkansas	1937; amended 1941	10% per annum
California	Enacted 1939; sustained by popular vote in Nov., 1939; frequently amended, earlier imperfect laws from 1905	2½% to $100 (2% if security insured); 2% $100 to $500; ⅚% on remainder to 5,000
Colorado	1943; numerous earlier acts	3½% to $150; 2½% on remainder
Connecticut	1919; frequently amended	3% to $100; 2% $100 to $300; ½% on remainder to $500; 12% per annum after 20 months
District of Columbia	1913; amended 1917	1%
Florida	1925; amended 1939 and 1941	3½%
Georgia	1920; amended 1935	1½%
Hawaii	1937	3½% to $100; 2½ on remainder
Idaho	1943	3%
Illinois	1917; new act 1935; amended 1947	3% to $150; 2% $150-300; 1% on remainder to $500
Indiana	1913; new act of 1917; revised 1933	3% to $150; 1½% on remainder (Commission rate)
Iowa	1921; new act 1934	3% to $150; 2% on remainder (Commission rate)
Kentucky	1934; amended 1940 and 1942	3½% to $150; 2½% on remainder
Louisiana	1928; new act of 1942	3½% to $150; 2½% on remainder; 8% per annum 12 months after maturity
Maine	1917; frequently amended	3% to $150; 2½% on remainder; 25c minimum charge
Maryland	1912; new act 1918; frequently amended	3%
Massachusetts	1911; frequently amended	2% (Commission rate); 6% per annum one year after maturity
Michigan	1915; new act 1921; revised 1925; new act 1939; amended 1947	3% to $50; 2½% $50-300; ¾ of 1% on remainder to $500
Minnesota	1939; amended 1943	3%
Nebraska	1913; new act 1915; amended 1941; new act 1943	36% per annum to $150; 30% per annum $150-300; 9% per annum on remainder to $1,000
Nevada	1943	3½% to $100; 3% on remainder; $5 minimum charge
New Hampshire	1917; amended 1931 and 1933	2% plus small fee
New Jersey	1910; new act 1914; new act 1932; amended 1937	2% to $300; ½ of 1% on remainder to $500
New Mexico	1939; new act 1947	5% on loans of $50 or less; $1 minimum charge. On larger loan 3% to $150; 2% $150-300; 1% on remainder to $500. 10% per annum 12 months after maturity and in certain other cases
New York	1915; new act 1932; frequently amended; earlier acts	2½% to $100; 2% $100 to $300; ½% on remainder to $500
Ohio	1911; new act 1915; new act 1943	3% to $150; 2% on $150-300; 8% per annum on remainder to $1,000
Oklahoma	1941; amended 1943	10% per annum, plus various fees
Oregon	1913; new act 1915; new act 1931; amended 1933, 1935, and 1941	3%
Pennsylvania	1913; new act 1915; amended 1919; revised 1937	3% to $150; 2% on remainder; 6% per annum after 18 months
Rhode Island	1923, new act 1937	3%
Tennessee	1917; new act 1935; amended 1937	6% per annum plus fee of 1% per month
Utah	1917; new act 1945	3%
Vermont	1937; amended 1939	2½% to $125; 2½% on remainder
Virginia	1918; new act 1944; amended 1946	2½% (Commission rate). 6% per annum after 23 months and in certain other cases
Washington	1941	3% up to $300; 1% on remainder to $500; minimum charge of $1
West Virginia	1925; new act 1933	3½% to $150; 2½% on remainder
Wisconsin	1927; new act 1933	2½% to $100; 2% to $200; 1% on remainder (Commission rate)
Wyoming	1945	3½% to $150 plus service fee of $1 on loans of $50 or less and recording fee of $1

Inheritance Tax Laws of the States

It is customary for a person who makes a will to name an executor of the estate; otherwise the court may appoint an administrator. The executor named in a will may be exempted from giving a bond. Not so an administrator.

In the case either of an executor or an administrator, the disposition of the estate is subject to the supervision of the court, be it probate, orphans, or surrogate.

When there is no will, a person is said to have died intestate, and an administrator takes charge. New York and some other states have Public Administrators who are paid regular salaries out of the public funds.

Every estate is subject to one or more obligations before it can be lawfully distributed to the heirs. These obligations consist of debts of one kind or another.

Every debt which is a lien on the property is an obligation.

First among such debts are taxes, federal, state, or local; also mortgages on real estate.

Judgments in civil actions for money owed are liens, and as such are obligations.

Contracts made by the deceased involving contingent or direct money obligations are debts, if acknowledged as proven.

Wages owed are in most of the states a debt and when proven, are a lien.

Money or other property held in trust by the deceased is an obligation.

Costs of administration up to the time of settlement of an estate are obligations.

So also are expenses of the last illness, and burial costs including a tomb at from $100 to $500, according to the State.

Pending settlement of the estate the necessary living expenses of the family are an obligation.

There is a time limit on obligations. Usually, claims on an estate must be submitted within one year, provided the creditors have been given due notice of the debtor's death.

Following is a brief summary of the Inheritance Tax laws of the States.

Alabama—A tax equal to the full amount of state tax (80%) permissible when levied by and paid to Alabama as a credit or deduction in computing any Federal Estate Tax payable by such estate according to Act of Congress of 1926, with respect to the items subject to taxation in Alabama.

Arizona—Estate Tax—On July 1, 1937, the Arizona Estate Tax Law became effective, replacing the Inheritance Tax Law.

Arkansas—Estate Tax—The first $100,000 of the net estate is tax exempt; the remainder 80% of the Federal Basic Tax or Federal Credit allowable to states.

California—Husband ($5,000 exemption); wife ($24,000 exemption); minor child ($12,000 exemption); adult child ($5,000 exemption); lineal ancestor lineal issue ($5,000 exemption), tax then ranges from 2% to 10%.

Brother, sister, or descendant of either, or wife or widow of a son or husband of a daughter there- ($2,000 exemption); tax then ranges from 5% 15%.

Uncle or aunt or descendant thereof ($500 exemption) with tax above that 6% to 15%.

Others named as heirs ($50 exemption), tax then varies from 7% to 16%.

One half of the community property passing to the wife is exempt and all thereof passing to the husband.

Colorado—The exemptions are $20,000 for the widow; $10,000 for husband, child, adopted child, any lineal descendant; $2,000 for wife or widow son, widower of daughter, grandparent, brother, sister, mutually acknowledged child; $500 for all others who inherit $500 or less, but if they inherit more than $500 they pay on all they get. The tax ranges from 2 per cent to 16 per cent, according to the degree of relationship and the size of the inheritance. The legislature in 1943 amended the law so that Colorado is reciprocal as far as charitable gifts and legacies are concerned—that is, if the state of decedent's residence exempts property used in Colorado from taxation, that state reciprocates. That taxing property left by a Colorado resident to a charitable organization in a reciprocal state.

Connecticut—The net estate of any resident of this State passing to any parent, grandparent, husband, wife, lineal descendant, adopted child, adoptive parent and lineal descendant of any adopted child, in excess of $10,000 in value to and including $25,000 in value, shall be liable to a tax of 2% thereof; thence up to 9%. The net estate for taxation purposes of a resident decedent shall be ascertained by adding to the appraised value of the inventoried estate all gains made in reducing to possession choses in action, including notes and mortgages but not including corporate or governmental stocks or bonds, nor including income accruing after death; and deducting therefrom losses incurred in the reduction to possession of choses in action, including notes and mortgages, but not including corporate or governmental stocks or bonds, nor including income accrued after death and other items allowed as deductions by the statute.

To the husband or wife of any child, stepchild, brother or sister of the full or half blood and to any descendant of such brother or sister in excess of $3,000 in value to and including $25,000 in value shall be liable to a tax of 3% thereof; thence up to 10%; to any other person, corporation or association not included above in excess of $500 in value to and including $25,000 in value shall be liable to a tax of 6% thereof; thence up to 13%.

Delaware—To grandparents, parents, child or descendant, son- or daughter-in-law, or adopted child, $3,000 exempt; to husband or wife, $20,000 exemption. Rates on excess, 1% up to $30,000; in respect to husband and wife, 1% up to $27,000 to others, thence up to 4%. To brother or sister of the whole or half blood, uncle, aunt, niece or nephew, grandniece or grandnephew, or first cousin, $1,000 exemption. Rates on excess, 2% up to $24,000 thence up to 5%. To others and to non-blood 5% up to $25,000, thence up to 8%. Exemptions—Any property, estate or interest devised or bequeathed for charitable, educational, library, hospital, historical or religious purposes or for purposes of public benefit or improvement.

District of Columbia—The schedule of beneficiaries' exemptions and rates where the decedent died on or after July 27, 1939: Class A, Father, mother, husband, wife, children by blood or legally adopted children, or any other lineal descendants or ancestors of the decedent, an exemption of $5,000, on balance, to $50,000, 1%; to $100,000, 2%; to $500,000, 3%; to $1,000,000, 4%; all over, 5%; Class B, brother and sister of the whole or half blood of the decedent, $2,000 to $25,000, 3%; to $50,000, 4%; to $100,000, 6%; to $500,000, 8%; all over, 10%; Class C, any person other than those included in Classes A and B, and any firm, institution, association or corporation (unless exempt under Class D), $1,000; to $25,000, 5%; to $50,000, 7%; to $100,000, 9%; to $500,000, 12%; all over, 15%. Class D, entirely exempt, is on property transferred exclusively for public or municipal purposes, to the United States or the District, or exclusively for charitable, educational or religious purposes within the District. All property and interest therein which shall pass from a decedent to the same beneficiary and all beneficial interests which shall accrue shall be united and treated as a single interest for determining the tax.

In addition there is a transfer tax on the estate of every decedent who, after Aug. 18, 1937, dies a resident of the District of Columbia, equal to 80% of the Federal Estate tax imposed under the 1926 Federal Revenue Act, less credit for estate inheritance, legacy or succession taxes lawfully imposed by any State or Territory of the United States and inheritance taxes imposed by the District of Columbia. A similar tax is imposed on the estates of non-residents in the proportion that the value of real and tangible personal property located in the District of Columbia bears to the value of the entire estate.

Florida—The Estate Tax Law, Chapter 16015, Laws of Florida, 1933. Approved June 7, 1933, is an estate tax law designed to absorb the credit allowed by the Federal Estate Tax Law. As applied to the estates of decedents of Florida, the amount of the tax is the difference between the credit allowed under the Federal law and the amount of estate or inheritance taxes paid to the States of the United States. The tax upon the estate of non-residents of the State of Florida is an apportioned amount of the allowable credit under the Federal Act based upon the ratio of the property situate in Florida to the entire estate wherever situate. Similar provisions apply to non-residents and aliens. Estates affected by the new law are those whose owners died after Nov. 4, 1930 There is an exemption of $100,000 to residents.

Georgia—Eighty per cent of the amount due as Federal Inheritance Tax (1926 Act) amended (1941) and the Act approved by the Governor (Mar. 18, 1941) whereby tax now applies to estate of a person who may die a non-resident of state, whereas the original Act applied only to the estate of a person who may die a resident of the state. The exemption under that Act is $100,000. If the estate is not subject to the Federal Tax, no tax is assessed by the State.

Idaho—Exemptions: (1) Widow, minor child, $10,000; others, $4,000; (2) brother, sister, descendant of same, daughter-in-law, son-in-law, $1,000; (3) brother or sister of father or mother, or descen-

dant of same, $500. Taxable: (1) 2% up to $25,000 to 15% over $500,000; (2) from 4% to 20%; (3) from 6% to 25%. All others from 8% to 30%. All community property passing to either husband or wife is exempt from inheritance tax.

Illinois—Class 1, father, mother, lineal ancestor, husband, wife, child, wife or widow of son, husband or widower of daughter, legally adopted children and their lineal descendants. All lineal descendants of decedent born in lawful wedlock. Mutually acknowledged children—Exemption $20,000 (brother or sister $10,000); taxable, to $50,000, 2%; $50,000 to $150,000, 4%; to $250,000 6%; to $500,000, 10%; over $500,000, 14%. Class 2, uncles, aunts, nieces, nephews and lineal descendants thereof. Exemptions—$500; taxable, to $20,000, 6%; $20,000 to $70,000, 8%; $70,000 to $170,000, 12%; over $170,000, 16%. Class 3, all others—Exemption $100; taxable, from 10% to $20,000 to 30% over $250,000.

Indiana—Tax is on the excess above exemption, three classes. First includes husband, wife, lineal ancestor, lineal descendant, legally adopted child or child to whom the transfer for not less than ten years stood in the mutually acknowledged relationship of parent. Second, brother, sister or a descendant of a brother or sister, wife or widow of a son or husband of a daughter. Third, all others. Amount of tax runs from 1% to 10% on the first class; from 5% to 15% on the second class; from 7% to 20% on the third class. Exemptions are in the first class, wife $15,000, children of decedent under 18 years, $5,000, others $2,000; 2nd class exemption is $500; 3rd class $100. (Shall not apply to transfer of first $25,000 of estate of any decedent who was a member of Armed Forces of United States engaged in World War II and who died while so a member of such armed forces or who being so engaged shall die as the result of injuries received or disease contracted in such service, within one year after termination of World War II; but such taxes shall be remitted by the state. For the purpose of this law the termination of the war shall be evidenced by the proclamation of the President of the United States).

Iowa—Direct inheritance—Over exemption, graduated tax begins at 1% on the first $10,000, and rises to 8% on all sums in excess of $300,000, when the estate goes to wife, husband, children, father, mother or lineal descendant of the decedent. To brother, sister and the like tax ranges from 5% to 10%; 10% to 15% in the case of other heirs. Exemptions—Husband or wife, $40,000; each child, also adopted or illegitimate child entitled to inherit, $15,000; father, mother, $10,000; grandchild or lineal descendant, $5,000.

Kansas—To husband, wife, lineal ancestor, lineal descendant, adopted child or lineal descendant of adopted child, wife or widow of a son, or husband of a daughter, (Class A), on first $25,000, 1%; thence up to 5% (except in case of surviving spouse when rates are one-half those mentioned). To brothers and sisters, (Class B), on first $25,000, 3%; thence up to 12½%. To persons in other degrees of collateral consanguinity, strangers or others not included above, (Class C), on first $25,000, 5%, thence up to 15%. Exemptions to surviving spouse, $75,000; to others of Class A, $15,000; to each member of Class B, $5,000. Members of Class C have no exemption. Rates above named are charged only on amounts in excess of exemptions allowed; when the share is less than $200 in excess of the exemption, and on shares less than $200 in amount, no tax is charged. Exemptions and allowances if only a part of the estate is in Kansas are in proportion to that part. There is a 10-year statute of limitations on the collection of taxes, except when bond is given, then 5 years after the expiration of bond, which must be renewed every 5 years. Taxes are due 18 months after the date of death of decedent, and bear 6% interest per annum from that date until paid. Transfers by grant or gift made one year prior to the death of the donor presumed to be made in contemplation of death; likewise grant or gift made or intended to take effect on or after the death of the donor, although made more than one year prior to death, are taxable. Jointly held property, real or personal, with the right of survivorship, is a transfer incident to death and taxable. All property transferred by a decedent to any person in Class A, providing the transfer thereof to such decedent was made not more than 5 years prior to his death by another decedent such as described in Class A and a normal tax thereon was paid to the State of Kansas, shall be exempt; but this proviso does not apply to a tax paid under the provisions of Sections 79-1501a or 79-1501d. Kansas has reciprocity statute on the subject of intangibles.

Kentucky—Effective June 17, 1948, the inheritance tax law was amended to place the parent, surviving spouse, child by blood, stepchild, child adopted during infancy, or a grandchild who is the issue of a child by blood, of a stepchild or of a child adopted during infancy, in Class A; brother, sister, brother or sister of the half blood, nephew, niece, nephew or niece of the half blood, daughter-in-law, son-in-law, uncle or aunt in Class B, and all other persons not included in either of the other classes, and corporations, except educational, religious or other institutions, societies or associations, whose sole object and purpose are to carry on charitable, educational or religious work within the state, and cities and towns or public institutions in the state when the transfers are to be used for public purposes, which are exempt, are in Class C.

(Amendment effective June 1, 1942. Transfers for or in trust for educational, religious or other institutions, societies or associations whose sole object and purpose are to carry on charitable, educational or religious work and all transfers for or in trust for any city, county, state or other public agency if the said charitable, educational, religious or public activity be in some state other than Kentucky, shall be exempt if the state in which said institutions or public activity is situated levies no inheritance or estate tax on legacies for or in trust for Kentucky charitable, educational, religious or public purposes.)

Amount of tax runs from 2% to 10% on Class A; from 4% to 16% on Class B; from 6% to 16% on Class C. Exemptions—The wife or infant child by blood or a child by blood who has been declared incompetent by a court of competent jurisdiction $10,000. All other persons of Class A receive an exemption of $5,000. Those in Class B receive an exemption of $1,000; and those in Class C receive an exemption of $500. If the decedent be not a resident of the State of Kentucky, the exemptions shall be the same proportion of the allowable exemption in the case of residents that the property taxable by Kentucky bears to the whole property transferred by the decedent. The exemptions shall be subtracted from the value of the respective distributive shares before the rates are applied thereto, to determine the tax due thereon.

On the proceeds of insurance policies payable to designated beneficiaries, $20,000 in the aggregate shall be tax free. It is divided among the beneficiaries in proportion to the proceeds payable to each.

When a decedent domiciled in Kentucky at the time of death has a net estate of the fair cash value of $3,000,000 or more, such estate shall not be subject to inheritance tax, but shall be subject to an estate tax only, which shall be equal to the amount of the credit allowable for state death taxes under the applicable federal tax law.

A tax credit is allowed if property was transferred to the immediate decedent within five years, prior to the death of the immediate decedent and a tax paid on the prior transfer.

Louisiana—To direct descendants by blood or affinity, ascendant or surviving spouse in excess of $5,000, $5,000 to $20,000, 2%; over $20,000, 4%. To a collateral relation (including brothers or sisters by affinity), in excess of $1,000, on amount in excess of $1,000, $1,000 to $20,000, 5%; in excess of $20,000, 7%. To a stranger, in excess of $500; on amount in excess of $500, up to $5,000, 5%; in excess of $5,000, 10%. Exemptions—To direct descendants, ascendant or surviving spouse, $5,000; to collateral relations, $1,000; to a stranger, $500. All legacies and donations to charitable, religious or educational institutions located in State entirely exempt.

Maine—Class A. To husband, wife, father, mother, child, adopted child, stepchild, or adoptive parent or child or children of deceased child by representation, $10,000 exemption, then 2% on excess above exemption not over $50,000, thence up 6%. Class Aa, Grandparents and other lineal ancestors of remoter degrees, grandchildren and other lineal descendants of remoter degrees, wife or widow of son, or husband or widower of daughter, $500 exemption, then 2% on excess above exemption not over $50,000, thence up to 6%. Class B, brother, half brother, sister, half sister, uncle, aunt, nephew, niece, grandnephew, grandniece, first cousin, $500 exemption, then 8% on excess above exemption not over $25,000, thence up to 12%. Class C, all others except for purposes specifically exempted such as Maine charities, etc., as set forth under Section 2, $500 exemption, then 10% on excess above exemption not over $50,000, thence up to 16%. In Class B, on excess above exemption 8% on first $50,000. (Rates applicable to estates of decedents who died prior to July 26, 1941, are lower. For information write State Tax Assessor, Augusta, Maine.) The Maine law takes advantage of the 80% credit allowed under the Federal Tax Law.

Maryland—Direct, 1%; collateral, 7½% (law of 1935). The collateral applies to all distributees except parents, spouse, or lineal descendants of decedent, and except the State of Maryland, or any city or county thereof. Bequests up to $500 for perpetual upkeep of graves are also exempt. The tax is payable by the executor or administrator but out of the distributive shares. Legacies or bequests up to $100 are exempt. Effective Oct. 1, 194

s exemption increased to $150, and extends to property passing. Joint accounts in banks, lding associations and property held jointly are ed, the exemption being husband and wife not y as tenants by the entirety but as joint tenas as well. The General Assembly (1943) ended inheritance Tax laws to exclude from ation bequests to religious, charitable or edutional institutions; such exemptions apply to h the Direct tax and to the Collateral tax.

Maryland—Estate Tax—The only other inheri- tax (except the tax on commissions of an cutor or administrator). This is imposed only on ates large enough to be subject to the Federal ate Tax. The tax payable to Maryland equals amount of the credit allowable under the fed- law for taxes paid to the State.

Massachusetts—No inheritance tax on share of band, wife, father, mother, child, adopted child adoptive parent unless they receive in excess $10,000, in which case the rate is 1% on the t $10,000; 2% on next $15,000; 3% on next 000; 4% on next $50,000, 5% on next $150,000, so on up to 9% on excess over $1,000,000. ndchildren are taxable if they receive over 00 at above rates. Anybody may receive $1,000 from State inheritance tax. If brother, sishalf brother, half sister, nephew, niece, step d or step parent receive more than $1,000, enamount subject to inheritance tax: 4% on 000; 6%, next $15,000; 8% next $25,000; 10% t $50,000; 11% next $150,000, and so on to 15% excess over $1,000,000. Rates for other classes of s renge from 2% to 15%. All property subject egacy and succession taxes shall be subject to additional tax of 10% of all the taxes imed by said provisions with respect to propor interests therein passing or accruing upon death of persons who died during the period being January 1, 1935, and ending December 31, except also to an additional tax of 3% of all es beginning January 1, 1942, and continuing manently, proceeds of this tax to be paid to the Age Assistance Fund.

mounts are taxable for the "full" amount at various rates, except that the property can be reduced by taxation below $10,000 or $1,000 ectively. Death Taxes paid to the several states credited against Federal Estate Taxes up to of Federal Estate Taxes under the 1926 Fed- Act.

Michigan—Four rates—1. Beneficiaries, grandher, grandmother, father, mother, husband, child, brother, sister, wife or widow of son or band of daughter, adopted and mutually acknowledged child, provided such relationship beat or before child's 17th birthday and conued until death of such decedent, granter, etc., ny lineal descendant exempt up to $5,000; wife husband up to $30,000, with an additional 00 to the widow for each minor child to whom roperty is transferred. 2. Inheritance tax is d on the total to each beneficiary's interest ein and not to the entire estate of the decedent exemptions, at the rate of 2% on the first 00, thence up to 8% provided that that por- of the property so transferred consisting of Estate shall be taxed at ¾ of the rates speci- 3. In all other cases 10% on the first $50,000, up to 15%. 4. In the event that the total he inheritance taxes imposed by this act do equal or exceed 80% of the amount of the tax osed by the Federal Revenue Act of 1926, an itional amount to equal 80% of said tax shall added.

Minnesota—Rates and exemptions applicable in es of persons dying on or after July 16, 1937 included in 8 classes— (1) Wife, minor or dent child, minor or dependent adopted child; Adult child, adult adopted child, lineal issue of ted child, lineal descendant of decedent; (3) band, mutually acknowledged child or lineal isthereof; (4) Father, mother or other lineal ancors; (5) Brother, sister, or descendant thereof; or widow of a son, husband of a daughter; (6) le or aunt by blood or descendant thereof; (7) other relative or a stranger in blood to decea or a corporation except those included in Class hich includes the State of Minnesota or any poal division for public purposes, religious, chariscientific, educational body, cemeteries, etc., ithin the State of Minnesota, and like institu- in other States on reciprocal basis—totally pt. Other exemptions: Classes (1) $10,000; (2) (3) $5,000; (4) $3,000; (5) $1,000; (6) $250 (7) $100. Primary rates: First $15,000, in- ng exemption, 1%; next $15,000, 2%; then 00, 3%; $50,000, 3½%; next $600,000, 4% to 1% added for each $100,000 thereof); $400,000, and 11% (1% added for each $200,000 thereall over, 12%. Primary rates apply to Classes 2; for Classes 3 and 4, 1½ times the primary Class 5, 3 times; Class 6, 4 times; Class 7, es. Life insured in excess of $32,500 and gifts ntemplation of death are subject to tax.

e and accident insurance, effective April 26, exemptions: Spouse, $35,000; each child, $10,000; dependent parents, $5,000; all other beneficiaries, $1,000.

Homestead of the decedent is exempt to $30,000 when passing to a spouse or to a minor or dependent child.

Property placed in joint tenancy prior to April 29, 1935, between decedent and spouse is taxable at one-half the value of the property at the date of death; after that and to all other relationships the full value of the property is taxed; except insofar as surviving joint tenant furnished consideration.

Reasonable expenses of administration, last sickness, claims against decedent duly allowed as such, family maintenance as allowed by court, not exceeding $5,000, federal and state taxes, taxes which have accrued or are a lien on property in the estate at date of death shall be allowed as deductions in the amount allowed by probate court having jurisdiction before computing the tax. Total tax limited to 35% of property transferred.

Minnesota has an estate tax law which makes up the difference between the inheritance tax and the 80% credit allowed by the Federal Government under the 1926 act.

The state has a gift tax act which became law July 16, 1937, which provides for an annual exclusion of $2,500 for any gift, except future interest, made to any number of donees during the calendar year, in addition to the annual exclusion, the donor has an exemption for gifts made to particular donees equal to those provided for in the inheritance tax law. Gift tax rates are in all cases ¾ of the inheritance tax rates; classifications the same as for inheritance tax, except that donees of the 7th Class have no exemption. Total tax is limited to 35% of value of property in excess of exemption.

Mississippi—by the 1928 law the tax on the net estate of a decedent ranges from four-fifths of 1 per cent for estates not in excess of $50,000, to 16 per cent of the amount by which the net estate exceeds $10,000,000. For the purpose of the tax the value of the taxable estate is determined (law of 1934), in the case of a resident, by deducting $50,000 from the difference between the deductions allowed, and the gross estate.

Missouri—To husband or wife, $20,000; insane and blind lineal descendants, $15,000; lineal ancestor of descendant, adopted child or its descendant, or illegitimate child, $5,000 in exemptions. All over 1% up to 6% on over $400,000. To brother, sister, or their descendants, son- or daughter-in-law, $500; aunt, uncle or their descendants, $250; all over, 3% up to 18%. To brother or sister of grandparents or their descendants, $100; all over 4% up to 24%. To all others, including foreign, charitable and religious bequests; 5% up to 30%. If less than $100 not taxable.

Montana—Widow, exemption $17,500; rate on 1st $25,000, less exemptions, 2%; thence up to 8%. Husband, exemption, $5,000; lineal ancestor or descendant, adopted child or lineal issue of adopted child—exemption, $2,000—rates over exemption same as for widow. Brother or sister or descendant, son's wife or daughter's husband, exempt, $500—rates 4% to 16%. Uncle, aunt or first cousin, no exemption; rates, 6% to 24%, any other degree of relationship, no exemption. 8% to 32%. All property transferred for public or charitable purposes within the State, is exempt.

Nebraska—Father, mother, husband, wife, child, brother, sister, son-in-law, daughter-in-law, lineal descendant, exemption, $10,000, 1% on all excess; to uncle, aunt, niece, nephew, or their lineal descendants, exemption, $2,000, 6% to $60,000 and 9% on all excess. All others, exemption $500; 1st $5,000, 6%; to $10,000, 9%; to $20,000, 12%; to $50,000, 15%; all excess over $50,000, 18%.

In addition, jointly held property is taxable, provided the value of the joint property proportionate to the consideration furnished by the other joint tenant shall be excepted from the tax, and "if any estate includes property received by a deceased person by gift, bequest, devise or inheritance from any other person who died within 5 years prior to the death of such deceased person first mentioned, such property shall be exempt from any inheritance tax and it shall not be subject thereto."

Nevada—The State has no inheritance or tax laws. Same were repealed in 1925.

New Hampshire—All property within the jurisdiction of the state, real or personal, and any interest therein, belonging to domiciliaries of the state, and all real estate within the state, or any interest therein, belonging to persons who are not domiciliaries of the state, which shall pass by will, or by the laws regulating intestate succession, or by deed, grant, bargain, sale or gift made in contemplation of death, or made or intended to take effect in possession or enjoyment at or after the death of the grantor or donor, to any person, absolutely or in trust, except to or for the use of the husband, wife, father, mother, lineal descendant, or adopted child of a decedent, or for the care of cemetery lots, or to a city or town in this state for public municipal purposes, shall be subject to a tax of 8½% of its value, for the use of the state.

New Jersey—Effective on and after June 2, 1937. To father, mother, grandparents, husband, wife, child, grandchild, lineal descendant, adopted child and issue, mutually acknowledged child and stepchild, 1% on any amount over $5,000 and up to $50,000, and so on up to 16% on any amount over $3,700,000. To brother or sister or daughter-in-law or son-in-law, 5% on any amount up to $300,000, and so on up to 16% on any amount in excess of $2,200,000. To churches, hospitals, orphan asylums, public libraries, Bible and tract societies, religious, benevolent and charitable institutions, for religious and charitable uses and purposes as well as to institutions, 5% on any amount over $5,000. To every other beneficiary, distributee, or transferee, 8% on any amount up to $900,000, and so on up to 16% in excess of $1,700,000. To State of New Jersey, municipal corporation within State or other political division thereof, entirely exempt. The act also exempts property derived by a deceased soldier's estate from the Federal Government by reason of military service, and deems all persons to have been born in lawful wedlock.

The exemption to the widow, husband, child, lineal issue, is $5,000. A legacy of less than $500 to anyone is not taxable. By the 1929 law exemption from the inheritance tax is granted to the proceeds of life insurance policies transferred under trust deeds or agreements. All the debts and expenses are first deducted from estate before calculation of tax, so the tax would be payable out of the balance of the estate after payment of obligations.

New Jersey also has an Estate Tax Act, applying to estate of deceased residents on and after June 22, 1934, in certain cases in addition to any inheritance, succession or legacy taxes imposed by the State of New Jersey under authority of any other act or acts of that State in order to obtain the benefit of the credit allowed under the federal revenue acts pertaining to federal estate taxes.

It also applies prior to said date in those estates of descendants dying subsequent to Feb. 26, 1926, which are still in process of settlement and subject to jurisdiction of courts of probate in state and in which inheritance taxes remain unpaid.

New Mexico—To father, mother, husband, wife, lineal descendant, legally adopted child, on amount over exemption, 1%; and an additional tax of 1½% on grantee or donee on conveyances made in contemplation of death or to take effect upon death. To wife or widow of son, husband of daughter, lineal descendant, legally adopted child, brother or sister, on amount over exemption, 5%, and an additional 3% on grantee or donee on conveyances made in contemplation of death or to take effect upon death. To other kindred, strangers to the blood, corporations, volunteer associations or societies, in amount over exemption, 5%, and on additional tax on grantee or donee on conveyances made in contemplation of death or to take effect upon death. The exemptions are $10,000 in the first two classes of heirs, and $500 to the last class. Only one exemption is allowed upon the entire estate, and where passing to different classes of heirs, the exemption is prorated. Gifts of paintings, pictures, books, engravings, etc., for free exhibition within the State, and property passing to the State of subdivision thereof for public purposes, or to persons organized for charitable, etc., purposes if used within the State, entirely exempt.

New York—Resident—Under the new law, in effect Sept. 1, 1930, an exemption of $20,000 is allowed on property inherited by a husband or wife. To a lineal ancestor or descendant, adopted child, stepchild, or lineal descendant of adopted child, or stepchild, or to a brother or sister, or to the wife or widow of son, or to the husband or widower of a daughter, or to any child to whom the decedent for not less than 10 years prior to such transfer stood in the mutually acknowledged relation of a parent; provided however, such relationship began at or before the child's 15th birthday and was continuous for 10 years thereafter, the exemption is $5,000. All net estates not to exceed $2,000 after deduction of the foregoing exemptions, are exempt after March 21, 1932.

The inheritance tax on the net estate, after allowing for the exemptions is 1% on a valuation up to $150,000; 2% up to $200,000; 3% up to $300,000; 4% up to $500,000; 5% up to $700,000; and so on up to 20% of the amount by which the net estate exceeds $10,100,000.

The tax to be paid by the executor, who collects from the heirs, pro rata. Though due to death a discount of 5% is allowed if paid within 6 months.

A 1929 law, effective on Sept. 1, 1930, eliminates all distinction between the sexes and between real and personal property in so far as the descent and distribution of property are involved; abolishes dower and courtesy; prohibits a man or woman from disinheriting the surviving spouse; limits to one-half the amount of the estate (as of the date of testator's death) which may be given to charity; and gives an executor the right to sell real estate unless that right is expressly withheld in the w (does not affect wills made prior to Sept. 1, 1930

After Sept. 1, 1930, executors and trustees we able to compromise and finally pay any transf tax, the final payment of which had been awaitin the happening of some contingent event. Th privilege, of course, applies only to those estat where the contingent tax had not been finally d termined and paid, prior to Sept. 1, 1930, or wi respect to which the contingency shall not ha happened, prior to that date.

In 1931, the Legislature, on the recommend tion of the Decedent Estate Commission, shorten the period for administration and distribution estates from one year to 7 months. It made ce tain other changes in the law of estates.

North Carolina—To husband or wife, lineal iss or lineal ancestors, adopted child, also stepchil Exempt, $10,000 to widow, $5,000 to minor chil $2,000 to others of this class. Rates on excess, 1 up to 12%. To brothers, sisters, aunts and uncl of the decedent, and descendants of brothers ar sisters, but not descendants of aunts and uncle 4% up to 16%. To other inheritors more remo the rates range from 8% to 17%.

North Dakota—Estate Tax—On the net estate t tax is 2% up to $25,000 and rises gradually to 23 of the amount over $1,500,000. All insurance excess of $25,000 is included in gross estate. determining net estate deductions from gross a allowed on account of exemptions to husband wife of the amount received, not exceeding $20,00 and to each lineal ancestor or descendant th amount received, not exceeding $2,000 (if a mino $5,000). Deductions are allowed for devises or be quests to or for the use of any public institution fi exclusively public purposes, or to or for the u of any corporation, institution, society or associ tion whose sole object and purpose is to car on charitable, educational or religious work, al Federal estate taxes paid and not refunded. Stat and Federal income taxes on the income of t decedent to the date of his death.

Ohio—To wife or minor child, $5,000 exemptio on $25,000 or part thereof, over exemptions, 1% thence up to 4%. To father, mother, husban adult child, adopted child or person recognized as an adopted child and made a legal heir under th provisions of a statute of this or any other state country, or the lineal descendants thereof, or lineal descendant of an adopted child, $3,500 e emption; on $25,000 or part thereof, over exem tion, 1%, thence up to 4%. To brother, siste niece, nephew, wife or widow of a son, husba of a daughter of the decedent, or any child whom the decedent, for not less than ten yea prior to the succession stood in the mutual ac nowledged relation of a parent, $500 exemption; $25,000 or part thereof, over exemption, 5%, then up to 8%. To other persons, institutions or co porations not named in above classes, no exem tion; on $25,000 or part thereof, 7%, thence up 10%.

Oklahoma—The value of the estate shall in clude the homestead in excess of a value of $5,0 which shall pass to a surviving spouse or min child, and shall also include excess over $20,0 of the amount receivable directly, in trust, or annuities by all beneficiaries of the proceeds of li insurance by virtue of policies under which the i sured has the right to change the beneficiary e cept as to proceeds of war risk insurance, polic issued pursuant to the World War Veterans A justed Compensation Act and proceeds from pa ment of any Federal gratuity to the veteran of a War in which the United States was engaged. $15,000 personal exemption is granted an esta receivable by father, mother, wife, husband, chil adopted child or any lineal descendant of decede or such adopted child.

As amended in 1947—To the extent of the val of any interest of the decedent in any prope owned by the decedent and any other person joint tenants, tenants in common or tenants by t entirety, including funds or securities deposit with any person, corporation, bank or tru company or held in any safety box kept the beneficiary or joint survivor, except such po of said property or deposit as may be shown to ha originally belonged to such other person and ne to have been acquired by the latter from the d cedent for less than an adequate and full consider tion in money or money's worth; provided that surviving spouse's share in community prope shall not be included in the taxable estate of deceased spouse, but a full accounting pertaini to any properties claimed as community interes shall be submitted to the Oklahoma Tax Comm sion.

The rate of taxes upon the net estate and tra fers shall be at the following rates: 1% to $10,00 thence up to 10%.

In the event the State estate tax shall not equ 80% of the 1926 Federal Estate Tax, then there levied an additional tax equal to the differen

An Act amending sections of Oklahoma Statut 1941, relating to reciprocity with other States a

erritories of the United States in exempting tangible personal property from taxation for tate tax purposes; and declaring an emergency, as passed in April, 1945.

Oregon—To grandfather, grandmother, father, other, husband, wife, child, or stepchild, any eal descendant of deceased; also any person lated to the decedent by a chain of relationship. y step or steps of which are created by legal option, shall, for the purpose of this section, be nsidered as related in the same degree as ough all steps in the relationship were by nat- al blood (exemption $10,000) thereafter $10,000 $25,000, 1%; thence up to 15%. To brother, ter, uncle, aunt, niece, nephew, or lineal de- endant (exemption $1,000), additional tax, ,000 to $3,000, 1%; thence up to 20%. Additional x in all other cases, exemption $500; $500 to 00, 4%, thence up to 25%. Effective on and ter June 8, 1943.

Pennsylvania—Transfer, Inheritance Tax Act of 19, imposing a tax on the clear value of estate ssing to direct and collateral heirs. To father, other, husband, wife, children, lineal descend- ts, legally adopted children, step-children or the fe or widow of a deceased son, or from the other of an illegitimate child, 2% to all others, %; the only exemption allowed is the widow's emption of $500.

In ascertaining the clear value of such estates, e only deductions to be allowed from the gross lues of such estates shall be the debts of the cedent, reasonable and customary funeral ex- nses, bequests or devises in trust, in reasonable mounts, the entire interest or income from which to be perpetually applied to the care and preser- tion of the family burial lot or lots, their en- sures and structures erected thereon, reasonable penses for the erection of monuments or grave nes, grave and lot markers and the expenses the administration of such estates.

Rhode Island—Estates under $10,000 tax exempt ove said sum a general tax of 1% is imposed addition to the rates specified below, with an ditional tax of 2% on such portion as it may necessary to postpone the assessment of taxes posed until the beneficiaries come into posses- n of their inheritance). Tax on legacy or share distribution—To grandparent, parent, adoptive rent, husband, wife, child, son- and daughter- -law, adopted child, mutually acknowledged ild, lineal descendant, $10,000 is exempt. Rates excess are: 1% below $25,000; 2%, $25,000 to 0,000; 3%, $50,000 to $250,000; 4%, $250,000 to 00,000, 5%; $500,000 to $750,000; 6%, $750,000 $1,000,000, then 7% on all over $1,000,000. To pchild, stepparent, brother, sister, whole or half od, nephew, niece, $5,000 is exempt. Rates on ess are: 2% below $25,000 3%, $25,000 to $50,- 0; 4%, $50,000 to $250,000; 5%, $250,000 to $500,- 0; 6%, $500,000 to $750,000; 7%, $750,000 to $1,- 0,000; thence 8% on all over $1,000,000. To others re remote, $1,000 is exempt and rates on excess 5% up to $25,000; 6%, $25,000 to $50,000; 7%, 0,000 to $250,000; 8%, $250,000 to $500,000; 9%, 00,000 to $750,000; 10%, $750,000 to $1,000,000; % above $1,000,000. Bequests to corporations ex- pt by charter or by general laws are exempt un- r inheritance tax law.

An additional tax is imposed on the transfer of estates, conformably with the Federal Estate x credit provision, at classified rates, beginning th 1.04% on estates over $250,000 and ranging 14.92% on estates over $10,000,000.

South Carolina—To husband, wife, minor child, nor grandchild, adult child, adult grandchildren, ther or mother, on amount in excess of exemp- n, up to $20,000, 1%; thence up to 6%. To eal ancestor, lineal descendant (other than ove), brother, sister, uncle, aunt, niece, nephew, e or widow of son, or husband of daughter, on ount in excess of exemption, up to $20,000, 2%; ence up to 7%. To any other beneficiary, double ove rates, viz., 4% to 14%. Exemptions—Hus- d or wife, $10,000; minor child, $7,500; adult ld, father or mother, $5,000; lineal ancestor or scendant, brother, sister, uncle, aunt, grand- ld, etc., $500; any other beneficiary, $200. De- es or bequests for educational, religious or pub- charities in this State, or for city or town for blic purposes, entirely exempt.

South Dakota—Primary rates: To (1) Wife or eal issue and adopted or mutually acknowl- ged child; $10,000 exemptions, then tax from 1% 4% for over $100,000; (2) husband, lineal an- tors, husband $10,000, others $3,000 exemptions, en tax from 2% to 8%; (3) brothers, sisters and scendants of either; wife or widow of a son or sband of a daughter; $500 exemptions, then tax m 3% to 12% for over $100,000; (4) brother or ter of father or mother, or descendant of ther or sister of father or mother of descendant; 0 exemptions, then tax from 4% to 16%; (5) sons in other degrees of collateral consangui- strangers in blood and bodies politic or cor- ate; $100 exemptions, then tax from 5% to 20%. ll property transferred to public corporations hin the state for strictly county, town or munici- pal purposes, is exempt. All property transferred to South Dakota charitable, educational or religious institutions is exempt. Transfers to fraternal or benevolent institutions are taxable.

Tennessee—To husband, wife, son, daughter, lineal ancestor or lineal descendant, legally adopted child and lineal descendant of such adopted child, from $10,000 to $25,000, 1%, thence up to 7%. (A maximum single exemption of $10,000 against that portion of the net estate distributable to one or more of the beneficiaries of this class is allowed.) To any other relative, person, association or corporation, from $1,000 to $50,000, 5%, thence up to 15%. (A Maximum single exemption of $1,000 against that portion of estate distributable to one or more beneficiaries of this class is allowed, provided no exemption is allowed against the estate of a non-resident decedent and no exemption or deduction shall be made on account of dower or courtesy.) In the case of estates of non-residents, the exemption shall be apportioned in the ratio that the value of the property included in the gross estate, to-wit, property, the transfer of which is subject to the tax imposed hereby, bears to the value of all the property that would have been included in the gross estate if the decedent had been a resident of this State; provided that, in any event, such proportionate part of the exemption shall not be less than is permitted by the Constitution of the United States.

Texas—To husband or wife direct, or any direct lineal descendant of husband, or any direct lineal descendant of husband or wife, or any direct lineal descendant or ascendant of the decedent, or to any adopted child of decedent or to husband of daughter, or wife of son, an exemption of $25,000, and a graduated tax of 1% to 6%. If to religious, educational or charitable organizations in State, bequest to be used within State, all is exempt. If to a governmental unit, National or State, it is the same as to husband or wife, provided any bequest to the U. S. be spent in the State of Texas. To brother or sister of decedent or lineal descendant of such, in excess of $10,000, tax from 3% to 10%. To uncle or aunt of decedent or descendant of such, in excess of $1,000, tax from 4% to 15%. To any other person or organization tax of from 5% to 20%, beginning at $500. Bequests to persons not related to the deceased are subject to the tax even if the bequest is to be used in the State (1931 Amendment). The Legislature in 1933 passed an act effective August 31, 1933, taxing estates to the extent of 80% of the Federal Estate Tax (1926 Federal Revenue Act) which are exempt on account of the net estate not exceeding in amount the total exemptions allowed. This new statute also provides for an additional tax on estates previously taxed in an amount equal to the difference between the sum of such taxes due or paid the State and 80% of the total sum of the Federal Estate Tax.

Utah—A tax equal to the sum of the following percentages of the market value of the net estate shall be imposed upon the transfer of the net estate of every decedent, whether a resident or nonresident of the state:

(1) 3% of amount by which net estate exceeds $10,000 and not to exceed $25,000, except where property not exceeding in value the sum of $40,000 goes to husband, wife and/or children of deceased or any or all of them by descent, devise, bequest or transfer directly or through a trustee, then in such case the exemptions shall be the amount so going not to exceed $40,000;

(2) 5% of amount by which net estate exceeds $25,000 and does not exceed $75,000 except where property not exceeding in value the sum of $40,000 goes to the husband, wife and/or children of deceased or any or all of them by descent, devise, bequest or transfer directly or through a trustee, then in such case the exemptions shall be the amount so going not to exceed $40,000, but on the excess of $40,000 the rate shall be as herein provided: 8% of the amount by which net estate exceeds $75,000 and does not exceed $125,000, 10% of amount by which net estate exceeds $125,000; provided, at the discretion of the Tax Commission, the taxpayer may choose to pay in kind on an estate or any portion thereof which is not liquid.

Vermont—To husband, wife, child, father, mother or grandchild, wife or widow of a son or husband of a daughter, child adopted during minority, child of a stepchild or of such adopted child, or other lineal descendant, no tax unless legacy or share exceeds $10,000; between $10,000 and $25,000, 1%; thence up to 5%. To all others 5% of the value in money of such legacy or distribution share. Exemptions: a bishop in his ecclesiastical capacity for religious uses, or a city, town or other municipal corporation for public, charitable, educational or cemetery purposes, or a charitable or religious society or institution that shall receive in trust or otherwise a legacy or distributive share consisting of or arising from real estate or personal, or any interest therein, owned by such decedent at the date of his death.

Virginia—The State inheritance tax law was amended in 1926 to correspond to the rates in the

Federal Revenue Act of 1926, by providing that the minimum inheritance tax imposed shall, in no case be less than 80% of the tax imposed by the act of Congress.

The rates of inheritance tax to father, mother, grandfathers, grandmothers, husband, wife, children by blood or by legal adoption, grandchildren, and all other lineal ancestors and lineal descendants of the decedent (exemption, $5,000) is 1% on up to $50,000 of the devise, and rises to 5% on the excess over $1,000,000. Brothers, sisters, nephews, nieces of the whole or half blood of decedent, get $2,000 exemption and the rates vary from 2% to 10%. Other beneficiaries get $1,000 exemption each, and the rates vary from 5% to 15%.

Washington—This is a community-property state, and hence one-half of the estate, after debts and expenses are paid, is set over to the surviving spouse without tax. There is also a class exemption of $5,000 in the net value of an estate passing to grandfather, grandmother, father, mother, husband, wife, child, or step-child, adopted child, or a lineal descendant of any adopted child, son-in-law, daughter-in-law, or lineal descendant of decedent, plus an additional exemption of $5,000 for surviving spouse and $5,000 for each living child born prior to death of decedent, stepchild or adopted child. The rate of tax from 1% to 10%; $1,000 class exemption in an estate passing to any brother or sister of decedent. Rate from 3% to 20%; all others without exemption, with rate from 10% to 25%. Estate passing to certain charitable and religious organizations are exempt.

West Virginia—The tax rates on amounts not exceeding $50,000 to each beneficiary, wife, husband, child, stepchild, descendants of child, father or mother of decedent, 3%; to brother or sister including those of half blood, 4%; to those further removed in relationship from decedent than brother or sister, 7%; to those of no blood relationship, stranger, institutions, corporate or otherwise, 10% of net market value of property received. The tax rates range from 3% to 30%, according to the degree of relationship and the size of inheritance. Exemptions—Property transferred to State, County, school district or municipality thereof for public purposes; property transferred in trust for use solely for educational, literary, scientific, religious or charitable purposes if used exclusively within the State. Under the law as amended a widow or widower (effective June 7, 1945) receives a flat $15,000 exemption; a child, step-child, father or mother each receives $5,000 exemption, descendants of any child together receive a flat $5,000 exemption. Exemptions are individual and no beneficiary may claim any benefit of the exemption of another.

Wisconsin—Tax of 2% to husband, wife, lineal descendants, lineal ancestors, adopted child, and lineal issue thereof; to brothers, sisters and their descendants, wife or widow of son, or husband of daughter. To uncles, aunts or their descendants, 6%. To all others, 8%. When the estate is above $25,000 the above rates are multiplied as follows: $25,000 to $50,000, 2 times on excess; $50,000 to $100,000, 3 times on excess; $100,000 to $500,000, 4 times on excess; above $500,000, 5 times on excess. But no such tax, however, shall exceed 15% of the property transferred to any beneficiary. Moreover, the figures as to multiplication of tax refer to each separate beneficiary and not to the estate as a whole. Under an Emergency Relief Act, applicable from March 27, 1935, to July 1, 1937, a tax was imposed equal to 25% of the excess of $100 of the normal inheritance tax on each transfer. This Relief Tax was extended to July 1, 1939, but was amended by the special session of the legislature for 1937, which amendment became effective as to the estates of all decedents who may die on or after Oct. 21, 1937, and prior to July 1, 1941. This amendment eliminated the $100 and changed the rate from 25% to 30%. The emergency tax, now 30% of the normal tax, has been extended to July 1, 1949. Exemptions—$5,000 to husband, $15,000 to widow, $2,000 to brothers, sisters and descendants, husband of daughter, wife or widow of son, lineal descendants or ancestors, and lesser amounts to other relatives, down to $100 exemptions to strangers in blood.

Wyoming—Husband, wife, parent, child, adopted child or adopted parent, brother or sister—exempt, $10,000; over exemption 2%; grandparents, grandchild, half-brother, half-sister, exemption $5,000; over exemptions, 4%. All other excepting charitable, etc.—no exemptions, 6%. Gifts for state, municipal, charitable, educational or religious purposes or to any institution for use in the preservation of wild fowls or game or proceeds of insurance policies payable to named beneficiaries other than insured's estate, entirely exempt.

Trade-Mark Law

Source: United States Patent Office

Trade-marks may be protected in the United States in one of the following four ways: (1) The owner may rely on common law protection regardless of any registration of his mark either under the various state laws or under the Federal law. Common law rights are acquired by priority of adoption and use of a mark and will be protected against infringement and unfair competition even in the absence of registration. (2) In addition to relying on common law protection, the owner of a trade-mark may seek registration in the so-called "principal register" of the Federal Trade-Mark Act of July 5, 1946 (hereinafter referred to as the "Lanham Act") which became effective on July 5, 1947. The text of this Act and the Rules and Regulations of the Patent Office with regard thereto may be obtained from the Government Printing Office or the Patent Office. Under this recently enacted law, numerous important benefits will be secured which are not available to trade-marks not registered under this Act. Under the Lanham Act, a mark registered on the principal register may, after five years of continuous use, become "incontestable" (subject to certain limitations and exceptions) thereby establishing the registrant's exclusive right and title to the mark conclusively. Furthermore, such registration constitutes "constructive notice," so that no one may in good faith acquire a right to the same or a similar mark subsequent to the date of registration.

In order to be registrable on the principal register of the Lanham Act, the following requirements must be met: (a) The mark must be used "in commerce," that is, commerce within the control of Congress. Marks used on a purely local basis may be protected under state laws but do not come within the scope of Federal legislation. (b) The mark must be in actual use at the time of application, either on merchandise or on displays associated with merchandise. Use in advertising alone is not sufficient. (c) The mark must not come within certain enumerated statutory prohibitions. It must not contain immoral or scandalous matter, it must not be primarily merely geographical or primarily merely a surname, and it must not be descriptive or misdescriptive of the goods of the applicant. The name or portrait of a living individual is registrable only with such person's written consent. Special legislation prohibits registration of the Red Cross, the White Cross, the Boy Scouts and other emblems; national insignia also cannot be registered.

The new Act in one of its most important provisions (2(f)) makes registrable on the principals register even geographical or descriptive words or surnames provided they have acquired distinctiveness or a so-called "secondary meaning." The new law also for the first time provides for registration of so-called "service marks," i.e., marks used by dry cleaners, railroads, insurance companies, etc., to indicate their services rather than merchandise made by them. So-called "certification marks" and "collective marks" are also registrable under the new Act.

(3) If registration on the principal register of the Lanham Act is not available, registration may be secured on the "supplemental register" which is a continuation of a register first created by an Act of 1920. Registration on this register is intended to serve as a basis for registration abroad and has little domestic value. Under the new Act labels, packages and configurations of goods may be registered on the supplemental register. (Commercial labels and advertisements are copyrightable as such at the Library of Congress.) (4) In addition to Federal registration laws, there exist trade-mark registration statutes in almost all of the forty-eight states. These laws cover a wider variety of business devices and usually provide for criminal remedies for willful infringement. Many of these state laws permit registration of marks before they are actually in use, while Federal registration may not be applied for before the mark is used in commerce.

The United States is a member to two International Conventions: The Paris Convention for the Protection of Industrial Property as last revised in London in 1934 and the Washington Pan-American Convention of 1929. Under these two Conventions, the contracting countries committed themselves to grant broad protection against unfair competition and trade-mark infringement to their respective citizens and residents. The Lanham Trade-Mark Act of 1946 carries out these commitments and greatly enlarges the protection of trade-marks and trade names in the international sphere.

The United States Immigration Law

Source: The Federal Statutes, Regulations prescribed thereunder, and Executive Orders

President Roosevelt on June 3, 1941, signed an ecutive order in connection with the Passport t of May 22, 1918. The order provides that nimmigrants must present unexpired passports official documents in the nature of passports ued by the governments of the countries to ich they owe allegiance or other travel docu- nts showing their origin and identity as pre- ibed in regulations issued by the Secretary of te, and valid passport or other nonimmigrant as.

mmigrants must present unexpired passports, or icial documents in the nature of passports, issued the governments of the countries to which they e allegiance, or other travel documents showing eir origin and identity, prescribed in regulations ued by the Secretary of State, and valid immi- ation visas granted by the consular officers of the ited States in accordance with the requirements the Immigration Act of 1924 and the regulations ued thereunder.

The Secretary of State is authorized to define es of emergency in which the passport and a requirements may be waived for both immi- nt and nonimmigrant aliens.

GENERAL PROVISIONS

The general provisions of the Federal immigra- n laws, applicable to documents and quotas, are, brief, as follows:

Applications for visas are made to American nsuls abroad. The consuls must reject applica- ns presented by aliens who, because of moral, ntal, physical, or other unfitness are within the sses excluded from the United States under the migration laws.

t is the duty of United States consular officers each foreign country to see that the quota is exceeded. The Consular service is under the partment of State.

y the President's Proclamations of April 28, 8, February 8, 1944, September 28, 1945, and y 4, 1946, issued under the Immigration Act of 4, as amended, quotas were fixed that specify the mber of aliens who may enter the United States m each of the foreign countries. These quotas mit 153,929 immigrants to enter the United tes yearly.

The quota does not apply to Canada, Mexico, or dependent countries of Central and South erica. Natives of those countries can come hout quota restriction.

f an alien obtains a quota immigration visa d later changes his mind about emigrating, his ce cannot be taken by another.

Members of races ineligible to citizenship are luded from entering the United States as im- grants, unless they come as returning lawful idents, ministers, or professors (including the ves and children under 18 years of age of minis- s and professors). Students are also admitted immigrants, but only for limited periods. The ial restrictions are not applicable to nonimmi- nts who seek to come to the United States for temporary purpose, and they may be permitted enter under certain conditions.

Possession of the required documents is not a arantee that the holder will be allowed to enter United States. The question of admissibility not finally be determined until the alien actu- applies for admission at a port of entry to the ited States and is inspected by officers of the ited States Immigration and Naturalization vice. That organization is in the Department Justice.

IMMIGRANTS AND NONIMMIGRANTS

Aliens entering the United States are divided o three classes, quota immigrants, nonquota migrants, and nonimmigrants. Only quota im- grants are subject to the quota restrictions.

A nonquota immigrant is:

(a) An immigrant who is the unmarried child er 21 years of age, or the wife, of a citizen, or husband of a citizen of the United States by arriage occurring prior to Jan. 1, 1948.

(b) An immigrant who was born in Canada, wfoundland, Mexico, Cuba, Haiti, Dominican public, Canal Zone, or an independent country Central or South America, and his wife, and unmarried children under 18 years of age, if ompanying or following to join him.

The nonquota status described in paragraph or paragraph (b) next above, is not applicable an alien who is ineligible to citizenship, nor to sons of a race indigenous to India, nor to nese persons who are not Chinese wives of erican citizens.

(c) An immigrant previously lawfully admitted the United States, who is returning from a porary visit abroad.

(d) An immigrant who continuously for at least years immediately preceding the time of his application for admission to the United States has been, and who seeks to enter the United States for the purpose of, carrying on the vocation of minister of any religious denomination or professor in any college, academy, seminary, or university, and his wife and unmarried children under 18 years of age, accompanying or following to join him;

(e) A woman who was a citizen of the United States and lost her citizenship by reason of her marriage to an alien, or the loss of United States citizenship by her husband, or by marriage to an alien and residence in a foreign country, and who has acquired no other nationality by affirmative act other than by such marriage;

(f) An immigrant who is a bona fide student within the meaning of Sec. 4(e) of the Immigration Act of 1924, at least 15 years of age, and who seeks to enter the United States solely for the purpose of study;

(g) An immigrant, who was a citizen of the United States and also a national of a foreign state, who lost his citizenship of the United States under section 401(c) of the Nationality Act of 1940 (54 Stat. 1169; 8 U. S. C. 801(c)) and who claims that he is entering the United States for the purpose of reacquiring his citizenship.

(h) Any citizen of the Philippines who actually resided in the United States for a continuous period of 3 years during the period of forty-two months ending Nov. 30, 1941, if entering the United States during the period from July 4, 1946, to July 3, 1951, both dates inclusive, for the purpose of resuming residence in the United States; and his wife, if a citizen of the Philippines or eligible to United States citizenship, and his unmarried children under 18 years of age, if such wife or children are accompanying or following to join him during such period.

(Paragraphs (c), (d), (e), (f), and (g) apply to an immigrant regardless of his race.)

A nonimmigrant is:

(1) An accredited official of a foreign government recognized by the Government of the United States, his family, attendants, servants, and employees;

(2) An alien visiting the United States temporarily as a tourist or temporarily for business or pleasure;

(3) An alien in continuous transit through the United States;

(4) An alien lawfully admitted to the United States who later goes in transit from one part of the United States to another through foreign contiguous territory.

(5) A bona fide alien seaman serving as such on a vessel arriving at a port of the United States and seeking to enter temporarily the United States solely in the pursuit of his calling as a seaman;

(6) An alien entitled to enter the United States solely to carry on trade between the United States and the foreign state of which he is a national under and in pursuance of the provisions of a treaty of commerce and navigation, and his wife, and his unmarried children under twenty-one years of age, if accompanying or following to join him; and

(7) A representative of a foreign government in or to an international organization entitled to enjoy privileges, exemptions and immunities as an international organization under the International Organizations Immunities Act, or an alien officer or employee of such an international organization, and the family, attendants, servants and employees of such a representative, officer, or employee.

A quota immigrant is any other than a nonquota immigrant or a non-immigrant.

EXCLUDED CLASSES

The following are among the classes of aliens excluded from admission into the United States:

(1) All idiots, imbeciles, feeble-minded persons, epileptics, insane persons; persons of constitutional psychopathic inferiority; persons with chronic alcoholism; paupers; professional beggars, vagrants, persons likely to become a public charge, persons afflicted with tuberculosis in any form or with a loathsome or dangerous, contagious disease; persons who are found to be and are certified by the examining surgeon as being mentally defective or physically defective to an extent affecting ability to earn a living; persons who have departed from the jurisdiction of the United States for the purpose of evading or avoiding training or service in the armed forces of the United States during time of war or during a period declared by the President to be a period of national emergency; persons who have been convicted of or admit the commission of offenses involving moral turpitude; polygamists.

(2) Anarchists; aliens who the Attorney General knows or has reason to believe seek to enter the

United States for the purpose of engaging in activities which will endanger the public safety of the United States; aliens who believe in or advocate the overthrow by force or violence of the Government of the United States or of all forms of law or who disbelieve in or are opposed to organized government, or who advocate the assassination of public officials, or who advocate or teach the unlawful destruction of property; prostitutes, or persons coming for the purpose of prostitution or for any other immoral purpose.

Applying for Re-admission

(3) Contract laborers who have been induced, assisted, encouraged, or solicited to migrate to this country by offers or promises or employment, skilled or unskilled; persons who have been excluded from admission and deported in pursuance of law, and who may again seek admission within one year from the date of such deportation, unless prior to their re-embarkation at a foreign port or their attempt to be admitted from foreign contiguous territory the Attorney General shall have consented to their reapplying for admission.

Persons whose ticket or passage is paid for with the mony of another, unless such persons do not belong to one of the foregoing excluded classes; persons whose ticket or passage is paid for by any corporation, association, society, municipality, or foreign government; stowaways, except that any such stowaway, if otherwise admissible, may be admitted in the discretion of the Attorney General; all children under sixteen years of age unaccompanied by or not coming to one or both of their parents, except that any such children may be admitted if they are not likely to become a public charge and are otherwise eligible.

(4) With certain exceptions (see "GENERAL PROVISIONS"), Asiatics, Pacific Islanders and other aliens ineligible to United States citizenship. Included in such ineligible classes, regardless of race, are certain deserters from the armed forces of the United States, and certain nationals of neutral countries who applied for relief from liability for training and service under the Selective Training and Service Act of 1940. (Persons of a race indigenous to the Philippine Islands or India and Chinese persons are not racially ineligible to citizenship.)

(5) Aliens who have been arrested and deported in pursuance of law, as distinguished from persons excluded and deported, regardless of when such deportation occurred. They cannot land even as seamen, except to go to a hospital. Such aliens, however, may be given permission by the Attorney General to reapply for admission after they have remained out of the United States for at least one year from the date of deportation.

(6) Persons who previously resided in the United States and fell into distress or needed public a and who were removed from the United States to foreign country at the expense of the Feder Government after May 13, 1937. Such aliens, how ever, may be admitted if their readmission h been approved by the Secretary of State and A torney General.

(7) All aliens over 16 years of age who canno read the English language or some other langua or dialect, including Hebrew or Yiddish, with t following exceptions:

(a) Persons who are physically incapable reading.

(b) Any admissible alien or any alien heretofo or hereafter legally admitted, or any citizen of t United States may bring in or send for his fathe or grandfather, over 55 years of age, his wife mother, his grandmother, or his unmarried widowed daughter, who, if otherwise admissibl may be admitted whether such relative can rea or not.

Asylum for Persecuted

(c) Persons seeking admission to avoid religio persecution in the country of their last permane residence.

(d) Persons previously residing here who we lawfully admitted, resided continuously herein f 5 years, and return hereto, within 6 months fro the date of their departure.

(e) Persons in transit through the United State

(f) Persons lawfully admitted and who later in transit through foreign contiguous territo (the period an alien may remain in foreign co tiguous territory while in transit under this ex emption shall be limited to 60 days; an alien ma leave and enter at the same port and still be transit within the meaning hereof).

(g) Exhibitors and employees of fairs and ex positions authorized by Congress.

(h) Persons whose legal domicile or bona fi residence was in Canada, Newfoundland, Cub or Mexico for at least one year immediately pre ceding entry and who enter the United States tem porarily for business or pleasure for a period n exceeding one year.

Skilled labor, if otherwise admissible, may b imported if labor of like kind unemployed canno be found in this country.

The provisions of law applicable to contra labor shall not be held to exclude professiona actors, artists, lecturers, singers, nurses, ministers professors, persons belonging to any recognize learned profession, or domestic servants.

Violations of an immoral-women clause a punishable, on conviction, by imprisonment up ten years and a fine up to $5,000. Violations of contract-labor clause are punishable, on conviction by $1,000 fine in each case and (or) imprisonmen up to two years. Violations of an Anarchist clau are punishable by imprisonment up to five year

Passport Regulations

Source: United States Department of State

A person applying for a passport, or for the renewal or amendment of a passport, should name the countries he intends to visit and the object of his visit to each country. Passports may be issued in foreign countries by American consular officers and in an outlying possession of the United States by the chief executive.

As provided by reciprocal agreements, nonimmigrant visa fees have been waived as between the United States and Argentina, the Bahama Islands, Barbados, Belgium, Belgian Congo, Bermuda, Brazil, Canada, Colombia, Costa Rica, Cuba, Denmark, the Dominican Republic, Ecuador, El Salvador, Finland, France, Great Britain and Northern Ireland, Guatemala, Haiti, Honduras, Hungary, Iceland, Iran (Persia), Italy, Liberia, Liechtenstein, Luxemburg, Netherlands, Nicaragua, Newfoundland, Norway, Panama, Peru, Siam, Sweden, and Switzerland.

A person who is entitled to receive a passport, if within the United States, must submit a written application made before a clerk of the Federal court or a State court authorized to naturalize aliens, or before a passport agent.

(a) Photographs—The application must be accompanied by duplicate photographs not more than 3 by 3 inches and not less than 2½ by 2½ inches in size, unmounted, printed on thin paper on a light background, showing the full front view of the features of the applicant, and taken within six months of the date they are submitted. Snapshot, newspaper, magazine or full-length photographs will not be accepted.

(b) Witness—The application must be supported by an affidavit of at least one credible witness, who has known the applicant at least two years. In cases of persons who have not previously obtained passports, the applicant or the witness must be known to the clerk of court or passport agent, or must be able to establish identity by documentary evidence, otherwise the applicant must be required to obtain as a witness an American citizen having his place of business within the jurisdiction of th court or the passport agency.

The witness, in signing the application, shou state the nature of his profession or business an his professional or business address.

Native-Born Americans

A person born in the United States in a pla where official records of birth were kept at th time of his birth must submit with the applicatio a birth certificate under the seal of the offici custodian of birth records. A certificate must sho the date and place of birth and that the recor was made at the time of birth or shortly thereafte If a birth certificate is not obtainable, that fa should be shown, and the application should b supported by a baptismal certificate or a certifie copy of the record of baptism under the seal of th church in which the applicant was baptized, giv ing the date and place of birth, the date of bap tism, and the date on which the record of baptis was made. A baptismal certificate must show tha the baptism occurred within a short time aft the date of birth. If birth and baptismal cer tificates are not obtainable, an affidavit of th parent or of the physician, nurse, or midwife wh attended the birth, or the affidavit of a reputabl person having sufficient knowledge to be able t testify as to the place and date of the applicant birth may be accepted.

In the case of a person born abroad prior to noo E.S.T. May 24, 1934, whose father was at the tim a citizen and had previously resided here before the birth of his child, his application should b accompanied by evidence of his father's America citizenship.

Persons born abroad after May 24, 1934, and prio to Jan. 13, 1941, of an American mother or father who had previously resided here may submit evi dence of the citizenship of either of their parents A child born abroad after Jan. 13, 1941 of parent one of whom is a citizen of the United States an the other of whom is an alien must show that hi

merican parent has had ten years' residence in
e United States or one of its outlying possessions,
least five of which were after attaining the age
16 years. Such child, whether born between May
1934 and Jan. 13, 1941, or on and after the
ter date, must reside in the United States or its
lying possessions for a period or periods total-
five years between the ages of 13 and 21 years.

Naturalized Citizens

naturalized citizen must transmit his certificate
naturalization, with his application. It will be
urned to him after inspection. He must state in
application when he emigrated, where he has
ed since his arrival, when and before what
rt he was naturalized, and that he is the iden-
al person described in the certificate.
woman applicant should state whether she
ever been married. A married woman should
her own given name with the family name
her husband.
a person who is a national of the United States,
not a citizen thereof, must state that he owes
egiance to the United States and that he does not
nowledge allegiance to any other government,
must submit evidence in support of his claim.
nder the Act of May 16, 1932, passports are
id for two years from date of issue unless limited
to a shorter period, but may be renewed for a period of two years upon payment of a fee of $5.

Passports will be issued by consuls abroad to the classes of persons mentioned below:

(a) To native citizens, to whom departmental passports have been issued or who have been included in departmental passports subsequent to Jan 3, 1918, and to native citizens who are identified by service passports.

(b) To native and naturalized citizens, whose registration at a consulate is valid at the time when the application for a passport is filed.

(c) To citizens not included in the classes named above, in certain emergency cases.

There are certain instances, such as those mentioned below, in which consuls are not allowed to issue passports, unless specifically authorized by the Department of State:

(d) Persons who claim American citizenship, but who have never established their claims or whose claims are open to doubt. This class will include, among others:

1. Those persons who claim citizenship by birth in the U. S. and who adduce evidence in proof of their claims, which requires verification.

2. Those who claim citizenship by birth but who possess dual nationality and whose claims are of doubtful validity.

Law Defining United States Nationals and Citizens

Source: United States Department of Justice

nder the Act approved Oct. 14, 1940, effec-
e January 13, 1941, as amended, the following
sons are considered nationals and citizens of the
ited States.

ec. 201. The following shall be nationals and
zens of the United States at birth:

a) A person born in the United States and sub-
to the jurisdiction thereof:

b) A person born in the United States to a
mber of an Indian, Eskimo, Aleutian, or other
riginal tribe: Provided, That the granting of
zenship under this subsection shall not in any
ner impair or otherwise affect the right of such
son to tribal or other property;

c) A person born outside of the United States
l its outlying possessions of parents both of
om are citizens of the United States and one of
om has resided in the United States or one of
outlying possessions, prior to the birth of such
son:

d) A person born outside of the United States
l its outlying possessions of parents one of whom
citizen of the United States who resided in the
ited States or one of its outlying possessions
or to the birth of such person, and the other of
om is a national, but not a citizen of the United
tes:

e) A person born in an outlying possession of
United States of parents one of whom is a
zen of the United States who resided in the
ited States or one of its outlying possessions
or to the birth of such person:

f) A child of unknown parentage found in the
ted States, until shown not to have been born
the United States:

g) A person born outside the United States and
outlying possessions of parents one of whom is
citizen of the United States who, prior to the
h of such person, has had ten years' residence
the United States or one of its outlying posses-
s, at least five of which were after attaining
age of sixteen years, the other being an alien:
vided, That, in order to retain such citizenship,
child must reside in the United States or its
ying possessions for a period or periods totaling
years between the ages of thirteen and twenty-
years: Provided further, That, if the child has
taken up a residence in the United States or
outlying possessions by the time he reaches the
of sixteen years, or if he resides abroad for
h a time that it becomes impossible for him to
plete the five years' residence in the United
es or its outlying possessions before reaching
age of twenty-one years, his American citizen-
shall thereupon cease.

Citizen Born Abroad

he preceding provisos shall not apply to a child
abroad whose American parent is at the time
he child's birth residing abroad solely or prin-
lly in the employment of the Government of
United States or a bona fide American, educa-
al, scientific, philanthropic, religious, commer-
or financial organization, having its principal
e or place of business in the United States, or
international agency of an official character in
h the United States participates, for which he
ives a substantial compensation:

h) The foregoing provisions of subsection (g)
erning retention of citizenship shall apply to
child born abroad subsequent to May 24, 1934.

i) A person born outside the United States and
outlying possessions of parents one of whom is
citizen of the United States who has served or
ll serve honorably in the armed forces of the United States after December 7, 1941, and before the date of the termination of hostilities in the present war as proclaimed by the President or determined by a joint resolution by the Congress and who, prior to the birth of such person, has had 10 years' residence in the United States or one of its outlying possessions, at least five of which were after attaining the age of 12 years, the other being an alien: Provided, That in order to retain such citizenship, the child must reside in the United States or its outlying possessions for a period or periods totaling 5 years between the ages of 13 and 21 years: Provided further, That, if the child has not taken up a residence in the United States or its outlying possessions by the time he reaches the age of 16 years, or if he resides abroad for such a time that it becomes impossible for him to complete the 5 years' residence in the United States or its outlying possessions before reaching the age of 21 years, his American citizenship shall thereupon cease.

Puerto Rico and Panama

Sec. 202. All persons born in Puerto Rico on or after April 11, 1899, subject to the jurisdiction of the United States, residing on the effective date of this Act in Puerto Rico or other territory over which the United States exercises rights of sovereignty and not citizens of the United States under any other Act, are hereby declared to be citizens of the United States.

Sec. 203. (a) Any person born in the Canal Zone on or after February 26, 1904, and whether before or after the effective date of this Act, whose father or mother or both at the time of the birth of such person was or is a citizen of the United States, is declared to be a citizen of the United States.

(b) Any person born in the Republic of Panama on or after February 26, 1904, and whether before or after the effective date of this Act, whose father or mother or both at the time of the birth of such person was or is a citizen of the United States employed by the Government of the United States or by the Panama Railroad Company, is declared to be a citizen of the United States.

Sec. 204. Unless otherwise provided in Section 201, the following shall be nationals, but not citizens, of the United States at birth:

(a) A person born in an outlying possession of the United States of parents one of whom is a national, but not a citizen, of the United States;

(b) A person born outside the United States and its outlying possessions of parents both of whom are nationals, but not citizens, of the United States, and have resided in the United States or one of its outlying possessions prior to the birth of such person;

(c) A child of unknown parentage found in an outlying possession of the United States, until shown not to have been born in such outlying possession.

Sec. 205. The provisions of Section 201, subsections (c), (d), (e), and (g), and section 204, subsections (a) and (b), hereof apply, as of the date of birth, to a child born out of wedlock, provided the paternity is established during minority, by legitimation, or adjudication of a competent court.

In the absence of such legitimation or adjudication, the child, whether born before or after the effective date of this Act, if the mother had the nationality of the United States at the time of the child's birth, and had previously resided in the United States or one of its outlying possessions, shall be held to have acquired at birth her nationality status.

Copyright Law of the United States

Source: U S. Copyright Office

The copyright law provides that the application for registration of any work "shall specify to which of the following classes the work in which copyright is claimed belongs":

(a) Books including composite and cyclopaedic works, directories, gazetteers and other compilations; **(b)** periodicals, including newspapers; **(c)** lectures, sermons, addresses, prepared for oral delivery; **(d)** dramatic or dramatico-musical compositions; **(e)** musical compositions; **(f)** maps; **(g)** works of art, models or designs for works of art; **(h)** reproductions of a work of art; **(i)** drawings or plastic works of a scientific or technical character; **(j)** photographs; **(k)** prints and pictorial illustrations including prints or labels used for articles of merchandise; **(l)** motion picture photoplays; **(m)** motion pictures other than photoplays.

Works reproduced in copies for sale or public distribution. 1. Publish the work with the copyright notice. The notice may be in the form "Copyright, 19.... (year date of publication), by .....(name of copyright proprietor)," or in the case of works specified above (f) to (k) the notice may consist of the letter C inclosed in a circle © accompanied by the initials, monogram, mark or symbol of the proprietor—provided that his name shall appear on some accessible part of the copies. 2. Promptly after publication send to the Copyright Office, Library of Congress, Washington, D. C., two copies (or if the work is by a foreign citizen and is first published in a foreign country, one copy only) of the best edition of the work, with an application for registration and $4 registration fee.

Books by American authors, or permanent residents of the United States. The copies deposited must be accompanied by an affidavit, under the official seal of an officer authorized to administer oaths, stating that the typesetting, printing and binding of the book have been performed within the United States. Affidavit and application forms will be supplied by the Copyright Office on request.

Works published outside of the United States. Public Law 84, effective as of June 3, 1949, contains the following provisions: 1. It offers an alternative to the requirement of the deposit of one copy of the work, an application for registration and a $4 fee. The alternative is the deposit of two copies of the book, musical composition or other work, an application and a catalog card, but no fee. Regulations relating to the catalog card will be issued. The alternative can be availed of only if the required items reach the Copyright Office in acceptable form within 6 months after first publication. 2. It extends the period for ad interim registration of a book or periodical in the English language from 60 days to 6 months after first publication abroad. It extends the period for the manufacture of such a book or periodical in the United States from 4 months after registration to 5 years after first publication abroad. 3. It permits the importation into the United States of 1500 copies, in one or more shipments, of a book or periodical of foreign origin in the English language during the 5 years after first publication abroad. This privilege applies only to works that have already been registered under the new law for ad interim copyright within six months of publication and is in addition to the copies allowed to be imported by other provisions of the copyright law. The Copyright Office is working on regulations to facilitate such importations. Books or periodicals so imported must bear a valid United States copyright notice.

Works not reproduced in copies for sale. Copyright may also be had of certain classes of works (see a, b, c, below) of which copies are not reproduced for sale, by filing in the Copyright Office an application for registration, with the statutory fee of $4, sending therewith: (a) In the case of lectures or other oral addresses or of dramatic or musical compositions, one complete copy of the work: (b) In the case of photographs not intended for general circulation, one photographic print. (c) In the case of works of art (paintings, drawings, sculptures), or of drawings or plastic works of a scientific or technical character, one photograph or other identifying reproduction of the work.

Fees—The Register of Copyrights shall receive and the persons to whom the services designated are rendered shall pay, the following fees:

For the registration of a claim to copyright in any work, except a print or label used for articles of merchandise, $4; for the registration of a claim to copyright in a print or label used for articles of merchandise, $6; which fees shall include a certificate of registration under seal for each work registered: Provided, That only one registration fee shall be required in the case of several volumes of the same book published and deposited at the same time.

For recording the renewal of copyright and issuance of certificate therefor, $2.

For every additional certificate of registration, $1.

For certifying a copy of an application for registration of copyright, and for all other certifications, $2.

For recording every assignment, agreement, power of attorney, or other paper not exceeding six pages, $3; for each additional page or less, 50 cents; for each title over one in the paper recorded, 50 cents additional.

For recording a notice of use, $2, for each notice of not more than five titles; and 50 cents for each additional title.

For any requested search of Copyright Office records, or works deposited, or services rendered in connection therewith, $3 for each hour of time consumed."

Copyright notices in books must be placed on the title page or on the page immediately following.

The original term of copyright under existing U. S. law runs for 28 years. Within one year prior to the expiration of the original term, the author or his widow or children, executor or the next of kin, may secure a renewal for a further term of 28 years. In case of composite works, posthumous works or works made for hire, the proprietor may secure the renewal.

Copyright in the United States may be secured for works of authors of the foreign countries with which copyright relations have been established, on compliance with the American copyright law.

Federal Bureau of Investigation

F.B.I.—Federal Bureau of Investigation. J. Edgar Hoover, director. Address, F.B.I., Ninth and Pennsylvania Avenues, N.W., Washington 25, D. C.

The Federal Bureau of Investigation was created (1908) upon an order of the then Attorney General Charles J. Bonaparte. Special Agents of this Bureau are charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed upon them by law.

Agents of the F.B.I. are college trained. To enter this service a man must be a graduate of an accredited law school, or he must be a graduate of an accredited accounting school. Agents get thirteen weeks of preliminary training at the F.B.I. training base located at Quantico, Va. During this time they must learn to shoot all of the various firearms used by the F.B.I. and become adept in handling them. They must learn the various Federal violations over which the F.B.I. has jurisdiction. They must study the techniques and mechanics of arrest and the search of crime scenes for evidence. To apply for the position of Special Agent in the F.B.I. a man must be at least 25 years old but must not have reached his 41st birthday.

When J. Edgar Hoover took office in 1924 there was no centralized fingerprint collection in the United States. One of his first moves was a bring together the collection housed at Fort Leavenworth by the Federal Government and the fingerprints being maintained by the International Association of Chiefs of Police in Washington, D. C. Starting with a nucleus of 810,188 fingerprints this file had grown in ten years to more than 5,000,000 prints. During the next five-year period (by 1939) the file had grown to 10,000,000 prints. As of June 1, 1949, 111,838,490 fingerprint cards were on file in the F.B.I. Identification Division.

On June 11, 1930, Congress passed an Act authorizing the F.B.I. to collect criminal statistics from police agencies throughout the country and to compile and publish such statistics in the Uniform Crime Reports bulletin.

The Laboratory of the F.B.I. was established in 1932 and for a while only one man was designated to carry out the scientific studies of evidence in criminal cases. The scientists and technicians of the F.B.I. Laboratory examine evidence involved in all types of criminal cases handled by the F.B.I. and other Federal law enforcement agencies. A great deal of work also is done for local, county and state law enforcement agencies.

In July, 1935, there was established in the Federal Bureau of Investigation the F.B.I. National Academy. Since that time selected police officers from every state in the Union and many foreign countries have attended this school.

Wills

Source: General Provisions of the Laws on the Subject

A Will or Testament is a final disposition of a erson's property, to take effect after his death.

A codicil is an addition or alteration in such dis- osition.

A will, or codicil, may be signed any day, includ- ng Sundays and legal holidays.

All persons are competent to make a will except iots, persons of unsound mind, and infants. In vil law, a minor is an infant. In the State of ew York a person 18 years old or over can devise ersonal property, but realty can not be devised nless the person is 21 years old or over.

In many States a will of an unmarried woman is eemed revoked by her subsequent marriage.

A nuncupative or unwritten will is one made rally by a soldier in active service, or by a mariner hile at sea.

In most of the States a will must be in writing, gned by the testator, or by some person in his resence, and by his direction, and attested by wo (in some states three) witnesses who must sub- ribe their names thereto in the presence of the stator.

Wills are of two general types.

The first provides for outright distribution of an tate.

The second provides for deferred distribution of rt or all of an estate until conditions are more vorable.

The first type should provide for the appointment an executor; the second, for an executor and a ustee.

An executor serves only long enough to close out n estate by legal process and turn it over to the neficiaries or the trustees as directed in the will.

A trustee, after receiving part or all of an estate from the executor, holds and manages it until such time as the will directs final distribution.

The same person, or trust company, can act both as trustee and executor.

Funds may be left to charity outright, or in trust.

It is the duty of an executor to tally and appraise the estate, pay all taxes and legal claims, sell or liquidate if the will so provides, distribute the property, and make a final report to the court.

If personal effects—clothing, furniture, paintings, books, heirlooms, jewelry, automobiles, etc.—are not disposed of by will, they become part of the general estate and may have to be sold in liquidation.

Real estate given outright in a will does not pass through the executor's hands, the will in such a case operating as a deed.

It should be stated in the will whether inheritance taxes are to be paid out of the general estate or deducted from the individual legacies.

An executor and trustee can be given, in the will, the right to join in any agreement of merger, readjustment, exchange, or consolidation affecting the securities of the estate.

An executor and a trustee can be given, in the will, specific authority to sell, lease, and mortgage real estate; he can be instructed to continue as well as to liquidate a business.

A dower right is a widow's right to receive during her lifetime one-third of all the rents and revenues of the husband's lands.

Dower and courtesy rights were abolished in New York State under a law of 1929. Husband and wife now have equal inheritance rights. Not over one-half of an estate can be devised by the owner to charity.

Debts are a prior lien on the estate under the law of New York and most of the states.

Impeachments in United States History

Source: Official Government Records

Under the Constitution, the President, Vice resident, and all civil officers of the United States e liable to impeachment for "treason, bribery, or her high crimes and misdemeanors," and, on nviction, shall be removed from office.

The House of Representatives has the sole power impeachment. The Senate has the sole power try all impeachments. When sitting for that rpose the members are on oath or affirmation. oncurrence of two-thirds of members present quired for conviction.

Judgment in cases of impeachment does not ex- nd further than to removal from office, and dis- alification to hold and enjoy any office of honor, ust, or profit under the United States:

Impeachments to date have been:

(1) William Blount, one of the first two Senators m Tennessee, accused of treason and sedition; having plotted to aid Great Britain in wresting lorida and the Louisiana territory from Spain. he Senate, 25 to 1, expelled Blount, July 8, 1797. he House, Dec. 4, 1797, impeached him, and the peachment trial began Dec. 17, 1798. His unsel said the Senate had lost jurisdiction when expelled Blount. The Senate, agreed to that w of the case, and dismissed the impeachment.

(2) John Pickering, Judge of the District Court New Hampshire; impeached 1803 for drunken- ss and disregard of the terms of the statutes; al March 3, 1803, to March 12, 1804; vote 19 lty, 7 not guilty; verdict, guilty; punishment, noval from office.

(3) Samuel Chase, Associate Justice of the preme Court of the United States; impeached 4 for misconduct at trials of persons charged h breach of the Sedition Law; trial Nov. 30, 4, to March 1, 1805; verdict acquittal.

(4) James Peck, Judge of the District Court for ssouri; impeached for tyrannous treatment of nsel, 1830; tried April 26, 1830, to Jan. 31, 1831; e, 21 guilty, 22 not guilty, verdict, acquittal.

(5) West H. Humphreys, Judge of the District rt for Tennessee, impeached 1862 for support- the secession movement and unlawfully acting as Judge of the Confederate District Court; trial May 7 to June 26, 1862; verdict, guilty; punishment, removal from office.

(6) Andrew Johnson, President of the United States, impeached for usurpation of the law, corrupt use of the veto power, interference at elections and high crimes and misdemeanors; trial, Feb. 25 to May 26, 1868; vote, guilty, 35, not guilty, 19; verdict, acquittal.

(7) William W. Belknap, Secretary of War, impeached for accepting bribes; trial, March 3 to Aug. 1, 1876. A question as to jurisdiction was raised; verdict, acquittal.

(8) Charles Swayne, Judge of the District Court for the Northern District of Florida; impeached 1905 for misconduct in office; trial Dec. 14, 1904 to Feb. 27, 1905; vote, 55 guilty, 37 not guilty; verdict, acquittal.

(9) Robert W. Archbald, Associate Judge of the Commerce Court, was impeached July 11, 1912, on articles charging him with corrupt collusion with coal mine owners and railroad officials while in office. Tried July 13, 1912, to Jan. 13, 1913. Verdict, guilty; removal from office.

(10) George W. English, U. S. District Judge, Eastern District, Ill. The House, April 1, 1926, voted his impeachment. He resigned.

(11) Harold Louderback, U. S. District Judge, at San Francisco, was impeached Feb. 27, 1933. It was charged that he had profited pecuniarily by the appointment of receivers and had shown favoritism. The Senate, on May 24, 1933, voted on the indictment, and he was acquitted.

(12) Halsted L. Ritter, U. S. District Judge in Southern District of Florida. He was impeached on March 2, 1936, on charges as to financial transaction growing out of or associated with fees allowed to lawyers. There were 7 counts, on 6 he was acquitted, on the seventh he was voted guilty, 56 to 28, and the Senate on April 17, 1936, removed him from office, after having, by 76 to 0, voted not to extend the punishment to disqualification to hold office.

Mississippi River Lore

Collected by Ben Lucien Burman, author of Steamboat Round the Bend.

Diesel boats on the Mississippi are known to roustabouts as "Deef-and-Dumb" boats, be- se they don't sigh like old-time steamboats. he roustabouts will tell you that the boss of Mississippi is Big Al, a huge alligator that is posed to lord it over the river. Occasionally and, worn out loading or unloading a steam- t, will toss some tobacco over the side. This to make Old Al smoke his pipe, which will ate a fog and prevent the vessel from moving, s giving the roustabout a much needed rest.

When a hand loading cotton lets a bale slip and it starts rolling toward the river, the other men shout: "Look out! Old Al's going to get it!"

River people like to test a stranger's knowledge of geography. A favorite question is: Which of these states lies partly or wholly west of the Mississippi river—Ohio, Illinois, Indiana, Missouri, Iowa? The visitor will answer quickly: Missouri and Iowa. However, Illinois should be included, for a small sliver of the state near old Kaskaskia was left west of the Mississippi when the river changed its course during a flood.

Marriage Information

The following table shows, by States, the marriageable age for both males and females with and without consent of parents or guardians. But in almost every State the court has the authority to marry young couples below the ordinary age of consent, in an emergency, where due regard for their morals and welfare so requires.

	With consent		Without consent		Blood test	Wait for license	Wait after license	License fee
	Men	Women	Men	Women				
Alabama	17	14	21	18	Required	None	None	1.50

Wisconsin	18	15	21	18	Required	5 days	None	0.50
Wyoming	18	16	21	21	Required	None	None	2.00

Note—Common law prevails; 14 years for male, 12 years for female.

(a)For male only, examination for venereal disease, at any time within 15 days prior to application for license.

(*)Cook County $5.00; balance of state, $1.00.

(1)For non-residents 96 hours; when one party is a resident 24 hours. No wait after obtaining license.

(2)Three clear days (not counting either day of application or day of issuance).

(3)No wait unless female is under 18, then must have written consent of parent or guardian unless application is posted publicly for 5 days.

(4)Five days if under age and without consent.

(5)There is a 5-day wait after the license is issued, in the case of non-resident women.

(6)50c to file application and $2 for license.

Penalties for Murder in the United States

State	Penalty	State	Penalty	State	Penalty
Alabama	Electrocution	Mass.	Electrocution	So. Carolina	Electrocution
Arizona	Lethal Gas	Michigan	Life Imprisonment	So. Dakota	Electrocution
Arkansas	Electrocution	Minnesota	Life Imprisonment	Tennessee	Electrocution
California	Lethal Gas	Mississippi	Electrocution	Texas	Electrocution
Colorado	Lethal Gas	Missouri	Lethal Gas	Utah	Hanging or Shooting
Connecticut	Electrocution	Montana	Hanging	Vermont	Electrocution
Delaware	Hanging	Nebraska	Electrocution	Virginia	Electrocution
Dist. of Col.	Electrocution	Nevada	Lethal Gas	Washington	(1) Life imprisonment or Hanging
Florida	Electrocution	New Hamp.	Hanging		
Georgia	Electrocution	New Jersey	Electrocution	W. Virginia	Hanging
Idaho	Hanging	New Mexico	Electrocution	Wisconsin	Life Imprisonment
Illinois	Electrocution	New York	Electrocution	Wyoming	Lethal Gas
Indiana	Electrocution	N. Carolina	Lethal Gas	U. S. (Fed. Gov't.)	(2) Death Penalty
Iowa	Hanging	No. Dakota	Life Imprisonment		
Kansas	Hanging	Ohio	Electrocution	Alaska	Hanging
Kentucky	Electrocution	Oklahoma	Electrocution	Canal Zone	Hanging
Louisiana	Electrocution	Oregon	Lethal Gas	Hawaii	Hanging
Maine	Life Imprisonment	Pennsylvania	Electrocution	Puerto Rico	Life Imprisonment
Maryland	Hanging	Rhode Island	Life Imprisonment	Virgin Islands	Hanging

In many States the jury can recommend life imprisonment.

(1) The jury decides upon the penalty.

(2) If State within which sentence is imposed does not have death penalty the Court shall designate some other State in which sentence shall be executed by manner prescribed in that State.

Grounds for Divorce

Source: Compiled by John H. Mariano; Council on Marriage Relations, Inc., 110 East 42nd Street, New York, 3, N. Y. Persons contemplating divorce should study latest decisions or secure legal advice before initiating proceedings since different interpretations or exceptions in each case can change the conclusion reached. Some States apply statutes strictly, others are more lenient.

*Exceptions are to be noted. **Determined by court order. Georgia, period of 30 days to elapse before right to remarry.

A—Violence.
B—Indignities.
C—Loathsome disease.
D—Joining religious order disbelieving in marriage.
E—Unchaste behavior after marriage.
F—No reconciliation for one year after judgment of separation.
G—Unchastity of wife prior to marriage.
H—Any gross misbehavior or wickedness.
I—Wife being a prostitute.
J—Husband being a vagrant.
K—Plaintiff husband, one year; plaintiff wife, 22 months; defendant husband, 14 months; defendant wife, two years.
L—Defendant must wait two years to remarry.
M—Plaintiff, three months; defendant may not remarry before three years without consent of court. So-called Enoch Arden law provides for annulment of marriage for absence of either party for five successive years if unknown to be alive.
N—Except in cruelty cases, one year to remarry.
O—Plaintiff, six months; defendant, two years to remarry.
P—If guilty spouse is sentenced to infamous punishment.
Q—Crime against nature.
R—Sixty days to remarry.
S—One year to remarry.
T—Six months to remarry.
U—Adultery cases, discretion of Court.
V—Four months to remarry.
W—Separation for three years after decree for same.
X—Separation no cohabitation—five years.
Y—Separation no cohabitation—three years.
Z—Separation for two years after decree for same.

Notes—The plaintiff can invariably remarry in the State where he or she procured a decree of divorce or annulment. Not so the defendant, who is barred, except in certain States. After a period of time has elapsed even the offender can apply for special permission.

The U. S. Supreme Court in a 5 to 4 opinion, ruled April 18, 1949, that one-sided quick divorces could be challenged as illegal if notice of the action was not served on the divorced partner within the divorcing State, excepting where the partner was represented at the proceedings.

RELIGIOUS INFORMATION

Census of Religious Bodies in United States

Source: Year Book of American Churches and The World Almanac Questionnaire

There were in continental United States in 1948, 242 Religious Bodies with 265,583 churches and an inclusive membership of 81,777,874 (July 1, 1949). Data is latest available. Jewish congregations total is the 1948 estimate from the American Jewish Year Book, 1948-49. The Roman Catholic total is from The Official Catholic Directory, 1949.

Denomination	Membership, 1949
Adventist bodies:	**262,296**

Roman Catholic Hierarchy

Source: Apostolic Delegation, Washington

At the head of the Roman Catholic Church is the Supreme Pontiff, Pius XII, Eugenio Pacelli, born at Rome, March 2, 1876, ordained priest April 2, 1899, consecrated bishop by Benedict XV, May 13, 1917, proclaimed cardinal, December 16, 1929, and Secretary of State, February 7, 1930; elected Pope as successor of Pius XI, March 2, 1939; crowned March 12, 1939.

The Pontiff is, in orders, a Bishop. His ecclesiastical title is: His Holiness, the Pope; Bishop of Rome and Vicar of Jesus Christ; Successor of St. Peter, Prince of the Apostles; Supreme Pontiff of the Universal Church; Patriarch of the West; Primate of Italy; Archbishop and Metropolitan of the Roman Province; Sovereign of the State of the Vatican City.

The College of Cardinals, when complete, is made up of 70 members, of whom 6 are Cardinal-Bishops, 50 are Cardinal-Priests, and 14 are Cardinal-Deacons. The College is the Senate of the Roman Church. The Cardinals advise the Pope and elect his successor. The Cardinal-Bishops take their titles from the Suburban Sees of Rome.

*Cities and dioceses of the same name do not have the same areas and in some cases the population of the diocese is greater than that of the city of the same name because of its greater area. All of the data in the tables, including population, are for the archdioceses and the dioceses named.

The first 23 dioceses listed above are archdioceses.

Cardinals 4 (Chicago), (Detroit), (New York), and (Philadelphia); Archbishops number 20; Bishops, 157; Abbots, 36. There are 337 seminaries with 26,215 students; 228 colleges with 240,048 students; 1,596 high schools, diocesan and parochial with 319,599 students; 7,777 elementary schools, parochial, with 2,351,604 students; teachers in dioceses, 104,962; orphan asylum, 348 with 64,460 dependent children; 731 general hospitals; 110 special hospitals, 4,315,806 patients treated annually; 244 homes for the aged. Converts in the last year numbered 117,130.

1950, a Holy Year of Pilgrimage for Roman Catholics

Pope Pius XII, supreme pontiff of the Roman Catholic Church, has proclaimed 1950 a Holy Year of Jubilee during which the faithful may gain special indulgence by meeting the conditions prescribed by the church. One of these is that the faithful shall come to Rome during the year and pray devoutly at the four principal basilicas—St. Peter's, St. Paul's Outside the Walls, St. John Lateran and St. Maria Maggiore. All these prayers must be said in one day. The faithful also must pray for the Pope's four principal intentions: "(1) Santification of souls through prayer and penance and unshakable fidelity to Christ and the Church; (2) Action for peace and defense of the holy places; (3) Defense of the church against renewed attacks of her enemies and beseeching of the true faith for those wandering in error, infidels and those without God; (4) Actual realization of social justice and work of assistance in favor of the humble and needy."

Four Roman churches are associated with the names of four American cardinals: Dennis Cardinal Dougherty, Archbishop of Philadelphia, is the titular head of SS. Nereus and Achilleus; Frances Cardinal Spellman Archbishop of New York, is the titular head of SS. John and Paul; Samuel Cardinal Stritch, Archbishop of Chicago, is the titular head of the Basilica of St. Agnes Outside-the-Walls; Edward Cardinal Mooney, Archbishop of Detroit, is titular head of St. Susanna, the American Church in Rome.

Chronological List of Popes

Source: Annuario Pontificio (As revised in 1948)

Anti-Popes are in bold face. (Anti-Popes were illegitimate claimants of or pretenders to the papal throne.)

The Pope's temporal title now is: Sovereign of the State of Vatican City. Formerly it was Sovereign of the Temporal Domains of the Holy Roman Church.

The Pope's spiritual titles are: Vicar of Christ, Successor of St. Peter, Bishop of Rome, Archbishop and Metropolitan of the Roman Province, Primate of Italy, Patriarch of the West, Supreme Pontiff of the Universal Church.

Vatican Radio Announces 1949 Catholic Membership

Official figures of membership in the Roman Catholic Church were broadcast by the Vatican Radio Oct. 3, 1949, according to the Associated Press. Total number of Catholics in the world was placed at 423,000,000, an increase of 119,000,000 from 1929 to 1949. In the same time the population of the world increased 600,000,000, an increase of one-sixth, whereas the Catholics increased by one-third. The number of Catholics in Africa tripled. Large increases were noted in Latin America, India and other parts of Asia. The growth was attributed to missionary activity.

Leading Protestant Bodies in the United States

Baptists

The first Baptist Church in America was founded in 1638 in Providence, R. I., by Roger Williams. General organization began in 1814, and a General Missionary Convention was formed to permit followers to express themselves in terms of missionary activities.

In 1845 the Southern Baptists withdrew and formed the Southern Baptist Convention. Churches, 26,822; membership, 6,491,981. General Organization, 127 Ninth Ave., N., Nashville 3, Tenn. General boards include Sunday School Board, Nashville, Tenn.; Foreign Mission Board, Richmond, Va.; Home Mission Board, Atlanta, Ga.; Relief and Annuity Board, Dallas, Texas.

The Northern Baptist Convention was organized in 1907 under whose direction the many agencies of the Baptists in the North and West now operate. Churches, 7,180; membership, 1,610,576. General Organization, 152 Madison Ave., New York 16, N. Y. Sixteen others, including the American Baptist Foreign Missions Society, Woman's American Baptist Foreign Mission Society, American Baptist Home Mission Society, Woman's American Baptist Home Mission Society, and the Baptist Youth Fellowship.

The National Baptist Convention, U.S.A., Inc., is a constituent member of the Federal Council of the Churches of Christ in America. It is the older and parent Convention of Negro Baptists Churches, 24,953, membership, approximately 4,385,206. The General Organization and nine others, including the Foreign Mission Board, Home Missions and Evangelism Board, and the B. T. U. Board.

The National Baptist Convention of America, organized in 1895, is frequently referred to as the "unincorporated" body. Churches, 8,993; membership 2,580,921. The General Organization and seven others, including the Foreign Mission Board, and the Home Mission Board.

General offices of Baptist World Alliance, the Baptist world organization, are at 1628 16th St., N. W., Washington, D. C. U. S. Baptists number 15,464,718.

Congregational Christians

Congregationalism dates back to the Pilgrim Fathers. The denomination was founded in the United States, in 1620, in Plymouth, Mass., under the leadership of William Brewster, William Bradford, and Edward Winslow. The Christian churches date back to Wesleyan and revival movements at the end of the 18th Century. These two groups were merged at Seattle, Wash., in 1931. Churches, 5,715; membership, 1,184,661. The General Council (national organization), 287 4th Ave., New York 10, N. Y. Also the Mission's Council, the Board of Home Missions, the Annuity Fund, and the Council for Social Action. The American Board of Commissioners for Foreign Missions, the Pilgrim Press are at 14 Beacon St., Boston, Mass.

Disciples of Christ

An American movement for Christian unity founded in 1809 by Thomas Campbell and his son, Alexander. An association was formed at Washington, Pa., and the first church was built in 1811 at Brush Run. Churches, 8,739; membership, 1,872,049. The International Convention of Disciples of Christ, 516 K of P Bldg., Indianapolis 4, Ind., and nine others, including the United Christian Missionary Society.

Lutheran Church—Missouri Synod

Lutheranism was introduced into the United States by Dutch colonists on Manhattan, and later by Swedes on the Delaware, by Palatines in Pennsylvania and New York, and by Salzburgers in Georgia. The Lutheran Synodical Conference of North America was organized in 1872, of which the Missouri Synod is the largest constituent part. The Missouri Synod holds to an unwavering confessionalism and is the leader in the conservative group among the Lutherans. Churches, 4,906; membership, 1,649,024. The General Organization, 3558 Jefferson Ave., St. Louis 18, Mo., and sixteen others, including Board for Young People's Work, Lutheran Women's Missionary League, the Walther League, Home Missions in North and South America, Home Missions in Europe, Foreign Missions, and Deaf-Mute Missions.

United Lutheran Church in America

Organized in 1748, this body dates back to the Ministerium of Pennsylvania, and beyond that to early colonial days. It represents the union of the General Synod, the General Council and the United Synod of the South in 1918. Churches, 4,124; membership, 1,914,018. The General Organization, 231 Madison Ave., New York 16, N. Y., and twelve others, including the Board of Foreign Missions, Board of American Missions, Board of Social Missions, Women's Missionary Society, and the Luther League of America.

Lutheran bodies throughout the United States have a membership of 5,787,925.

The Methodist Church

The name Methodist was originally given to Charles and John Wesley and several other Oxford students, in 1729. It is thought that the term was selected due to the exact and "methodical" manner in which they performed various engagements which a sense of Christian duty induced them to undertake. The Methodist movement was carried to America in 1760 by Methodist emigrants from Ireland. The present organization of the Methodist Church began in May 1939, with the unification of the Methodist Episcopal Church, the Methodist Episcopal Church South, and the Methodist Protestant Church. Churches, 40,397; membership, 8,651,062. The supreme policy-making body is the quadrennial General Conference. The U. S. church is administered by 36 bishops. The Board of Missions is at 150 Fifth Ave., New York; Board of Education and Methodist Youth Fellowship, Nashville, Tenn.; Board of Evangelism, Chicago, Ill.; Commission on World Peace and on World Service and Finance, Washington, D. C.

Methodist bodies throughout the United States have a membership of 10,492,029.

Presbyterian Church in the U. S. A.

Presbyterianism is a system of church government by presbyters, or elders, which distinguishes it from other forms of church government—Papal, Episcopal, and Congregational. John Calvin has been regarded as the founder of Presbyterianism. The body known as the Presbyterian Church in the United States of America appeared among the earliest colonists of America. Its first church was established about 1640 and its first presbytery in 1706. Churches, 8,522; membership, 2,330,136. The General Organization, Witherspoon Building, Philadelphia 7 Pa. together with Board of Christian Education and Board of Pensions, Board of National Missions, and the Board of Foreign Missions, 156 Fifth Ave., New York 10, N. Y.

Presbyterian bodies throughout the United States have a membership of 3,349,073.

Protestant Episcopal Church

A religious denomination representing the Anglican communion in the United States, of which the Church of England is the parent church. It was brought to America with the Jamestown colonists in 1607, and became autonomous and adopted its present name in 1789. Churches, 6,985; membership, 2,160,207. The General Organization, 281 Fourth Ave., New York 10, N. Y., and fifteen others, including Domestic Missions, Brotherhood of St. Andrew, the Girls' Friendly Society, and the American Church Institute for Negroes.

American Bible Society Book Distribution

According to the report of the American Bible Society, 450 Park Ave., New York, made public in 1949, the organization distributed, in 1948, a total of 9,716,251 books in 151 languages and dialects, in the following categories: Bibles, 846,319; testaments, 1,388,441; portions, 7,481,491. In 1947 the total was 9,310,439; in 1946 it reached 11,394,200. The greater number of the books is printed in the United States, but some Scriptures are printed in Siam, Istanbul, Beirut, Japan, China and Mexico. The Society works in more than 40 countries. Distribution is made by the most convenient way—by oxcarts, bicycles, muleback, motor launches, airplanes, trucks, and, in the South Pacific, by sailboats. In China Scriptures are distributed by plane and truck and in the interior colporteurs distribute books on foot. The Society was formed in 1816.

Federal Council of the Churches of Christ in America

The Federal Council of the Churches of Christ in America is made up of 27 national denominations with a membership of more than 29,000,000. It was created (1908) by the denominations. Through it these denominations cooperate in tasks which have to do not only with those in church but in home, in college, in workshop, in store, in office, in hospital, in government; in fact, they cover the whole range of human welfare.

Officers of the Federal Council

President, Bishop John S. Stamm; Vice-President, Mrs. Douglas Horton; Recording Secretary, Rev. W. Glenn Roberts; Treasurer, Mr. Harper Sibley; General Secretary, Rev. Samuel McCrea Cavert; Associate General Secretary, Rev. Roswell P. Barnes; Associate General Secretary, Rev. J. Quinter Miller.

Constituent Bodies

National Baptist Convention, Northern Baptist Convention, Church of the Brethren, General Council of Congregational Christian Churches, Czech-Moravian Brethren, International Convention of Disciples of Christ, Evangelical and Reformed Church, Evangelical United Brethren Church, Five Years Meeting of the Friends of America, Religious Society of Friends of Philadelphia and Vicinity, The Methodist Church, African Methodist Episcopal Church, African Methodist Episcopal Zion Church, Colored Methodist Episcopal Church in America, Moravian Church, Presbyterian Church in the U.S.A., Presbyterian Church in the U.S., Protestant Episcopal Church, Reformed Church in America, Romanian Orthodox Church of America, Russian Orthodox Church of North America, Seventh Day Baptist General Conference, Syrian Antiochian Orthodox Church of North America, Ukrainian Orthodox Church of America, United Church of Canada, United Lutheran Church (Consultative), United Presbyte Church.

The Council's first concern is the spiritual of the churches. It maintains an evangelistic gram, stressing the witness of Christian lay and women. It places a strong emphasis on devotional life through the promotion of W Wide Communion and simultaneous period prayer and intercession. It assists the church recruiting for the ministry and other forms of service in the church and holds conferences ministers on the conduct of public worship, fosters the observance of a common Christian

The Council holds it a Christian duty to the influence of Christ effective in all human tions. It carries on an educational campaign Christian standards in marriage and the hom draws Christian representatives of managem labor, and agriculture together to consider light is shed upon their problems by their com Christian commitment. It seeks to prevent spread of Communism and Fascism in our cou by working constantly for equal opportunity justice for all people.

Since the Council includes four large Negro nominations it is in an exceptional positio develop a program of interracial cooper through the churches.

The Council mobilizes a united Christian p opinion for a world order of justice and peace.

The Council joined in establishing Church W Service, Inc. to coordinate the program of churches for Christian reconstruction and reli those parts of the world suffering from the a math of the war. More than $40,000,000 of seas aid was provided by Church World Se during the period since the end of the war.

As a result of the Federal Council's polic assisting local communities there is today a work of 700 local and state councils of church America, each of which is advancing inter-chi cooperation in its own community.

Seamen's Church Institute of New York

The Seamen's Church Institute of New York at 25 South St., New York City, is the largest and most comprehensive shore organization for merchant seamen in the world, providing for the needs of these men, who are of every age, race, rating and creed. About 80% are American born or naturalized citizens. Food and lodging are provided at reasonable rates and recreational and welfare, chapel and clinic facilities are available without charge. Special club rooms have been established at the Institute by the Dutch, Danish, Belgian and Swedish Shipping Committees for seamen of those nations; also Janet Roper Club for seamen of all nationalities and Alumni Club for U. S. Merchant Marine Academy.

Figureheads, ship models, and paintings by Gordon Grant, Charles Robert Patterson and Frederick Waugh are displayed. A fine view of New York Harbor is afforded from its Titanic Li house Memorial Tower. Guided Tours arrang call BO 9-2710.

The Merchant Marine School (establishe 1916) trained thousands of men during World II. Classes in navigation (engineering and manship) are open to yachtsmen and seamen st ing for raises in grade. Its Joseph Conrad Lib has 10,000 volumes. It maintains an Artists Writers Club and Camera Club for the Merc Marine.

During 1948 1,124,311 meals were serve merchant seamen, and 335,799 lodgings were vided. Also during 1948 the Institute che 133,136 units of baggage, gave 16,350 credit in addition to filling 49,701 social service ne entertainments were attended by 102,013 sea

The Institute publishes "The Lookout," monthly magazine.

Date of Paschal Full Moon, 1900-2199

Golden Number	Date	Golden Number	Date	Golden Number	Date	Golden Number	Date
1	April 14	6	April 18	11	Mar. 25	16	Mar.
2	April 3	7	April 8	12	April 13	17	April
3	Mar. 23	8	Mar. 28	13	April 2	18	April
4	April 11	9	April 16	14	Mar. 22	19	Mar.
5	Mar. 31	10	April 5	15	April 10		

The Golden Number, used in the table above, is greater by unity than the remainder obtained dividing the given year by 19; for example: 13 is the Golden Number for the year 1950; from the the date of Paschal Full Moon is April 2, and this being Sunday, Easter Sunday is on April 9, 1950.

Philosophy of Gandhi

Mohandus K. Gandhi, called Mahatma, the great-souled, by his followers, was the greatest single influence for political and social reform in India in the 20th century. Born Oct. 2, 1869, he was assassinated by a fanatical Hindu at New Delhi, Jan. 30, 1948. A Hindu by birth, he opposed the untouchability observed by Hindus, because it degraded millions of innocent human beings. Because of his teaching untouchability was outlawed by the Constituent Assembly of the new Dominion.

Gandhi fought British rule with his doctrine of Ashima, or non-violence, and non-cooperation. "I believe non-violence is infinitely superior to violence, forgiveness is more manly than punishment," said he. "Abstinence is forgiveness only when there is the power to punish. Impatience is a form of violence. Non-cooperation with evi as much a duty as cooperation with good." marched with Henry D. Thoreau in saying " disobedience is the only civilizing and effec substitute for an armed rebellion."

In religion Gandhi was not dogmatic. found good in Christianity, Mohammedanism Hindu, but denied any was the sole path to vation. He declared animals, no less than have souls. He saw in non-Christians "just same reformation I had heard of among Chr ians." Tolstoy's "The Kingdom of God is Wi You" made a powerful impression on him. reestablish the crafts he advocated a spin wheel in every home. He wanted Hindu-Mos unity—in which he failed; condemned thei and special advantages and advocated abstin from drugs and liquors.

The National Catholic Welfare Conference

he National Catholic Welfare Conference was anized (1919) as a common agency acting under bishops to promote the welfare of the Catholics he United States. The Conference has for its orporated purposes "unifying, coordinating and anizing the Catholic people of the United States works of education, social welfare, immigrant and other activities." The Conference comes the following departments and bureaus:

xecutive — Bureaus maintained: Information, nigration, National Center Confraternity of istian Doctrine; Publications, Business and iting and Catholic Action, monthly publica-, N. C. W. C.

outh—Facilitates exchange of information reing the philosophy, organization, and programcent of Catholic youth organizations; promotes National Catholic Youth Council, the federating cy for all existing, approved Catholic youth ups; contacts and evaluates national governtal and non-governmental youth organizations youth servicing organizations.

ducation—Divisions: Statistics and Informa-, Teachers' Registration, Library.

ress—Serves the Catholic press in the United es and abroad with regular news, features, orial and pictorial services.

ocial Action—Covers the fields of Industrial tions, International Affairs, Family Life, Civic cation, Social Welfare, and Rural Life.

egal—Serves as a clearing house of information Federal, State and local legislation, and when ested represents Catholic interests before ral executive offices.

ty Organizations—Includes the National Coun- of Catholic Men and the National Council of olic Women, which maintain at N. C. W. C. lquarters permanent representations in the inests of the Catholic laity. The N. C. C. M. maintains at its national headquarters a Catholic Evidence Bureau and a Catholic Radio Bureau; sponsors the weekly nationwide radio Catholic Hour over the NBC network, The Hour of Faith over the ABC Network and the Catholic program on Faith in Our Time (MBS).

Catholic Action Study—Devoted to research and reports as to pronouncements, methods, programs and achievements in the work of Catholic Action at home and abroad.

Administrative Board, National Catholic Welfare Conference—Most Rev. John T. McNicholas, O. P., Archbishop of Cincinnati, Chairman; Most Rev. Richard J. Cushing, Archbishop of Boston, Vice Chairman and Chairman of the Youth Department, Most Rev. John Mark Gannon, Bishop of Erie, Treasurer; Most Rev. John F. Noll, Bishop of Ft. Wayne, Secretary; Most Rev. Joseph E. Ritter, Archbishop of St. Louis, Episcopal Chairman of the Department of Catholic Action Study; Most Rev. Emmet M. Walsh, Bishop of Charleston, Episcopal Chairman of the Legal Department; Most Rev. Robert E. Lucey, Archbishop of San Antonio, Episcopal Chairman, Department of Lay Organizations; Most Rev. Francis P. Keough, Archbishop of Baltimore, Episcopal Chairman, Department of Education; Most Rev. Patrick A. O'Boyle, Archbishop of Washington, Episcopal Chairman, Department of Social Action.

Officer at National Headquarters: 1312 Massachusetts Avenue, Northwest Washington 5, D. C.—Rt. Rev. Msgr. Howard J. Carroll, General Secretary.

In addition to the above named departments, the general body of bishops maintains the following special committees: American Board of Catholic Missions; Confraternity of Christian Doctrine; Motion Pictures; and the National Legion of Decency; Propagation of the Faith; Obscene Literature; North American College in Rome; Seminaries; War Emergency and Relief; Refugees; Pope's Peace Points; Spanish Speaking; and Montezuma Seminary.

The Young Men's Christian Associations

he Young Men's Christian Associations was ded in London in 1844 by George Williams a group of associates who were employed by hcock & Company, a drapery firm. Unlike er religious societies of young men in Great ain, in America, and on the Continent, this l group of apprentices was unusual because ving on the premises among scores of fellow- entices and because of their deep concern to nate the environment for good by friendly con- s and religious association. The movement soon ad into other countries and by its semi-cenial in 1894 had spread around the world. By time, George Williams had become an outding business leader, and on this occasion he knighted by Queen Victoria. Today the move- t has more than 10,000 branches in 68 countries a membership of at least 2,000,000.

he first North American Associations appeared Montreal and Boston late in 1851 and were t outgrowths of the London beginnings. The nization spread rapidly throughout North rica and today there are in the United States Associations with 1,769,312 members; while anada there are 86 Associations with 80,845 bers. About two-thirds of the members are r 25 years of age. These Associations are d in cities, rural areas, colleges, railroad and strial centers, while more than 9,189 Hi-Y and Tri-Hi-Y clubs extend the movement into sands of North American high schools.

World War I, the YMCA supplied 25,926 al workers, half of whom served overseas with rican, French and other Allied armies, while American people supplied $170,673,914 for this . From united financial effort in the final aign of World War I grose the proposals for collaboration among the cooperating agencies World War II and the origin of the United ce Organization, recently reactivated at the st of the government, of which the YMCA constituent organization. In World War carried responsibility for work in 519 cen- 63 of which were overburdened communi- where essential war production was underway. e services, by government policy, were limited ly to Continental United States and offshore . However, the Canadian YMCA was in- ly related to the overseas service of the dian army. The YMCA is actively associated the recently re-activated USO, operating g the younger service recruits along lines ily similar to those of World War II.

the regular civilian Association the past years notable for work on behalf of veterans and asis upon the basic methods of work proven century's experience, such as, self-governing organization among school and non-school groups of all age levels; training for citizenship through democratic procedures in inter-club residence, sports, student, young adult and other types of councils on both local and national levels; leadership training through activity in over 141,302 regularly scheduled, enrolled groups; national assemblies of high school, young men's, student, transportation, industrial, foremen and other constituencies. Centennial emphasis continued upon citizenship and public affairs education as an official priority; health and physical education as a fundamental peacetime need; religious education and Christian emphasis as a long-time feature; formal and informal education through some 22 curricular schools and more than 950 local informal educational programs; visual education through extensive motion picture educational service; publication and distribution of timely materials for young people; more intensive individual services, particularly in vocational guidance and counseling; through continued extensive camping programs; and through special concern for postwar needs of younger boys. In such activities in recent years, young women and girls have had an increasing part, representing perhaps ten per cent of the total volume. Association residence accommodations, which aggregate over 73,500 beds, have been inadequate. An extensive service among Negroes, operating for more than 50 years, now shows a stronger recent emphasis upon inter-racial collaboration and integrated service.

Services among prisoners of war were extensive in World War II. Extensive operations among displaced persons continues in Western Germany. Since 1889 North American Associations have helped in all movements in the Orient, Near East and Latin America by supplying trained leaders for advisory purposes. These services continued in war time except in certain occupied areas. More than five million of our $8,650,000 objective has been raised, to help restoration work among these areas.

In 1948 Canadian YMCAs expended $4,657,900 and had a capital investment of $9,329,700. In the United States the 1948 current expenditure exceeded any previous year at $102,180,100 while the investment in plant and equipment was $246,682,300. These resources are available for services among youth in the second century, and official local, national and international bodies have held significant meetings during 1948 related to long-time policies of development in Canada and the United States, as well as the international mission of Christian character education and international understanding. Preparations are now under way for the celebration of the centennial of the founding of YMCAs in North America at Montreal and Boston in 1851.

The Salvation Army

The Salvation Army in the United States is part of an international organization operating places of worship and social rehabilitation centers in 94 countries and territories of the world. It was established here in 1880 and has 1,378 corps and outposts and more than 5,000 officers.

The major part of Salvation Army activities is its evangelical work. Founded originally for the religious enlightenment of the masses, its primary aim is still to proclaim the message of the Scriptures. All of its operations are incidental to that end.

In this country, The Salvation Army's social service work covers a wide scope, taking in family welfare services, missing persons and inquiry bureaus, shelters for transients, homes and hospitals for unmarried mothers, settlements, children's homes and nurseries, "Harbor Light" centers to aid the recovery of alcoholics; men's rehabilitation centers, employment and vocational guidance bureaus, clinics and dispensaries, disaster emergency service, rural service welfare committees, overseas relief bureaus and shipp and collection centers, USO and Red Shield Clu summer camps for mothers and children.

When, at the request of President Truman, U was re-activated to care for the spiritual, rec ational and educational needs of the arm forces of the Post-war period, The Salvation Ar recalled some of its veteran officers who ser with USO during the war and set up a ba USO organization which can readily be expand

As a religious organization The Salvation Ar has a distinct ecclesiastical identity, with cardinal principles of doctrinal belief; its offic are empowered to perform all the functions the clergy.

It is a phenomenon of the post-war period th more and more men and women, realizing th the ministrations of The Salvation Army are no means exclusively confined to the "Skid Ro sections, are turning to Salvation Army Offic with their problems, in their search for spiritu clarity.

The Volunteers of America

The Volunteers of America is a religious and philanthropic organization incorporated Nov. 6, 1896 under the laws of the State of New York. It is democratic in constitution and semi-military in administration. The organization has a commissioned officer list of over 1,500 and a membership of more than 22,000, and operates 367 missions and service programs in the major cities of the United States.

The work is religious and philanthropic. The religious work includes meetings for adults for worship embracing the rituals of the Lord's Supper, baptism and marriage. Missions of the organization are established where they can most effectively reach the unchurched. Sunday Schools for less privileged children are conducted in addition to a young people's society known as the Christian Companionship League.

The philanthropic work includes various institutions and social work programs, maintained in accordance with standards and techniques of social service. There are departments of family welfare, health camps, day nurseries, hospices for worki girls, maternity homes, homes for mothers a children, clubs and homes for the aged, shelte workshops and rehabilitation departments, and hospital.

One of the principal departments deals w work among prisoners, families of prisoners a persons discharged or paroled from federal a state penal institutions. The organization has be exceptionally successful in this latter branch work. The Volunteer Prison League has been ganized within the various prisons with an aggr gate membership of more than 300,000 men a women. Membership involves the voluntary pro ise on the part of the prisoner to maintain dis pline and otherwise live uprightly while under co finement. Aid has been extended and positio found for thousands of those released from pe institutions. General Maud Ballington Booth voted a major portion of her time to this activi which has made a marked contribution to the be tering of prison conditions nationally.

The American National Red Cross

The American National Red Cross, traditional agent of the American people in times of disaster, is one of 68 similar societies throughout the world. The society operates under a charter granted by Congress (Jan. 5, 1905) in accordance with the Treaty of Geneva, which the United States signed (1882). In addition to providing for volunteer aid to the sick and wounded, the charter requires the organization to act as a link between the people of the United States and the armed forces, and to give relief in times of suffering or calamity, providing food, clothing and medical care.

The American Red Cross was organized (1881), with Clara Barton as its first president. By act of Congress (1905) it was reincorporated under government supervision.

Following charter amendments passed by Congress in 1947, the new governing body of the Red Cross is a 50-member Board of Governors, which replaced the Central Committee and Board of Incorporators. The president is Gen. George E. Marshall, appointed for three years in Sept., 1949. The President of the United States is national Honorary Chairman.

The society is supported by popular subscription to annual fund campaigns. In 1949 contributions totalled approximately $68,200,000.

American Red Cross national headquarters is in Washington, D. C. Area offices are in New York City, Alexandria, Va., Atlanta, St. Louis and San Francisco. There are 3,745 local chapters and more than 4,600 branches. Red Cross College Units were authorized in 1942. Junior Red Cross enrollment of boys and girls in schools throughout the country is nearly 19,400,000.

During the fiscal year 1947-48 the Red Cross gave assistance in 303 disaster relief operations in 46 States and Alaska, aiding 312,355 persons. During the fiscal year 1947-48, Red Cross disaster expenditures totaled $12,533,000.

Through wartime experience and necessity the American Red Cross expanded many of its familiar welfare and educational programs and has since added new activities to meet peacetime needs. Mo outstanding of these is the National Blood pr gram, inaugurated in Jan., 1948, and operati through 30 regional programs.

Red Cross field directors served at 1,300 milita installations, 123 military hospitals and 84 Vetera Administration offices to assist veterans in securi benefits for which they may be eligible.

The Home Nursing program instructs hom makers in simple nursing skills required for ho care of the sick. The objective of the home nursi instruction (begun 1908) is to equip one member every family to meet daily emergencies and saf guard family health.

A First Aid Accident Prevention and Wat Safety Service is maintained to help curtail t tremendous death toll from highway and home a cidents, and drowning. The Society has approx mately 10,000 mobile first aid units and 2,000 hig way first aid stations.

Volunteer Services of the Red Cross include t following: Canteen, Motor, Nurse's Aide, Gra Lady, Staff Aide, Social Welfare Aide, Arts an Skills, Entertainment and Instruction, and Pr duction and Supply.

INTERNATIONAL RED CROSS

There are two international Red Cross organiza tions: The International Committee of the Re Cross—a committee of 25 Swiss citizens (founde 1863) serving as a neutral intermediary and t League of Red Cross Societies—a federation of t national societies (founded 1919), which provide technical and advisory assistance in health nursing, relief, and Junior Red Cross.

Under the Geneva and Prisoner of War treati the Red Cross is able to help the ill and wounde and prisoners of war. The International Committe during World War II supervised distribution millions of food parcels to prisoners of war an transmittal of mail between prisoners of war an their families. The League coordinated Red Cr relief of civilian populations.

LD MISSIONS OF THE SOUTHWEST AND PACIFIC COAST

Their Origin, Location and Present Condition in New Mexico, Arizona, Texas and California

ounting national interest in American begins, accelerated by tourist travel, has brought t the restoration of many of the ancient ish-Mexican Missions in the Southwest and he Pacific Coast. These outposts of Spanish ization, some founded before any English ies were planted on the eastern seaboard, intended to convert the Indians and extend Spanish domain. Church and State worked her in these efforts; garrisons were often ed in presidios near the Missions and soldiers called out to pursue escaping neophytes no than to suppress Indian marauders.

e Mission period was one of tremendous hard-. The Missions were established as self-con-d, independent communities, using Indian to erect their buildings, raise wheat and corn levelop huge herds of cattle. The friars showed ordinary courage. They entered hostile pueb-condemned Indian tribal gods and died in up-gs. Earthquakes shook down their towers and ; the military levied on them for supplies and er. Eventually the young Mexican republic arized them, dispersed their Indians, appro-ed their cattle and ruined them.

e Jesuits established themselves in Baja, or r California, and a Jesuit was among the er missionaries in what became Arizona. The iscans entered Texas and most of New Mexico, were ordered to colonize Alta (Upper) Calif-, now the State, when the Jesuits were ex-d by Spain in 1768. When Mexico became a blic Spanish friars were harassed by the Mex-and some of the northern Missions in Calif-were taken over by friars of the native ecan order.

e Mission style is an adaptation of Spanish tecture of the late 16th century, showing ish influences and elements of the flamboyant called *churrigueresque*. Native materials and dictated compromises. The interiors are usual-g and narrow, width being determined by the h of roof-beams. In New Mexico, where hes often look like walled fortresses, adobe are thick, roofs are low and the open bell- or campanario, is found more often than tall belfry. Out of this solid, rectangular modern builders have designed an impressive tecture suitable to the countryside. In Texas s were sometimes built of tufa and domes ell-towers were favored. Brick and tile were on the grounds. Primitive wall paintings and carvings by Indian pupils add to the charm of Missions.

s report deals only with edifices recognized issions, seats of monastic groups devoted to rting the Indians, educating them in farm-nd handicrafts as members of the religious unity. Many other ancient parish churches d in this region.

MISSIONS OF NEW MEXICO

e oldest Mission churches are located in New o. Fr. Marcos de Niza, a Franciscan who had panied Pizzaro in Peru, was sent into the lored lands north of the Rio Grande by y de Mendoza in 1536, on a mission more al than religious. This was only 15 years after z conquered Mexico. In 1540 Niza acted as a for Coronado, with three other friars. He was d because the Seven Cities of Cibola, re-ly paved with emeralds, turned out to be pueblos. When Coronado retraced his steps 2 he left three friars behind; they were later by Indians. Forty years later more mission-entered the region with Rodriguez, but no anent church was built until 1598, when established the first Spanish capital at a village on the Rio Grande. This church was uan Bautista. Church and capital disappeared Onate, who had bloody fights with the In-was replaced. In 1609-10 his successor es-hed the capital in the royal city of Santa Fe. s reported that 11 Mission churches had been ized by 1617, three years before the May-reached Plymouth. By 1680 the Indians had ny grievances against friars, soldiers and sts that the Apache led them in a great that wrecked all but one church. Numerous friars were killed and their records destroyed. The Spaniards fled to the border and did not return for 13 years. In 1690-92 Diego de Vargas subdued the Indians, restored Spanish authority and re-established the Missions.

Thee ancient Missions of New Mexico, as distinguished from old parish churches, are:

San Miguel de Santa Fe, established 1621; wrecked by Pueblo revolt, 1680; rebuilt under Spanish governor Vargas, 1692; extensively repaired, 1830. Triple tower destroyed by storm, 1872, when single tower and stone buttresses were erected.

San Lorenzo de Picuris, 20 mi. south of Taos, 1630. Destroyed in Pueblo revolt, 1680, when Father Ascension Zarate was killed. Rebuilt. Fiesta de San Lorenzo Aug. 10.

Santo Domingo, 25 mi. south of Santa Fe on Rio Grande. Original church swept away in flood, but its records, going back to 1605 missionary work, were preserved. Present church built after 1886.

San Felipe Pueblo, 35 mi. north of Santa Fe; earliest missionaries here 1605, church later. Destroyed 1680, re-erected 1700-1725.

Zia Pueblo, 7 mi. beyond San Ysidro, 37 mi. from Albuquerque, founded before Pueblo revolt. Present adobe church on mesa of black lava built 1692. Zia Pueblo was visited by Coronado.

Santa Ana Pueblo. First preaching here, 1598; first church 1626-29; destroyed, 1680, marked by mound. Church of 1760-70 fell down 1809. Smaller church occupies site.

San Lorenzo de Tesuque, 5 mi. from Santa Fe; early 17th century. Pueblo visited by Coronado, 1540. Church destroyed 1680, rebuilt after 1692 and called **San Diego de Tesuque**. Original fell into ruins; sacristy rebuilt as church.

San Antonio de Isleta, 12 mi. southeast of Albuquerque, 1621-30. Destroyed 1680. Restored and in use ever since.

San Jose de Laguna, 41 mi. west of Albuquerque, built 1699. Stone, 105 by 23 feet, flat roof, two bells in facade; known for Indian paintings.

Acoma Mission, in "City in the Sky" near the Enchanted Mesa, 400 ft. above the plain. Reached by steep, rock-cut trail. Established 1629, is 150 by 40, of adobe brick, walls 60 ft. high, 10 ft. thick. Rebuilt 1699; restored 1923 by Museum of New Mexico. Original brick, beams and even earth for cemetery carried to top of rock by human labor.

San Miguel de Socorro, estab. 1599, built 1615-1620. In 1780 walls and beams of Mission were used to restore old church. In use ever since.

St. Francis of Assisi Mission, Ranchos de Taos, near the Sangie de Christo mountains, seat of Penitente worship. Built by Franciscans, rebuilt 1772. Has fine Mission architecture, though not regularly classified as a Mission.

Missions in ruins include **San Jose de Jemez**, 1617, 10 mi. from San Ysidro; **Quarai**, 1629, destroyed by Apaches 1674; **Gran Quivira**, 1620-1649, now a national monument; **Abo**, 1646, excavated by the Museum of New Mexico; **San Geronimo de Taos**, 1617, rebuilt 1704, used by Mexican troops, 1847. Present adobe Mission built 1848.

ARIZONA MISSIONS

Arizona was a part of the unexplored lands visited by Franciscan fathers. Their earliest attempts at converting the Indians were wiped out in the Pueblo revolt of 1680. Fr. Eusebio Francisco Kino, S. J., is said to have planted seven missions in present Arizona, but only three were known to be in use at the time of his death in 1711. Only four are traceable.

The finest of these, in which services are held regularly, is **San Xavier del Bac**, 9 mi. south of Tuscon, on the Papago Indian Reservation in the Santa Cruz valley. Established 1700, it was in the hands of the Jesuits when the Apache Indians, incensed by mistreatment from the military, attacked the settlers and caused the abandonment of the Mission from 1751 to 1754. After the Jesuits were expelled the Franciscans finished the present church in 1797. It is of burnt brick, with arches supporting the roof and a dome over the crossing, and because it is cruciform may have been built on Jesuit foundations. Secularized 1827 by Mexico, it remained unused until 1857, after the Gadsden

Purchase made it part of the United States. Restored 1906.

Tumacacori Mission, 8 mi. northwest of Nogales, was estab. among the Pima Indians about 1696 by Fr. Kino. Suffered from Apache raids. Present church, 50 by 100 feet, completed 1822, abandoned 1827. Now a national monument.

Guevavi Mission, estab. 1692 by Fr. Kino, is a complete ruin, 8 mi. north of Nogales. Almost obliterated are the ruins of **Quiburi** on the San Pedro river, 3 miles from Fairbank.

MISSIONS OF TEXAS

Texas history names Fr. Juan de Padilla, Franciscan, who came with Coronado, 1541, as its first missionary. The first Mission was **San Francisco de los Tejas,** built 1690 in a village of the Tejas tribe, from which Texas takes its name. Burned 1693, it was rebuilt 5 miles distant, near Alto, Tex., 1716-1719. Reproduced in the Davy Crockett division of the Texas National Forests.

Texas Missions in the 18th century had a short and dangerous life. The French threatened them on the East. Hostile Indians and undisciplined soldiers rioted around them. Many did not survive the century and only 9 exist today. The finest examples are in the environs of San Antonio.

THE ALAMO

Of the five Missions in or near San Antonio, the greatest renown attaches, for patriotic reasons, to the Alamo, now preserved as the Cradle of Texas Liberty. This was the **Mission de San Antonio de Valero,** founded 1718 and named for St. Anthony of Padua and the Marquis of Valero, Spanish viceroy. Alamo is Spanish for cottonwood. Church and convent were surrounded by a wall 8 ft. high, 2½ ft. wide. In February, 1836, Santa Anna and 1,000 Mexicans besieged 144 Texans under Col. William Barrett Travis in the Alamo. They fought to the last man. Davy Crockett and Col. James Bowie dying with them, Mar. 6, 1836. The bodies were burned on the site. The church, in ruins, was bought about 40 years ago from the Catholic church by the State of Texas. The building has been restored, the Plaza cleared and the whole is a memorial to Texas' defenders.

Mission Concepcion (Mission de Nuestra Sonora de la Concepcion de la Purisime de Acuna), founded 1716, moved to its present site, 1730-31, and is located on San Antonio river 2 miles outside the city. Has a cruciform design, dome and cupola, two towers with a triangular facade, and Moorish characteristics. Sunday services.

Mission San Juan Capistrano, founded 1731 on San Antonio river, 6 miles below city. Rebuilt 1907. Has a campanario. Sunday services.

Mission San Francisco de la Espada (St. Francis of the Sword) on San Antonio river, 9 miles from city, built in the 1730s. Has Moorish type doorway, fortified tower with portholes, campanario. Services daily.

Mission San Jose (San Jose y San Miguel de Aguayo) built after 1720, has been called Queen of the Missions. Restored 1933. Shows Moorish influence. Has a remarkable carved window, circular stairs to the belfry, cloisters, old mill and granary. In 1768 it had 300 inmates; its walls were 600 ft. long, 500 ft. wide. Was used as barracks by Santa Anna's Mexicans, Texan patriots and the U. S. Army. It is maintained by the Texas State Parks and supervised by church and state cooperatively. Has regular services. (Near San Antonio.)

Corpus Christi de la Isleta del Sur, 1681; 13 mi. from El Paso. Fire destroyed church, 1907. Church of Our Lady of Mt. Carmel reproduces original building. Irrigation ditch. Four mission acres in constant use since 1682.

Zuniga (Nuestra Senora del Espiritu Santo de Zuniga). First site, 1722; second, 1726. Moved to present site in Goliad State Park, 1749. Restored. Museum opened 1934.

Purisima Concepcion del Socorro, 18 mi. from El Paso. First, 1683 (?) abandoned; second, flooded; present built in 19th century.

Nuestra Sonora del Refugio, 1790, 43 mi. from Victoria. Attacked in Comanche war; bombarded by Mexicans, 1836; used as hospital after battle of San Jacinto. Chapel on ruins, 1840, removed, 1860. Modern church on site.

Vanished Texas Missions indicated by sites, mounds or ruins—Candelaria, near Thorndale, 1749-1755; Candelaria del Canon, 21 mi. from Uvalde, 1760; Dolores de los Ais, San Augustin, 1721-1773; Guadalupe, North St. Nacogdoches; Guadalupe de El Paso, 1659, now in Juarez, Mexico; Orcoquisac, near Devers, 1756-1771; Concepcion, on San Antonio-Nacogdoches road, 1716-1730; Lujanes, 4 mi. southwest of Goliad State Park, 1754; San Antonio de Senecut, 2 mi. from Yslete, 1680; Neches, near Alto, 1721; San Idefonso, near Thorndale, 1749-55; Nazonis, near Cushing, 1716-30; San Lorenzo de la Santa Cruz, near Barksdale, 1762; Santa Cruz, Menard, 1758; Santissima Nombre de Maria, near Alto, 1691; San Vicente, now on Mexican side of Rio Grande.

CALIFORNIA MISSIONS

The 21 Missions built 1768-1823 by the Franciscans in California are located on or near El Camino Real, the Royal Highway (U. S. 101) from San Diego to Sonora. They were erected as a result of the zeal of Fr. Junipero Serra, a native of Majorca and member of the Franciscan College of San Fernando in Mexico City. He was made leader (Father President) of the missionary expedition into Alta (Upper) California, today's State, after the Jesuits were expelled by Spain in 1768. With Crespi, Lasuen, Palou and their successors he built Missions, converted and educated thousands of Indians, develcped farming communities.

Mission San Luis Rey de Francia had 2,869 inmates in 1826. Mission San Juan Bautista had 10,800 cattle in 1821, while San Gabriel Arcangel had 16,500 head in 1834. The republic of Mexico secularized the Missions in the 1830s, and Pio Pico, corrupt governor, sold them for petty sums in 1846 to individuals, including Yankees.

Title to the Missions was restored to the Church by Presidents Buchanan, Lincoln and Grant. The Act of Congress, after the Mexican war. The United States also obtained two legal judgments against Mexico ordering that nation to repay the Franciscans for confiscated funds, the last from the Tribunal at The Hague in 1902. Mexico made several payments and then stopped.

San Diego de Alcala, San Diego, 1769; moved 6 miles, 1774-75; burned by natives and rebuilt 1776-80. Secularized 1834, sold by Pico, 1846, occupied as barracks by John C. Fremont, 1846. Returned to church by Pres. Lincoln, 1862; restored 1931; now a museum.

San Luis Rey de Francia, near Oceanside, 1798; new church, 1811-15; secularized, 1835; sold, 1844; returned 1865. Restored. School for girls since 1913.

San Juan Capistrano, about 30 mi. from San Luis Rey. Adobe chapel, 1776, oldest building in California, used until 1891; restored. Stone church, 1806; destroyed by earthquake, 1812, partially rebuilt 1814, looted by Argentines, 1818, sold 1844. Returned by Pres. Lincoln, 1865. Restoration begun 1895. Damaged by earthquake, 1918. Parochial school, 1928. Tradition that swallows arrive on St. Joseph's day, Mar. 19, depart on St. John's day, Oct. 23, verified with few exceptions, has aroused national interest and led to radio attempts to broadcast sound of swallows' flight.

San Buenaventura, in Ventura, 1782. New church, 1809, damaged 1812, restored, 1815. Confiscated and sold 1846, returned by Pres. Lincoln, 1862. Restoration attempted 1861-1877. Parish school since 1925. Museum opened 1929.

Santa Barbara, on Los Olivos St., Santa Barbara, 1786. Third church destroyed by earthquake 1812, fourth erected 1815-20. Confiscated and sold by Pico 1846; U. S. troops nullified sale one month later. College for priests, 1853; College of Our Lady of Sorrows, 1856. Enlarged 1896-1905. Damaged by earthquake, 1925, restored.

San Gabriel Arcangel, near Los Angeles, 1771; removed to present site, 1776; church of stone and brick, 1800-1805; damaged by earthquake, 1812; confiscated 1834; sold 1846; returned to church by U. S., 1859; parish church until 1908 when taken over by Missionary Sons of the Immaculate Heart of Mary. Restored.

San Fernando Rey de Espana, San Fernando, 1797. New church 1799-1804 damaged by earthquake, 1812; confiscated, 1846; occupied by John C. Fremont's troops 1847; returned by Pres. Lincoln. Restored, 1896. Oblate Fathers built chapel for Mexicans and school, 1925.

Santa Ines, Solvang, 1804. After earthquake of 1812 present church built, 1817; center of riots between Indian neophytes and troops, 1824; secularized 1836; confiscated 1846; returned to Picpus fathers 1850, continued as parish church; restored; church opened on centenary, July 4, 1917.

La Purisima Concepcion, near Lompoc, 1787; moved four miles; new church 1813, collapsed 1818, restored. Confiscated, 1846, returned to church by

Grant, 1874. Sold by bishop, 1883. Deeded to a Barbara county by Church and Union Oil developed by County and State as State Monu- and entirely rebuilt by Civilian Conservation s, 1935.

n Luis Obispo de Tolosa, San Luis Obispo, Confiscated 1845, returned 1859 by Pres. anan. Convent school opened, 1876, burned rebuilt. Restored.

n Miguel Arcangel, San Miguel, 1797. New ch, 1816-1818. Confiscated and sold by Pico 3 before U. S. troops arrived. Returned by Buchanan, 1859. Pastor began restoration,

n Antonio de Padua, near Bradley, 1771; ch built, 1779-80; secularized 1834; confiscated returned 1862 by Pres. Lincoln; deserted damaged in earthquake, 1906. In ruins.

estra Senora de la Soledad, at Soledad, 1791 S. 101). First church collapsed from floods, Confiscated 1846, returned by Pres. Buchanan, Complete ruin.

n Carlos Borromeo de Carmelo, near Carmel te Highway 1), 1770. Started at Monterey, re- ed at Carmel, 1771. Harassed by Gov. de Neve, Fr. Serra died here Aug. 28, 1784, aged 70, making final tour of Missions, 1783. New ch, 1793. Confiscated 1845, returned by Pres. anan 1859. Restored. Has tombs of Serra, oi, Lasuen, Lopez.

n Juan Bautista, 18 mi. north of Salinas, never entirely closed to date. Hurt by earth- e, 1800; new church, 1803-12, with three naves. ked by Indians, 1815; robbed by Pico, 1846. rned by Pres. Buchanan. Orphanage estab. Damaged, 1906, restored, 1907. Taken over aryknoll Fathers, 1928.

ta Cruz, at Santa Cruz (State Highway 1). New site, 1794. Indians murdered priest, 1812. Confiscated by Mexico; returned by Pres. Buchanan. Earthquake 1857, new church built 1858.

Santa Clara de Assisi, 1777. Removed from Alviso to Santa Clara, 1780. Wrecked in earthquake, 1818, moved to present site, (U. S. 101). Secularized 1837. Ruined by Pico, 1845. Mission remodeled for college 1851.

San Jose de Guadalupe, 15 mi. north of San Jose, 1797. New church, 1809. Center of Indian raids. Confiscated, 1846, returned 1858. Chapel destroyed by earthquake, 1868; Orphanage opened 1884, rebuilt 1891. Wooden church of Norman architecture occupies site.

Mission Dolores (San Francisco de Assisi) 1776; 16th and Dolores Sts., San Francisco. New church. 1791-92 Confiscated, but not sold by Pico; returned by Pres. Buchanan, 1858. Only restored chapel remains beside a modern church.

San Rafael Arcangel, A and Fifth Sts., San Rafael, 1817. Originally hospital adjunct to Dolores. Confiscated, 1845; returned by U. S. John C. Fremont's troops occupied it one week, June, 1846. Church built on site, 1869, burned; new church, 1917.

San Francisco de Solano, Sonoma, estab. 1823 by Fr. Jose Altamira without authority because he wished to abandon Rafael and Dolores. Pillaged 1826, secularized 1834. Chapel used occasionally until 1881, then sold to provide funds for another church. Warehouse until 1903, then acquired by State. Restored. Chapel now museum. Stands on Plaza where Bear flag of California Republic was raised June 14, 1846. John A. Berger, historian of Missions (*The Franciscan Missions of California*) says: "Here California's remarkable Franciscans bowed to civilian dominance; here, indeed, the Mission sun went down."

Calendar Revision: the World Calendar

orts to bring about a revision of the calendar doption by all nations Dec. 31, 1950, progressed g 1949 under the sponsorship of the World dar Association, Rockefeller Center, New . N. Y. Senator Estes Kefauer (Dem., Tenn.) duced a bill in support of the project March 28. s also placed on the agenda of the 32nd con- ce of the International Labor Organization, g in June in Geneva; before the economic ocial council meeting of the United Nations in va in July and the economic meeting of the nization of American States at Buenos Aires ptember. The object was to promote early ac- ly the General Assembly of the United Nations. w has official support of 17 governments: anistan, Brazil, Chile, China, Czechoslovakia, e, Hungary, Mexico, Norway, Panama, Peru, , Saudi Arabia, Syria, Turkey, Uruguay, and stonian S. S. R.

e World Calendar rearranges the length of familiar 12 months, equalizes the quarters and ears and makes the calendar perpetual, every the same. Equalization of the quarters and ears is accomplished by giving the first ths of every quarter 31 days and each of the ning two months 30 days. Thus the 12- h year has four months of 31 days and eight ths of 30 days. Every month has exactly 26 weekdays in addition to Sundays; the quarters begin on Sunday and end with Saturday; and every year begins with Sunday, January 1st. Symmetry, balance, order, and stability are achieved without difficult transitional changes.

To conform to the necessary 365 days in ordinary years and 366 days in leap years, vitally essential if any calendar is to harmonize with the solar year and make it comparable from year to year, the World Calendar adds World's Day as an extra holiday at the end of every year after the completion of the fourth quarter, and adds a Leap year-Day, another extra holiday in leap years, after the completed second quarter, at the end of June.

Among the advantages of the World Calendar are these: Exact statistical comparisons could be made between corresponding periods of different years without having to weigh the results because of a different number of Saturdays or Sundays; days and dates always agree; many holidays could be set so that they always come on Monday and so make a long weekend; any holiday with a fixed month date, like Independence Day, would always come on the same day of the week; any date that is now fixed by the day of the week, such as "the first Tuesday after the first Monday in November" would always have the same date.

Greek Church Calendar, 1950

	Holy Days	Date	Holy Days	Date	Holy Days
1	Circumcision	May 18	Ascension	Aug. 30	St. Alexander Nevsky*
6	Theophany (Epiphany)	May 28	Pentecost	Sept. 8	Nativity of Theotokos
2	Hypapante (Purification)	May 29	Holy Ghost	Sept. 14	Exaltation of Cross

In A. D. 325 the Council of the Christian Churches at Nicea in Asia Minor (present-day Nice or Isnik, in Asiatic Turkey) drew up the Nicene Creed, and also decided that Easter shall be on the first Sunday following the Paschal Full Moon which happens upon or next after the 21st of March. The principal reason was that the pilgrims needed moonlight to travel on their way to the great yearly Easter festivities. The date of Easter thus may vary between March 22 and April 25, over a period of 35 days.

Because of this wide fluctuation the British Parliament in 1928 passed a permissive statute with the purpose of bringing Easter within the "orderly scope of a solar measurement of time," determining provisionally that it should be "the first Sunday after the second Saturday in April." This reduces the range of variation less than a week. But the change was to await international consent and that has so far not been obtained.

If Paschal Full Moon falls on a Sunday, then Easter Day is the next Sunday. The Paschal Full Moon is the Fourteenth day of a Lunar month reckoned according to an ancient ecclesiastical computation and not the real or astronomical full moon.

Lent, the great period of fasting in the Christian Church, begins on Ash Wednesday, which comes 40 days previous to Easter Sunday, not counting Sundays.

Lent originally was a period of but 40 hours. Later it comprised 30 days of fasting, omitting the Sundays and also all the Saturdays except one. Pope Gregory added Ash Wednesday to the list, together with the remainder of that week.

The last seven days of Lent constitute Holy Week, beginning with Palm Sunday. Passion Week precedes Holy Week. The last Thursday—Maundy Thursday—commemorates the Institution of the Eucharist.

The following day, Good Friday, commemorates the day of the crucifixion. Mohammedans celebrate Friday as the day of Adam's creation. Among Germans Friday was sacred to the goddess-mother wife of Odin.

Easter is the chief festival of the Christian year, commemorating the resurrection of Christ. It occurs about the same time as the ancient heathen Roman celebration of the Vernal Equinox, the arrival of Spring. In the second century, A. D., Easter Day was, among Christians in Asia Minor, the 14th of Nisan, the seventh month of the Jewish calendar. The Christians in Europe observed the nearest Sunday.

The Jewish calendar is based on days reckoned from evening to evening.

Church Fasts

The Roman Catholic Days of obligation are Jan. 1 (Circumcision of Christ); Ascension Day (forty days after Easter Sunday); Aug. 15 (Assumption of the Blessed Virgin Mary); Nov. 1 (All Saints' Day); Dec. 8 (Immaculate Conception); Dec. 25 (Christmas), and all the Sundays of the year.

The Roman Catholic canon law prescribes abstinence for every Friday of the year. Abstinence and fast together are to be observed on Ash Wednesday, the Wednesdays and Fridays of Lent (in the United States), the Ember Days, the Vigils of Pentecost, the Assumption of the Blessed Virgin Mary, the feast of All Saints, and the Nativity of Our Lord. The law of fast alone is prescribed for all the remaining days of Lent except Sundays.

In the American Episcopal Church the days of fasting or abstinence to be observed, according to the Book of Common Prayer, are the forty days of Lent, the Ember Days, and all the Fridays of the year except Christmas Day and the Epiphany. The three Rogation Days are days of Solemn Supplication. In the Greek Church the four principal fasts are those in Lent, the week succeeding Whitsuntide, the fortnight before the Assumption, and forty days before Christmas.

Ember and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember Days (twelve annually), about the beginnings of the four seasons, are the Wednesday, Friday, and Saturday after the first Sunday in Lent, in Spring; after the feast of the Pentecost (Whitsunday) in Summer; after the festival of the Holy Cross, Sept. 14, Autumn, and after the festival of St. Lucia, Dec. 13, Winter, Ember Weeks are the weeks in which the Ember Days appear.

Ember Days in 1950 are March 1, 3, 4; May 31, June 2, 3; September 20, 22, 23; December 20, 22, 23.

Rogation Days occur on Monday, Tuesday and Wednesday immediately preceding Ascension Day, and in 1950 fall on May 15, 16, 17.

A New Bible Designed by Bruce Rogers

Rogers, famous American designer in the arts, designed the new folio Bible published 1949, by the World Publishing Co. as The Bible. Mr. Rogers was 79 year old at the had nearly 500 other designs to his credit, ng the Oxford Lectern Bible, issued in 1935. Bible contains nearly 1,000 pages, 13¼ by hes, printed in two columns wide in 18- oudy Bible type, modified by Mr. Rogers from Frederic Goudy's Newstyle. The pages carry initial letters and ornaments. The King James version is used, including the introductory article by the translators. Binding is in boards with crimson-maroon buckram, stamped in gold, showing emblems of the four apostles and other scriptural symbols. The printer was A. Colish, New York. The edition was limited to 975 numbered copies.

al gross public debt and guaranteed obligations	252,797,635,267.91	252,365,707,331.46

cess of credits (deduct). See footnote 3.

cludes $56,138,203.60 for the month and $145,763,868.65 for the fiscal year representing proceeds p sales finally allocable to surplus-property receipts which have been carried in trust accounts on 3 pending final determination.

presents appropriations equal to "Social security—employment taxes" collected and deposited as ied under sec. 201.(a) of the Social Security Act amendments of 1939.

ective January 3, 1949, amounts refunded by the Government principally for the overpayment es, are being reported as deductions from total receipts rather than as expenditures. Also, effective 1, 1948, payments to the Treasury, principally by wholly owned Government corporations for ment of capital stock and for disposition of earnings, have been excluded in reporting both t receipts and expenditures. Neither of these changes affects the size of the budget surplus or . Prior year figures in each case have been adjusted accordingly for comparative purposes.

penditures are "net," after allowance, for reimbursements to appropriations, receipts of revolv- nd appropriations, and receipts credited to disbursing accounts of corporations and agencies g authority to use collections without formal covering into the Treasury. When such credits d expenditures the items are indicated by the prefix "*a*." Sales and redemptions in the market igations of Government corporations are excluded.

ily comparative figures are not available on account of changes in classifications. Adjustment for changes is made on the last day of each month by reducing the expenditures included during onth in "Other agencies."

ligations of War Shipping Administration, incurred prior to Jan. 1, 1947, are paid by the sury of the Treasury pursuant to Public Law 299, approved July 31, 1947.

penditures on behalf of the Department of the Air Force which are made out of appropriations e Department of the Army are included in the expenditures of the latter department.

ludes transactions on account of Federal National Mortgage Association, War Damage Corpora- n liquidation, and merged war affiliates.

ludes $6,851,062,450.28 as of this date and $2,788,924,354.98 for corresponding period last year ced to Government agencies for which their obligations are owned by the Treasury.

e—Expenditures in the fiscal year 1949 exclude $3,000,000,000 expended from Foreign Economic ration Trust Fund. If this amount were included in budget expenditures for the fiscal year 1949, tal of such expenditures would be $40,057,107,857.79 and there would be a budget deficit of ,440,047.68.

mated membership and estimated business for each association is credited to the State in the association has its headquarters.
list includes independent local associations, federations, large-scale centralized associations and gencies.
membership estimates include members, contract members, and shareholders, but do not include s not in these categories.
e is some duplication in these membership figures, due to the fact that some farmers belong re than one association.

[1]National income originating in each industry is the sum of factor costs incurred by the indus in production. Hence, it is the net value added to production by the industry, measured at fac costs. In the business sector of the economy, except Government enterprises, it is equal to the exc of the market value of the industry's product and the subsidies it receives over the sum of t following costs: purchases of goods and services from other enterprises, indirect business tax and mot liability, business transfer payments and capital consumption charges. In the Government and perso sectors of the economy, which do not produce for sale, and also in Government enterprises, this va added in production (as measured in the present series) can be described only as factor costs incurr

[2]This series differs from income originating in the rest of the world because profits received domestic corporations from foreign branches are excluded from this line and included in the indus of the recipient corporation. Data required for their elimination are not available by industry.

usiness failure, as defined for this record, s when a commercial or industrial enterprise olved in a court proceeding or a voluntary which is likely to end in loss to creditors. ically, the Dun & Bradstreet record of fail- includes discontinuances following assign- voluntary or involuntary petition in uptcy, attachment, execution, foreclosure, voluntary withdrawals from business with loss to creditors; also enterprises involved rt action, such as receivership, and since 1943, reorganization, or arrangement, which r may not lead to discontinuance; as well as businesses making voluntary compromises with creditors out of court. Comparison of this series with the bankruptcy reports of the Attorney General of the United States is not possible. The latter give complete coverage of all types of cases, including farmers, employees, professional men and others not in business, all of which are excluded from the Dun & Bradstreet statistics. Revisions were made in the classification of failures in 1933 and 1939. In these years, two sets of figures are given—the original denoted as "A" for comparison with previous years and the revised denoted as "B" for comparison with subsequent years.

Summary of Internal Revenue Collections

Source—Treasury Department, Bureau of Internal Revenue

(cents omitted but included in totals)

Source of revenue	Fiscal year 1948	Fiscal year 1949	Increase or decrease (—
Income and profits taxes:

Note—Internal revenue collection districts follow State boundaries, except that the Maryland di includes the District of Columbia, and Puerto Rico for certain collections, and the Washington di includes the Territory of Alaska. The amounts collected by States are not entirely indicative o Federal tax burden of the respective States, since the taxes may be eventually borne by persons in States.

[1]Includes amounts covered into the Treasury from documentary stamp sales by postmasters as w excise tax collections on imported distilled spirits and wines by collectors of customs.

*Separate collections for the District of Columbia are no longer available.

eliminary, subject to revision.

e. There is maintained in the Treasury—s a reserve for United States notes and ury notes of 1890—$156,039,431 in gold bul- (ii) as security for Treasury notes of 1890—ual dollar amount in standard silver dollars e notes are being canceled and retired on re- ; (iii) as security for outstanding silver cates—silver in bullion and standard silver s of a monetary value equal to the face nt of such silver certificates; and (iv) as ty for gold certificates—gold bullion of a at the legal standard equal to the face nt of such gold certificates. Federal Reserve are obligations of the United States and a lien on all the assets of the issuing Federal ve Bank. Federal Reserve notes are secured by the deposit by the Federal Reserve Bank concerned, with its Federal Reserve Agent, of a like amount of collateral consisting of such discounted or purchased paper as is eligible under the terms of the Federal Reserve Act, or gold certificates, or direct obligations of the United States. Each Federal Reserve Bank must maintain reserves in gold certificates of not less than 25 percent against its Federal Reserve notes in actual circulation. Gold certificates deposited with Federal Reserve Agents as collateral, and those deposited with the Treasurer of the United States as a redemption fund, are counted as part of the required reserve. "Gold certificates" as herein used includes credits with the Treasurer of the United States payable in gold certificates. Federal Reserve bank notes and National bank notes are in process of retirement.

k of Money, Classified by Kind, at End of Each Fiscal Year

All Banks in United States—Number, Deposits

Source: Federal Reserve System

Comprises all national banks in the continental United States and all State commercial banks, trust companies, mutual and stock savings banks and such private and industrial banks as are included in abstracts issued by State banking departments. Also includes, during the period June 19 June 1935, private banks which, pursuant to provisions of the Banking Act of 1933, submit condition reports to the Comptroller of the Currency.

[1]Includes unincorporated business saving of the types specified. Does not include corporate and government saving. Considerable revisions have been made in some of the series.

[2]Does not include net purchases by brokers and dealers or by other individuals financed by bank l

[3]Includes Armed Forces Leave bonds.

[4]Mortgage debt to institutions on one-to-four family nonfarm dwellings.

[5]Largely attributable to purchases of automobiles and other durable consumers' goods, although including some debt arising from purchases of consumption goods. The other segments of individual debt have been allocated to the assets to which they pertain, viz., saving in savings and loan associations, insurance and securities.

[6]Construction of one-to-four family nonfarm dwellings less net acquisition of properties by individuals. Also includes a small amount of construction by non-profit institutions.

[7]Consumer expenditures on durable goods as estimated by the Department of Commerce.

Note: Figures are rounded and will not necessarily add to totals.

Counterfeit Money, Forged Checks, Savings Bonds

There is more counterfeiting today than at any time in the past ten years. The U. S. Secret Service, Treasury Department, urges money handlers to examine currency carefully for their own protection.

HOW TO DETECT COUNTERFEIT BILLS

Compare a suspected bill with a genuine of the same type and denomination. Observe three things:

Portrait

Counterfeit—Dull, smudgy, or unnaturally white and scratchy. Squares in oval background usually dark and broken.

Genuine—Stands out distinctly. Eyes appear lifelike. Tiny squares in background are clear.

Colored Seal

Counterfeit—Saw-tooth points around rim are usually broken off and uneven. Color may be lighter or darker than genuine.

Genuine—Saw-tooth points around rim are even and sharp.

Paper

Counterfeit—Generally has no colored threads, but they may be imitated by red and blue pen and ink lines.

Genuine—Has tiny red and blue threads scattered throughout.

HOW TO DETECT COUNTERFEIT COINS

Drop coins on hard surface. Genuine coins have bell-like ring. Most counterfeits sound dull.

Feel all coins. Most counterfeit coins feel greasy.

Corrugated outer edge of genuine silver coins is even and regular. Edge of counterfeits is uneven, crooked, or missing in places.

Cut edges of questionable coins. Most counterfeits can be easily cut with a knife. Genuine coins are not easily cut.

Test silver coins with acid. Scrape coin and apply drop of acid. If coin is not silver it will turn black at once. Acid for testing silver coins is made with:

Silver Nitrate.....10 Gr.
Nitric Acid.....1 cc.
Distilled Water.....30 cc.

The solution may be purchased for a few cents in any drug store.

FORGED CHECKS

Some estimates have placed losses from worthless checks as high as $300,000 000 a year. The Secret Service is engaged in a "know your endorsers" campaign against those who steal and forge Government checks and has prepared the following rules for guidance:

IF YOU CASH CHECKS

Know your endorser—require identification! Insist that a person presenting a check identify himself as the person entitled to that check.

Before accepting any check, ask yourself this question: "If this check is returned as a forg can I locate the forger and recover my loss?"

Insist that all checks be endorsed in your presence. If a check is already endorsed, ask that be endorsed again, then compare the handwri

Require all checks to be initialed by the emp who pays out money for them, or who appr such payment.

IF YOU RECEIVE CHECKS BY MAIL

Be at home, or have a member of your fa at home, when checks are due to be delivered you get the checks they cannot be stolen from mail box.

Print your name clearly on your mail box. the box with a lock if you have not already so. A lock may prevent a loss.

Cash your checks in the same place each mo This will make identification easier.

Do not endorse your check until you are in presence of the person you will ask to cash it

Millions of the checks issued by the Governm go to dependents of men in the armed forces Social Security pensioners, to war veterans farmers, to holders of Government bonds, others. When these checks are stolen, the pa may be deprived of some of the necessities of

SAFEGUARD YOUR BONDS

Your Savings Bonds are safer to hold than and they grow in value while cash does not. thieves manage to break in and steal. Every the Secret Service arrests scores of offenders have stolen, forged and fraudulently cashed ings Bonds. You can't lose. The Treasury Dep ment will replace any Savings Bonds lost, sto mutilated or destroyed. You can help the Se Service track down offenders and make it e for the Government to replace lost or stolen bo Here's how:

Keep your bonds in a safe deposit box or s other safe place.

Keep a record of the serial numbers, amou and dates of issue in a separate place, apart fr the bonds themselves.

Give prompt notice of your loss, with serial n bers, issue dates (month and year), denomina (maturity value), and name and address of owner to the Division of Loans and Curre Treasury Department, Merchandise Mart, Chi 54, Ill.

Bureau of the Mint

Source: Bureau of the Mint

ist United States Mint was established in
hia, Pa., then the nation's capital, by the
ril 2, 1792 which provided for gold, silver
er coinage. Originally, supervision of the
a function of the Secretary of State, but
(1799) an independent agency reporting
o the President. When the Coinage Act
as passed, all mint and assay office ac-
were placed under a newly organized
f the Mint in the Department of the

The Bureau of the Mint manufactures all domestic coins, acquires gold and silver bullion, safeguards the Government's holdings of monetary metals, administers the issuance of Treasury licenses for acquisition, possession and use of gold for business purposes. Other activities include the refining of gold and silver, coinage for foreign governments, manufacture of medals for the armed services, manufacture of coinage dies and platinum assay utensils, and special assays of bullion and ores.

d other securities of the Federal Govern-
tage, revenue, adhesive postal note and
gs stamps; Government checks, drafts,
ns, postal savings certificates, transpor-
uests, warrants, and other items.
ntity of printed work delivered during
year ended June 30, 1949 totaled 746,-
eets. This amount includes 102,390,000
silver certificates, of which the major
mprised one dollar bills, 3,610,000 sheets
States notes, and 34,220,000 sheets of
eserve notes, or a total of 140,220,000
currency aggregating $6,526,320,000.00 in

lasses of work produced and delivered
59,714,000 United States savings bonds; 3,512,951 sheets of Treasury bonds, notes and other securities; 2,599,000 sheets of Philippine currency and 885,300 sheets of Cuban silver certificates; 510,105,882 sheets of postage, revenue, and other stamps; and 19,162,427 sheets of checks, postal savings certificates, commissions and other forms.

The total weight of the paper used in the production of all classes of currency for the fiscal year 1949 amounted to 1,792 tons. Approximately 225 tons of paper were required for United States savings bonds and other Treasury securities. There were 3,890 tons used for postage, revenue, checks and miscellaneous items. Approximately 1,388 tons of ink were consumed in the printing of currency, 86 tons for bonds and other Treasury securities, and 323 tons for the various classes of stamps, checks and miscellaneous items.

Value and Weight of Gold

Source: Director of the Mint

The unit in weighing gold is the troy ounce. An ounce of fine gold means an ounce of pure gold. The President proclaimed (Jan. 31, 1934) the United States gold dollar to be 15 5/21 grains of gold, nine-tenths fine, which is equivalent to $35 per fine troy ounce; the previous value of gold was $20.67 per fine ounce, based on the dollar of 25.8 grains of gold nine-tenths fine. Weighings are made in troy ounces and decimals thereof. Jewelers use the penny-weight and grain. The troy pound never is used. The grain is the same in both troy and avoirdupois measure but the ounce and the pound are not the same. The troy ounce contains 480 grains and the troy pound 5,760 grains, there being 12 ounces to the pound. The avoirdupois ounce contains 437½ grains and the avoirdupois p contains 7,000 grains, there being 16 ounces to pound. The troy ounce is about one-tenth hea than the avoirdupois ounce.

A 14.1 inch cube of gold weighs a ton.

U. S. Government gold is held at the M Institutions which are the Mints in Philadelp San Francisco and Denver; Assay Offices in York and Seattle; and the Gold Bullion Deposit in Fort Knox, Ky., where about $12,500,000,00 the United States gold assets, totaling $24,300,0 000 is held as of March 31, 1949.

The Government's silver vault is at West Po on the Hudson, and silver from New York moved there in 1938 and 1940.

Old-Age and Survivors Insurance

(age and survivors insurance is a Federal m insuring "covered" workers against wage s cause of old age. It provides regular monthly nts to insured workers when they retire at or thereafter; supplementary payments to aged wives and dependent minor children; survivor payments to the widows, young n, and sometimes aged dependent parents, red workers who die. In general, wage and workers in industry and commerce are d by the program; the self-employed, house- nd agricultural employees, railroad em- , and employees of nonprofit organizations vernment are not covered.

monthly benefits paid are directly related average amount of wages earned by the worker. The benefits are financed from ntributions required under the Federal Insur- ontributions Act. The contributions, paid worker and his employer, are based on rker's "taxable wages" (up to a maximum 00 a year). The employer reports every months to the Bureau of Internal Revenue ount of taxable wages he has paid each e. At the same time, he also pays his ntribution and those of his employees, he has deducted from the latter's wages. tribution rate for 1949 was 1 percent each employer and employee; it is scheduled to 1½% each in 1950 and to 2% in 1952.

employer wage reports are forwarded by reau of Internal Revenue to the Bureau Age and Survivors Insurance, which keeps nuous record of each worker's wage credits his individual social security account num- ese wage credits determine the worker's ce status and the amount of benefits for e and his dependents may qualify. Unlike wages, which include amounts up to $3,000 ch employer in a calendar year, a worker's edits in any calendar year cannot exceed ount of $3,000.

amount payable to persons entitled to benefits is based on the worker's average monthly wage, which is determined by dividing his total wage credits by the number of months he could have worked under the system—that is, the number of months between 1936 (or beginning with the quarter of the year in which he reached age 22, if later) and the first month of the quarter in which he becomes entitled to benefits or dies. The worker's retirement ("primary") benefit is computed as 40 percent of the first $50 of his average monthly wage, plus 10 percent of the next $200, and the resulting amount is increased by 1 percent for each year of coverage (year in which the worker received $200 in covered employment).

The benefits payable to a worker's dependents and survivors are related to the amount his wage record would yield as his own primary benefit at the time the computation is made. If the worker has become entitled to a primary benefit, supplementary benefits equal to half the primary benefit are payable to his wife if she is at least 65 years old and to each unmarried dependent child under age 18. The widow's benefit is three-fourths, and the child's or parent's benefit is one-half, the monthly amount of the insured worker's primary benefit computed from his wage record at the time of his death.

The amount of monthly benefits payable on the basis of any one wage record ranges from a minimum of $10 a month to a maximum which cannot exceed $85 a month, or 80 percent of the worker's average monthly wage, or twice the primary benefit, whichever is least.

If no survivor of an insured worker is entitled to a monthly benefit a lump-sum death payment (which cannot exceed six times the worker's primary benefit) goes to the surviving spouse, provided the latter was living with the worker at the time of his death. In the absence of such survivor, a lump sum equal to the amount of the burial expense, but not to exceed six times the primary benefit, is payable to the person or persons who paid the burial expenses.

Table 1 shows the amounts payable to a single retired worker and to a married couple on the basis of various assumed years of coverage and average monthly wages, and table 2 shows similar illustrative survivor benefits.

To qualify for a retirement benefit the worker must be "fully insured." He is fully insured if he has received wages of as much as $50 in covered employment in at least six calendar quarters and in as many as half the number of calendar quarters elapsed between December 31, 1936 (or attainment of age 21, if later) and the quarter in which he reaches age 65 or dies. When a worker has as many as 40 of these "quarters of coverage," he is fully insured for life; for workers now nearing age 65, however, insured status can be acquired with fewer quarters of coverage. If the worker is fully insured, all types of supplementary and survivor benefits provided by the program are payable to his dependents. If the worker dies when he is currently but not fully insured, however, the only monthly survivor benefits payable are those to his young children and to his widow if she has one or more child beneficiaries in her care. A worker is "currently insured" if, at his death, he has received taxable wages of $50 or more in not less than six of the last 13 calendar quarters including the quarter in which he died.

About 56,000,000 workers were in covered jobs at some time during 1948. Their total taxable wages for the year—$85.1 billion—and the average taxable wage—$1,702—were the highest on record. The average taxable wage was $109 more than in 1947 and $770 more than in 1940, the last prewar year.

At the beginning of 1949, an estimated 43,400,000 persons were either fully or currently insured. In other words, more than half of all living persons who had held a covered job at any time during the 12 years 1937-48 were insured on January 1, 1949; 38,300,000 were fully insured and 5,100,000 were currently insured. About 13,200,000 had acquired sufficient quarters of coverage to remain permanently insured throughout their lifetime without further covered employment. The permanently insured included 2.0 million workers aged 65 or over, of whom more than half—1,048,000—had already retired and were receiving old-age benefits; the remaining 933,000 were not

[1]It is assumed that an individual earns at least $200 in each year of coverage. If this were not t case, the benefit would be somewhat lower.

receiving such benefits, for the most part because they were still working in covered jobs. The survivorship protection acquired by fully or currently insured workers as of January 1, 1949, was the equivalent of about $80 billion in term life insurance.

In all, $2,753,000,000 has been certified for monthly retirement and survivor benefits and lump sum payments since this program began. In the fiscal year 1948-49, $594,700,000 was certified for monthly benefits and $32,200,000 for lump sums on behalf of deceased insured workers who left no dependents immediately eligible for monthly benefits. These amounts included $2,900,000 certified for monthly survivor benefits and 678,500 for lump sums payable to survivors of World War II veterans under section 210 of the Social Security Act. Payments under that section were first made in September 1946. The number and types of beneficiaries receiving benefits on June 30, 1949, and their benefits for June are shown in table 3. The average monthly benefit in that month for a family consisting of a widow and three or more child beneficiaries was $53.30; for an aged widow the amount was $20.70, and for one aged parent, $13.70. The average benefit for a retired man was $26.20 and for a retired man and his wife, $41.00.

Survivor benefits based on earnings in both railroad employment and employment covered by old-age and survivors insurance first became payable on January 1, 1947. During the fiscal year 1948-49, benefits were awarded under old-age and survivors insurance to survivors of about 13,300 deceased workers who had earnings under both programs.

Contributions collected under the Federal Insurance Contributions Act in the fiscal year 1948-49 amounted to $1,690,000,000. Each year an amount equal to the contributions collected is appropriated to the old-age and survivors insurance trust fund (table 5), from which benefits and administrative expenses of the system are paid. On June 30, 1949, the trust fund had assets of $11,310,000,000.

Unemployment Insurance and Employment Services

Unlike old-age and survivors insurance, which is administered entirely by the Federal Government, unemployment insurance and employment services are State-Federal systems. They are designed to protect wage earners and their families from wage loss through involuntary unemployment by referring unemployed workers to other suitable jobs and, if none are available. by paying weekly benefits of limited amount and limited duration.

Each State enacts its own unemployment surance law and operates its own program, a the Federal Government cooperates through gra to the State to pay the cost of administering system. As a condition of such grants, the Soc Security Act sets up certain minimum specifi tions designed to assure that payments are ma to unemployed workers whose previous earnin or employment entitle them to such payme under the State law, and to safeguard a worke rights to benefits when he does not take a that fails to meet certain labor standards.

One of these specifications is that bene must be paid through public employment offic at which an unemployed worker must first regis for work and to which a worker must continue report regularly for a possible job during the ti he is drawing weekly benefit payments. The U. Employment Service, one of the divisions of Bureau of Employment Security, administers Federal aspects of the public employment serv system. Another division of that Bureau, Unemployment Insurance Service, carries Federal responsibility in connection with gra for unemployment insurance administration.

Unemployment benefits are financed by cont butions from employers subject to a State une ployment insurance law. Each State determi coverage of its law and sets the contribution ra In addition, the Federal Unemployment Tax levies a tax on employers throughout the coun but allows them credit (up to 90 percent of t ax) for the contributions they pay to their St unemployment funds or for the amounts th would have contributed to such funds in absence of experience-rating deductions allow under the laws of all States.

In general, the Federal tax and the State la cover the types of employment included under old-age and survivors insurance program; amo he groups specifically excluded are railroad wo ers who are covered by the Federal Railroad U employment Insurance Act. The Federal Una ployment Tax Act, however, is limited to e ployers of eight or more workers, and all but States have some size-of-firm restriction. Ma because of these coverage restrictions, about 4 000,000 different workers earned some wage cred oward unemployment benefits under State la in 1948, as compared with the nearly 50,000,0 who earned credits under Federal old-age a survivors insurance.

In addition to administering their own syste the State employment security agencies have a acted as agents of the Federal Government in pa ing benefits under two temporary postwar pr grams—reconversion benefits paid to veter

[1]Beginning July 1940, appropriations equal taxes collected under Federal Insurance Contributions Act; ginning with the fiscal year 1947, includes amounts appropriated to meet administrative and other sts of benefits payable to survivors of certain World War II veterans as provided under the Social curity Act Amendments of 1946.

[2]Before July 1, 1948, data represent checks cashed and returned to the Treasury; beginning July 1, 48, represent checks issued.

[3]Figure for fiscal year 1944-45 includes bookkeeping adjustments for expenditures for fiscal years 41-42, 1942-43, and 1943-44; annual figures in table do not, therefore, reflect actual outlays.

der the GI Bill and those paid under title XIII the Social Security Act to maritime workers ose wartime employment with the War Shipping ministration was considered to be Federal. nefits under both these emergency programs are anced by the Federal Government.

oward the end of 1948, general business activity kened, and employment and production began all off from the high levels prevailing through- 1947 and much of 1948. The resulting upswing unemployment was reflected in employment in- ance and employment service operations. During fiscal year 1948-49, more than 7,500,000 jobless kers filed new job applications with the em- ment services, and local employment security es made nearly 16,000,000 job referrals and 00,000 placements. Some 5,600,000 unemployed sons received benefit payments under the State tems, almost half again as many as in the 8 fiscal year. Nearly three-fifths of the job lications and more than two-thirds of the efit payments were made in the second 6 months the fiscal year. The total amount expended was 93,000,000, representing compensation for 61,- 000 weeks of unemployment, at an average of $19.91 per week. This weekly average was 2 more than in the preceding fiscal year. The rage beneficiary drew benefits for 11 weeks. was about 10 weeks short of the average tion to which eligible workers were entitled about the same as the average duration of efits actually drawn during the preceding year. orkers in six States in the fiscal year 1949 their weekly benefits augmented by small tional sums representing dependents' allow- s. Another five States enacted provisions for allowances, and two States liberalized exist- provisions.

hree States—Rhode Island, California, and Jersey—paid benefits for workers whose un- oyment was due to temporary disability, and additional States—New York and Washing- -enacted similar laws, to become effective in

ates received a total of $139,216,000 in Federal ts for administration of their unemployment ance laws (table 5).

ates collected $990,000,000 in contributions r their State laws during the fiscal year 1948-49, which was deposited in their State accounts in the unemployment trust fund; they also received interest totaling $160,000,000 on these accounts. On June 30, 1949, the balances of all State accounts in the fund aggregated $7,262,844,000, or $98,000,000 less than the amounts available for benefits on June 30, 1948 (table 6).

Public Assistance

Even with more complete social insurance protection against the risks of wage loss from unemployment, old age, and death of the breadwinner, there will always be some persons in the population who cannot meet their needs through their own efforts. Some of them are not covered by or entitled to social insurance benefits; others may be entitled to and receiving benefits but their total income does not meet their minimum needs. Under the State-Federal public assistance provisions of the Social Security Act, the Federal Government makes grants to the States to aid them in giving financial assistance to three groups of needy persons—the aged, the blind, and children who have been deprived of parental support or care for certain specified reasons. Assistance to other needy persons in the population who cannot qualify for one of the special types of assistance is available through general assistance, which is financed by States and/or local governmental units without Federal financial participation.

As in the State-Federal unemployment insurance system, States adopt and administer their own plans for the special types of public assistance under the Social Security Act, and the State plan must meet certain requirements set forth in that act if the State is to be eligible for Federal grants. The amount of the grant is based on the amount the State itself expends, within certain maximums, for assistance payments. The Federal Government also shares half the expense of administering the programs. The requirements specified for Federal approval of the State plan are designed to assure efficient and proper administration and to set certain limits to the eligibility requirements that an approved State plan may impose. Administration of the Federal aspects of the three programs is carried on by the Bureau of Public Assistance.

Under legislation that went into effect in Oc-

[1]Includes higher amounts approved by State legislatures by 6-30-49 but not in effect until the following fiscal year.

[2]Excludes $1,815,653 paid from Federal funds to seamen under Title XIII of the Social Security Act.

[3]Expenses for postage partly estimated for total; State figures exclude postage expense.

[4]Connecticut, the District of Columbia, Maryland, Massachusetts, Michigan, and Nevada paid additional allowances for dependents during the fiscal year 1948-49; and legislation providing for the payment of dependents' allowances has been enacted in Alaska, Arizona, North Dakota, Ohio, and Wyoming. Maximum shown here excludes those allowances.

[5]Data partly estimated for April-June 1949.

[6]Maximum basic weekly benefit amount is $20 for 25 weeks; $25 for 20 weeks results from upward cost-of-living adjustment.

tober 1948 the amount of Federal financial participation in the assistance programs was increased to help meet the continuing rise in living costs and in case loads. The maximum amount of individual monthly payments in which the Federal Government now shares is $50 for old-age assistance and aid to the blind; in aid to dependent children, it is $27 a month for one child in a family and $18 for each additional child. Within these limits on individual payments, the Federal share of expenditures for assistance to the aged and blind is three-fourths of the first $20 of the average payment per recipient, plus one-half the balance; for aid to dependent children, it is three-fourths of the first $12 of the average payment per child, plus one-half the balance.

In June 1949 about 5,700,000 persons in the United States were recipients of public aid, of whom some 4,100,000 were being aided under the Social Security Act programs. This latter number does not include the mothers or relatives taking care of dependent children or the wives or other persons who are supported in part by payments of old-age assistance or aid to the blind made to other members of the family.

In June 1949 more than 2,600,000 persons in the United States were receiving old-age assistance, nearly 1,370,000 children in 540,000 families were receiving aid to dependent children, and 71,200 persons were receiving aid to the blind under the provisions of the Social Security Act (table 8). The increase from June 1948 in number of recipients was 11 percent for the aged, about 19% for dependent children, and 8% for the blind. The Nation-wide average payment in June 1949 was $44 per recipient of old-age assistance, $73 per family and $29 per child for aid to dependent children, and $45 per recipient of aid to the blind. These averages mask wide differences among the States that are due to the relative capacity of State and local governmental units to finance the payments and the provisions of the State law governing payments, as well as to differences in the need of recipients in the various States.

State and local general assistance programs were helping about 461,000 cases in June 1949. Since a "case" may include more than one person in a family, the total number of persons represented in the cases assisted in June was more than 1,000,000. From June 1948 to June 1949 the general assistance case load increased 26 percent. The average payment per case in the latter month, for the country as a whole, was $48.

Particularly large increases in the case loads and expenditures for old-age assistance in four

[1] Trust fund maintains a separate account for each State agency, in which are held all moneys credited from State unemployment funds and from which State agencies withdraw amounts as required for benefit payments. Deposits include those not cleared by the Treasurer of the United States; interest includes interest receivable; withdrawals include outstanding checks.

[2] Includes withdrawals by New Jersey of $40,000,000 for disability insurance benefits.

...ll accounted for a considerable part of the ...crease in that program for the country ...whole. Two of the four States enacted new ...ction that substantially liberalized eligibility ...ements and payments, and the other two ...d added to the rolls relatively large numbers ...dy aged persons for whom assistance had ...een available because of lack of funds. In ...tes the June 1949 case load for aid to de...nt children exceeded that in June 1948 by ...than 20 percent. These States included ...e that had not been able to assist all needy ...n eligible for aid. Increases in the number ...ilies aided through that program probably ...flect less favorable economic conditions in ...areas. The rise in general assistance rolls ...the winter of 1948-49 was the sharpest that ...curred since the close of the war. An ex...ally severe winter in some sections of the ...ly contributed to the need for this type of ...nce. The substantial amount of unemploy...n some labor-market areas is also one of ...asons for the increase in the number ...receiving this type of aid.

...nal and Child Health and Child Welfare

...ke the other programs in operation under ...ial Security Act, which are fundamentally ...-maintenance programs, the maternal and ...alth and child welfare provisions deal with ... The Social Security Act makes Federal ...available to States to extend and improve their health and welfare services for mothers and children, especially in rural areas and in areas suffering from severe economic distress. As in the other State-Federal programs, the State plan must meet certain requirements set forth in the Federal act. Responsibility for the approval of State plans and other Federal aspects of these health and welfare programs is lodged in the Children's Bureau, which also has responsibility, under the act of 1912 creating the Bureau, for investigating and reporting "upon all matters pertaining to the welfare of children and child life."

Of the $22,000,000 a year in Federal funds authorized by Congress for the maternal and child health and child welfare programs under the Social Security Act, $11,000,000 is earmarked for maternal and child health services, $7,500,000 for services for crippled children, and $5,500,000 for child welfare services. All programs are in effect in the 48 States, the District of Columbia, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

For Maternal and Child Health Services, grants are made to State health agencies to aid the States in extending and improving these services. Each State's share in the $11,000,000 authorized in Federal funds is affected by the number of live births in the State in relation to the total number of live births in the country, by the State's need for help in providing services, and by its rural child population. Half of the $11,000,000 must be matched by the States. Part of the remaining half

[1] No approved plan in operation.

is used for special projects and to meet emergencies. Most of the services provided by State and local health departments for mothers and children are preventive health services, designed to help well mothers and children keep well. In limited ways, almost all the States also provide treatment for some expectant mothers and sick children. Typical preventive services offered by State and local health agencies in 1949 were prenatal clinics, public health nursing services, well-child clinics, immunization, and examinations of children of school age by physicians and dentists.

For Services for Crippled Children, States share in the $7,500,000 authorized according to the number of children in the State under 21 years of age. The division of funds also reflects the financial need of each State for assistance in carrying out its program and the relative number of rural children in its population. States must match half of the total amount. A portion of the u matched half is reserved for special projects.

All States in 1949 provided a range of servic that included locating all crippled childre diagnosing their crippling condition; maintain a register of crippled children in the State; pr viding or locating skilled care for them in hos tals, convalescent and foster homes and in th own homes; and operating with agencies and pr fessional groups concerned with the care a training of crippled children. Because no St has funds sufficient to do this comprehensive for all handicapped children, all States ne necessarily restrict some services to certain are or groups of children. The children most com monly served are those with handicapping co ditions that require orthopedic or plastic trea ment.

For Chief Welfare Services, grants are ma

y the Children's Bureau to State public welfare gencies to help in establishing, extending, and rengthening public welfare services for the protection and care of homeless, dependent, and neglected children, and children in danger of becoming delinquent. The State's share of the 3,500,000 authorized by Congress is, in general, elated to the proportion its rural population is f the total rural population in the United States. ederal funds are limited to "payment of part of he cost of district, county, or other local child elfare services in areas predominantly rural, nd for developing State services for the enouragement and assistance of adequate methods community child welfare organization in areas edominantly rural and other areas of special eed." Each State or community must assume me of the cost of the services in rural areas, hough no fixed amount of Federal funds must be atched by State or local funds.

The child welfare services which Federal funds anced in part in 1949 included arranging for ster-home or institutional care for children no need care away from their own homes, either mporarily or permanently; protecting neglected d mistreated children and removing them when cessary, through legal or other procedures, from nditions that endanger them, finding and sering the necessary attention for children who ve physical, mental, and emotional handicaps and who are not receiving the care they need; safeguarding children of illegitimate birth; cooperating with courts and schools in handling children's cases and with State institutions caring for children; working with mental hygiene clinics. Child welfare workers also aid in the organization of community services for children, including services needed for the prevention of juvenile delinquency.

Federal Credit Unions

In addition to the program bureaus with responsibilities under the Social Security Act, the Administration's Bureau of Federal Credit Unions is responsible for approval and supervision of employee credit unions chartered under the Federal Credit Union Act. These credit unions are cooperative associations organized to promote thrift among their members and to create a source of loans for provident and productive purposes. Membership is limited to groups of persons having a common bond of association, occupation, or residence. Groups with large numbers of credit unions are found among employees of Federal, State, or local Governments, stores, schools, railroads, public utilities, and religious organizations, as well as groups drawn from rural communities. At the end of June 1949 more than 4,300 chartered Federal credit unions were in operation with a total membership of more than 1,800,000 members.

Average Future Lifetime in United States

(Based on reported deaths and births in 1947 and estimated population on July 1, 1947 and reported deaths and births 1939-1941 and 1940 census of population.)

Census of 1950 May Count 150,000,000 Americans

he 17th decennial census of the United States he major work of 1950 of the Bureau of the sus, U. S. Department of Commerce. This in- tory of the human resources of the Nation will ude not only population figures, but also sta- cs on housing, agriculture, irrigation and nage. Urban and farm residence will be com- d. In 1940 the population was officially placed 31,669,275 after the census of that year. In a total of about 150,000,000 is expected. Be- the continental United States, Alaska, ail, Puerto Rico, Guam, American Samoa and dependencies are subject to the census.

r administrative purposes the country was ped into 14 areas. These were divided into supervisory districts. These again divided into 00 enumeration districts. A map accurately cting boundary lines was provided for each eration district to prevent overlapping activi- No locality can be overlooked; every hamlet whistle stop must be accounted for. The Bureau of the Census arranged for a small army of 150,000 census takers, or enumerators as they are called, to begin their canvass April 1, and use three weeks for urban areas and one month for rural sections. A list of 33 questions, which every citizen was expected to answer truthfully, was prepared for the enumerators.

The rest of the year—and a number of years to follow—will be devoted to analysis and classification of the results. Official population counts for each state, however, will be sent to the President of the United States Dec. 1, 1950. He gives this information to the Congress to comply with the Constitutional provision regarding the apportionment of representatives.

Dr. Philip M. Hauser is acting director of the Bureau of the Census. Dr. A. Ross Eckler is deputy director. Howard G. Brunsman is chief of the population division; Ray Hurley is chief of the agriculture division and Lowell T. Galt is chief of the field division which is charged with carrying out the enumeration work.

United States Relations with China; a White Paper

After military reverses had shaken the National Government of China, lost vital areas to Communist armies, led to the retirement of the Generalissimo Chiang Kai-shek from Nanking to Formosa and the loss of 80 per cent of military equipment of American origin to the Communists, the United States Government made public, Aug. 5, 1949, a 1,054-page White Paper to explain American policy toward China. It is entitled **United States Relations with China. With Special Reference to the Period 1944-1949.** It is prefaced by a 14-page letter of transmittal to President Truman by Dean Acheson, Secretary of State, who calls it "a frank record of an extremely complicated and unhappy period in the life of a great country."

Warning to Soviet Union

In his preface Secretary Acheson describes the "decay" that "fatally snapped" the powers of resistance of the Kuomintang, party controlling the government, whose troops, losing the will to fight, disintegrated, while the government, through its inability to carry through reforms and to follow wise military procedure, lost the support of the people. "The Communists, on the other hand, through a ruthless discipline and fanatical zeal, attempted to sell themselves as guardians and liberators of the people" . . .

"However, one point is clear. Should the Communist regime lend itself to the aims of Soviet Russian imperialism and attempt to engage in aggression against China's neighbors, we and the other members of the United Nations would be confronted with a situation violative of the principles of the United Nations charter and threatening international peace and security. Meanwhile, our policy will continue to be based upon our own respect for the charter, our friendship for China, and our traditional support for the Open Door and for Chinese independence and administrative and territorial integrity."

Century of Disinterested Support

The White Paper summarizes a century of Sino-American relations, to show that American policy has tried to maintain amicable trade relations on an equal basis for all nations, to save China from dismemberment and from encroachment by Japan; and to support the authority of the Nationalist government. This summary describes the policy of the Open Door, the Root-Takahira agreement, 1908; the Knox neutralization policy, 1909; the Lansing-Ishii agreement, 1917; the Stimson Non-Recognition Doctrine, 1932, and other acts.

Two important factors explain China's revolution, "one of the most imposing in recorded history, whose outcome and consequences are yet to be foreseen." These are (1) feeding China's ever-growing population, which, the document declares, no regime has been able to do, and (2) the impact of new ideas from the western world, which stimulated "ferment and unrest." Out of this revolution came the Kuomintang, which was not seriously challenged until 1927, when cooperation with the Chinese Communist party ceased.

Billions Poured into China

After Pearl Harbor the United States began sending "substantial" aid to China under the Lend-Lease act of 1941, when China's fight against Japan had become a bitter struggle for power between the Kuomintang and the Chinese Communists. American engineers and equipment expanded the Burma road and started a second road into China (uncompleted); American officers and hospital units were attached to Nationalist armies fighting Japan. Since V-J Day China has received foreign aid worth $2,254,000,000, of which the United States provided in grants and credits $2,007,700,000, over 90%. By agreement $1,078,000,000 worth of non-military property was sold to the Chinese government for $232,000,000. Fully 39 Chinese divisions were equipped with American materials, 50% of China's war machine. Between Sept. and Dec., 1948, the Nationalists lost 17 American-equipped divisions; 80% of U. S. military supplies were lost, fully 75% captured intact by the Communists.

Chiang Kai-shek Opposed Concessions

Help from the United States made Chiang Kai-shek unwilling to compromise. The reports of Maj. Gen. Patrick J. Hurley, special ambassador, 1944-45, of Gen. Jos. W. Stilwell, c.o. of American forces in the Chinese theater, and of his successor, Lt. Gen. Albert C. Wedemeyer, and of Gen. George C. Marshall, 1945-47, bear this out. Obstacles to peace were the reactionary position of the conservative Kuomintang; the inability of Chiang Kai-shek to put into effect promised land reforms (a Communist program); the refusal of Chiang Kai-shek to take Manchuria first (Wedemeyer's proposal); the confidence of Chiang Kai-shek that the Communists could be crushed by force, which Gen. Marshall doubted, and the extreme intractability of the Communist leaders, Mao Tse-tung and Chou En-lai.

Hurley and Marshall Fail

Maj. Gen. Hurley opposed granting help to the Communists, who had asked for a loan. He emphasized the necessity of showing the Chinese Communists that the Soviet Union was supporting Chiang Kai-shek, which they had doubted. At Yalta Roosevelt and Churchill gained Stalin's consent to a treaty of friendship and alliance between Nationalist China and the U. S. S. R., signed Aug. 14, 1945. In the secret Yalta agreement Stalin "not only agreed to attack Japan within two or three months after V-E day, but limited his 'price' with reference to Manchuria substantially to the position Russia had occupied there prior to 1904." The China-Soviet treaty made formal Stalin's agreement on Manchuria and respected Chiang's position. The Soviet was to withdraw from Manchuria in Dec., 1945, but delayed two months, during which the Communists were able to seize Japanese war equipment "conveniently abandoned" by the Soviet troops.

Subsequently Gen. Marshall tried to get opposing leaders together, without result. He reported that the surplus property sale of 1946 was resented by the Communists, who declared that even if no military supplies were included, the materials would be sold and guns bought for the money. He learned that good intentions were invariably neutralized by military actions by one side or the other; that military leaders wasted money and were unresponsive to orders.

Suppressed Wedemeyer Report

An accunt of the ambassadorship of John Leighton Stuart, 1947-1949, includes the report of Lt. Gen. Wedemeyer, dated Sept. 19, 1947. This was not made public because the United States Government felt that one recommendation would offend the Chinese government. It was that the United Nations bring about a truce in Manchuria and that Manchuria be placed under a Five-power guardianship—Great Britain, China, France, the United States, the Soviet Union or a U. N. guardianship. He lacked confidence in Chiang Kai-shek and wanted the U. S. to assume direction of the war.

COMMENT ON WHITE PAPER

"The White Paper, an attempt at vindication, is actually a sorry record of well-meaning mistakes"—New York Times.

"A disastrous failure of this magnitude calls for inquiry, and it should be pursued in the manner of statesmen forming a policy, rather than of a lawyer seeking a verdict for his client."—Walter Lippmann, New York Herald Tribune.

"Several American errors are given new and stronger emphasis by the revelations in the White Paper, but it seems improbable they had any major effect on the final outcome of the civil war."—New York Herald Tribune.

"In making Chiang Kai-shek the whipping boy for the Department's own blunders, Mr. Acheson leaves unanswered the question of most concern to all Americans: What is the Department doing, or planning to do, to protect American interests in the Pacific, not only in China but in the Philippines, Japan, Hawaii and other threatened areas? . . . The Kremlin has a plan; we need one to counter it."—New York World-Telegram.

U. S. Army and Navy Officers on Active Duty

U. S. Army Insignia

Source: Department of the Army

ARMY

Grade	Insignia
General of the Armies (General Pershing, the only person to have held the rank, could have worn as many stars as he desired but never wore in excess of four.)	
General of the Army	Five stars
General	Four stars
Lieutenant General	Three stars
Major General	Two stars
Brigadier General	One star
Colonel	Silver eagle
Lieutenant Colonel	Silver oak leaf
Major	Gold oak leaf
Captain	Two silver bars
First Lieutenant	One silver bar
Second Lieutenant	One gold bar
Chief Warrant Officer	One gold bar (rounded ends and brown enamel top, longitudinal center of gold)
Warrant Officer, Junior Grade	One gold bar (rounded ends and brown enamel top, latitudinal gold center)

The chevrons for noncommissioned officers and other enlisted men are as follows:

Combat Career Fields	Other Career Fields
Insignia of grade on gold color background, with dark blue chevrons, arcs, and lozenge.	Insignia of grade on dark blue background, with gold color chevrons, arcs, and lozenge.

(1) First Sergeant—Three chevrons above three arcs, in the segment between lower chevron and upper arc a hollow lozenge.

(2) Master Sergeant—Three chevrons above three arcs.

(3) Sergeant 1st Class—Three chevrons above two arcs.

(4) Sergeant—Three chevrons above one arc.

(5) Corporal——Two chevrons.

(6) Private 1st Class—One chevron.

(7) Private—none.

(8) Recruit—none.

To further distinguish those enlisted personnel who must exercise combat command as combat leaders over combat personnel, a "combat commander's insignia" is authorized for wear under the provisions of Department of the Army Circular No. 202, Section II, paragraph 11, of July 7, 1948. This insignia is a green cloth tab, 1⅝ inches wide, worn in the middle of both shoulder straps. Combat commanders' insignia will cease to be worn when an individual entitled thereto is reassigned from a command position or from a command unit.

*Generals and Admirals are entitled to a personal money allowance of $2,200 per annum; Lieutenant Generals and Vice Admirals to $500 per annum.

*A senior member of the military and Naval Staff Committee of the United Nations, while so serving, is entitled to the rank, pay and allowance of a Lieutenant General, plus a personal money allowance of $2,200 per annum.

The following services are included: Coast Guard and Marine Corps, Coast and Geodetic Survey, Public Health Service, National Guard, and the Organized Reserves.

In addition to the pay increases, military personnel is entitled to extra compensation for fight and hazardous duty.

Officers retired for physical disability will be paid according to degree of disability.

U. S. Navy Insignia

NAVY

Fleet Admiral	Five stars
Admiral	Four stars
Vice Admiral	Three stars
Rear Admiral (upper half)	Two stars
Rear Admiral (lower half)	Two stars
Commodore	One star
Captain	Silver eagle
Commander	Silver oak leaf
Lieut. Commander	Gold oak leaf
Lieutenant	Two silver bars
Lieutenant (jg)	One silver bar
Ensign	One gold bar
Chief Warrant Officer	Warrant specialty, silver
Warrant Officer	Warrant specialty, gold
Enlisted personnel	Appropriate distinguishing marks or rating insignia. When used, Navy chevrons point down.

MARINE CORPS

Marine Corps insignia follow Army custom, except for color with fewer sub-divisions. Its distinctive cap and collar ornament is the combination of the American eagle, anchor and globe.

COAST GUARD

Coast Guard insignia follow Navy custom, with the addition of the Coast Guard shield on cap and sleeve insignia of officers. Enlisted men wear the shield on the right sleeve.

(a)Excludes expenditures for all Civil Functions as defined in "The Budget of the United States Government". Data for fiscal years 1920 through 1948 include all Air Force expenditures; data for fiscal year 1949 represent Department of the Army expenditures only, including expenditures for the support of the Air Force, and exclude expenditures against direct appropriations for the Air Force. Figures obtained from the following Federal Government reports: fiscal year 1920—Treasury Department, "Combined Statement of Receipts, Expenditures and Balances of the United States Government"; fiscal years 1921 through 1948—successive yearly issues of "The Budget of the United States Government"; fiscal year 1949—Treasury Department, "Daily Statement of the United States Treasury, July 15, 1949". (b)Estimated.

United States Air Force

Source: Department of The Air Force

The Army Air Forces were started (Aug. 1, 1907) as the Aeronautical Division of the Signal Corps, U. S. Army. The division consisted of one officer and two enlisted men, and it was more than a year before it carried out its first mission in an airplane of its own. When the U. S. entered World War I (April 6, 1917), the Aviation Service, as it was called then, had 55 planes and 65 officers, only 35 of whom were fliers. On the day the Japanese struck at Pearl Harbor (Dec. 7, 1941), the Army Air Forces, as they had been renamed six months previously, had 10,329 planes, of which only 2,846 were suited for combat service. But when the Army's air arm reached its peak during World War II (in July, 1944), it had 79,908 all types of aircraft and (in May, 1945) 43,248 combat aircraft and (in March, 1944) 2,411,294 officers and enlisted men. The Air Force was established under the Armed Services Unification Act (July 26, 1947).

Approximate proportion of Army overseas at peak of deployment in 1945—April 30, 1945—66 percent.

Women's Army Corps, Regular Army

WAC, RA—Women's Army Corps, Regular Army—Col. Mary A. Hallaren, GSC, Director. Address: Washington 25, D. C.

The Women's Armed Services Integration Act of 1948 establishing the Women's Army Corps in the Regular Army, was signed by President Truman (June 12, 1948). Authorization was set for the first two years at 500 officers, 75 warrant officers and 7,500 enlisted women. At the end of that period legislation set at two per cent of the Regular Army strength the number of women who may serve at any one time. The bill also authorized the establishment of a WAC Section in the Organized Reserve Corps.

Originally established as the Women's Army Auxiliary Corps (May 14, 1942), signed by President Roosevelt (July 1, 1943) made the Corps a component part of the Army of the United States.

The WAC, RA was established so that there would be a nucleus of a corps ready for expansion in case of an emergency; to find out how and where women could best be used; to provide for more economical use of personnel by using women in jobs for which they were better suited than men, and to assist in keeping the Army on a volunteer basis by filling certain recruiting shortages with women.

Enlistment for members on active duty opened July 8, 1948, with the first enlisted woman receiving the oath of enlistment from Chief of Staff, Gen. Omar N. Bradley. On Sept. 8, 1948, the enlistment program was opened to all women between the ages of 18 and 34, inclusive, who are high school graduates, citizens of the United States, single, and without dependents. The first WAC, Regular Army training center opened at Camp Lee, Va., Oct. 1, 1948. The training program consists of thirteen weeks basic training followed by eight to 16 weeks of specialist training for new recruits. In addition to the administrative schools, Leader's Course, and Officer Candidate School, Regular Army schools for technical training are open to Wacs. With the exception of combat training, instruction for Wacs will parallel that for men.

Women in Regular Navy and Naval Reserve

Women in Regular Navy and Naval Reserve, Capt. Joy Bright Hancock, USN. Assistant to Chief of Naval Personnel. Address, Navy Department, Washington 25, D. C.

Congress approved (June 12, 1948) a law to abolish the Women's Reserve as a branch of the Naval Reserve and transferred to the appropriate components of the Naval Reserve all officers and enlisted women who were members of the Women's Reserve. The period of enlistments of women in the Naval Reserve will be the same as for male enlisted members of the Naval Reserve.

The new law authorizes the enlistment and appointment of women in the Regular Navy and Naval Reserve. The authorized strength is two per cent of the authorized enlisted strength of the Regular Navy. The commissioned and warrant officers are not to exceed 10 percent of the authorized number of enlisted women in the Regular Navy. The law provides that for a period of two years following the date of the Act the actual number of women in the Regular Navy shall not exceed 500 officers, 20 warrants and 6,000 enlisted. All provisions of law relating to pay, leave, money allowances and other benefits and emoluments of male personnel of the Regular Navy are applicable to women personnel of the Regular Navy. However, husbands of women in the Regular Navy will not be considered dependents unless they are in fact dependent on their wives for their chief support.

They shall not be assigned to duty in aircraft while such aircraft are engaged in combat missions nor shall they be assigned to duty on vessels of the Navy except hospital ships and naval transports.

Women in the Air Force

WAFs—Director, Colonel Geraldine P. May. Address: Headquarters, United States Air Force, Washington 25, D. C.

Women in the Air Force gained regular status as a result of the passage of Public Law 625, 80th Congress. Prior to this women serving at Air Bases and Installations were a part of the Army of the United States. By October 1, 1948, all enlisted women serving at Air Force Installations either remained WACs and were transferred to Army Installations or enlisted in the United States Air Force.

Women serving in the Air Force have no official title but are called "airmen" like the men, and unofficially, WAFs.

The law provides that during the next two years the number of women in the Regular Air Force will not exceed 300 officers, 40 warrant officers and 4,000 enlisted women. After 2 years the strength may be 2 per cent of the authorized commissioned, warrant and enlisted strength of the Regular Air Force. Women between the ages of 18 and 35 years are eligible to apply for enlistment. Applicants who have not reached their 21st birthday will be required to furnish written consent of parents or guardian. Women with prior military service are eligible to apply provided their age does not exceed 35 plus the number of years of completed honorable active WAC service since July 1, 1943. Women without prior military service must be high school graduates and must be unmarried at the time of enlistment.

Women who qualify may enlist for 3, 4, 5, or 6 years of active duty.

As of July 30, 1949, 2443 women were on duty with the United States Air Force.

Air Force Officer Candidate School, Lackland Air Force Base, San Antonio, Texas, accepts applications from both men and women for classes beginning twice a year. Candidates successfully completing course are commissioned second lieutenants. Applicants must be between the ages of 20½ and 26½ years at time of application.

Regulations governing Air Force Reserve activities are also applicable to women.

3 from each State at large	384
1 from each Congressional district	1,740
1 from each Territory (Hawaii and Alaska)	8
5 from the District of Columbia	6
1 from natives of Puerto Rico	4
2 from the Canal Zone	2
172 from the United States at large[1]	172
180 from among the enlisted men of the Regular Army and of the National Guard, in number as nearly equal as practicable	180
Total	2,496

[1] Of whom 3 are appointed upon the recommendation of the Vice President, 40 are selected from among the honor graduates of those educational institutions designated as "honor military schools," and 40 are chosen from among the sons of veterans who were killed in action or have died, or may hereafter die, of wounds or disease contracted in line of duty in World War I and II, and 89 upon the personal selection of the President.

Candidates are eligible for admission from the day they are 17 (or 19 if from the Regular Army or from the National Guard) until the day they become 22 years of age, on which latter day they are not eligible. Veterans of World War II are eligible until the day they become 24 years of age. The candidate must never have been married. The minimum height requirement is 5 ft., 6 in.

Appointments to the Academy are made only to fill vacancies as they occur, and candidates are designated during the year preceding admission. For each vacancy from a State or Congressional district four candidates may be nominated: a principal, a first alternate, second alternate and third alternate. The selection of these candidates is left entirely with the Senator or Representative who has the vacancy at his disposal.

Each candidate must pass a rigid medical examination and physical aptitude test and none is accepted who has any defect or infirmity which renders him unfit for military service. In addition, each candidate must pass an examination in the subjects of mathematics (algebra and geometry), English, grammar, composition and literature, and must qualify in American History either by examination or by school certificate. However, graduates of accredited high schools and students at accredited universities and colleges of recognized standing may submit educational certificates which will be considered by the Academic Board, and if satisfactory may be accepted in lieu of the regular mental examination. High school certificates must be validated by actual examinations in mathematics and English.

The course of study is four years, during which time the cadets are under military control.

The pay of a cadet is $936 per year plus rations. This with the initial deposit of $300 to cover uniforms, is considered enough to meet actual needs. On graduation, cadets, except Filipino and foreign, may be commissioned second lieutenants in the U. S. Army or Air Force. They receive the degree of bachelor of science.

Each cadet when admitted to the Academy signs an agreement to serve for a period of eight years, unless sooner discharged by competent authority.

The United States Military Academy opened July 4, 1802 with ten cadets. West Point has been a military post since Jan. 20, 1778.

In addition to the 2,496 designated cadets, the Secretary of the Army is authorized to permit not exceeding four Filipinos (one for each entering class), to be designated by the President of the Republic of the Philippines, to receive instruction at the United States Military Academy, under the provision of the act of Congress approved 28 May 1908, as amended.

The act of 24 June 1938, as amended by the act of 26 June 1946, authorizes the President of the United States to permit not exceeding 20 persons at a time from the Latin American Republics to receive instruction at the United States Military Academy. Not more than three persons from any one of such republics may receive instruction under authority of that law at the same time.

Citizens of other foreign countries have been permitted from time to time to attend the Military Academy upon specific authorization of the United States Congress in each case but are not entitled by reason of their graduation therefrom to appointment to any office or position in the United States Army.

The Superintendent of the Military Academy is Major General Bryant E. Moore, USA; the Dean of the Academic Board is Brig. General Harris Jones, USA.

United States Naval Academy at Annapolis

The students of the Naval Academy hold appointments as midshipmen, U. S. Navy. Under the law five midshipmen are allowed for each Senator, Representative, Delegate in Congress, and the Vice-President; five from the District of Columbia; five from Puerto Rico, appointed on nomination of the Resident Commissioner; four, from the Republic of the Philippine Islands upon designation of the President of the United States and one from the Canal Zone. In addition, the law provides for 75 annually from the United States-at-large appointed by the President; 160 annually from the Navy and Marine Corps; 160 annually from the Naval Reserve and the Marine Corps Reserve; and 20 annually from Honor Military Schools and Naval Reserve Officers Training Corps units. Also, the law provides for a total of not more than 40 midshipmen-at-large appointed by the President from among the sons of members of the land or naval forces (including male and female members of the Army, Navy, Marine Corps, and Coast Guard, and all components thereof) of the United States, who were killed in action or have died, or may hereafter die, of wounds or injuries received, or disease contracted, or preexisting injury or disease aggravated, in active service during World War I or World War II; one midshipman from Puerto Rico, who must be a native of that Island; and an act of Congress approved 24 November 1945 provides that the number of midshipmen authorized by law in the United States Naval Academy, be increased by such number as may be appointed by the President from the United States at large from among the sons of persons who have been or shall hereafter be awarded a Medal of Honor in the name of Congress for acts performed while in any of the armed forces of the United States. An additional law authorizes the admission of not more than 20 midshipmen from other American Republics and the Dominion of Canada with not more than 3 from any one Republic nor more than one from Canada. Entrance regulations may be obtained upon application to the Bureau of Naval Personnel, Department of the Navy, Washington 25, D. C., or United States Naval Academy, Annapolis, Maryland.

There are three separate and distinct methods of qualifying for admission to the Naval Academy —(a) by passing the regular entrance examination; (b) by presenting an acceptable secondary school certificate and passing a substantiating examination in mathematics and English only; and (c) by presenting acceptable secondary school and college certificates. All candidates are required to take a "U. S. Naval Academy Aptitude Test." Only those candidates who receive outright Congressional nominations are permitted to utilize the college certificate method of qualifying.

All candidates, except Filipinos, Canadians, and candidates from American Republics, are required to be citizens of the United States. Candidates must not be less than 17 or more than 21 years of age April 1 of the calendar year they enter the Academy, with the exception that a recent act of Congress raises to 23 years the upper age limit for candidates for admission to the Naval Academy who have served honorably not less than 1 year in the armed forces of the United States during any of the present wars, the candidate's age to be calculated in exactly the same manner as in the basic age law.

The course at the Naval Academy covers a period of four years. During the Summer Term the midshipmen of the three upper classes are divided into units assigned for practical instruction in ships of the U. S. Fleet or basic aviation training.

Graduates in all respects qualified are commissioned as Ensigns in the U. S. Navy and from each graduating class a limited number may be commissioned as 2nd Lieutenants in the U. S. Marine Corps, to fill existing vacancies. In addition, at the present time a limited number of the members of graduating classes may be commissioned in the U.S. Air Force. Graduates who are commissioned shall serve in a probationary status for three years from graduation, unless sooner discharged.

The height of candidates for admission shall not be less than 5 feet, 6 inches; and the minimum weight shall be 120 pounds. Midshipmen shall not marry; and any midshipman found to be married shall be recommended for discharge. Graduates of the Naval Academy while serving under a revocable commission in a probationary status may marry after graduation, the ban on marrying with-

in two years after graduation having been lifted for the duration of the war, and is not enforced at the present time. Each candidate who has passed the required examinations must, before being admitted, deposit $100 to cover part of the initial outfit and may deposit up to $350.

After being admitted, he is credited with the difference between the amount deposited and $530, the total value of his entrance outfit consisting of uniforms, clothing, textbooks, etc. This amount advanced by the Government is deducted from the midshipman's pay in monthly installments until liquidated.

Each candidate will be required to sign articles to serve in the Navy during the pleasure of the President (including his time on probation at the Academy), unless sooner discharged. The pay is $936 a year.

The Commandant of midshipmen is Captain Robert B. Pirie, U. S. Navy and the Superintendent of the Naval Academy is Rear Admiral James L. Holloway, Jr., U. S. Navy.

United States Coast Guard

The United States Coast Guard serves as the federal police force and protector of life and property on the sea and navigable waters of the United States. This role includes maintenance of more than 37,000 aids to navigation—lighthouses, buoys, bells, etc.—along 40,000 miles of waters; lifesaving activities; removal of derelicts and other menaces to navigation; marine inspection; ice-breaking; medical aid to seamen; law enforcement on the high seas and navigable waters of the United States and in Alaska; the prevention of smuggling; patrol of the North Pacific Ocean and Bering Sea to regulate the taking of fur-bearing sea mammals and fish; aid during flood and hurricanes; maintenance of the International Ice Patrol to report the amount of iceberg drift for the benefit of vessels crossing the North Atlantic; maintaining ocean weather stations; and supervising the engagement, records and discipline of officers and seamen serving in the Merchant Marine. To carry out its many functions, the Coast Guard has a fleet of cutters and planes and a large trained personnel.

The Coast Guard is administered by the Commandant of the Coast Guard, at Headquarters in Washington, D. C., through a field organization of 12 District Coast Guard Offices in the continental United States, Hawaii, Puerto Rico and the Virgin Islands. A military service constituting a branch of the land and naval forces of the United States at all times the Coast Guard operates under the Treasury in time of peace and as part of the Navy in time of war or when the President so directs.

Coast Guard beginnings date from Aug. 4, 1790 when an Act of Congress, written to enforce the Customs Laws, provided for the building of "ten boats" to protect the revenue. These came to be known as the Revenue-Marine, later known as the Revenue-Cutter Service. The present name of the organization dates from Jan. 28, 1915, when the Revenue-Cutter and Life-Saving Services were merged into one—the United States Coast Guard. The Service's duties were increased when the Coast Guard was consolidated (July 1, 1939) with the Lighthouse Service and again on Feb. 28, 1942 when functions of the Bureau of Marine Inspection and Navigation were transferred to the Coast Guard by Executive order. This last addition means that the Service now furthers safety at sea through supervision of the construction and equipment of merchant ships and by exercising disciplinary controls over their personnel.

To meet wartime exigencies, various groups were formed to augment the regular Coast Guard personnel, but these had been reduced on June 30, 1949 to 236 commissioned officers on temporary service, 52 commissioned reserve officers, 590 chief warrant and warrant officers on temporary service, and six chief warrant and warrant reserve officers, a total of 882 temporary service and reserve personnel, as against 1696 regular commissioned officers, 294 cadets, 193 chief warrant and warrant regular officers, and 20,643 regular enlisted personnel or a total of 23,708 in the regular establishment. Detailed to the Coast Guard from the Public Health Service were 19 doctors, 29 dental officers, one scientist officer and eight nurses, besides 255 local physicians serving part time. The authorized force of civilian employees was 5,382. During the year there were 7,173 original enlistments.

Chief among the groups organized for the war emergency was the Coast Guard Reserve, a military supplement similar to the United States Naval Reserve. By an amendment to the act establishing the Reserve, a **Women's Reserve**, known as the **Spars**, also was organized. Nearly 9,000 enlisted Spars and 1,000 Spar officers served during World War II. The Women's Reserve was demobilized with the cessation of hostilities.

Training facilities included on June 30, 1949 a recruit receiving center at Cape May, N. J., various service schools for enlisted men, and the Coast Guard Academy in New London, Conn., where officer candidates receive instruction.

Floating units (June 30, 1949) consisted of 1,884 craft. Largest in size are the six 327-foot cutters and most numerous are the 871 motorboats ranging in size from 10 to 35 feet. Of the cutters, there are 38 83-footers. It was a group of these which saved hundreds of lives in the Normandy invasion of June, 1944.

The aviation wing of the Coast Guard (June 30, 1949) consisted of nine air stations and facilities with 69 fixed wing aircraft and 10 rotary aircraft (helicopters) in operation. The air stations, which contributed much to anti-submarine patrol activities during the war, are now chiefly concerned with search and rescue operations. The Search and Rescue agency (formerly Air-Sea) established at the request of the Joint Chiefs of Staff (Feb., 1944)) has the Commandant of the Coast Guard as its head, assisted by a board of representatives from the Army and Navy.

The Coast Guard maintained 37,309 aids to navigation (lightships, lighthouses, buoys, daymarks, fog signals and radio beacons). In July 1949, 34 fixed Loran stations were being operated by the Coast Guard and 14 Racon stations were being operated on the Atlantic and Pacific coasts and in Hawaii, Puerto Rico and Alaska. The scientific improvements of radio and radar being applied now to peacetime aids have names coined from their description, for example: **ANRAC** control station (Aids to Navigation RAdio Controlled), which is a radio device to light and extinguish electric lights and operate fog signals; **LORAN** radio transmitting station (LOng Range Aid Navigation), first used during the war to obtain longitude and latitude positions: **RACON** station (RAdar beaCONs), which gives distance and bearing—within 120 miles—of an airplane or ship from such a beacon.

The Coast Guard operates land telephone lines and submarine cables along the coastline, connecting lifeboat stations, lighthouses and other units. The facilities include 20 radio traffic stations and 10 air radio stations. Medium frequency direction finder stations, previously operated along the coasts have been discontinued as a navigational aid to the public, owing to the use generally of shipboard direction finders in conjunction with Marine radio-beacons and the utilization of Loran and Radar. They have been continued, however, at strategic points for search and rescue purposes.

U. S. Coast Guard Academy

The United States Coast Guard Academy, New London, Conn., was founded (1876). The administration building is named Hamilton Hall in honor of Alexander Hamilton, first Secretary of the Treasury, who founded the Coast Guard (1790).

The Academy's four-year course embraces engineering, military science, cultural and other professional subjects. Cadets are paid $936 a year with rations and are required to deposit $200 on entrance to cover initial costs of uniforms, textbooks and other expenses. The government will lend $250 for this purpose, to be repaid in monthly deductions from pay.

Upon graduation, a Cadet is commissioned by the President as an Ensign in the Coast Guard, receiving the same pay and allowances as an officer of similar rank in the Army, Navy or Marines.

Major petty officer training activities are centered in Groton, Conn.

The United States Marine Corps, 1949

The Marine Corps is organized as a separate component of the Navy Department, headed by a four-star general who serves a four-year term as commandant by appointment of the President. The present Commandant, Gen. C. B. Cates, assumed office (Jan. 1, 1948). His headquarters are in Washington, D. C.

Fleet Marine Forces, detachments and other organizations are directly assigned to fleet and other naval commands for operations.

There are two fleet marine forces, Fleet Marine Force, Pacific, and Fleet Marine Force, Atlantic, each headed by a Lieutenant General and each force consisting of one infantry division and one air wing, and service elements.

The Marine Corps during 1949 continued to develop amphibious technique, tactics and equipment. Fleet marine forces participated in training and peacetime operations, including amphibious training in conjunction with fleet exercises.

During the year the Marine Corps reached a top strength of 87,417 consisting of 7,169 officers and 5,729 enlisted, plus 3,519 18-year-old one-year enlistees on regular active duty. The Marine Corps Reserve expanded to approximately 125,300 in 1949, of whom approximately 40,690 were organized reserves.

Organized Reserve units are trained at local training centers and air facilities in 121 cities of the United States and Hawaii and attend annual active duty training sessions at regular bases. Members receive pay for participation in local training and while on active duty.

Volunteer Reserves are trained by correspondence, in Volunteer Training Units, and in special active duty assignments. Members receive pay only while on active duty.

During 1949, 1,103 officers and 15,898 enlisted men of the Organized Reserve (Ground) received annual field training for 15-day periods.

The Marine Corps has no present requirement for inductees from Selective Service. Volunteers for enlistment must be native born or fully naturalized citizens, 17 years of age but under 29; or for men with previous Marine Corps active service, not over 31. Height limits are 64 to 75 inches except that men 17 to 19 years of age may be accepted if 61 inches in height or taller. Applicants must also present evidence of good character, and meet additional physical and educational standards.

Recruits from the eastern United States generally receive first training at Parris Island, S. C., while those enlisting west of the Mississippi go initially to San Diego, Calif.

Officers are commissioned from the ranks, civil life, Naval Academy, ROTC and NROTC colleges, and from the Marine Corps Reserve. Advanced students from certain non-ROTC colleges are eligible for enrollment in Platoon Leader's Class for summer training periods leading to regular or Reserve commission.

Specialty fields in the Marine Corps include all those necessary to provide highly trained landing forces and close support aviation: infantry, aviation, light and medium field artillery, anti-aircraft artillery, signal communications, engineers, tanks and amphibian tanks, motor transport, and a variety of staff and service fields.

Marine Corps aviation, trained for land and carrier-based operations, accounts for about one-fourth of the fleet marine forces.

In World War II a cumulative total of 573,424 men and 23,145 women served in the Marine Corps.

WOMEN MARINES

Women Marines, authorized as regulars for the first time in 1948, are being brought into service gradually for duty at headquarters in Washington, at San Francisco, Quantico, Parris Island, and at various reserve districts and recruiting divisions.

Volunteers for enlistment must be native born or fully naturalized citizens, 20 years of age, but under 31. Applicants must also present evidence of good character, and meet additional physical and educational standards. Recruits receive training at Parris Island, S. C.

Officer candidates are trained at the Women Officers' Training Class at Quantico, during the summer. A junior and a senior course are given, each lasting six weeks. A small percentage of the graduates receive regular commissions in the Marine Corps and the others commissions in the reserve. College graduates, undergraduates, enlisted, and former enlisted reservists may apply for this training.

Women may enlist in either the Organized or Volunteer Reserve. Thirteen Organized Reserve platoons, with two officers and fifty enlisted each have been activated. Two-hour weekly training periods are held. Active duty for training in summer encampments is not planned for women.

United States Merchant Marine Academy

The United States Merchant Marine Academy—the largest unit of the United States Merchant Marine Cadet Corps and the fourth permanent federal Academy for officer training—has a complement of 1,000 Cadet-Midshipmen from every state in the Union, and the District of Columbia, Alaska, the Canal Zone, Hawaii and Puerto Rico.

On completion of courses, graduate Cadet-Midshipmen are examined for their original Merchant Marine license as deck or engineer officers in any rating in the United States Merchant Marine. Graduates also receive commissions as officers in the United States Naval Reserve and in the United States Maritime Service. Over 8,800 have been graduated from the Cadet Corps and its Academy since 1938.

The course of the United States Merchant Marine Cadet Corps is four years and consists of one year as Fourth Classman at a United States Merchant Marine Cadet School or at the Academy; one year as Third Classman aboard a ship and two years as Second and First Classman at the Academy.

Appointment of candidates is governed by a state and territory quota system based on population. A candidate must possess a minimum of 15 units from accredited schools and pass a nation-wide competition examination as well as a rigid U. S. Navy Officer physical examination. Examinations are made up and graded by competent college entrance authorities. On August 9, 1946, an Act of Congress was approved to grant degree of Bachelor of Science to graduates of the United States Merchant Marine Academy, the same as granted to graduates of the United States Naval and United States Military Academies.

A candidate also must be a male citizen of the United States, not less than 16 years and six months of age and not over 21 years of age on the date the application is received by the Supervisor. Veterans of the armed services and the merchant marine must not be over 24 years of age. A candidate must be of good moral character, of sound constitution and not be less than 5 feet 6 inches or more than 6 feet 4 inches in height. Candidates must have a minimum vision of 20/20 in each eye without glasses.

Requests for further information and applications for appointment as Cadet-Midshipman should be addressed to the Supervisor, United States Merchant Marine Cadet Corps, U. S. Maritime Commission, Washington 25, D. C.

Cadet-Midshipmen receive $65 a month while attached to the Academy and Cadet School; when assigned to merchant ships for training, they receive $82.50 per month from the steamship company.

The Academy at Kings Point, N. Y., is situated on the north shore of Long Island near the confluence of Long Island Sound and the East River and covers 65 acres.

Under recent federal legislation the Academy is authorized to receive 50 Filipinos, and not more than 12 candidates each year from Latin American Republics, for the full four-year course.

The Superintendent of the Academy is Rear Admiral Gordon McLintock, U.S.M.S., and the Supervisor of the United States Merchant Marine Cadet Corps is Rear Admiral Richard R. McNulty, U.S.M.S.

Union and Confederate Army Deaths in Civil War

Union Army, according to records in the office of the Adjutant General of the War Department in Washington—killed or died of wounds, 110,070 (65 officers, 103,705 men); died of disease 224,580 (2,795 officers, 221,791 men); other deaths, 24,872 (424 officers, 24,448 men). **Totals,** 359,528 (3,284 officers, 349,944 men).

Confederate Army, estimated, no official records in the office of the Adjutant General of the War Department in Washington—killed in battle, 52,954 (2,086 officers, 50,868 men); died of wounds, 21,570 (1,246 officers, 20,324 men); died of disease, 59,297 (1,294 officers, 58,003 men). **Totals, 133,785 (4,626 officers, 129,159 men).**

A Senate Joint Resolution, approved Aug. 24, 1949, provides "that any future payments by the Republic of Finland on the principal or interest of its debt of the First World War to the United States shall be used to provide educational and technical instruction and training in the United States for citizens of Finland and American books and technical equipment for institutions of high education in Finland, and to provide opportunities for American citizens to carry out academic and scientific enterprises in Finland."

Selective Service Act and Selective Service System

Source: Selective Service System

The Selective Service Act of 1948, passed by Congress (June 12, 1948) and signed by President Truman (June 24), was the second peacetime draft law in the nation's history (the first enacted in 1940). It was passed after President Truman (March 17) had asked Congress for reenactment of selective service legislation to bring the Armed Forces of the United States to their authorized strength, stating that "our badly depleted military strength is one of the nation's greatest dangers."

The new Selective Service System absorbed the Office of Selective Service Records which was established after the old Selective Service System went out of existence (March 31, 1947). Maj. Gen. Lewis B. Hershey, wartime director of Selective Service, was again named head of the Selective Service System.

A summary of the provisions of the 1948 Act follows:

The purpose of the Act is to help meet the immediate requirements of the Armed Forces and to build up the Reserve components.

All males between 18 and 26 residing in the United States are required to register on dates proclaimed by the President, with few exceptions. These exceptions include men on active duty in the Armed Forces, foreign diplomats and, under specified conditions, some aliens.

The period of service for men 19 through 25 is 21 months, with a maximum 5-year reserve obligation subsequent to discharge. Men 18 years old are permitted to enlist for one year, within a 161,000 limit set by the Act. They have a reserve obligation of six years and, during that time, are subject to call for training periods not to exceed 30 days annually.

Duration of the act is 2 years from date of enactment June 24, 1948.

The 1948 registration dates proclaimed by the President were Aug. 30 through Sept. 18, with 25-year-old men being registered first. Men who reached 18 after Sept. 18 were required to register at local draft boards within five days of the date of their birthday anniversary. No one may be inducted after reaching the age of 26.

Exemptions

The Act provides for the exemption of most veterans of World War II; only surviving son of families who lost one or more sons or daughters in the war; ministers, ministerial students and conscientious objectors, all under specified conditions. It provides no exemption for former members of the Merchant Marine. It defers members of organized units of Reserve components at the time the law was enacted; certain members of the Reserve Officers Training Corps and others designated by the Secretary of Defense, and certain designated public officials during their terms of office. Deferment of married men and men with dependents is provided for by regulations authorized by the Act.

Local boards may grant deferments to permit high school students to continue their courses, if their scholastic record is satisfactory, until graduation, or until they reach the age of 20, whichever is first, and to college and university students satisfactorily pursuing a full-time course at a college university or similar institution of learning, until the end of the academic year.

The following five classes, with sub-divisions, were established:

Class I

I-A—Available for military service.

I-A-O—Conscientious objector available for noncombatant service only.

I-C—Member of the Armed Forces of the United States, the Coast Guard, the Coast and Geodetic Survey or the Public Health Service.

I-D—Member of a Reserve component or student taking military training.

Class II

II-A—Deferred because of civilian employment (except agriculture).

II-C—Deferred because of employment in agriculture.

Class III

III-A—Deferred because of dependents.

Class IV

IV-A—Registrant who has completed service; sole surviving son.

IV-B—Official deferred by law.

IV-D—Minister of religion or divinity student.

IV-E—Conscientious objector opposed to both combatant and non-combatant military service.

IV-F—Physically, mentally or morally unfit.

Class V

V-A—Registrant over the age of liability for military service.

Exemptions and deferments continue only so long as the cause for them remains. There are no so-called "blanket" or "group" deferments. The individual's status with respect to his activity or employment, as determined by the local board, is the governing consideration.

The induction program provides for the calling of registrants in the sequence of their birth day, beginning with men in the 25-year-old bracket and working down into the lower age brackets. The first calls for draftees were issued by the Armed Forces (September, 1948) for two quotas, 10,000 and 15,000, respectively, for delivery before the end of the year. The January (1949) call was for 10,000. Physical examinations began in October and the first groups of registrants passed as fit were inducted in November.

Reemployment rights for draftees, as established by the 1948 Act, are substantially the same as under the old Selective Service Act, with administration under the Department of Labor.

Organization of System

The Selective Service System is composed of a national headquarters at 1712 G St., N.W., Washington 25, D. C.; State headquarters in each State; and headquarters similarly organized and with the same functions in New York City, the District of Columbia, Alaska, Hawaii, the Virgin Islands and Puerto Rico—a total of 54. Approximately 3,000 local draft boards are functioning, one in each county, except in sparsely populated areas, and, in populous urban areas, one for each 100,000 population. Each board is composed of three or more members, all civilians.

One or more boards of appeals are in operation in each State and Territory, and in New York City, the District of Columbia, the Virgin Islands and Puerto Rico.

Questionnaires are sent to registrants soon after registration. The questionnaires ask a number of pertinent questions concerning vital facts which help the local boards in their classification work. The boards also take into consideration information from employers, dependents and other sources. The registrant does not appear personally before the board except when he reports for physical examination or induction, unless he requests a personal appearance or is ordered to give, in person, additional information affecting his status.

Early in 1949 the armed forces announced temporary suspension of calls for men from Selective Service. This was because Selective Service influence had increased enlistment rates and because budgetary limitations made reductions in armed forces personnel strength necessary.

On the assumption that there would be no calls during the fiscal year 1949-1950, the President recommended a fiscal year appropriation of $16,700,000 for the system. Final action of Congress, Aug. 24, reduced the amount to $8,500,000, necessitating further drastic retrenchment in all of the units. Near the end of 1949 there were approximately 3,700 local boards, operating with about 840 full-time and 1,890 part-time clerks as opposed to 4,500 full-time clerks in December, 1948. Identity of the individual boards was maintained, but relatively few had full-time clerks; many were operating with a clerk one day a week or less, while many others were grouped in common offices to curtail expenses.

As was true in the World War II operation, the number of unpaid workers exceeded by many times the number of paid workers. Working without compensation near the end of the year were approximately 37,000 men, the majority of whom were local board members, charged with the responsibility of registration and classification of men between the ages of 18 and 26, and keeping their classifications up to date as their status changed, and other duties. These latter duties include keeping in touch with men inducted—and who have completed their period of active duty—so that they may be assigned to reserve units in accordance with provisions of the Selective Service Act.

In the autumn of 1949 armed forces spokesmen indicated they would request extension of Selective Service beyond June 24, 1950, its expiration date under the 1948 act. They declared that its existence was a spur to enlistments, that it would be needed in the event of emergency and that with it men would be delivered within 30 to 60 days, "whereas if no law existed it might require up to six months to get one enacted."

Veterans Administration

VA—Veterans Administration—Carl R. Gray, Jr., Administrator, Address, Washington 25, D. C.

Veterans Administration is an independent establishment of the United States Government charged with administering benefits provided by law for veterans of all wars, their dependents and beneficiaries.

The agency was created in July, 1930, to unify the work of numerous Federal bureaus which, at that time, were administering veterans' benefits.

By September 1, 1949, this country's population of veterans of all wars was 18,976,000. Eighty percent, or 15,225,000, served in World War II.

Veterans, together with their families, make up about one-third of the nation. All potentially are eligible for some V-A-administered benefits, but far from the total number actually have obtained these benefits.

V-A-administered benefits range from education and training for an eligible veteran to death benefits for his dependents after he dies. Following are the major benefits provided by law:

EDUCATION AND TRAINING

Education and training for World War II veterans have been authorized by two laws: Public Law 346, 78th Congress, as amended (commonly known as the G.I. Bill), and Public Law 16, 78th Congress, as amended (the Vocational Rehabilitation Act).

TRAINING UNDER THE G.I. BILL

Veterans in training under the G.I. Bill may choose their own place of study or job training establishment, so long as the school or establishment has been approved by an appropriate State approving agency, and so long as the institution has been in operation for at least one year.

Eligible veterans may get training for one year, plus a period equal to the time served in the armed forces between September 16, 1940, and July 25, 1947. Maximum period of training allowed is 48 months.

If a veteran enrolls in a school with a V-A certificate of eligibility, V-A will pay his tuition, fees and book and supply costs up to a $500-a-year maximum.

Veterans entering any type of training (except correspondence school instruction) may be eligible to receive subsistence allowances. Maximum allowances for veterans studying full-time in schools are $75 a month, without dependents; $105 with one dependent, and $120 with more than one dependent. Maximum rates for on-the-job trainees are $65 a month for those without dependents and $90 for those with one or more dependents.

The law does not permit a veteran to take a course for avocational or recreational purposes. If the course is one which is frequently taken for those purposes, the veteran must show V-A that the course would be in connection with his present or contemplated business or occupation. V-A approval must be obtained before he may start such training.

A veteran may (1) submit justification to take G.I. Bill flight training, or (2) he may submit a certificate showing he is physically qualified for such training along with his own affidavit, supported by corroborating affidavits by two competent disinterested persons, that flight training will be useful to him in connection with earning a livelihood.

On September 1, 1949, there were 1,517,845 veterans in schools, job training establishments and on-farm training courses under the G.I. Bill. Of these, 223,737 were enrolled in colleges and universities; 685,504, in schools below college level; 303,036, in institutional on-farm training courses, and 305,568, in job training courses.

From June 22, 1944 (date of inception of the G.I. Bill) to September 1, 1949, more than 6,200,000 World War II veterans had, at some time or another, taken G.I. Bill education and training.

Most education and training ends July 25, 1956. For the majority of veterans, G.I. Bill education and training must begin before July 26, 1951.

An exception has been made for persons who enlisted or reenlisted between October 6, 1945, and October 5, 1946, under the Voluntary Recruitment Act. These persons may count the entire period of their enlistment as war service for purposes of G. I. Bill benefits, regardless of the date the war was declared officially ended.

They, therefore, may substitute the date their period of enlistment ended in computing their benefits, where that date is later than July 25, 1947.

TRAINING FOR THE DISABLED

Eligible World War II veterans with service-connected disabilities, in need of vocational training to overcome their handicaps, may enroll in schools, on-farm training courses or job training establishments under Public Law 16.

Before a disabled veteran begins training, he will be interviewed by trained V-A counselors. If necessary, he will be given a series of scientific tests to determine his aptitudes and interests. Interviews and tests, together with a review of his past experience, will enable the V-A counselor and training officer to help him decide the type of training he should get in an institution approved by V-A.

Veterans may remain in training for as long as is necessary to restore their ability to work, up to a total of four years. In extraordinary cases, V-A may authorize training for more than four years.

While in training and for two months afterwards, disabled trainees may receive subsistence allowances in addition to their disability compensation. Maximum rates are the same as for veterans in schools and job training establishments under the G.I. Bill. Additional allowances may be provided, depending on the veterans' degree of disability and the number of additional dependents they might have.

On September 1, 1949, a total of 158,418 disabled veterans were training under Public Law 16. Of these, 24,123 were enrolled in colleges and universities; 27,656 in schools below college level; 43,323 in institutional on-farm training courses, and 63,316 in job training.

From March 24, 1943 (effective date of Public Law 16) to September 1, 1949, a total of more than 516,000 disabled veterans had, at one time or another, been in training under Public Law 16.

Disabled veterans may apply for vocational rehabilitation at any time after their discharge, but in time to complete their training by July 25, 1956.

G.I. LOANS

Eligible World War II veterans who desire to buy or build homes, purchase farms or farm equipment, or go into business may apply for G.I. loans through private lending institutions. A portion of the loan may be guaranteed or insured by V-A.

Amount of the guarantee may not exceed 50 percent of the loan, or a maximum of $4,000 on real estate and $2,000 on non-real estate loans.

V-A does not lend money to the veteran. He makes his own arrangements through usual financing channels. However, V-A pays the lender, for credit to the veteran's loan account, a sum equal to four percent of the guaranteed portion of the loan.

Farm realty loans may be made repayable in up to 40 years; other realty loans, in up to 25 years, and non-realty loans, in up to 10 years. The interest rate normally may not exceed four percent a year on the unpaid balance.

By August 25, 1949, a total of 1,721,446 G.I. loans of all types, amounting to nearly $9.3 billion, had been approved for guaranty or insurance by V-A.

About 90 percent of the loans—or 1,558,674—were for homes. Farm loans numbered 52,390, and business loans, 110,382.

Veterans have made an excellent record of meeting their G.I. loan obligations.

By August 25, 1949, a total of 126,138 loans—amounting to more than $483,000,000—had been paid in full. By that same date, V-A had paid claims on only 11,682 defaulted loans. Although defaults cost the Government more than $13,000,000, part of this amount still is subject to further recovery.

The deadline for applying for G.I. loans is July 24, 1957, for all veterans except enlistees under the Voluntary Recruitment Act.

READJUSTMENT ALLOWANCES

The readjustment allowance program—established by the G.I. Bill to provide financial assistance for unemployed, partially employed and some self-employed veterans—came to an end for most World War II veterans on July 25, 1949.

By that date, more than 8,000,000 veterans had been on V-A's readjustment allowance rolls. They had obtained a total of $3 billion in unemployment allowances and more than half a billion in self-employment allowances.

Two categories of veterans still may obtain readjustment allowances:

(1) Those who served a minimum of 16 days between September 16, 1940, and July 25, 1947; had at least 90 days total service, and were discharged under conditions other than dishonorable after July 25, 1947.

(2) Those who enlisted or reenlisted under the Armed Forces Voluntary Recruitment Act.

MEDICAL AND HOSPITAL BENEFITS

V-A operates a network of 130 hospitals for the treatment of ill and disabled veterans. In addition, beds in civil, state and other federal hospitals are being used by the agency on a contract or agreement basis. Clinics are maintained in V-A regional

offices for examinations and outpatient treatment.

A three-quarters-of-a-billion dollar V-A hospital construction program now is underway. It will result in 67 modern new hospitals, with a total of 38,600 beds. By September 1, 1949, five of the new hospitals had been completed; 39 were under construction, and 23 were in the planning stage.

On August 1, 1949, a total of 105,824 beds were available for use in V-A hospitals. More than 12,200 beds also were available in other-than-V-A hospitals. The 105,824 beds included 14,109 for tuberculosis patients; 25,061 for neuropsychiatric patients, and 36,744 for general medical and surgical cases.

Outpatient medical care is available for veterans with service-connected disabilities. Under this plan, eligible veterans may receive treatment at V-A hospitals or clinics or from approved private physicians. V-A must determine each veteran's eligibility before authorizing this type of treatment.

To date, V-A has spent about $1,000,000 in developing a radioisotope program. The program, consisting of diagnostic and therapeutic research, is being carried out in 12 V-A hospitals.

DOMICILIARY CARE

Domiciliary care is available at 15 V-A homes for those veterans of all wars who have a chronic condition incapacitating them from earning a living and who require minimal medical attention. Requirements for admission for domiciliary care are essentially the same as for hospital treatment.

More than 17,000 veterans were in V-A homes on September 1, 1949.

INSURANCE

National Service Life Insurance—in amounts of not less than $1,000 or more than $10,000 in multiples of $500—is available to members of the armed forces and to World War II veterans. A veteran who served at any time between October 8, 1940, and September 2, 1945, inclusive, may apply for a policy whether or not he took out NSLI while in service or has since let it lapse.

Within the last nine years, V-A wrote nearly 20,000,000 NSLI contracts having a face value of more than $155 billion. On August 1, 1949, more than one-third, or 7,244,000 policies, still were in force. Of these, more than 5,500,000 were term policies. The remainder had been converted to permanent forms of insurance.

In 1949, V-A announced that about 16,000,000 present and former holders of NSLI will share in a special dividend payment totaling $2.8 billion. This special dividend will cover all periods NSLI was held in force from the time the policy first was taken out up to its anniversary date in 1948. Future dividends will cover subsequent periods.

PENSIONS AND COMPENSATION

A veteran disabled by injury or disease incurred in, or aggravated by, wartime service may qualify for disability compensation. He must have been discharged under conditions other than dishonorable. Monthly rates range from $15 to $150, depending on the degree of disability, plus statutory awards for certain disabilities which may bring total payments to a maximum of $360 per month.

A veteran of either World War who becomes permanently and totally disabled for reasons not traceable to service in the armed forces may, under certain conditions, be entitled to a pension. He is disqualified if his income exceeds $1,000 a year if he is single, or $2,500 if he is married or has a minor child. The monthly rate is $60, which is increased to $72 after 10 years or when the veteran reaches age 65.

Widows, children and dependent parents of deceased veterans may qualify for death compensation and pension payments, if certain limiting conditions are met.

On September 1, 1949, a total of 2,324,832 veterans of all wars were on V-A's compensation and pension rolls. At the same time, 963,175 dependents of deceased veterans were obtaining death compensation and pension payments.

Living veterans on V-A rolls, as of September 1, 1949, included: Civil War, 22; Indian Wars, 603; Spanish-American War, 98,193; World War I, 487,556; World War II, 1,688,788; Regular Establishment, 49,670.

OTHER FUNCTIONS

In addition to functions already described, V-A is charged with administering other benefits to veterans.

Among them are a guardianship service, a program to provide homes for paraplegic veterans, autos for amputees, burial benefits, and a contact service to advise veterans, their dependents and beneficiaries of their rights and benefits.

Veterans in U. S. Medical Schools

Source: Journal of the American Medical Association

The percentage of veterans enrolled in the medical schools and schools of basic medical sciences in the United States in the term 1948-1949 increased from 60.9% in the preceding year to 65.8% in 1948-1949. Of the total of 23,670 students 15,567 were veterans, of whom 89 were women. Veterans comprised 70% of the freshman class, a slight decline from the peak enrollment of 73.4% in the preceding freshman class. The figures for veterans in other classes were sophomores 73.9%, juniors 65.2% and seniors 50.9%. The totals for veterans and non-veterans:

	Men			Women			Total men and women
	Veterans	Other	Total	Veterans	Other	Total	
Freshmen	4,665	1,616	6,281	21	386	407	6,688
Sophomores	4,544	1,178	5,722	29	443	472	6,194
Juniors	3,686	1,420	5,106	34	562	596	5,702
Seniors	2,583	1,869	4,452	5	629	634	5,086
Totals	**15,478**	**6,083**	**21,561**	**89**	**2,020**	**2,109**	**23,670**

HIGHLIGHTS OF WORLD WAR II

See also Chronology in issues of the WORLD ALMANAC for years 1940-1949. For detailed table of declarations, armistices, surrenders and ratifications by all nations affected by the war see WORLD ALMANAC for 1949, pp. 322-324.

OPENING OF HOSTILITIES

Germany (Adolf Hitler, Fuehrer) refusing to negotiate alleged frontier incidents, declared war on Poland, Sept. 1, 1939, one week after signing a non-aggression pact with the Soviet Union; 11 months after Neville Chamberlain, British prime minister, in Munich approved award of Sudetenland, Czechoslovakia, to Germany.

Great Britain and France declared war on Germany, as guarantors of Poland, Sept. 3, 1939, as also did Australia, Canada, New Zealand. The Union of South Africa declared war Sept. 6.

Russia (Union of Soviet Socialist Republics) invaded Poland Sept. 17, 1939. Peace was signed July 30, 1941. Russia invaded Finland Nov. 30, 1939. Peace was signed Mar. 12, 1940.

Germany invaded Norway and Denmark April 9-10, 1940. Norway declared war; surrendered June 9. Germany invaded Belgium, Luxemburg and Netherlands May 10. King Leopold, Belgium, surrendered army of 500,000 May 28. Germany signed an armistice with France June 22, 1940.

Italy declared war on France and Great Britain June 10. France declared war on Italy June 11; Great Britain and the Dominions were at war with Italy as of June 11. France signed an armistice with Italy June 24, 1940.

Germany invaded Russia June 22, 1941. Finland declared war on Russia June 25; Italy declared war on Russia June 22; Hungary declared war June 27, 1941.

BATTLE OF BRITAIN

Nazi bombing of Britain, preliminary to planned invasion, began July 10, 1940. Germans had 1,015 heavy bombers (Heinkel), 346 dive bombers, 375 heavy fighters, 933 fighters (M E 109). On Sept. 6 the Germans attacked London with 68 planes; Sept. 7, with 300; Oct. 15, 480 aircraft dropped 386 tons of heavy explosives and 70,000 incendiaries. On Nov. 14, 500 planes dropped 600 tons of high explosives on Coventry, killing 400 and destroying its cathedral. At Birmingham, Nov. 19-22, 800 were killed, 2,000 injured. London's Guildhall and eight churches designed by Christopher Wren were burned Dec. 29 and St. Paul's was hit. Intensive defense by R A F cost Germans many planes and caused Hitler to postpone invasion. It was of this result that Prime Minister Churchill said: "Never in the field of human conflict was so much owed by so many to so few."

RETREAT FROM DUNKIRK

When the Nazis threatened to overwhelm the British Expeditionary Force in their drive to the Channel, spring of 1940, Lord Gort was ordered to embark the troops for England. About 900 vessels, from cruisers and destroyers to trawlers and lifeboats, worked from May 26 to June 4 taking 338,226 men from Dunkirk and the beaches across the Channel, of whom 26,175 were French troops. In the skies small units of British fighter planes attacked German squadrons of 40 and 50. Of 693 small craft used, 266 were sunk; of 39 destroyers, 6 were sunk and 19 damaged; of 113 trawlers, 17 were sunk. But the army was saved.

PEARL HARBOR

Over 100 Jap planes and a number of midget submarines attacked U. S. Pacific fleet (86 ships) at anchor at Pearl Harbor, Hawaii, Dec. 7, 1941. (7:55 A.M., Hawaiian time; 1:25 P.M. EST). Totally lost, Battleship Arizona. Severely damaged, Battleships Oklahoma, Nevada, California, West Virginia, 3 destroyers, 1 target ship, 1 minelayer. Damaged and repaired: Battleships Pennsylvania, Maryland, Tennessee; cruisers, Helena, Honolulu, Raleigh; 1 seaplane tender, 1 repair vessel, 1 drydock. Airplanes lost, Navy 80; Army 97. Japs lost 28 planes to the Navy, 20 to the Army and 3 submarines of 45 tons each. Casualties: Navy, 2,117 officers and men killed, 960 missing, 876 wounded; Army, 226 officers and men killed, 396 wounded. (Official.)

At the moment of attack Jap Special Envoy Kurusu and Jap Ambassador Nomura were conferring on peace with Secretary Hull in Washington. Japanese documents show that in November, 1941, the fleet was given plans for attack; war was decided on Dec. 1; orders to attack Dec. 8 (Dec. 7, U. S. time) were sent Dec. 2.

Japan declared war on the United States, Great Britain and the British Dominions, Dec. 7, 1941; United States declared war on Japan, Dec. 8; Germany and Italy declared war on the United States Dec. 11, after which the United States declared war on them. The United States declared war on Bulgaria, Hungary and Rumania June 5, 1942.

PHILIPPINE SURRENDER

Gen. Douglas MacArthur had 15,000 U. S. troops, 40,000 in Philippine Army, 100,000 Filipino reservists, and 300 planes when the Japs struck Dec. 8, 1941 (Asiatic time). All but two U. S. planes were grounded at Clark Field when 54 bombers, 34 fighters attacked at 12:45 p.m., destroying 12 B-17s (Flying Fortresses); 30 P-40s and damaged 5 B-17s. Japs lost 7. Bombings continued at Davao, Baguio, Tugagaroo. Nichols Field. On Dec. 10 150 Japs bombed Cavite, fired buildings. The Army Air Force hit some minelayers and transports but by Dec. 17 only 14 Flying Fortresses were left and were ordered to Darwin, Australia.

Manila and Cavite were taken by Lieut. Gen. M. Homma, Jan. 2, 1942. Offensive was opened on Bataan Jan. 10 by 200,000 Japs. U. S. shot down 168 Jap planes by Feb. 18. U. S. Army Air Force sank three Jap troopships in Subic Bay, Mar. 4. Gen. MacArthur, ordered to Australia, left Luzon by motor torpedo boat for Mindanao, thence via Flying Fortress to Darwin, arriving Mar. 17.

Maj. Gen. Jonathan M. Wainwright commanded defense of Bataan until April 8, 1942. He sent 3,500 including naval personnel and Philippine scouts to Corregidor. Total, 35,000 U. S. and Filipino troops, including 5,000 Marines were made prisoner and forced into the "Death March" and prison. Corregidor held out 5 weeks longer. After 28 days of bombardment, 300 air attacks, Japs landed troops May 5. Gen. Wainwright surrendered to Gen. Tomayuki Tamashita May 6 with 11,574 troops, including 2,275 naval personnel, 1,570 Marines, 3,734 U. S. Army, 1,280 Philippine Scouts, 1,446 Philippine troops, 1,269 civilians.

DOOLITTLE'S RAID

Lieut. Col. James H. Doolittle, commanding 70 officers, 130 men of the AAF and 16 B-25s (Mitchell bombers) sailed from San Francisco Bay April 2, 1942, on Carrier Hornet (Capt. Marc A. Mitscher) to bomb Japan. Escorted by two cruisers, four destroyers, one oiler, they were met at sea by Vice Admiral Wm. F. Halsey, Jr. of Task Force 16, with Carrier Enterprise, two destroyers, one oiler. Planes carried four 500-lb. bombs, 1141 gals. of gasoline each. Sighted by Jap picket boat, making necessary premature take-off, April 18, 632 miles from land, 688 from Tokyo. The bombers, with 80 pilots and crews, reached Tokyo just after noon at the close of a mock raid, which muted the element of surprise; 13 hit Tokyo, two Nagoya, one Kobe. Eight airmen were captured by Japs off the China coast; three were shot, five were given life, one of them died in prison. One was killed landing in China; four were drowned—total nine dead. One plane landed near Vladivostok and was interned by Russians; the crew escaped via Persia, but the plane was never returned.

Before details of the Doolittle take-off were made public, President Roosevelt commented jocularly that the bombers flew from Shangri-La, naming the mythical oriental city described in James Hilton's novel, Beyond the Horizon.

AFRICAN DESERT WARFARE

The battle for control of the North African coast swept along the southern shore of the Mediterranean six times. Italian armies under Marshal Rudolfo Graziani opened an attack Aug. 6, 1941, which carried them as far as Sidi Barrani. Second British offensive began Nov. 18, 1941. Gen. Neil

Ritchie relieved Tobruk, which had held out 8 mos., Dec. 2, 1941. British entered Bengazi Dec. 28. By Jan., 1942, they had pushed Rommel back to El Aghelia. Here he was reinforced and opened a counter offensive Jan. 22 with 50,000 Germans in the Afrika Korps and 40,000 Italians. The Free French were forced out of Bir Hacheim June 11. The British left a garrison of 25,000 in Tobruk, which Rommel captured June 21. Hitler thereupon made him a field marshal. British 8th Army lost 6,000 at Mersa Matruh, 130 mi. east of the Egypt-Libya frontier. Gen. Sir C. J. E. Auchinlech replaced Ritchie. The British halted 70 mi. west of Alexandria, having lost 50,000.

By Oct., 1942, the British 8th Army with Allied reinforcements had 165,000; the Italo-Germans 93,500. It had 1,098 British planes, 165 U. S., against 218 Italian, 165 German planes. On Oct. 23 Lieut. Gen. Bernard L. Montgomery ordered an attack on Rommel at El Alamein with "The Lord mighty in battle will give us the victory." In 12 days the Allies took 9,000 prisoners and the commander of the Afrika Korps, Gen. Ritter von Thoma. Germans were driven out of Mersa Matruh, losing 20,000 taken prisoner, abandoning 6 Italian divisions. Sidi Barrani, Tobruk and Bardia were taken. On Nov. 20 the Germans abandoned Bengazi. Tripoli was taken Jan. 24, 1943. The Axis lost 50,000 men, 500 tanks, 1,000 planes; the British 8th Army lost 13,600 men. The Germans retired to Tunisia and received heavy reinforcements by air.

On Nov. 11 the Germans, stung by their reverses in Africa, invaded southern France. At Toulon the French scuttled 60 ships of their navy, including 2 battleships, 4 heavy cruisers, 3 light cruisers and one aircraft carrier.

CORAL SEA—MIDWAY

Japan began naval movement from Truk, May, 1942, to dominate North Australia. Took Tulagi, May 3, which was bombed with minor results by planes from U. S. Yorktown, May 4. Two Jap naval forces with transports moving around eastern tip of New Guinea to assault Port Moresby were sighted by U. S. planes in Jonard Passage, Louisade islands. American dive bombers May 7 sank Jap Carrier Shoko in 15 minutes near Misma island. Japs sank destroyer Sims and damaged oiler Neosho. U. S. bombers got 6 hits on Jap Carrier Shokaku May 8. Lexington badly damaged, was abandoned and sunk by U. S. destroyers. Yorktown was badly damaged. Twelve Jap torpedo planes attacked U. S. cruisers, which shot down 10. U. S. lost 66 planes, 543 men; Japs lost 80 planes, 900 men (est.). Commanders included Rear Adm. F. J. Fletcher on Minneapolis, C-in-C.; Rear Adms. W. W. Smith and A. W. Fitch; Japanese, Vice Adm. Inoue, Rear Adms. Hara and Takagi. This was the first engagement by naval planes from ships that had neither sight nor range of enemy. The Jap movement was stopped; the Japs called this a "crushing defeat" for U. S., but admitted American morale "was not at once shaken."

Midway, June 3-6, 1942—U. S. concentrated planes at Midway, strategic island, and sent three carriers. On June 3 Japs were spotted 500 miles southwest. On June 4 planes attacked Japs, but Japs got through and damaged island. Dive bombers from Enterprise and Yorktown (temporarily repaired) got 3 hits on Jap Carrier Soryu (40 planes); it was sunk by submarine Nautilus. Also 2 hits on Akagi and 4 hits on Carrier Kaga (30 planes), which sank. Flyers from Hiryu got 3 hits on Yorktown. Flyers from Hornet and Enterprise got 6 bomb hits on Hiryu June 4. On June 5 Hiryu and Akagi were scuttled. U. S. flyers sank cruiser Mikuma June 6 and damaged Mogami and destroyer Arashio. On this day Yorktown sank. Japs lost 4 carriers, 253 planes, 3,500 men. U. S. lost 1 carrier, 1 destroyer, 150 planes, 307 men. Commanders included Rear Adm. R. A. Spruance, Rear Adm. T. C. Kinkaid, Rear Adms. Fletcher and Smith; submarines commanded by Rear Adm. R. H. English. Participating, Marine Group 22, 7th Air Force. Jap C-in-C, Adm. I. Yamamoto. This battle saved Midway and marked fatal loss of carriers for Japan.

NORTH AFRICAN LANDING

Operation Torch—150,000 U. S. troops, trained in Britain; 140,000 British, using 500 vessels, protected by 350 warships, landed on French North Africa 1 a.m. Nov. 8, 1942 (Washington time, 9 p.m. Nov. 7). Commander in chief, Lieut. Gen Dwight D. Eisenhower; deputy commander, Maj. Gen. Mark W. Clark, U. S.-British fleet, with units from Netherlands, Poland, Norway, commanded by Sir Andrew Browne Cunningham; Rear Adm. Henry W. Hewitt comm., U. S. fleet.

French resisted at Oran, Algiers and Casablanca. Vichy broke relations with U. S. Nov. 9. Oran captured Nov. 9 by Maj. Gen. Lloyd R. Fredendall. Algiers gave up at 7 p.m. Nov. 8 after armistice negotiated by Adm. Jean Francois Darlan and Gen. Juin. Casablanca (Adm. Michelier, comm.) fought till 7 a.m. Nov. 11; was occupied by Maj. Gen. Geo. S. Patton when Darlan interceded. French battleship Jean Bart in harbor shelled troops and was hit. U. S. lost five transports to submarines; 360 killed, 1,050 wounded, 500 missing. British lost two destroyers.

Gen. Henri H. Giraud and Gen. Chas. de Gaulle asked the French to cooperate. Darlan appealed to the French fleet to join the Allies. Darlan, Nov. 15, called himself Protector of North Africa, made Giraud commander-in-chief. On Dec. 1 Darlan became high commissioner. He was assassinated Dec. 24 and succeeded by Giraud.

INVASION OF ITALY

Allied attempts to knock Italy out of the war began in June, 1943 and succeeded only in defeating the Italians. The Germans, strongly entrenched, fought every step of the way back and were not knocked out until April, 1945. The campaigns were difficult and costly.

The move into Sicily (Operation Husky) was preceded by assaults on the Pelagie islands, needed for air bases. Pantelleria surrendered with 10,000 troops June 11, 1943; Lampedusa, June 12; Linosa, June 13. Landings on Sicily began July 10 by the 7th U. S. Army under Gen. Geo. S. Patton, Jr. and the British-Canadian 8th under Gen. Montgomery. Sicily was reduced by Aug. 17. The British lost 11,855 killed, wounded and missing; the U. S. 7,400, the Canadians, 2,388.

Plane raids on fortified places and railroad yards went on for months. Rome was attacked by U. S. planes July 19. The San Lorenzo district was attacked by planes Aug. 13, when a church was badly damaged. On July 25 Mussolini was forced to resign and the King of Italy appointed Pietro Badoglio in his place. Mussolini was held prisoner in a mountain resort, where German flyers freed him Sept. 12 and took him to northern Italy.

Dwight D. Eisenhower was named General of the Army, a permanent commission, Aug. 31. The British-Ganadian 8th Army landed at Calabria on the Italian mainland Sept. 3; the Allied 5th Army, Lieut. Gen. Mark W. Clark, near Salerno Sept. 9. Badoglio agreed to an armistice Sept. 3 and Italy surrendered unconditionally Sept. 8. The Italian fleet surrendered at Malta, but the Nazis sank the 35,000-ton battleship Roma.

A long series of campaigns with heavy losses followed. The Germans put Kesselring in command of central Italy and sent Rommel to organize the northern part. British and U. S. troops landed Jan. 22, 1944 at Anzio, 30 mi. below Rome. Resistance at Cassino led the Allies to bomb the monastery Feb. 15-16, without result. On Mar. 15 the Allies poured 3,500 bombs on Cassino. This fell May 18 to the British and Poles. Armored units of the U. S. 5th Army entered Rome June 4. It is estimated that the Germans suffered 70,000 casualties in the 32 days since the drive on Cassino began. From Sept. 3, 1943 to June 12, 1944, the U. S. had 12,999 dead, 49,561 wounded, 10,606 missing, a total of 73,166 casualties. The Germans were not pushed out of Italy until the spring of 1945, the Allies taking Bologna April 21, Milan April 29, Turin April 30.

FIGHTING IN RUSSIA

Greatest blood-letting of all time occurred on Russian territory, 1941-1945, when the Nazi hordes swept across the Ukraine and into the Caucasus, crossed the Volga and the Don, besieged Leningrad, threatened Moscow and fought a terrible battle in the ruins of Stalingrad. Hitler ordered the German armies into the Soviet Union June 22, 1941, without a declaration of war. Summer and fall of 1941 were filled with reports of German victories and huge bag of prisoners: Minsk, Smolensk, Kiev, Kharkov, Kursk, Orel were taken on Oct. 3, 1941 Hitler announced Russian armies

were crushed, while Soviet government moved many offices to Kuibyshev. From that winter, however, called the coldest weather in 150 years, Russian offensive power steadily mounted. While the battle lines wavered, the threat to Moscow was removed, Feb., 1942, when the Germans lost 55,000 there, while 170,000 German casualties were attributed to the Leningrad campaign.

Most costly was German investment of Stalingrad. Aug., 1942, with bitter house to house fighting. Nov. 19, 1942 Russians began encircling city. Field Marshal Frederich von Paulus surrendered Jan. 31, 1943; out of an estimated 330,000 German troops at Stalingrad, only 90,000 were taken prisoner. Mourning was ordered in Germany Feb. 4 to 7.

Subsequent history of the eastern front is one of gigantic battles, huge losses and increasing Soviet power as new factories and U. S. lend-lease supplied arms. The Soviet armies reached East Prussia, fall, 1944. In their major drive, Jan., 1945, (est. 175 divisions) they reached the Oder Feb. 4, Budapest Feb. 13, Danzig Mar. 30, Koenigsberg Apr. 9, Vienna Apr. 13. Berlin surrendered May 2. U. S. First Army met First Ukrainian Army (Marshal Konev) at Torgau on the Elbe, below Dresden, Apr. 25, 1945.

D DAY IN NORMANDY

Operation Overlord—Invasion of France by Allies, June 6, 1944. 1,000 planes and gliders dropped paratroopers on Contentin peninsula, Normandy, 5 a.m. London time. 1,000 R.A.F., 1,400 U. S. bombers attacked installations. First assault troops landed 6:30 a.m. on beaches along line Carentan-Bayeux-Caen; U. S. on West, British-Canadians on East. Total Allied strength available 2,876,439, including 17 British divisions of which 3 Canadian; 20 U. S. divisions, 1 French, 1 Polish. Also available 5,049 fighter planes, 3,467 heavy bombers, 1,645 light and medium bombers, 2,316 transport aircraft, 2,591 gliders, 698 others; 835 L.C.T., 233 L.S.T. Beachhead 60 mi. long, 10 mi. deep.

Gen. Dwight D. Eisenhower was Supreme Commander of Allied Expeditionary Forces; Gen. Sir Bernard L. Montgomery commander of Allied assault troops; Sir Bertram Ramsay of Allied naval units (4,000 ships of all kinds); Air Marshal Trafford Leigh-Mallory of Air Forces; Lt. Gen. Omar N. Bradley of U. S. troops in field. Fifth Corps, Maj. Gen. Leonard C. Gerow, landed on beaches; 7th corps, Maj. Gen. J. Lawton Collins on east side of peninsula. Germans had available 65 divisions, including reserves extending back to Germany. Marshal Gunther von Kluge was German commander in France.

British took Bayeux June 7; Carentan fell June 13; U. S. took Cherbourg June 27; British-Canadians took Caen July 9 after desperate fighting. Lieut. Gen. George S. Patton with 3rd U. S. Army attacked south and west of St. Lo July 26. Canadians took Falaise Aug. 17. The Argentan gap was closed by the 3rd Army in terrible fighting. Germans lost 12 to 14 divisions in the Falaise pocket, many taken prisoner.

Aug. 14-15, 1944, Allies invaded France east of the mouth of the Rhone with 1,000 ships (641 U. S., 316 British) under Rear Admiral Lyal A. Davidson; Lieut. Gen. A. M. Patch, 7th U. S. Army commanding troops. The 2nd French corps participated. Germans withdrew up Rhone leaving garrisons behind. On Aug. 25 the 2nd French armored division and token force of U. S. Army entered Paris.

Gen. Eisenhower, Aug. 25, announced German casualties reached 400,000, of which 200,000 were prisoners; 1,300 tanks; 20,000 motor transports; 500 assault guns; 1,500 field pieces as well as coast artillery; 2,378 planes destroyed in the air, 1,167 on the ground, 1,028 damaged in air.

ARDENNES BULGE

This violent counter-attack by 15 German divisions under Gen. von Modell (Gen. von Rundstadt C. in C.) was launched Dec. 16, 1944. By Dec. 19 the 1st U. S. Army was pushed out of Germany and the Germans raced into Belgium and Luxemburg, penetrating 60 miles west to Celles. Lieut. Gen. Patton's 3rd U. S. Army rescued besieged Americans at Bastogne Dec. 21 and Nazi drive was stopped by Dec. 25. By throwing in more divisions the Allies wiped out the Bulge by Jan. 31, 1945. Worst incident occurred southwest of Malmedy, where Germans cut down captured American soldiers with machine guns and left them dead on the field. U. S. losses estimated at 40,000; Germans lost 220,000 in dead and prisoners.

RETURN TO PHILIPPINES

Reoccupation of Philippines was preceded by devastating bombing by carrier-based U. S. planes against Formosa and Luzon. From Oct. 12 to 16, 1944, Japs lost 650 planes (est.), U. S. 76. Japs damaged two U. S. cruisers. Rangers landed on islands at mouth of Leyte Gulf Oct. 17, Assault on Leyte (Visayan Is.) began Oct. 20, 10 a.m. Gen. Douglas C. MacArthur, commander-in-chief, Southwest Pacific area, waded ashore on east coast near Palo; called upon Filipinos to "arise and strike." With him came Philippine president, Osmena. In land action Lieut. Gen. Walter Krueger, 6th Army, commanded, facing, eventually, Gen. T. Yamashita, "bloody butcher of Bataan." Units of 6th Army, including 77th Division, wiped out opposition by Dec. 24. Fleet comprised 738 ships, 193,841 troops. Commanders were Adm. William F. Halsey, Jr., 3rd fleet, and C.-inC.; Thomas C. Kinkaid, 7th Fleet, covering landings; Commander John A. Collins, Australian squadron; Lieut. Gen. George C. Kenny, combined Air Forces. Tacloban occupied Oct. 21, made Philippine capital. U. S. entered Luzon by way of Lingayen gulf Jan. 9, 1945; 8th U. S. Army, Gen. Robert L. Eichelberger, entered by Subic Bay. Manila taken, Feb. 3. Corregidor reoccupied in two-week fight, Feb. 16-Mar.1.

BATTLE FOR LEYTE GULF

This, the biggest naval action ever fought, occurred Oct. 22-27, 1944, in three engagements, destroying Japanese naval power. Japs sent all their ships to intercept U. S. landings. Battles fought in Surigao strait, off Samar and off Cape Engano. Ships engaged, U. S. 166, Japs, 65. Airplanes, U. S. 1,280; Japs 716. Losses for Philippine campaign—Japs: 3 large carriers, 3 light carriers, 1 escort carrier, 4 battleships, 14 cruisers, 32 destroyers, 11 submarines, total 68. U. S.: 1 light carrier, 3 escort carriers, 6 destroyers, 3 destroyer escorts, 1 high-speed transport, 7 submarines, total 21. U. S. lost 1 ship to a kamikaze (suicide) plane at Leyte and 5 in subsequent actions. Total airplane losses for Philippine campaign, October, 1944 through January, 1945: Japs (est.) 7,000, including 722 kamikaze; U. S.: 967, of which 736 were carrier-based.

IWO JIMA

While Gen. MacArthur's troops were crushing Jap resistance on Luzon, U. S. Marines invaded Iwo Jima Feb. 19, 1945, after weeks of intensive air bombing. This island, 5 mi. long, half-way between Marianas and Tokyo, had 2 airfields in operation, one in construction; was heavily fortified and had underground defenses unaffected by bombing. Expedition included 3rd, 4th, 5th Marine divisions, Lt. Gen. H. M. Smith; Joint Expeditionary force had 495 ships, 352 supporting aircraft under Vice Adm. R. K. Turner; Covering force had 7 old battleships, 4 heavy cruisers, 15 destroyers under Rear Adm. W. H. P. Blandy; Support Carrier group had 11 escort carriers; Fast Carrier force had 17 aircraft carriers, 8 battleships, 1 large cruiser, 3 heavy cruisers, 12 light cruisers, 77 destroyers; 1,170 planes. Commanding fast carriers was Vice Adm. M. A. Mitscher; Strategic air forces, Lt. Gen. M. F. Harmon. Troops numbered 111,308, of which 75,144 were assault, 36,164 garrison troops. Desperate Jap resistance made necessary step by step extermination by ground troops; as result U. S. lost 4,590 killed, 15,954 wounded, 301 missing; we also lost 1 escort carrier, 1 LCI, 168 airplanes; 30 ships had major damage. Japs lost 2 submarines, 4 lookout ships, 732 airplanes; 13,234 dead counted, 8,070 estimated buried by Japs or sealed in caves, total 21,304; 212 prisoners. This, "most vicious, hard-fought campaign," ended Mar. 16.

SURIBACHI FLAG-RAISING

Source: U. S. Marine Corps

The most famous photograph of World War II shows a group of Marines raising the United States flag on Mt. Suribachi, on the bloody field of Iwo Jima, Feb. 23, 1945. This photograph was made by Joe Rosenthal, Associated Press photog-

her. It became the official symbol for the 7th
r loan, was placed on a commemorative postage
mp, July, 1945, and was the subject of a bronze
tue unveiled by the U. S. Marine Corps in
nt of the Navy building in Washington, D. C.,
y. 1, 1945. A monument and flagstaff were
sed on Suribachi Oct. 2, 1945.

'his flag was the second flag raised on Suri-
hi, and the photograph was the second taken.
on the morning of Feb. 24 Lieut. Harold Schrier,
cutive officer of Co. E, was ordered to bring
platoon, 2nd battalion, 28th Marines, (5th
ision) to the north side of Suribachi. Here
ut. Col. Chandler Johnston, c.o. of the 2nd
talion, gave him a flag, 95x56 in., which had
n the ship's flag of the U. S. S. Missoula, a
nsport that carried the troops to Saipan. The
utant had carried the flag to Iwo Jima in his
p case. The Marines tied this flag to a pipe.
was raised on top of Suribachi by Lieut. Schrier,
. Ernest Ivy Thomas, Sgt. Henry Hansen,
p. Charles W. Lindberg and Pfc. James R.
chaels. Sgt. Lowery took pictures of the platoon
nbing the mountain, then asked them to wait
he changed films; he then photographed the
sing. This photograph is not the one widely
blicized.

bout three hours thereafter it was decided to
se a larger flag at a spot better visible to the
rines north of the mount. Six men went up,
owed by Joe Rosenthal, AP photographer. They
e Sgt. Michael Strank, Conemaugh, Pa.
lled); Corp. Harlan H. Block, Weslaco, Tex.
lled); Privates Franklin R. Sousley, Ewing,
(killed); Rene A. Gagnon, Manchester, N. H.;
H. Hayes, Bapchule, Ariz., and Pharmacist's
te John H. Bradley, USN, Appleton, Wis.
ounded). These are the men in the famous pho-
raph. Rosenthal also died later. At first one
ire was identified as that of Henry Hansen,
o had taken part in the first flag-raising. But
dence established it to be Harlan H. Block.
rection was made officially in April, 1947. In
y, 1945 Bradley, Gagnon and Hayes raised
s flag above the U. S. Capitol in Washington.
was then placed in the museum of the Marine
ps, at Quantico, Va.

OKINAWA

peration Iceberg—In Oct., 1944, Fleet Adm.
ester W. Nimitz made plans for the eventual
ture of Okinawa, in the Ryukyu group—60 mi.
g, 2 to 18 mi. wide, pop., 1940, 435,000. The
berts—Tarawa, Makin, Apamama—had been
ed in 1943; the Marshalls—Kwajalein, Majuro,
wetok—by Jan. 31, 1944; Wadke, New Guinea,
May, 1944; the Marianas—Saipan, Tinian,
m, (Operation Forager)—by summer, 1944.
k shipping (200,000 tons) was destroyed by
es. Iwo Jima had been invaded. Task Force
on June 19-20 fought the first battle of the
lippine Sea, sinking 3 Jap carriers and damag-
7 other ships, though losing 100 planes, 80
ause they ran out of fuel.

lane raids by Vice Adm. Marc A. Mitscher's
k Force of the 3rd Fleet began Oct. 10. Oki-
a and the Jap home island of Kyushu were
led Mar. 18-22, the U. S. losing use of the
ier Franklin with 1,000 of crew. Kerama, 15
west of Okinawa, was taken by the 77th Di-
on, 10th Army, Maj. Andrew D. Bruce, and
se Shima by the 420th Field Artillery, Mar.
9. Okinawa landings began at dawn on Easter
day, April 1, 1945, in 1,300 craft, with Task
ce 51, Vice Adm. E. K. Turner, giving artillery
port. Every action was covered by naval gun-
and by flares at night. Fighting in volcanic
e region was called the "blow torch and cork-
w method" by Lieut. Gen. Simon B. Buckner,
in C. of ground forces, meaning use of ar-
ed flame torches and explosives.

n a separate action the 77th Division captured
Shima, an island off Motobu peninsula, 5 mi.
, 2 mi. wide, April 16-21. U. S. lost only 172
ed, 46 missing, 902 wounded; Japs lost 4,706
d, 149 prisoners. On April 18 Ernie Pyle,
pps-Howard war correspondent, was instantly
ed by Jap machine-gun fire just outside the
n of Ie. He was buried there beside a monu-
nt reading: "At this spot the 77th Infantry
ision lost a buddy." In 1949 Pyle's body was
ed to the National cemetery in Hawaii.

fter 83 days of fighting the end was signalized
the formal suicide of the two Jap generals,
ijima and Cho. U. S. men engaged up to
e 30, 1945 reached 176,491 Army, 88,500 Marines,
18,000 Navy. Jap strength at start was 77,199.
U. S. losses were 49,151, of which 12,520 were
killed or missing, 36,631 wounded. Army reported
4,582 killed, 93 missing, 18,099 wounded. Marines
had 2,938 killed and missing, 13,708 wounded.
Navy reported 4,907 killed and missing, 4,824
wounded. Non-battle casualties Army, 15,613;
Navy, 10,598. The Japs lost 110,071 and 7,400 taken
prisoner.

U. S. lost 763 aircraft; Japs lost 7,830, of which
1,020 were destroyed on the ground. U. S. had 36
ships sunk, 369 damaged; Japs had 16 sunk, in-
cluding the 45,000-ton Yamato, 4 damaged. This
was the final battle of the war.

CROSSING THE RHINE

Lucky break for Allies occurred Mar. 7, 1945,
when the 9th Armored Div., 3rd Corps, First Army,
under Gen. Leonard reached Remagen on the
Rhine and discovered Ludendorff bridge intact.
Combat Command B, Brig. Gen. Wm. F. Hodges,
rushed bridge and prevented all but one minor
explosion of charges already laid. News was sent
to Gen. Omar N. Bradley, who telephoned Gen.
Eisenhower for instructions. Gen. Eisenhower or-
dered him to throw five divisions across Rhine.
German confusion aided advance; by Mar. 9 the
First Army had bridgehead 3 mi. inside east bank.
Gen. Collins, 7th corps, asked Col. Mason J.
Young what prize he asked for building Treadway
floating bridge in 12 hours; Young replied nothing
but a few cases of champagne for his engineers.
Floating bridge completed in 10 hrs., 11 min.:
Collins gladly paid up. (Eisenhower: Crusade in
Europe). Army ceased using Ludendorff bridge
fifth day; on Mar. 17 center span, weakened by
German attacks, fell, too late to help Germans.

HITLER-MUSSOLINI LAST HOURS

Adolf Hitler, arch instigator of World War II,
died early on April 30, 1945, in his underground
bunker at the Reichschancellory, Berlin, according
to British Intelligence. He was born at Branau-
on-the-Inn, Austria, April 20, 1889 and was 56.
He became chancellor 1933 and Fuehrer 1934. He
was wounded in an attempted assassination July
20, 1944, for which many leaders were executed.
On April 22 he declared the war lost. On April
29 he married his mistress, Eva Braun, in his
bunker. They bade farewell to their associates at
2:30 A. M. April 30, after which Hitler presumably
shot himself and Eva took poison. Their bodies,
soaked in gasoline, are reported to have been
burned outside the bunker during shelling by
Soviet artillery. Josef Goebbels and Martin Bor-
mann announced Hitler's death. Goebbels, his
wife and children, then took poison. Hitler's
testament, dated April 27, published by the British,
denounced Himmler and Goering for conspiracy,
promised revival of Naziism.

Benito Mussolini, for 20 years Duce of Italy, took
Italy into the war June 10, 1940, after France had
been defeated by Germany. (The "stab in the
back"). After repeated reverses he was voted out
of office July 25, 1943, and succeeded by Marshal
Pietro Badoglio, who imprisoned Mussolini in a
summer hotel on the Gran' Grosso, in the Pyre-
nees. Here Nazi paratroopers freed him in a dar-
ing coup. He formed the Republican Fascist
government in Milan Sept. 13, 1943. He executed
Count Ciano, Marshal de Bono and others. April
27, 1945, he left Como with his mistress, Clara
Petacci, and 16 supporters, in German army trucks
for the border and was stopped at Dongo, on
Lake Como, by partisans. He and his party were
shot the next day. Bodies of Mussolini and Clara
were dumped in the Piazza Loretto, Milan, then
strung up by the heels, later buried in potter's
field of Maggiore cemetery. His gold hoard was
confiscated by the partisans. He was born July
29, 1883 and was 61.

GERMAN SURRENDER

Gen. Eisenhower announced, May 4, 1945, the
surrender of "what is left of two German armies"
to the 102nd U. S. division, Maj. Gen. Frank
Keating; the surrender of all enemy troops in
northwest Germany, Holland, Frisian isles, Den-
mark and Heligoland to Field Marshal Sir Ber-
nard L. Montgomery, and of a panzer division to
Gen. Omar N. Bradley on the border of Czecho-
slovakia.

May 5 German Army Group C surrendered to
the 6th U. S. Army Group, Gen. Jacob L. Devers.

May 7, at 2:41 A. M. (May 6, 8:41 P. M. E. S. T.),
the act of unconditional surrender was signed in

Gen. Eisenhower's Reims' headquarters by Col. Gen. Gustav Jodl, chief of the Wehrmacht and chief of staff to Gen. Karl Doenitz, successor to Hitler as head of the state. It was witnessed by Lieut. Gen. Walter Bedell Smith, chief of staff; Gen. Ivan Susloparoff, head of the Soviet Mission in France, and Gen. F. Sevez of the French Army. Operations were to cease at 2301 hours (11:01 P. M.) Central European time, May 8 (6:01 P. M. E. S. T.); no vessel to be scuttled or damaged. Act was ratified May 8 by Russians. An unconditional surrender with the same terms was signed in Berlin May 8, 1201 A. M.

ATOMIC BOMBS; V-J DAY

First atomic bomb ever used in war dropped Aug. 6 on Hiroshima (pop. 343,969); dead 78,150, injured 37,425, missing 13,983. Two days later U. S. S. R. declared war on Japan, invaded Manchuria. Second bomb dropped on Nagasaki (pop. 252,630) Aug. 9; original report gave dead 23,753, injured 40,464, missing 1,927; on Sept. 10, 1949 the Nagasaki committee on atomic bombing declared 73,884 were killed there. President Truman warned Japan would be obliterated by atomic bombs unless she accepted Potsdam terms. Japan surrendered unconditionally Aug. 14, asking Allies for assurance Hirohito might remain on throne; Allies specified that he submit to Supreme Allied Commander and that his future status be determined by free election.

U. S. troops landed on Japan's home isla Aug. 27 when Stars and Stripes were raised c Atsugi airfield, Tokyo. Japan signed formal a cles of surrender on U. S. battleship Missouri Tokyo Bay, Sept. 2, Far Eastern time, which designated V-J Day. Gen. MacArthur presic Chief representatives of Japan were M. Shigen sou, foreign minister and Gen. Yoshijiro Um chief of the imperial general staff; Allied rep sentatives signed in turn; the exercises were bro cast to the world. Japan was reduced to h islands and demilitarized.

MILITARY MIGHT AND COSTS

Armed strength of the opposing democratic totalitarian forces at their peak was: Allies, 038,900; Axis, 21,874,500. The total military civilian dead, according to a report compiled several international agencies and made public the Vatican, were 22,060,000 and the woun 34,400,000.

The total military cost was estimated by offi sources in Washington and by American Univ sity, Washington, at $1,116,991,463,084 and pr erty damage at $230,900,000,000. The military to the principal belligerents was estimated: Uni States, $330,030,463,084; United Kingdom, $1 000,000,000; Soviet Union, $192,000,000,000; G many, $272,900,000,000; Italy, $94,000,000,0 Japan, $56,000,000,000.

Marshall Plan—Economic Cooperation Administration

Ten months after Secretary of State George C. Marshall, in a speech at Harvard University (June 5, 1947), announced the intention of the United States to make substantial financial contributions toward European recovery, Congress (April 2, 1948) passed the Foreign Assistance Act of 1948 which authorized $6,098,000,000 for economic and military aid for Europe and China.

The legislation was sponsored by President Truman who, in signing the measure (April 3), said: "This is the answer to the challenge facing the free world."

Congress had delayed action on foreign aid for two months, but moved swiftly following Communist seizure of power in Czechoslovakia.

President Truman immediately directed the Reconstruction Finance Corp. to make $1,000,000,000 available to institute the foreign aid program, and appointed (April 5) Paul G. Hoffman, president of the Studebaker Corp., a Republican, as Economic Cooperation Administrator with Cabinet rank.

Within nine hours after his confirmation by the Senate, Hoffman authorized $21,000,000 for relief for Italy, France, Greece, Austria and the Netherlands.

The Foreign Assistance Act authorized the following amounts:

European recovery for the first year of the four-year Marshall plan for 16 countries and Western Germany	$5,300,000,000
Non-military aid to China (12 months)	338,000,000
Military aid to China (12 months)	125,000,000
Military aid to Greece and Turkey (12 months)	275,000,000
United Nations International Children's Fund	60,000,000

For the second year, Congress on Sept. 29, 1949 voted a total of $5,809,990,000 for foreign economic assistance and $1,314,610,000 for military assistance to Greece, Turkey, the "general area" of China, South Korea and the Philippines.

In outlining the European Recovery Program in his Harvard speech, Secretary Marshall said: "Our policy," he said, "is not directed against any country or doctrine but against hunger, poverty, desperation and chaos. * * * It would be neither fitting nor efficacious for this Government to undertake to draw up unilaterally a program designed to place Europe on its feet economically. This is the business of the Europeans. The initiative, I think, must come from Europe. The role of this country should consist of friendly aid in the drafting of a European program and of later support of such a program so far as it may be practical for us to do so. The program should be a joint one, agreed to by a number, if not all, European nations."

As a condition of American cooperation, Secretary Marshall stipulated that the European nations would have to increase their industrial production and give other evidence of being ready to aid themselves instead of placing their reliance solely on American aid.

Secretary Marshall's proposal, popularly called the Marshall Plan but officially known as the European Recovery Program, produced spe results. British Foreign Secretary Bevin and Fre Foreign Minister Bidault, however, issued inv tions to all European nations, including Russia attend a conference in Paris to discuss a uni reconstruction program. The U.S.S.R. and eight satellites declined the invitations, but rep sentatives of 16 other nations were present w the conference opened (July 12, 1947).

The nations attending the conference were: G Britain, France, Austria, Belgium, Denma Greece, Eire (Ireland), Iceland, Italy, Luxemb Norway, the Netherlands, Portugal, Swed Switzerland and Turkey.

The meeting, called the Conference on Europ Economic Cooperation, appointed several co mittees to study and coordinate the needs of various regions of Europe, including West Germany.

The 16-nation conference adopted a report its final session (Sept. 22, 1948), which called fo total of $21,780,000,000 in credits and loans f 1948 through 1951.

The report also assumed that the Internatio (World) Bank for Reconstruction and Devel ment and private investors would extend ad tional credits totaling $3,130,000,000 during four-year period for the purchase of machin and other equipment to increase industrial p duction in the participating countries and We ern Germany and to offset an expected def of $660,000,000 in dependent countries, t reducing the total of credits from the Uni States and other American nations to $19,3 000,000.

The difficulties which beset the 16 nations the end of World War II, the report said, w due to six primary causes: Physical devastat and disruption in Western Europe; prolonged terruption of international trade; human str and exhaustion resulting from six years of war occupation; internal financial disequilibrium; shortage of food and raw materials from Sou east Asia, which were vital to European econo and the abnormal increase of population in cert areas resulting from a wartime movement peoples.

"The scale of destruction and disruption European economic life," the report contin "was far greater than that which Europe experienced in the First World War. Indust production in Belgium, France and the Neth lands was reduced to 30 to 40 percent of pre- and in Italy to only 20 percent; production of br grains fell to only two-thirds of pre-war; 300, freight cars had been destroyed but a total 2,800,000 freight cars were damaged. The dev tated countries had to start again almost fr the beginning."

The report pledged the 16 participating co tries to internal financial and economic stabili tion and "a wide range of actual and poten mutual help" among them.

But, the report said, "the task is so great t it cannot be brought to completion in less t four years. It will go forward in a series of sta the achievement of each of which will br Europe nearer the goal."

UNITED NATIONS

Structure of the United Nations

The foundations of the United Nations were laid the Dumbarton Oaks Conference in Washington ug. 21 to Oct. 7, 1944) by representatives of the ited States, United Kingdom, Union of Soviet cialist Republics and China. The proposals for ablishment of an organization of nations for e maintenance of world peace drafted at the con- rence led to the calling of the United Nations nference on International Organization at San ancisco where (April 25 to June 26, 1945) the arter of the United Nations was drawn. It s signed (June 26) by 50 nations. Poland, one the original 51 United Nations, signed later ct. 15, 1945). Four additional nations were mitted to membership in 1946, two in 1947, one 1948, and one in 1949, bringing the total mem- rship to 59.

The Charter pledges the signatories to maintain ternational peace and security, and to cooperate establishing political, economic and social con- ions favorable to the attainment of these ob- tives. It specifically precludes UN from inter- ning in the internal affairs of any nation. The Charter became effective (Oct. 24, 1945) hen the requisite number of 29 ratifications was ached by the U.S.S.R. depositing its intrument of tification. Secretary of State James F. Byrnes en signed the protocol formally proclaiming that e Charter had come into force.

The seat of the United Nations is the United ates with temporary headquarters in New York ty and Lake Success, N. Y.

*Fourth regular session.

OFFICERS AND COMMITTEES

President—Brig.-Gen. Carlos P. Romulo (Philippines.

Vice-Presidents—C. de Freitas-Valle, Brazil; Tingfu F. Tsiang, China; Robert Schuman, France; Sir Mohammad Zafrulla Khan, Pakistan; Andrei Y. Vyshinsky, U.S.S.R.; Ernest Bevin, United Kingdom; and Dean Acheson, United States.

Committee chairmen—First (Political and Security) Committee—L. B. Pearson, Canada; Second (Economic and Financial) Committee—Hernan Santa Cruz, Chile; Third (Social, Humanitarian and Cultural) Committee—Carlos E. Stolk, Venezuela; Fourth (Trusteeship) Committee—Hermod Lannung, Denmark; Fifth (Administrative and Budgetary) Committee—Alexis Kyrou, Greece; Sixth (Legal) Committee—Manfred Lachs, Poland; **Ad Hoc** Political Committee—Nashollah Entezam, Iran.

The General Assembly is composed of all of the members. Each member nation may send five delegates and five alternates to each of the meetings, but is entitled to only one vote.

Any matter within the scope of the Charter may be brought before the General Assembly for debate and action except issues and disputes already on the agenda of the Security Council. A simple majority of the members present and voting is required on ordinary issues, but on major issues a two-thirds majority is needed.

A general, or steering, committee coordinates the proceedings of the Assembly and its members. This committee is composed of 14 members—the President of the Assembly, the seven vice presidents and the six committee chairmen.

The Assembly opened its first session in London (Jan. 10, 1946) and, after recessing (Feb. 14), resumed its debates at Flushing Meadow, New York City (Oct. 23). After adjournment (Dec. 16), a special session was held at Flushing Meadow (April 28 to May 15, 1947) to consider the Palestine problem. The second regular session was held at Flushing Meadow (Sept. 16 to Nov. 29, 1947) and a second special session on Palestine convened there (April 16 to May 14, 1948). The first part of the third session was held in Paris from September 21 to December 12, 1948, and the second part at Flushing Meadow from April 5 to May 18, 1949. The fourth regular session opened at Flushing Meadow on September 20, 1949.

SECURITY COUNCIL

The Security Council is composed of 11 members, of whom five—the United States, United Kingdom, France, U.S.S.R. and China—are permanent and the other six are elected for two-year terms (except in 1946 when at the first meeting three non-permanent members were elected for only one year). Each member has only one vote, but each of the five permanent members has the right to veto any action by the majority. Retiring non-permanent members are not eligible for immediate re-election.

Permanent Members

United States, United Kingdom, France, China, Union of Soviet Socialist Republics.

Non-Permanent Members

Until 1950—Argentina, Canada, Ukraine.

Until 1951—Cuba, Egypt, Norway.

The Presidency of the Security Council is held in rotation for one month by each member in the English alphabetical order.

The Security Council is charged with the responsibility of maintaining peace and security. To enforce its mandates, it has the power to call on the armed forces and for other assistance of the member nations. It held its first session (Jan. 17 to Feb. 15, 1946) in London and then reconvened in New York City (March 25).

Developments at these and other meetings of UN organization are reported in Chronology, beginning on page 315. Also consult index.

Under the Council are the Military Staff Committee and the Commission on Atomic Energy which are to advise it on the control of armaments and atomic energy.

Military Staff Committee

China—Army, Major General Tai Chien; Air, Lt. Gen. Mow Pong-tsu; Navy, Commo. Kao Ju-fon.

France—Army, Lt. Gen. P. Billotte; Navy, Lt. J. C. Devin; Air, Maj. Jean Fournier.

U.S.S.R.—Army, Lt. Gen. A. Ph. Vasiliev; Air, Lt. Gen. A. R. Sharapov; Navy, Vice Adm. V. L. Bogdenko.

United Kingdom—Navy, Rear Adm. Lord Ashbourne; Army, Lt. Gen. Sir Richard L. McCreery; Air, Air Vice Marshal G. E. Gibbs.

United States—Army, Lt. Gen. W. D. Crittenberger; Navy, Vice Adm. Bernhard H. Bieri; Air, Lt. Gen. H. R. Harmon.

Atomic Energy Commission

Argentina, Dr. José Arce; **Belgium**, Fernand Van Langenhove; **Canada**, Gen. A. G. L. McNaughton; **China**, T. F. Tsiang; **Colombia**, Dr. Alfonso Lopez; **France**, Alexandre Parodi; **Syria**, Faris Bey el-Khouri; **United Kingdom**, Sir Alexander Cadogan; **United States**, Warren R. Austin; **U.S.S.R.** Andrei A. Gromyko.

ECONOMIC AND SOCIAL COUNCIL

President—James Thorne, New Zealand.

Vice Presidents—Vladimir V. Skorobogaty, Byelorussian S.S.R., Carlos Eduardo Stolk, Venezuela.

The Council is charged with carrying out, under the General Assembly, the functions of the United Nations in seeking to promote economic, social, cultural, educational, health and related conditions, and has under it the following commissions and committees:

Commission on Human Rights
Commission on Status of Women
Economic and Employment Commission
Social Commission
Transport and Communications Commission
Commission on Narcotic Drugs
Statistical Commission
Committee on Negotiations with Specialized Agencies
Committee on Arrangements for Consultation with Non-Governmental Agencies
Population Commission (originally to be called "Demographic Commission")
Fiscal Commission

The following 18 nations are members of the Council:

Until 1952—Belgium, Chile, China, France, India, Peru.

Until 1951—Australia, Brazil, Denmark, Poland, U. S. S. R., United Kingdom.

Until 1950—Lebanon, New Zealand, Turkey, United States, Venezuela, White Russia.

Under the Economic and Social Council are the following agencies:

UN Educational, Scientific and Cultural Organization whose mission it is to promote international intellectual cooperation through the free exchange of information and ideas on education, art and science.

Food and Agriculture Organization which is entrusted with the task of raising nutrition levels throughout the world.

International Labor Organization, a former League of Nations agency, which is charged with improving working conditions in all countries.

Provisional International Civil Aviation Organization whose function it is to unify international aviation procedures.

International Bank for Reconstruction and Development, whose resources will be used to help in the rebuilding of war-ravaged member nations and in the development of backward or impoverished nations.

World Health Organization which will coordinate the war against disease and also seek to raise the health standards of member nations.

International Refugee Organization which is designed to help relocate refugees and displaced persons.

TRUSTEESHIP COUNCIL

Under the Charter, a Trusteeship Council was set up by the General Assembly (Dec. 14, 1946) to safeguard the interests and welfare of non-self-governing peoples in territories held either under League of Nations mandates or detached from enemy countries after World War II or whose populations voluntarily wish to place themselves under the Council.

President—Roger Garreau, France.

Vice-President—Luis Padilla Nervo, Mexico.

Members

*Australia	**China
*Belgium	*France
***Iraq	**U.S.S.R.
***Mexico	*United Kingdom
*New Zealand	*United States
***Philippines	

*Administering trust territories; **Permanent members of the Security Council not administering trust territories; ***Elected by the Assembly to serve until Dec. 31, 1949.

INTERNATIONAL COURT OF JUSTICE

The International Court of Justice, successor to the League of Nations' Permanent Court of International Justice, will seek to settle disputes involving international treaties, questions of international law and violations of international obligations. Non-member nations may become a party to the statute with the consent of the General Assembly and Security Council.

The court is composed of 15 members elected jointly by the Security Council and General Assembly. At the first election (Feb. 6, 1946), five judges were chosen for a three-year-term, five for a six-year-term and five for a nine-year-term to permit the staggering of terms. The normal term is nine years.

The members of the Court are:

Nine-year-term—Jules Basdevant, France, President; Jose Gustavo Guerrero, El Salvador, Vice President; Dr. Alejandro Alvarez, Chile; Dr. John Philadelpho de Barroz Azevedo, Brazil; Sir Arnold Duncan McNair, United Kingdom.

Six-year-term—Isidro Fabela Alfaro, Mexico; Green Haywood Hackworth, United States; Judge Helge Klaestad, Norway; Prof. Sergey B. Krylov, U.S.S.R.; Charles de Visscher, Belgium.

Three-year-term—Dr. Abdel Hamid Badawi Pasha, Egypt; Dr. Hsu Mo, China; John Erskine Read, Canada; Dr. Bogdan Winiarski, Poland; Dr. Milovan Zoricic, Yugoslavia.

The Court held its first session (April 18, 1946) in The Hague which is its permanent seat.

SECRETARIAT

The Secretariat is composed of the Secretary-General and a large international staff of permanent officials. The Secretary-General acts in that capacity for the United Nations at large, including the General Assembly, the Security Council, the Economic and Social Council and the Trusteeship Council. It is within his right to bring any matter to the attention of any of these bodies. He is elected for a term of five years and may be reelected for a second term.

During its session in London the General Assembly (Feb. 1, 1946) elected Trygve Lie of Norway as its first Secretary-General. The following are the assistant secretary-generals in charge of various departments:

Department of Security Council Affairs—Constantin E. Zinchenko, U.S.S.R.

Department of Economic Affairs—David Owen, United Kingdom.

Department of Social Affairs—Henri Laugier, France.

Department of Trusteeship and Information from Non-Self-Governing Territories—Dr. Victor Hoo, China.

Department of Public Information—Benjamin Cohen, Chile.

Legal Department—Benjamin Cohen, Chile.

Department of Administrative and Financial Services—Byron Price, United States.

Department of Conference and General Services—Adrian Pelt, Netherlands.

The Secretariat's staff (Aug. 31, 1948) numbered 3,983, including 3,044 employed at Lake Success and in New York City, and 823 at the European office in Geneva, Switzerland.

UNITED NATIONS BUDGET

Secretary-General Trygve Lie proposed to the Assembly (Oct. 7, 1949) a 1950 budget totaling $37,225,012. Miscellaneous income in 1949 was estimated at $788,550, leaving an estimated net expenditure for the year of $32,681,037.

PERMANENT HEADQUARTERS

Ground for the $65,000,000 U.N. Permanent Headquarters on the east side of Manhattan in New York City was broken Sept. 14, 1948. President Truman and other dignitaries dedicated the 39-story Secretariat Building Oct. 24, 1949, and it was expected it would be ready for occupancy about the summer of 1950 and the Permanent Headquarters Building a year later.

UNITED NATIONS FLAG

A United Nations flag was adopted (Oct. 7, 1947) by the General Assembly at Flushing Meadow. The flag is light blue and emblazoned in white in its center is the United Nations symbol, a polar map of the world embraced in twin olive branches. It was flown for the first time at both Flushing Meadow and Lake Success (Oct. 21, 1947).

CHARTER OF THE UNITED NATIONS

e, the peoples of the United Nations
etermined to save succeeding generations from
scourge of war, which twice in our lifetime
brought untold sorrow to mankind, and
reaffirm faith in fundamental human rights,
he dignity and worth of the human person,
he equal right of men and women and of
ons large and small, and
establish conditions under which justice and
ect for the obligations arising from treaties
other sources of international law can be
ntained, and
promote social progress and better standards
ife in larger freedom, and for these ends
practice tolerance and live together in peace
one another as good neighbors, and
unite our strength to maintain international
e and security, and
insure, by the acceptance of principles and
nstitution of methods, that armed force shall
be used, save in the common interest, and
employ international machinery for the
otion of the economic and social advancement
ll people, have resolved to combine our efforts
ccomplish these aims.
ccordingly, our respective governments, through
esentatives assembled in the city of San Fran-
, who have exhibited their full powers found
e in good and due form, have agreed to the
ent Charter of the United Nations and do
by establish an international organization to
nown as the United Nations.

CHAPTER I
PURPOSES

ticle 1—The purposes of the United Nations

To maintain international peace and security,
to that end: to take effective collective meas-
for the prevention and removal of threats to
peace and for the suppression of acts of ag-
sion or other breaches of the peace, and to
g about by peaceful means, and in conformity
the principles of justice and international
adjustment or settlement of international
utes or situations which might lead to a breach
ne peace;
To develop friendly relations among nations
d on respect for the principle of equal rights
self-determination of peoples, and to take
r appropriate measures to strengthen universal
e;
To achieve international cooperation in solv-
international problems of an economic, social,
ural or humanitarian character, and in promot-
and encouraging respect for human rights and
he fundamental freedoms for all without dis-
ion as to race, sex, language or religion; and
To be a center for harmonizing the actions
ations in the attainment of these common

PRINCIPLES

ticle 2—The organization and its members, in
uit of the purposes stated in Article 1, shall
in accordance with the following principles:
The organization is based on the principle of
sovereign equality of all its members.
All members, in order to ensure to all of them
ights and benefits resulting from membership,
fulfill in good faith the obligations assumed
nem in accordance with the present charter.
All members shall settle their international
utes by peaceful means in such a manner that
national peace, and security, and justice, are
endangered.
All members shall refrain in their interna-
al relations from the threat or use of force
nst the territorial integrity or political inde-
ence of any member or state, or in any other
ner inconsistent with the purposes of the
ed Nations.
All members shall give the United Nations
y assistance in any action it takes in accord-
with the provisions of the present charter,
shall refrain from giving assistance to any
against which the United Nations is taking
ventive or enforcement action.
The organization shall ensure that states not
bers act in accordance with these principles
r as may be necessary for the maintenance
nternational peace and security.
Nothing contained in the present charter
authorize the United Nations to intervene
natters which are essentially within the do-
ic jurisdiction of any state or shall require
nembers to submit such matters to settlement
r the present charter; but this principle shall
prejudice the application of enforcement
sures under Chapter VII.

CHAPTER II
MEMBERSHIP

ticle 3—The original members of the United
ons shall be the states which, having par-
ated in the United Nations Conference on
rnational Organization at San Francisco, or
previously signed the declaration of the United Nations of Jan. 1, 1942, sign the present charter and ratify it in accordance with Article 110.

Article 4—1. Membership in the United Nations is open to all other peace-loving states which accept the obligations contained in the present charter and which, in the judgment of the organization, are able and willing to carry out these obligations.

2. The admission of any such state to membership in the United Nations will be effected by a decision of the General Assembly upon the recommendation of the Security Council.

Article 5—A member of the United Nations against which preventive or enforcement action has been taken by the Security Council may be suspended from the exercise of the rights and privileges of membership by the General Assembly upon the recommendation of the Security Council. The exercise of these rights and privileges may be restored by the Security Council.

Article 6—A member of the United Nations which has persistently violated the principles contained in the present charter may be expelled from the organization by the General Assembly upon the recommendation of the Security Council.

CHAPTER III
ORGANS

Article 7—1. There are established as the principal organs of the United Nations: A General Assembly, a Security Council, an Economic and Social Council, an International Court of Justice, a Trusteeship Council and a Secretariat.

2. Such subsidiary organs as may be found necessary may be established in accordance with the present charter.

Article 8—The United Nations shall place no restrictions on the eligibility of men and women to participate in any capacity and under conditions of equality in the principal and subsidiary organs.

CHAPTER IV
THE GENERAL ASSEMBLY
COMPOSITION

Article 9—The General Assembly shall consist of all the members of the United Nations.

Each member shall not have more than five representatives in the General Assembly.

FUNCTIONS AND POWERS

Article 10—The General Assembly may discuss any questions or any matters within the scope of the present Charter or relating to the powers and functions of any organs provided in the present Charter, and, except as provided in Article 12, may make recommendations to the members of the United Nations or to the Security Council, or both, on any such questions or matters.

Article 11—1. The General Assembly may consider the general principles of cooperation in the maintenance of international peace and security, including the principles governing disarmament and the regulations of armaments, and may make recommendations with regard to such principles to the members or to the Security Council or both.

2. The General Assembly may discuss any questions relating to the maintenance of international peace and security brought before it by any member of the United Nations, or by the Security Council, or by a State, which is not a member of the United Nations, in accordance with the provisions of Article 35, Paragraph 2, and, except as provided in Article 12, may make recommendations with regard to any such questions to the State or States concerned or to the Security Council, or both. A question on which action is necessary shall be referred to the Security Council by the General Assembly either before or after discussion.

3. The General Assembly may call the attention of the Security Council to situations which are likely to endanger international peace and security.

4. The powers of the General Assembly set out in this article shall not limit the general scope of Article 10.

Article 12—1. While the Security Council is exercising in respect of any dispute or situation the functions assigned to it in the present Charter, the General Assembly shall not make any recommendation with regard to that dispute or situation unless the Security Council so requests.

2. The Secretary General, with the consent of the Security Council, shall notify the General Assembly at each session of any matters relative to the maintenance of international peace and security which are being dealt with by the Security Council and shall similarly notify the General Assembly, or the members of the United Nations if the General Assembly is not in session, immediately the Security Council ceases to deal with such matters.

Article 13—1. The General Assembly shall initiate studies and make recommendations for the purpose of:

(a) Promoting international cooperation in the political field and encouraging the progressive development of international law and its codification;

(b) Promoting international cooperation in the economic, social, cultural, educational and health fields and assisting in the realization of human rights and basic freedoms for all without distinctions as to race, sex, language or religion.

2. The further responsibilities, functions and powers of the General Assembly with respect to matters mentioned in Paragraph (b) above are set forth in Chapter IX and X.

Article 14—Subject to the provisions of Article 12, the General Assembly may recommend measures for the peaceful adjustment of any situation, regardless of origin, which it deems likely to impair the general welfare or friendly relations among nations, including situations resulting from a violation of the provisions of the present Charter setting forth the purposes and principles of the United Nations.

Article 15—1. The General Assembly shall receive and consider annual and special reports from the Security Council; these reports shall include an account of the measures that the Security Council has adopted or applied to maintain international peace and security.

2. The General Assembly shall receive and consider reports from the other bodies of the organization.

Article 16—"The General Assembly shall perform such functions with respect to the international trusteeship system as are assigned to it under Chapters XII and XIII, including the approval of the trusteeship agreements for areas not designated as strategic."

Article 17—1. The General Assembly shall consider and approve the budget of the organization.

2. The General Assembly shall consider and approve any financial and budgetary arrangements with specialized agencies referred to in Article 57 and shall examine the administrative budgets of such specialized agencies with a view to making recommendations to the agencies concerned.

3. The expenses of the organization shall be borne by the members as apportioned by the General Assembly.

VOTING

Article 18—1. Each member of the United Nations shall have one vote in the General Assembly.

2. Decisions of the General Assembly on important questions shall be made by a two-thirds majority of those present and voting. These questions shall include: recommendations with respect to the maintenance of international peace and security, the election of the non-permanent members of the Security Council, the election of the members of the Economic and Social Council, the election of the members of the United Nations which are to designate the members on the Trusteeship Council in accordance with the provisions of Article 86 (C), the admission of new members to the United Nations, the expulsion of members, the suspension of the right and privileges of members, questions relating to the operations of the trusteeship system, and budgetary questions.

3. Decisions on other questions—including the determination of additional categories of questions to be decided by a two-thirds majority—shall be made by a majority of those present and voting.

Article 19—A member which is in arrears in the payments of its financial contributions to the organization shall have no vote if the amount of its arrears equals or exceeds the amount of the contributions due from it for the preceding two full years. The General Assembly may, nevertheless, permit such a member to vote if it is satisfied that the failure to pay is due to conditions beyond the control of the member.

PROCEDURE

Article 20—The General Assembly shall meet in regular annual sessions and in such special sessions as occasion may require. Special sessions shall be convoked by the Secretary General at the request of the Security Council or of a majority of the members of the United Nations.

Article 21—The General Assembly shall adopt its own rules of procedure. It shall elect its president for each session.

Article 22—The General Assembly may establish such subsidiary organs as it deems necessary for the performance of its functions.

CHAPTER V

THE SECURITY COUNCIL COMPOSITION

Article 23—1. The Security Council shall consist of eleven members of the United Nations. The United States of America, the United Kingdom of Great Britain and Northern Ireland, the Union of Soviet Socialist Republics, the Republic of China, and France, shall be permanent members of the Security Council. The General Assembly shall elect six other members of the United Nations to be non-permanent members of the Security Council, due regard being specially paid, in the first instance to the contribution of members of the United Nations to the maintenance of international peace and security and to the other purposes of the organization, and also to equitable geographical distribution.

2. The non-permanent members of the Security Council shall be elected for a term of two ye In the first election of the non-permanent m bers, however, three shall be chosen for a t of one year. A retiring member shall not eligible for immediate re-election.

3. Each member of the Security Council s have one representative.

PRIMARY RESPONSIBILITY

Article 24—1. In order to insure prompt effective action by the United Nations, its m bers confer on the Security Council primary sponsibility for the maintenance of internati peace and security, and agree that in carrying its duties under this responsibility the Secu Council acts on their behalf.

2. In discharging these duties the Security Co cil shall act in accordance with the purposes principles of the United Nations. The spe powers granted to the Security Council for the charge of these duties are laid down in Chap VI, VII, VIII and XII.

3. The Security Council shall submit ann and, when necessary, special reports to the G eral Assembly for its consideration.

Article 25—The members of the United Nat agree to accept and carry out the decisions of Security Council in accordance with the provis of the present charter.

Article 26—In order to promote the establishm and maintenance of international peace and se ity with the least diversion for armaments of world's human and economic resources, the Sea ity Council shall be responsible for formulat with the assistance of the Military Staff Com tee referred to in Article 47, plans to be submi to the members of the United Nations for establishment of a system for the regulation armaments.

VOTING

Article 27—1. Each member of the Secu Council shall have one vote.

2. Decisions of the Security Council on pr dural matters shall be made by an affirmative of seven members.

3. Decisions of the Security Council on all o matters shall be made by an affirmative vote seven members including the concurring votes the permanent members; provided that, in di sions under Chapter VI and under Paragrap of Article 52 a party to a dispute shall abs from voting.

PROCEDURE

2. The Security Council shall hold peri meetings at which each of its members may, i so desires, be represented by a member of Government or by some other specially designa representative.

3. The Security Council may hold meetings such places other than the seat of the organiza as in its judgment may best facilitate its work.

Article 29—The Security Council may estab such subsidiary organs as it deems necessary the performance of its functions.

Article 30—The Security Council shall adopt own rules of procedure, including the method selecting its president.

Article 31—Any member of the United Nati which is not a member of the Security Cou may participate without a vote in the discussion any question brought before the Security Cou whenever the latter considers that the interest that member are specially affected.

Article 32—Any member of the United Nati which is not a member of the Security Cou or any State not a member of the United Natio if it is a party to a dispute under considerat by the Security Council, shall be invited to p ticipate in the discussion relating to the disp The Security Council shall lay down such con tions as it may deem just for the participation a State which is not a member of the Uni Nations.

CHAPTER VI

PACIFIC SETTLEMENT OF DISPUTES

Article 33—1. The parties to any dispute, continuance of which is likely to endanger maintenance of international peace and securi shall, first of all, seek a solution by negotiati inquiry, mediation, conciliation, arbitration, ju cial settlement, resort to regional agencies or rangements, or other peaceful means of th own choice.

2. The Security Council shall, when it dee necessary, call upon the parties to settle th dispute by such means.

Article 34—The Security Council may investig any dispute, or any situation which might lead international friction or give rise to a dispu in order to determine whether its continuance likely to endanger the maintenance of internatio peace and security.

Article 35—1. Any member of the United Nati may bring any dispute or any situation of

cure referred to in Article 34 to the attention the Security Council, or of the General Assably.

. A state which is not a member of the United tions may bring to the attention of the Security uncil or of the General Assembly any dispute which it is a party, if it accepts in advance, for e purposes of the dispute, the obligations of cific settlement provided in the present charter.

. The proceedings of the General Assembly in spect of matters brought to its attention under s article will be subject to the provisions of ticles 11 and 12.

Article 36—1. The Security Council may, at any ge of a dispute of the nature referred to in ticle 33 or of a situation of like nature, recomnd appropriate procedures or methods of adtment.

2. The Security Council should take into conration any procedures for the settlement of the pute which have already been adopted by the rties.

3. In making recommendations under this article e Security Council should take into consideration at legal disputes should as a general rule be ferred by the parties to the International Court Justice in accordance with the provisions of e statute of the court.

Article 37—1. Should the parties to a dispute of e nature referred to in Article 33 fail to settle by the means indicated in that article, they shall er it to the Security Council.

2. If the Security Council deems that the conuance of the dispute is in fact likely to endanger e maintenance of international peace and securit shall decide whether to take action under ticle 36 or to recommend such terms of settlent as it may consider appropriate.

Article 38—Without prejudice to the provisions Articles 33-37 of this chapter, the Security uncil may, if all the parties to any dispute so quest, make recommendations to the parties with view to a peaceful settlement of the dispute.

CHAPTER VII

TION WITH RESPECT TO THREATS TO THE PEACE, BREACHES OF THE PEACE AND ACTS OF AGGRESSION.

Article 39—The Security Council shall determine e existence of any threat to the peace, breach the peace, or act of aggression and shall make commendations, or decide what measures shall be ken in accordance with the provisions of Articles and 42, to maintain or restore international ace and security.

Article 40—In order to prevent an aggravation the situation, the Security Council may, before aking the recommendations or deciding upon the easures provided for in Article 41, call upon the rties concerned to comply with such provisional easures as it deems necessary or desirable. Such ovisional measures shall be without prejudice the rights, claims, or position of the parties ncerned. The Security Council shall duly take count of failure to comply with such provisional easures.

Article 41—The Security Council may decide hat measures not involving the use of armed rce are to be employed to give effect to its deions, and it may call upon members of the nited Nations to apply such measures. These ay include complete or partial interruptions of nomic relations and of rail, sea, air, postal, teleaphic, radio, and other means of communicaon, and the severance of diplomatic relations.

Article 42—Should the Security Council conder that measures provided for in Article 41 ould be inadequate, or have proved to be inequate, it may take such action by air, sea or nd forces as may be necessary to maintain or store international peace and security. Such tion may include demonstrations, blockade, and her operations by air, sea or land forces of embers of the United Nations.

Article 43—1. All members of the United Naons, in order to contribute to the maintenance international peace and security, undertake to ake available to the Security Council, on its call nd in accordance with a special agreement or reements, armed forces, assistance, and facilities, cluding rights of passage, necessary for the rpose of maintaining international peace and curity.

2. Such agreement or agreements shall govern e numbers and types of forces, their degree of adiness and general location, and the nature of e facilities and assistance to be provided.

3. The agreement or agreements shall be negotied as soon as possible on the initiative of the curity Council. They shall be concluded between e Security Council and member states or between e Security Council and groups of member states nd shall be subject to ratification by the signatory ates in accordance with their constitutional ocesses.

Article 44—When the Security Council has deded to use force it shall, before calling upon a ember not represented on it to provide armed forces in fulfillment of the obligations assumed under Article 43, invite that member, if the member so desires, to participate in the decisions of the Security Council concerning the employment of contingents of that member's armed forces.

Article 45—In order to enable the United Nations to take urgent military measures, members shall hold immediately available national air force contingents for combined international enforcement action. The strength and degree of readiness of these contingents and plans for their combined action shall be determined, within the limits laid down in the special agreement or agreements referred to in Article 43, by the Security Council with the assistance of the Military Staff Committee.

Article 46—Plans for the application of armed force shall be made by the Security Council with the assistance of the Military Staff Committee.

Article 47—1. There shall be established a Military Staff Committee to advise and assist the Security Council on all questions relating to the Security Council's military requirements for the maintenance of international peace and security, the employment and command of forces placed at its disposal, the regulation of armaments, and possible disarmament.

2. The Military Staff Committees shall consist of the Chiefs of Staff of the permanent members of the Security Council or their representatives. Any member of the United Nations not permanently represented on the committee shall be invited by the committee to be associated with it when the efficient discharge of the committee's responsibilities requires the participation of that member in its work.

3. The Military Staff Committee shall be responsible, under the Security Council, for the strategic direction of any armed forces placed at the disposal of the Security Council. Questions relating to the command of such forces shall be worked out subsequently.

4. The Military Staff Committee, with the authorization of the Security Council and after consultation with appropriate regional agencies, may establish regional subcommittees.

Article 48—1. The action required to carry out the decisions of the Security Council for the maintenance of international peace and security shall be taken by all the members of the United Nations, or by some of them, as the Security Council may determine.

2. Such decisions shall be carried out by the members of the United Nations directly and through their action in the appropriate international agencies of which they are members.

Article 49—The members of the United Nations shall join in affording mutual assistance in carrying out the measures decided upon by the Security Council.

Article 50—If preventive or enforcement measures against any state are taken by the Security Council, any other state, whether a member of the United Nations or not, which finds itself confronted with special economic problems arising from the carrying out of those measures shall have the right to consult the Security Council with regard to a solution of those problems.

Article 51—Nothing in the present charter shall impair the inherent right of individual or collective self-defense, if an armed attack occurs against a member of the organization, until the Security Council has taken the measures necessary to maintain international peace and security. Measures taken by members in the exercise of this right of self-defense shall be immediately reported to the Security Council and shall not in any way affect the authority and responsibility of the Security Council under the present charter to take at any time such action as it may deem necessary in order to maintain or restore international peace and security.

CHAPTER VIII

REGIONAL ARRANGEMENTS

Article 52—1. Nothing in the present Charter precludes the existence of regional arrangements or agencies for dealing with such matters relating to the maintenance of international peace and security as are appropriate for regional action, provided that such arrangements or agencies and their activities are consistent with the purposes and principles of the organization.

2. The members of the United Nations entering into such arrangements or constituting such agencies shall make every effort to achieve peaceful settlement of local disputes through such regional arrangements or by such regional agencies before referring them to the Security Council.

3. The Security Council should encourage the development of peaceful settlement of local disputes through such regional arrangements or by such regional agencies either on the initiative of the states concerned or by reference from the Security Council.

4. This article in no way impairs the application of Articles 34 and 35.

Article 53—1. The Security Council shall, where appropriate, utilize such arrangements or agencies

for enforcement action under its authority. But no enforcement action shall be taken under regional arrangement or by regional agencies without the authorization of the Security Council, with the exception of measures against any enemy state, as described below, provided for pursuant to Article 107, or in regional arrangements directed against renewal of aggressive policy on the part of any such state, until such time as the organization may, on request of the governments concerned, be charged with the responsibility for preventing further aggression by such a state.

2. The term "enemy state" as used in Paragraph 1 of this article applies to any state which during the second World War has been an enemy of any signatory of the present charter.

Article 54—The Security Council shall at all times be kept fully informed of activities undertaken, or in contemplation, under regional arrangements or by regional agencies for the maintenance of international peace and security.

CHAPTER IX
INTERNATIONAL ECONOMIC AND SOCIAL COOPERATION

Article 55—With a view to the creation of conditions of stability and well-being which are necessary for peaceful and friendly relations among nations based on respect for the principle of equal rights and self-determination of people, the United Nations shall promote:

(a) Higher standards of living, full employment, and conditions of economic and social progress and development;

(b) Solutions of international economic, social, health, and related problems and international cultural and educational cooperation and

(c) Universal respect for, and observance of, human rights and fundamental freedoms for all without distinction as to race, sex, language, or religion.

Article 56—All members pledge themselves to take joint and separate action in cooperation with the organization for the achievement of the purposes set forth in Article 55.

Article 57—1. The various specialized agencies established by inter-governmental agreement, and having wide international responsibilities as defined in their basic instruments in economic, social, cultural, educational, health and related fields, shall be brought into relationship with the United Nations in accordance with the provisions of Article 63.

2. Specialized agencies thus brought into relationship with the organization are hereinafter referred to as "the specialized agencies."

Article 58—The organization shall make recommendations for the coordination of the policies and activities of the specialized agencies.

Article 59—The organization shall, where appropriate, initiate negotiations among the States concerned for the creation of any new specialized agency required for the accomplishment of the purposes set forth in Article 55.

Article 60—Responsibility for the discharge of the organizations functions set forth in this chapter shall be vested in the General Assembly and, under the authority of the General Assembly, in the Economic and Social Council, which shall have for this purpose the powers set forth in Chapter X.

CHAPTER X
ECONOMIC AND SOCIAL COUNCIL
COMPOSITION

Article 61—1. The Economic and Social Council shall consist of eighteen members of the United Nations elected by the General Assembly.

2. Subject to the provisions of Paragraph 3, six members of the Economic and Social Council shall be elected each year for a term of three years. A retiring member shall be eligible for immediate re-election.

3. At the first election, eighteen members of the Economic and Social Council shall be chosen. The term of office of six members so chosen shall expire at the end of one year, and of six other members at the end of two years, in accordance with arrangements made by the General Assembly.

4. Each member of the Economic and Social Council shall have one representative.

FUNCTIONS AND POWERS

Article 62—1. The Economic and Social Council may make or initiate studies and reports with respect to international economic, social, cultural, educational, health, and related matters and may make recommendations with respect to any such matters to the General Assembly, to the members of the United Nations, and to the specialized agencies concerned.

2. It may make recommendations for the purpose of promoting respect for, and observance of, human rights and fundamental freedoms for all.

3. It may prepare draft conventions for submission to the General Assembly, with respect to matters falling within its competence.

4. It may call, in accordance with the rules prescribed by the United Nations, international conferences on matters falling within its competence.

Article 63—1. The Economic and Social Cou may enter into an agreement, approved by General Assembly, with any of the agencies ferred to in Article 57, defining the terms which the agency concerned shall be brought relationship with the United Nations.

2. It may coordinate the activities of the cialized agencies through consultation with recommendations to such agencies and thro recommendations to the General Assembly an the members of the United Nations.

Article 64—1. The Economic and Social Cou is authorized to take appropriate steps to ob regular reports from the specialized agencies may make arrangements with the members of United Nations and with the specialized ager to obtain reports on the steps taken to give e to its own recommendations and falling within competence which are made by the General sembly.

2. It may communicate its observance on t reports to the General Assembly.

Article 65—The Economic and Social Cou may furnish information to the Security Cou and shall assist the Security Council upon request.

Article 66—1. The Economic and Social Cou shall perform such functions as fall within competence in connection with the carrying of the recommendations of the General Assem

2. It may, with the approval of the Gen Assembly, perform services at the request of members of the United Nations and at the quest of the specialized agencies.

3. It may perform such other functions as specified elsewhere in the present Charter such functions as may be assigned to it by General Assembly.

VOTING

Article 67—1. Each member of the Economic Social Council shall have one vote.

2. Decisions of the Economic and Social Cou shall be taken by a majority of the mem present and voting.

PROCEDURE

Article 68—The Economic and Social Cou shall set up commissions in economic and so fields and for the promotion of human rig and such other commissions as may be requ for the performance of its functions.

Article 69—The Economic and Social Cou shall invite any member of the United Nations participate, without vote, in its deliberations any matter of particular concern to that mem

Article 70—The Economic and Social Cou may make arrangements for representatives of specialized agencies to participate, without vote its deliberations and in those of the commissi established by it, and for its representatives participate in the deliberations of the specializ agencies.

Article 71—The Economic and Social Cou may make suitable arrangements for consulta with non-governmental organizations which concerned with matters within its competen Such arrangements may be made with inter national organizations, and, where appropriate, w national organizations after consultation with member of the United Nations concerned.

Article 72—1. The Economic and Social Cou shall adopt its own rules of procedure, includ the method of selecting its president.

2. The Economic and Social Council shall m as required in accordance with its rules, wh shall include provision for the convening of me ings on request of a majority of its members.

CHAPTER XI
DECLARATION REGARDING NON-SELF-GOVERNING TERRITORIES

Article 73—Members of the United Nations wh have or assume responsibilities for the admin tration of territories whose peoples have not attained a full measure of self-government rec nize the principle that the interests of the inha tants of these territories are paramount, and acc as a sacred trust the obligation to promote to utmost, within the system of international pe and security established by the present charter, well-being of the inhabitants of these territor and, to this end:

(a) To insure, with due respect for the cult of the peoples concerned, their political, econo social, and educational advancement, their j treatment, and their protection against abuses;

(b) To develop self-government, to take account of the political aspirations of the peop and to assist them in the progressive developm of their free political institutions, according to particular circumstances of each territory and peoples and their varying stages of advanceme

(c) To further international peace and securi

(d) To promote constructive measures of devel ment, to encourage research, and to cooper with one another and with appropriate inter tional bodies with a view to the practical achie ment of the social, economic, and scientific p poses set forth in this paragraph; and

) To transmit regularly to the secretary gen- for information purposes, subject to such tation as security and constitutional considera- s may require, statistical and other information technical nature relating to economic, social, educational conditions in the territories for h they are respectively responsible other than e territories to which Chapters XII and XIII y.

rticle 74—Members of the United Nations agree their policy in respect to the territories, to h this chapter applies, no less than in respect heir metropolitan areas, must be based on the ral principle of good-neighborliness, due ac- t being taken of the interests and well-being he rest of the world, in social, economic and mercial matters.

CHAPTER XII
NTERNATIONAL TRUSTEESHIP SYSTEM

rticle 75—The United Nations shall establish er its authority an international trusteeship em for the administration and supervision of territories as may be placed thereunder by equent individual agreements. These terri- es are hereafter referred to as trust territories.

rticle 76—The basic objectives of the trustee- system in accordance with the purposes of the ed Nations laid down in Article 1 of the present rter, shall be:

) To further international peace and security;

) To promote the political, economic, social educational advancement of the inhabitants he trust territories, and their progressive de- pment toward self-government or independence nay be appropriate to the particular circum- ces of each territory and its peoples and the ly expressed wishes of the peoples concerned, as may be provided by the terms of each teeship agreement;

) To encourage respect for human rights and fundamental freedoms for all without distinc- as to race, sex, language or religion, and to ourage recognition of the interdependence of peoples of the world; and

) To insure equal treatment in social, econo- and commercial matters for all members of United Nations and their nationals, and also l treatment for the latter in the administra- of justice, without prejudice to the attainment he foregoing objectives, and subject to the pro- ns of Article 80.

rticle 77—1. The trusteeship system shall apply uch territories in the following categories as be placed thereunder by means of trusteeship ements:

) Territories now held under mandate;

) Territories which may be detached from ene- states as a result of the second World War;

) Territories voluntarily placed under the em by states responsible for their administra-

It will be a matter for subsequent agreement o which territories in the foregoing categories be brought under the trusteeship system and o what terms.

rticle 78—The trusteeship system shall not ap- to territories which have become members of United Nations, relationship among which ld be based on respect for the principle of reign equality.

rticle 79—The terms of trusteeship for each ter- ry to be placed under the trusteeship system, uding any alteration or amendment, shall be ed upon by the states directly concerned in- ing the mandatory power in the case of terri- es held under mandate by a member of the ted Nations, and shall be approved as provided in Articles 83 and 85.

rticle 80—1. Except as may be agreed upon in vidual trusteeship agreements made in accor- ce with the provisions of this chapter, placing h territory under the trusteeship system, and l such agreements have been concluded, noth- in this chapter shall be construed in or of f to alter in any manner the rights whatso- of any states or any peoples or the terms existing international instruments to which bers of the United Nations may respectively parties.

Paragraph 1 of this article shall not be inter- ed as giving grounds for delay or postponement he negotiation and conclusion of such agree- ts for placing mandated and other territories er the trusteeship system as provided for in cle 77.

rticle 81—The trusteeship agreement shall in h case include the terms under which the t territory will be administered and designate authority which shall exercise the administra- of the trust territory. Such authority, here- r called the administering authority, may be or more states of the United Nations itself.

rticle 82—There may be designated, in any teeship agreement, a strategic area or areas ch may include part or all of the trust terri- to which the agreement applies, without preju- dice to any special agreement or agreements made under Article 43.

Article 83—1. All functions of the United Nations relating to strategic areas, including the approval of the terms of the trusteeship agreements and of their alteration or amendment, shall be exercised by the Security Council.

2. The basic objectives set forth in Article 76 shall be applicable to the people of each strategic area.

3. The Security Council shall, subject to the provisions of the trusteeship agreements and without prejudice to security considerations, avail itself of the assistance of the Trusteeship Council to perform those functions of the United Nations under the trusteeship system relating to political, economic, social and educational matters in the strategic areas.

Article 84—It shall be the duty of the administering authority to insure that the trust territory shall play its part in the maintenance of international peace and security. To this end the administering authority may make use of volunteer forces, facilities, and assistance from the trust territory in carrying out the obligations toward the Security Council undertaken in this regard by the administering authority, as well as for local defense and the maintenance of law and order within the trust territory.

Article 85—1. The functions of the United Nations with regard to trusteeship agreements for all areas not designated as strategic, including the approval of the terms of the trusteeship agreements and of their alteration or amendment, shall be exercised by the General Assembly.

2. The trusteeship Council, operating under the authority of the General Assembly, shall assist the General Assembly in carrying out these functions.

CHAPTER XIII
THE TRUSTEESHIP COUNCIL COMPOSITION

Article 86—1. The Trusteeship Council shall consist of the following members of the United Nations:

(a) Those members administering trust territories;

(b) Such of those members mentioned by name in Article 23 as are not administering trust territories; and

(c) As many other members elected for three-year terms by the General Assembly as may be necessary to insure that the total number of members of the Trusteeship Council is equally divided between those members of the United Nations which administer trust territories and those which do not.

2. Each member of the Trusteeship Council shall designate one specially qualified person to represent it therein.

FUNCTIONS AND POWERS

Article 87—The General Assembly and, under its authority, the Trusteeship Council, in carrying out their functions, may:

(a) Consider reports submitted by the administering authority;

(b) Accept petitions and examine them in consultation with the administering authority;

(c) Provide for periodic visits to the respective trust territories at times agreed upon within the administering authority; and

(d) Take these and other actions in conformity with the terms of the trusteeship agreements.

Article 88—The Trusteeship Council shall formulate a questionnaire on the political, economic, social and educational advancement of the inhabitants of each trust territory, and the administering authority for each trust territory within the competence of the General Assembly shall make an annual report to the General Assembly upon the basis of such questionnaire.

VOTING

Article 89—1. Each member of the Trusteeship Council shall have one vote.

2. Decisions of the Trusteeship Council shall be taken by a majority of the members present and voting.

PROCEDURE

Article 90—1. The Trusteeship Council shall adopt its own rules of procedure, including the method of selecting its president.

2. The Trusteeship Council shall meet as required in accordance with its rules, which shall include provisions for the convening of meetings on the request of a majority of its members.

Article 91—The Trusteeship Council shall, when appropriate, avail itself of the assistance of the Economic and Social Council and of the specialized agencies in regard to matters with which they are respectively concerned.

CHAPTER XIV
THE INTERNATIONAL COURT OF JUSTICE

Article 92—The International Court of Justice shall be the principal judicial organ of the United Nations. It shall function in accordance with the annexed statute, which is based upon the statute of the Permanent Court of International Justice

and forms an integral part of the present chapter.

Article 93—1. All members of the United Nations are ipso facto parties to the statute of the International Court of Justice.

2. A State which is not a member of the United Nations may become a party to the statute of the International Court of Justice on conditions to be determined in each case by the General Assembly upon recommendation of the Security Council.

Article 94—1. Each member of the United Nations undertakes to comply with the decision of the International Court of Justice in any case to which it is a party.

2. If any party to a case fails to perform the obligations incumbent upon it under a judgment rendered by the court, the other party may have recourse to the Security Council, which may, if it deems necessary, make recommendations or decide upon measures to be taken to give effect to the judgment.

Article 95—Nothing in the present Charter shall prevent members of the United Nations from entrusting the solution of their differences to other tribunals by virtue of agreements already in existence or which may be concluded in the future.

Article 96—1. The General Assembly or the Security Council may request the International Court of Justice to give an advisory opinion on any legal question.

2. Other organs of the United Nations and specialized agencies which may at any time be so authorized by the General Assembly, may also request advisory opinions of the court on legal questions arising within the scope of their activities.

CHAPTER XV
THE SECRETARIAT

Article 97—There shall be a secretariat comprising a secretary general and such staff as the organization may require. The secretary general shall be appointed by the General Assembly on the recommendation of the Security Council. He shall be the chief administrative officer of the organization.

Article 98—The secretary general shall act in that capacity in all meetings of the General Assembly, of the Security Council, of the Economic and Social Council and of the Trusteeship Council, and shall perform such other functions as are entrusted to him by these organs. The secretary general shall make an annual report to the General Assembly on the work of the organization.

Article 99—The secretary general may bring to the attention of the Security Council any matter which in his opinion may threaten the maintenance of international peace and security.

Article 100—1. In the performance of their duties the secretary general and the staff shall not seek or receive instructions from any Government or from any other authority external to the organization. They shall refrain from any action which might reflect on their position as international officials responsible only to the organization.

2. Each member of the United Nations undertakes to respect the exclusively international character of the responsibilities of the secretary general and the staff, and not to seek to influence them in the discharge of their responsibilities.

Article 101—1. The staff shall be appointed by the secretary general under regulations established by the General Assembly.

2. Appropriate staffs shall be permanently assigned to the Economic and Social Council, the Trusteeship Council, and, as required, to other organs of the United Nations. These staffs shall form a part of the Secretariat.

3. The paramount consideration in the employment of the staff and in the determination of the conditions of service shall be the necessity of securing the highest standards of efficiency, competence and integrity. Due regard shall be paid to the importance of recruiting the staff on as wide a geographical basis as possible.

CHAPTER XVI
MISCELLANEOUS PROVISIONS

Article 102—1. Every treaty and every international agreement entered into by any member of the United Nations after the present charter comes into force shall as soon as possible be registered with the Secretariat and published by it.

2. No party to any such treaty or international agreement which has not been registered in accordance with the provisions of Paragraph 1 of this article may invoke that treaty or agreement before any organ of the United Nations.

Article 103—In the event of a conflict between the obligations of the members of the United Nations under the present charter and any other international obligations to which they are subject, their obligations under the present charter shall prevail.

Article 104—The organization shall enjoy in the territory of each of its members such legal capacity as may be necessary for the exercise of its functions and the fulfillment of its purposes.

Article 105—1. The organization shall enjoy in the territory of each of its members s privileges and immunities as are necessary for fulfillment of its purposes.

2. Representatives of the members of the Uni Nations and officials of the organization sh similarly enjoy such privileges and immunities are necessary for the independent exercise their functions in connection with the organi tion.

3. The General Assembly may make reco mendations with a view to determining the det of the application of Paragraphs 1 and 2 of t article or may propose conventions to the me bers of the United Nations for this purpose.

CHAPTER XVII
TRANSITIONAL SECURITY ARRANGEMEN

Article 106—Pending the coming into force such special agreements referred to in Article as in the opinion of the Security Council ena it to begin the exercise of its responsibilities un Article 42, the parties to the four-nation decla tion signed at Moscow, Oct. 30, 1943, and Fran shall, in accordance with the provisions of Pa graph 5 of that declaration, consult with another and, as occasion requires, with ot members of the organization with a view to s joint action on behalf of the organization as n be necessary for the purpose of maintaining in national peace and security.

Article 107—Nothing in the present charter sh invalidate or preclude action in relation to state which during the second World War been an enemy of any signatory to the pres charter, taken or authorized as a result of that by the governments having responsibility for s action.

CHAPTER XVIII
AMENDMENTS

Article 108—Amendments to the present char shall come into force for all members of the ganization when they have been adopted by vote of two-thirds of the members of the Gene Assembly and ratified in accordance with th respective constitutional processes by two-thi of the members of the United Nations, includi all the permanent members of the Security Coun

Article 109—1. A general conference of members of the United Nations for the purp of reviewing the present charter may be h at a date and place to be fixed by a two-thi vote of the General Assembly and by a vote of seven members of the Security Council. Each me ber of the United Nations shall have one vote in conference.

2. Any alternation of the present charter reco mended by a two-thirds vote of the confere shall take effect when ratified in accordance w their respective constitutional processes by t thirds of the members of the United Nations cluding all the permanent members of the curity Council.

3. If such a conference has not been held befi the tenth annual session of the General Assem following the coming into force of the pres charter the proposal to call such a confere shall be placed on the agenda of that sess of the General Assembly, and the conference sh be held if so decided by a majority vote of members of the General Assembly and by a v of any seven members of the Security Council.

CHAPTER XIX
RATIFICATION AND SIGNATURE

Article 110—1. The present charter shall ratified by the signatory states in accordance w their respective constitutional processes.

2. The ratifications shall be deposited with Government of the United States of Ameri which shall notify all the signatory states of ea deposit as well as the secretary general of organization when he has been elected.

3. The present charter shall come into fo upon the deposit of ratifications by the Repub of China, France, the Union of Soviet Socialist R publics, the United Kingdom of Great Britain a Northern Ireland, and the United States of Am ica, and by a majority of the other signato states.

4. The states signatory to the present char which ratify it after it has come into force v become original members of the United Natio on the date of the deposit of their respecti ratifications.

Article 111—The present charter, of which t Chinese, English, French, Russian and Spani texts are equally authentic, shall remain deposit in the archives of the Government of the Unit States of America. Duly certified copies ther shall be transmitted by that Government to t Governments of the other signatory states.

In faith whereof the representatives of t United Nations have signed the present chart

Done in the city of San Francisco the twen sixth day of June, one thousand nine hundred a forty-five.

Frequency Modulation—FM

Source: Tele-Tech (Caldwell-Clements, Inc., New York)

requency modulation" (FM), an improved m of broadcasting now being introduced, has s outstanding advantages (1) the elimination ractically all static and interference, both al and from man-made sources; (2) absence ckground noise, attaining complete silence of et itself, and (3) high fidelity of tone, since requency bands assigned to this service are than allotted the AM band, permitting a range of audio frequency response. High- and overtones in musical selections and voice be reproduced making for great fidelity and alness.

e reduction of interference is partly a property e radio frequencies used (allocation, 88 to 108 cycles or millions of cycles per second) and y due to circuit arrangements (notably that r. E. H. Armstrong) which eliminate all re- ing traces of interference.

In FM the sound waves are reproduced by momentary changes or modulation of the frequency of the radio carrier wave. This is in contrast to the ordinary standard broadcasting (amplitude modulation or AM) in which the amplitude or volume of the radio carrier wave is continuously being modulated. If broadcasting is to be compared to a light blinker message system in which dots and dashes of light are to be sent, AM can be compared to switching the light on and off to produce the signals, while FM would have as its analogy the changing of the color (or frequency) of the light, the brightness of which remains uniform.

About 750 FM stations operate in the United States, and applications have been filed with the FCC for nearly 450 others, a total of about 1,200. The system has many applications in the non-broadcasting services of radio communication where the above features are also of value.

Broadcast Authorizations by States and Cities

Source: Federal Communications Commission

abulation of more than 3,000 AM, FM and oadcast authorizations as of July 1, 1949 that Texas has more such grants collectively any other state. However, its 223 is only 3 han California. Pennsylvania has 186, New 71 and North Carolina 132. Other states hav- re than a hundred broadcast authorizations nois, Illinois, Florida and Georgia.

as also leads in the Number of authorized tations—178; followed by California's 147 ennsylvania's 108. The most FM authoriza- are in Pennsylvania, 71, New York, 64, Cal- , 62, Ohio, 53, and Illinois, 50. New York, and California top the TV list with 14, 12 respectively.

states have AM stations, but five states, a, Montana, New Mexico, Vermont and ing, have no FM authorizations, and 14 are without TV grants. Puerto Rico's 26 izations are more than any of 15 states. irgin Islands is the only possession without adcast facility.

ago leads cities with 34 authorizations. New is a close second with 32, followed by Los es, 29, Philadelphia, 23, New Orleans, 21, ngton with 20, and San Francisco with 19. he AM and FM lists are headed by Chicago lew York, in that order, but Los Angeles all other cities in the number of TV grants. e than 1,300 cities and towns have broad-cast authoizations of one type or another. Texas leads with 112, followed by 76 municipalities in California, 62 in Pennsylvania, 60 in North Carolina and 50 in New York.

REPORT FOR 1948

The Federal Communications Commission began 1949 with more than 677,000 radio authorizations outstanding, an increase of nearly 69,000 during 1948.

Authorized stations in the various radio services rose to a total of about 140,000, a gain of 15,000 during 1948. Broadcast authorizations topped 4,000 and nonbroadcast station grants exceeded 135,000, not counting associated mobile units.

In the broadcast field there was a gain of 165 AM and 51 TV authorizations, while FM authorizations decreased 44. Noncommercial educational grants increased by 10, and the new facsimile service started off with two authorizations.

The nonbroadcast services gained nearly 5,000 aeronautical, 4,000 marine, 1,600 industrial and 1,000 land transportation authorizations. Radio operators increased by more than 53,000 to a total of over 537,000. There were more than 76,000 amateur operators and 77,000 stations.

More than 106,000 radio applications of various kinds (exclusive of operators) were received during the twelve-month period—over 7,300 broadcast and 98,000 nonbroadcasts.

Television Stations on the Air as 1949 Closed

(As of November 1, 1949)

AVIATION

Domestic and International Aviation Operations

Source: Air Transport Association of America

The domestic and international scheduled airlines showed gains during the first half of 1949 as compared with 1948, and based on figures for the first six months of the year, it appeared that the scheduled domestic trunk lines would reach a total of 6,500,000,000 passenger miles, approximately 500,000,000 more than they flew in the record year of 1947.

Assuming that the traffic during the last six months of 1949 would remain substantially above that of the last six months of 1948, it was pr that the airmail ton miles for the trunk li 1949 would be approximately 42,000,000, o over 1948; air express ton miles would tota 500,000, about 15% under 1948; and the freight ton miles would reach 96,000,000, 33% above 1948.

The following table shows a comparison trunkline traffic for the first six months o and the same period in 1948. The data is on statistics actually reported by the airlin

Six Months Traffic—1949 vs. 1948

Domestic trunk	6 mos., 1949	6 mos., 1948	Pct. chang
Revenue passenger-miles	3,175,400,000	2,751,892,000	+15.4%
Mail ton-miles	20,239,363	17,010,576	+19.0%
Express ton-miles	12,135,918	14,498,903	−16.3%
Freight ton-miles	43,065,968	30,315,413	+42.1%
Revenue ton-miles	385,761,155	330,328,267	+16.8%

The total volume and revenue of air parcel post, which was one year old on Sept. 1, 1949, was almost double the estimates made when the service started.

Post Office officials reported that during the first 12 months of parcel post, the airlines carried nearly 7,000,000 parcels, weighing 14,000,000 pounds and producing about $9,000,000 revenue for the Post Office Department. Previous estimates had placed the probable volume at 4,700,000 parcels.

Air parcel post volume, while representing less than 1% of the total mail carried by the post office, will account for 11% of the domestic air mail revenue.

Many Improvements Made

In 1948 the scheduled airlines made great improvements in operation due to programs developed by the Air Transport Assn., the military and the Civil Aeronautics Administration. These programs include the installation of the Instrument Landing System, the Ground Controlled Approach System, high-intensity approach lighting, very high frequency radio communications, and other modern navigational devices. Delays and cancellations due to air traffic congestion were substantially reduced. Following are examples of this improvement at LaGuardia Airport in New York City:

During the winter period 1946-47, there were 3,877 scheduled flights cancelled or unable to land due to traffic congestion. In the same period one year later (1947-48), there were no cancellations caused by air traffic congestion.

During the winter period 1946-47, a total of 4,582 scheduled flights were delayed at LaGuardia due to traffic congestion. In the same period a year later (1947-48), only 555 flights were so delayed, an elimination of 88% of all flight delays for this reason.

The average time per aircraft delayed at LaGuardia was reduced during the year from 33 minutes to 11 minutes. The airport capacity at LaGuardia was increased from 10 planes in and out per hour in 1947 to 30 per hour in 1948.

In 1948, as in 1947, conspicuous increases were shown in express, freight and mail. The ton miles of these three combined for domestic lines and international U. S. flag carriers were 205,698,346 as compared with 143,221,193 in the preceding year —a gain of almost 70%.

A new Universal Air Travel Plan which enables travelers to buy air transportation on credit almost anywhere in the world, was inaugurated on October 1, 1948 by agreement between the international airlines and the domestic airlines of North America.

Provision of ground transportation service for the pick-up and delivery of air cargo at the hundreds of points served by the scheduled airlines throughout the United States was completed during 1948 by Air Cargo, Inc., the airlines' freight organization. Air Cargo, Inc. now provides service at practically all points served by more than one airline. Smaller cities adjacent to points directly served by the air carriers but included in the door-to-door pickup and delivery pattern total over 2,000 additional points.

Of the total operating revenues of the airlines for 1948, it is estimated that passenger traffic contributed 77.37 %; mail 15.5%; freight and e 7.13%.

New Planes in Operation

Many airlines virtually completed their de programs of new planes during 1948. Sco new-type Lockheed Constellations, Douglas D Convair 240's and Martin 202's added new s ards of speed, convenience and comfort f travelers. Boeing's new double-deck Stratoc began operations on several of the airlines in These new planes, along with other new ment and procedures introduced by airline agement, have increased the revenue ton handled per employee of the domestic trunk more than 1,000 tons in 2 years, so that in the average was more than 12,000 revenu miles per employee. (This figure is 3,00C greater than the last pre-war year, 1941, increase of 33%.) This was accomplished d the voluntary reduction of the work week fo employees to 40 hours in 1946.

During this same period, the domestic s uled airlines have reduced the cost per ava ton mile from 32.15 cents in 1946 to 30.15 in 1948. The international and overseas ope had also reduced their cost per available mile from 67.65 cents in 1946 to 49.04 cer 1947 which was followed by a slight increa 49.22 cents in 1948. This increased output employee, and reduction in cost per available mile has been accomplished in a period whe airline management, in overcoming the wa destruction of a large part of the domesti international airline system and the distort the rest of the system, had to squeeze eight of development into a three year period.

While airline management has been incr efficiency and lowering costs, they have faced with a decline in the overall ton-mil enue. In 1941 the airlines received 61.5c for ton mile of traffic handled; in 1947 they re only 51.1c per ton mile and in 1948 the figur approximately 56.5c.

Decline in Mail Revenue

The most striking reduction was in mail re In 1939 the domestic trunklines receive average of $2.14 for each ton mile of mail ported; the figure dropped to $1.97 in 194 $1.70 in 1941; and in 1945 to 50.51 cents was less than 30% of the 1941 figure. Alt there have been a series of upward adjustme mail rates since 1945, the ton mile revenue this traffic is still far below prewar level. I in 1948 approximately $1.25 per ton mile com with $2.14 a ton mile in 1939. And the r compensation given the American interna carriers per plane mile was 94c in 1941, an in 1948, a decline of 52%.

In the matter of passenger fares, despit creases since the spring of 1947 resulting the upward trend of wages and other costs, a passenger fares are only 13% above prewar as compared with increases of 31% in rail rates, 28% in rail Pullman rates, and 6 intercity bus fares.

With the addition of many new planes, wit continuing improvement of airline navigatio traffic control facilities, the commercial in has been strengthened as an important elem national security. In case of emergency c tions, such as it met with such success durin early years of the last war, the industry stands ready to offer the military approxim 10 times the lift capacity it had in 1941.

Around-the-World and Other Commercial Flying

rplane travel showed marked increase in the ern hemisphere, especially in the summer. In United States passenger travel during the six months of 1949 was up 15% over the same od in 1948. Atlantic crossings by Americans eased. European development was handicapped conomic difficulties and governmental restric- s, causing a marked change in travel to hoslovakia. Travel to Poland and Yugoslavia erratic and to other communist countries im- ible. The defeats of the Nationalist govern- t in China closed Shanghai and several other orts. Flights to Guatemala were interrupted olitical disorders. The governments of India Pakistan, which had prohibited K. L. M., l Dutch Line, from landings on account of nesian troubles, lifted their embargo. United s and Canadian lines were able to offer al services, supplemented by local lines.

American could board a plane at his home ort and connect with a plane that would him around the world, in an easterly or erly direction. Fare was quoted as $1,700, plus A round trip from New York, beginning on iay, was scheduled to fly by way of London, ascus, Delhi, Bangkok, Hong Kong, Manila, awa, Tokyo, Wake, Honolulu and Portland, K. L. M. made regular trips to Batavia via terdam. The Canadian Pacific had regular ts to Australia; planes leaving Vancouver ed at San Francisco, Honolulu and Fiji on way to Sydney. Alaska was within a few s' reach of the United States; a plane leaving tle at 7 a.m. was scheduled to reach Anchorage 2:40 p.m., connecting there with Alaskan air- s. Flights to South America showed increases non-stop overnight flights from New York uracao and Caracas were regularly scheduled. w sleeper service to Scandinavia, using Constellations carrying 23 passengers, was begun.

Canadian resorts could be reached in a few hours from the United States and thus lengthened time for recreation. Domestic airlines made special connections with national parks, among them Yellowstone at Powell and Jackson, Wyo., Yosemite at Merced, Calif., Mesa Verde at Durango, Colo., Glacier Lake at Kalispell, Mont., Carlsbad Caverns at Carlsbad, N. M.; Bryce Canyon at Cedar City, Utah.

Winter schedules, beginning Oct. 1, saw a reduction in fares. All tickets are subject to 15% U. S. tax, which is not applicable, however, to the overseas part of travel on American lines. To encourage vacation trips lines were enabled to offer half-fares for a man's wife, and children under 22, if he held a full-fare ticket. Round trip tickets usually called for a 10% discount. Typical summer fares included New York to London, one way, $350, round trip, $466.70; Chicago to London, one way, $393.80, round trip, $550.50; New York to Paris, one way, $370, round trip, $493.30; Pacific coast to Paris, one way $527.55, round trip, $793.30; New York to Chicago, one way, $44.10; New York to Seattle, one way $157.85, round trip, $300. Sleeper fares invariably increased the price of trips. A new Boeing Stratocruiser sleeper, placed on the New York to Seattle flight, cost $90 above the regular one-way fare.

Air coach service for short hauls, chiefly night flying, was experimented with during the year, with the object of introducing newcomers to air travel by reduced fares, under arrangement with the Civil Aeronautics Board. Some lines reported that this diverted customers from the regular flights. The difference in price was marked, New York to Chicago being quoted at $29.60 and $28.75; New York to Pittsburgh, $12.80; New York to Minneapolis, $41, in all cases 15% tax additional.

Earnings of 16 Major Airlines for 6 Months; Jan.-June, 1949

INTERNATIONAL AERONAUTICAL RECORDS

Source: The National Aeronautic Association, 1025 Connecticut Ave., Washington, D. C., representa in the United States of the Federation Aeronautique Internationale, world sport governing body for a nautics. The International Aeronautical Federation was formed (1905) by representatives from Belg France, Germany, Great Britain, Spain, Italy, Switzerland and the United States, with headquar in Paris. Regulations for the control of official records were signed Oct. 14, 1905. The rec presented here are as of Oct. 1, 1949. World records are defined as maximum performance, regardles class or type of aircraft used. Records accepted by the Federation in categories established by it foll

WORLD AIR RECORDS

Maximum speed over a 3-kilometer (1.864 miles) course—1,079.841 km.p.h. (670.981 m.p.h.)—M Richard L. Johnson, USAF, United States, Sept. 15, 1948. **(United States)**—same.

Distance, Airline—18,081.990 kms. (11,235.6 miles)—Comdr. Thomas D. Davies, USN; Cor Eugene P. Rankin, USN.; Comdr. Walter S. Reid, USN.; Lt. Comdr. Ray A. Tabeling, USN.; Un States; September 29-October 1, 1946.

Distance, closed circuit—8,854.3 miles—Lt. Col. O. F. Lassiter and Capt. W. J. Valentine, Un States; Tampa, Fla., Aug. 1-3, 1947.

Circuit of world—No record established.

Distance, airline (with refueling in flight)—No record established.

Altitude—22,066 meters (72,394.795 feet)—(Balloon)—Anderson and Stevens, United States, Nov. 1935.

All other records, international in scope, are termed International records and are divided classes: Airships, airplanes, seaplanes, amphibians, gliders, and helicopters.

AIRPLANES (Class C)

Distance, closed circuit—8,854.3 miles—Lt. Col. O. F. Lassiter and Capt. W. J. Valentine, Un States; Tampa, Fla., Aug. 1-2, 1947.

Distance, airline (International)—18,081.990 kms. (11,235.6 miles) Comdr. Thomas D. Dav USN; Comdr. Eugene P. Rankin, USN; Comdr. Walter S. Reid, USN, and Lt. Comdr. Ray A. Tabel USN; United States; Lockheed P2V-1 monoplane and two Wright R-3350 engines of 2300 HP ea from Pearce Field, Perth, Australia, to Port Columbus, Columbus, Ohio, Sept. 29-Oct. 1, 1946. **(Un States)**—same.

Altitude (International)—18,119 meters (59,445.359 feet)—John Cunningham, Great Britain, Ma 23, 1948. **(United States)**—14,603 meters (47,910.009 feet), Maj. F. F. Ross, pilot; Lt. D. M. Davis, pilot; Lt. L. B. Barrier, Lt. C. B. Webster, F/o Pamphille Morrissette, Sgt. W. S. George, crew; USA Harmon Field, Guam, M. I., May 15, 1946. (Boeing B-29 monoplane, 4 Wright 2000 HP engines.)

Maximum speed (International)—1,079.841 km.p.h. (670.981 m.p.h.)—Major Richard L. Johns USAF, United States; North American F-86, General Electric J-47 jet engine, Muroc Air Fo base, Calif., Sept. 15, 1948. **United States**—same.

Speed for 100 kilometers (62.137 miles) without payload (International)—974.026 km.p.h. (605 m.p.h)—John D. Derry, Great Britain; de Havilland D.H. 108 monoplane, Goblin 4 jet engine, April 1948. **United States**—796.583 km.p.h. (494.973 m.p.h.)—Capt. R. A. Baird, USAAF; P-80 monopla Allison J-33 jet engine, Dayton, Ohio, April 19, 1946.

Speed for 1,000 kilometers (621.369 miles) without payload (International)—745.079 km.p.h. (462 m.p.h.); First Lt. Henry A. Johnson, USAAF, United States; P-80 jet-propelled monoplane, GE I engine, Dayton, Ohio, May 19, 1946. **(United States)**—same.

Speed for 2,000 kilometers (1,242.793 miles) without pay load (International)—720.134 km.p (447.470 m.p.h.) Jacqueline Cochran, United States; North American P-51, Packard Rolls Royce Me 1450 HP engine, Palm Springs, Calif., May 22, 1948. **(United States)**—same.

Speed for 5,000 kilometers (3,106.849 miles) without pay load (International)—Speed, 544.590 km. p (338.392 m. p. h.) Capt. J. E. Bauer, pilot; Capt. J. E. Cotton, co-pilot; and crew; USAAF, Uni States; Boeing B-29 monoplane, 4 Wright 2200 HP engines, Dayton, Ohio, July 26, 1946. **(Uni States)**—same.

Speed for 10,000 kilometers (6,213.698 miles) without pay load (International)—Speed 439.665 km.p (273.195 m.p.h.)—Lt. Col. O. F. Lassiter, pilot; and crew, USAAF, United States, July 29-30, 19 **(United States)**—same.

LIGHT AIRPLANES (Class C—Third Category—2,206.8 to 3,850 lbs.)

Note: Since Jan. 1, 1949, classification of light planes for record certification purposes is based gross weight rather than the former method of considering only a plane's engine cylinder displaceme The engine cylinder displacement classes were abolished effective Dec. 31, 1949.

Distance, Airline (International)—7,977.920 kilometers (4,957.240 miles)—William P. Odom, Uni States; Beech Bonanza Model 35; from Honolulu, T. H., to Teterboro, N. J., March 7-8, 1949. **Unit States**—same.

SEAPLANES (Class C2)

Distance, closed circuit (International)—5,200 kilometers (3,231.123 miles)—Mario Stoppani a Carlo Tonini, Italy, May 27-28, 1937. **(United States)**—2,525 kilometers (1,569 miles)—Lts. B. Connell and H. C. Rodd, San Diego, Cal., Aug. 15-16, 1927.

Distance, Airline (International)—9,652.001 kilometers (5,997.462 miles)—Capt. D. C. T. Bennett a First Officer I. Harvey, Great Britain; from Dundee, Scotland, to near Port Nolloth, S. Africa, Oct. 6 1938. **(United States)**—5,280,015 kilometers (3,218,402 miles)—Lt. Comdr. Knefler McGinnis, US Lt. J. K. Averill, USN., NAF. T. P. Wilkinson, USN., from Cristobal Harbor, C. Z., to San Francis Bay, Alameda, Calif., Oct. 14-15, 1935.

Maximum speed (International)—Speed 709.209 km. p. h. (440.681 m. p. h.)—Francesco Agello, Ita Oct. 23, 1934. **(United States)**—Speed 395.439 km. p. h. (245.713 m. p. h.)—Lieut. James H. Doolitt U. S. A. S., Oct. 27, 1925.

Speed for 100 kilometers (62.137 miles) without pay load (International)—Speed 629.370 km.p (391.072 m.p.h.) Guglielmo Cassinelli, Italy, Falconara-Pesara course, Oct. 8, 1933. **(United States)** Speed 338.944 km. p. h. (241.679 m. p. h.) Lieut. G. T. Cuddihy, USN., Norfolk, Va., Nov. 13, 19

Speed for 1,000 kilometers (621.369 miles) (International)—Speed 403.424 km.p.h. (250.676 m.p. —M. Stoppani and G. Gorini, Italy, March 30, 1938. **(United States)**—Speed 265.608 km. p. h. (165.0 m. p. h.)—Maj. Gen. Frank M. Andrews, Aug. 24, 1935.

AMPHIBIANS (Class C3)

Distance, Airline (International)—2,300.860 kilometers (1,429.685 miles)—Maj. Gen. F. M. Andre and crew, United States; from San Juan, Puerto Rico, to Langley Field, Va., June 29, 1936. **(Unit States)**—same.

Altitude (International)—7,605 meters (24,950.712 feet)—Boris Sergievsky, United States, Stratfor Conn., April 14, 1936. **(United States)**—same.

Maximum speed (International)—Speed 370.814 km. p. h. (230.413 m. p. h.)—A. P. de Severs United States, Detroit, Mich., Sept. 15, 1935. **(United States)**—same.

Speed for 100 kilometers (62.137 miles) (International)—Speed 337.079 km. p. h. (209.451 m. p. h A. P. de Seversky, United States, Miami, Fla., Dec. 19, 1936. **(United States)**—same.

Speed for 1,000 kilometers (621.369 miles) (International)—Speed 299.461 km. p. h. (186.076 m. p. h —Capt. W. P. Sloan and Capt. B. L. Boatner, U. S. A., AC., United States, Dayton, O., July 31, 19 **(United States)**—same.

GLIDERS (Single-Place)

Distance, Airline (International)—749.203 kilometers (465.532 miles)—O. Klepikova, U. S. S. R from Moscow to Otradnoie, region of Stalingrad, July 6, 1939. **(United States)**—523.249 km. (325.1 miles)—John Robinson, from Wichita Falls, Texas, to Barstow, Texas, July 19, 1947.

Distance with return to point of departure (International)—368.844 km. (229.189 miles)—Paul F MacCready, Jr., United States; Wichita Falls to Anson, Texas, and return, July 16, 1947. **(Unite States)**—same.

Duration with return to point of departure (International)—38 hours, 21 min., 24 sec.—Eric Nessle France; June 18-20, 1942. **(United States)**—21 hours, 34 min.—Lt. William Cocke, Jr.; at Honolu T. H., Dec. 17-18, 1931.

Altitude above Starting Point (International)—8,050 meters (26,410.708 feet)—Lt. Per Axel Perso

eden; Orebro, Sweden, July 12, 1947. **(United States)**—5,262 meters (17,263.743 feet)—Robert M. nley; Elmira, N. Y., July 4, 1939.

ltitude (absolute) (International)—8,700 meters (28,543.250 feet)—Lt. Per Axel Person, Sweden; ebro, Sweden, July 12, 1947 (*).

HELICOPTERS

Duration, closed circuit (International)—9 hours, 57 min.—Major D. H. Jensen and Major W. C. lds, USAAF, United States; Sikorsky R-5A Helicopter, Pratt & Whitney 450 HP engine; Dayton, io, Nov. 14, 1946. **(United States)**—same.

Distance, airline (International)—1,132.337 kms.—703.6 miles. Maj. F. T. Caschman, pilot; Major E. Zins, co-pilot; USAAF, United States, Sikorsky R-5 Helicopter, Pratt and Whitney 450 HP ine from Dayton, O., to Logan Field, Boston, Mass., May 22, 1946. **(United States)**—Same.

Altitude (International)—6,468 meters (21,220 feet)—Capt. H. D. Gaddis, United States; Sikorsky 2-1 Helicopter, Franklin O-425-1 engine; Bridgeport, Conn., May 21, 1949. **(United States)**—same.

Maximum speed (International)—208.494 kms. p. h. (129.552 m.p.h.)—Harold E. Thompson, United tes; Sikorsky S-52-1 Helicopter; Cleveland, Ohio, April 27, 1949. **(United States)**—same.

Speed for 100 kilometers in closed circuit (International)—197.545 km.p.h. (122.749 m.p.h.)—Harold Thompson, United States; Sikorsky S-52-1 Helicopter; Milford, Conn., May 6, 1949. **(United States)** ame.

Speed for 1,000 kilometers in closed circuit (International)—107.251 km. p.h. (66.642 m.p.h.)—Maj. H. Jensen and Maj. W. C. Dodds, USAAF, United States; Sikorsky R-5A Helicopter, Pratt & Whitney HP engine; Dayton, Ohio, Nov. 14, 1946. **(United States)**—Same.

AIRSHIPS (Class B)

Airline distance (International)—6,384.500 kms. (3,967.137 miles)—Dr. Hugo Eckener, Germany; Z. 127, "Graf Zeppelin," 5 Maybach 450-550 HP engines; from Lakehurst, N. J., U.S.A., to edrichshafen, Germany, October 29, 30, 31 and Nov. 1, 1928.*

FREE BALLOONS (Eighth category, 4001 cu. meters or more)

Duration (International)—87 hours. H. Kaulen, Germany, Dec. 13 to 17, 1913. **(United States)**—51 irs, Lieut. C'mmdr. T. G. W. Settle and Lieut. Charles H. Kendall, Gordon-Bennett Balloon Race. icago, Sept. 2, 3, 4, 1933.

Altitude (International)—22,066 meters (72,394.795 feet)—Capt. Orvil Anderson and Capt. Albert vens, United States, take-off approximately 11 miles southwest of Rapid City, S. D., landing approxi- tely 12 miles south of White Lake, S. D., Nov. 11, 1935.

F. A. I. COURSE RECORDS (First category, solo)

Los Angeles to New York, N. Y. (International)—Speed 934,926 km. p. h. (580.935 m. p. h.) . W. H. Councill, USAAF. United States. P-80 jet propelled monoplane, GE I-40 engine; from ng Beach Municipal Airport to LaGuardia Airport, Jan. 26, 1946. Distance: 2,453.807 miles. apsed Time: 4 hours, 13 minutes, 26 seconds. **(United States)**—Same.

London to Capetown, Africa (International)—Speed 244.876 km. p. h. (152.159 m. p. h.)—A. Hen- aw, Great Britain, Feb. 5-6, 1939. Elapsed time: 39 hrs., 25 mins.*

Capetown, Africa, to London (International)—Speed 243.745 km. p. h. (151.456 m. p. h.)—A. Hen- aw, Great Britain, Feb. 7-9, 1939. Elapsed time: 39 hrs., 36 mins.*

Havana to Washington, D. C. (International)—Speed, 563.800 km.p.h. (350.328 m.p.h.)—Woodrow W. mondson, United States, Nov. 27, 1947. Elapsed Time: 3 hrs. 15 min. 13 sec. **(United States)**—same.

F. A. I. COURSE RECORDS (Second category, crew or passengers)

Los Angeles, Calif., to New York, N. Y. (International)—Speed, 724.826 km. p. h. (450.385 m. p. h.) l. C. S. Irvine pilot; Lt. G. R. Stanley, co-pilot, and crew, USAAF, United States, Boeing B-29 noplane, 4 Wright R-3350-23A engines; from Burbank, California, to Floyd Bennett Field, Brooklyn, cember 11, 1945. Distance: 2,457 miles. Elapsed Time: 5 hours, 27 minutes, 19.2 seconds. **(United ates)**—Same.

New York to London (International)—Speed 272.345 km. p. h. (169.227 m. p. h.)—Henry T. Merrill d John S. Lambe, U.S., May 9-10, 1937. Elapsed time: 20 hrs., 29 mins., 45 secs. **(United States)**—same.

New York, N. Y., to Los Angeles, Calif. (International)—Speed 528.828 km. p. h. (328.598 m. p. h.) pt. Boyd L. Grubaugh, pilot; Capt. J. L. England, co-pilot; and crew, USAAF, United States; Boeing 29 monoplane, 4 Wright R-3350-23A engines from LaGuardia Airport to Burbank, Cal., Aug. 1, 1946. stance: 2,453.805 miles. Elapsed Time: 7 hours, 28 minutes, 3 seconds. **(United States)**—same.

NATIONAL TRANSCONTINENTAL AND INTER-CITY RECORDS

West to East Transcontinental (Jet propelled)—Col. W. H. Councill, USAAF; P-80 monoplane, GE -0 engine; from Long Beach Municipal Airport to LaGuardia Airport, Jan. 26, 1946. Distance: 53.807 miles. Elapsed time: 4 hrs. 13 min. 26 sec. Average speed: 580.935 m.p.h.

West to East Transcontinental (Reciprocating engine—solo)—Joe DeBona; North American F-51 noplane; from Lockheed Air Terminal to LaGuardia Airport, March 29, 1949. Distance: 2,453.805 les. Elapsed time: 5 hrs. 5 sec. Average speed: 490.625 m.p.h.

East to West Transcontinental (Reciprocating engine—solo)—A. Paul Mantz, North American P-51 noplane; from LaGuardia Airport to Lockheed Air Terminal, Burbank, Calif., Sept. 3, 1947. Dis- ce: 2,453.805 miles. Elapsed time: 7 hrs. 4 sec. Average speed: 350.488 m.p.h.

Honolulu, T. H., to New York—Lt. Col. Robert E. Thacker, pilot, and First Lt. John M. Ard, -pilot; North American P-82 monoplane; from Hickam Field to LaGuardia Airport, Feb. 28, 1947. stance: 4,968.852 miles. Elapsed time: 14 hrs. 31 min. 50 sec. Average speed: 341.959 m.p.h.

Chicago to Los Angeles—Howard R. Hughes, May 14, 1936. Elapsed time; 8 hrs., 10 mins., 29.8 secs.

New York to Havana—A. P. Seversky, Dec. 3, 1937. Elapsed time: 5 hrs., 3 min., 5.4 secs. Dis- nce: 1,307 miles. Average speed: 258.735 m.p.h.

New York to Washington, D. C.—Capt. M. L. Smith, AAF; April 21, 1946; elapsed time: 29 min., 15 sec. stance: 214 miles. Average speed: 438.974 m.p.h.

Los Angeles to Washington, D. C.—Lt. Col. H. F. Warden, Capt. G. W. Edwards; Dec. 8, 1945: psed time: 5 hrs., 17 min., 34 sec. Distance: 2,295 miles. Average speed: 433.610 m.p.h.

Chicago to Washington, D. C.—Jack Frye, Feb. 18, 1936. Elapsed time: 2 hrs., 22 mins.

March Field, California, to Mitchel Field, N. Y.—Lt. Ben. S. Kelsey, USAAF., Feb. 11, 1939, apsed time: 7 hrs., 45 mins., 36 secs.

Mexico City to New York City—Francisco Sarabia, May 24, 1939. Elapsed time: 10 hrs., 47 min.. 8 sec. Distance: 2,087.5 miles. Average speed; 193.353 m.p.h.

FEMININE RECORDS (AIRPLANES—Class C)

Distance, Airline (International)—5,908.610 kilometers (3,671.432 miles)—V. Grisodoubova and P. sipenko, U. S. S. R., Sept. 24-25, 1938. **(United States)**—3,939.245 kilometers (2,447.728 miles)— nelia Earhart, from Los Angeles, Calif., to Newark, N. J., Aug. 24-25, 1932.

Altitude (International)—14,310 meters (46,948.725 feet)—Mrs. Maryse Hilz, France, June 23, 1936. **nited States)**—9,160 meters (30,052.430 feet) Jacqueline Cochran, Palm Springs, Calif., March 24, 39.

Speed, Maximum (International)—663.054 km.p.h. (412.002 m.p.h.)—Jacqueline Cochran, United ates; Thermal, Calif., Dec. 17, 1947. **(United States)**—same.

Speed for 100 kilometers (62.137 miles) (International)—755.668 km.p.h. (469.549 m.p.h.)—Jacqueline chran, United States; Coachella Valley, Calif., Dec. 10, 1947. **(United States)**—same.

Speed for 1,000 kilometers (621,369 miles) (International) 693.70 km.p.h. (431.094 m.p.h.)—Jacqueline chran, United States; Palm Springs, Calif., May 24, 1948. **(United States)**—same.

Speed for 2,000 kilometers (1,242,739 miles) (International)—720.134 km.p.h. (447.470 m.p.h.)— cqueline Cochran, United States; Palm Springs, Calif., May 22, 1948. **(United States)**—same.

FEMININE NATIONAL TRANSCONTINENTAL RECORDS

West to East—Jacqueline Cochran, from Burbank, Calif., to Brooklyn, N. Y., Sept. 3, 1938. Elapsed ne, 10 hrs., 27 mins., 55 secs. Speed, 234.776 m.p.h.

East to West—Louise Thaden and Blanche Noyes; from Floyd Bennett Field, Brooklyn, N. Y., to s Angeles, Calif., April 19-20, 1935; elapsed time: 13 hours, 33 min.

New York to Miami, Fla.—Jacqueline Cochran, Dec. 3, 1937. Elapsed time: 4 hrs., 12 mins., 27.2 secs.

Rape	9,517		Suspicion	40,214	4,92
Prostitution and commercialized vice	3,257	5,417	Not stated	5,154	94
Other sex offenses	14,819	2,783	All other offenses	30,111	4,32
Narcotic drug laws	4,363	483			
Weapons; carrying, possessing, etc.	11,085	513	Total	682,721	76,97

Property stolen in 1948 was valued at $119,240,431 as compared with $106,235,467 in 1947. Propert recovered in 1948 was valued at $67,184,641. Automobiles accounted for $65,231,747 of the 1948 thefts.

Murder (including non-negligent manslaughter) in 1948, in large cities—Atlanta, 76; Baltimore, 110 Boston, 19; Buffalo, 20; Chicago, 326; Cincinnati, 48; Cleveland, 69; Columbus, 13; Dallas, 62; Denver 24; Detroit, 105; Fort Worth, 28; Houston, 106; Indianapolis, 27; Kansas City, Mo., 59; Knoxville, 26 Los Angeles, 89; Louisville, 53; Memphis, 52; Milwaukee, 10; Nashville, 48; Newark, 31; New Orleans, 55 New York, N. Y., 315; Norfolk, 32; Philadelphia, 117; Pittsburgh, 29; Richard, 35; St. Louis, 67; San Antonio, 50; San Francisco, 35; Tampa, 19; Tulsa, 12; Tuscaloosa, Ala., 15; Washington, D. C., 73

Compared with the prewar averages of 1939-41, murder in 1948 increased 14.1 percent; burglary 16.7 percent; robbery, 8.9 percent; larceny, 4.6 percent, while negligent manslaughter dropped 3.1 percent and automobile thefts, 6.2 percent in urban areas.

The murder of serious offenses in 1948 was 1,686,670, setting a new high for the period since national crime statistics were first tabulated in 1930, and slightly exceeding the previous peak of 1,685,203 established in 1946.

Rural crime in 1948 was up 4.3 percent over 1947, as compared with a 0.3 percent increase in the cities. Burglaries increased 5.1 percent; larceny, 9.6 percent, but on the other hand murder and non-negligent manslaughter declined 1.3 percent; negligent manslaughter, 1.1 percent; rape, 10.8 percent; robbery, 5.7 percent, and automobile theft, 6.1 percent.

J. Edgar Hoover, director of the F.B.I., reported that a serious crime was committed every 18.7 seconds during 1948, that on the average each day 36 persons were slain feloniously, 255 were victims of aggravated assault or rape and 150 robberies committed. He said the high crime rate was due to the failure of many Americans to support adequate law enforcement agencies and to help check juvenile delinquency effectively during the World War II years.

Conrad N. Hilton, Hotel Owner, and the Waldorf Astoria

merica's biggest hotel landlord is Conrad nolson Hilton, who, on Oct. 24, 1949, became sident of the Hotel Waldorf Astoria Corp. Mr. on obtained control of New York's Waldorf oria hotel when he, the Hilton Hotels Corp., Col. Henry Crown, chairman of the board irectors of the Material Service Corp., bought 000 of the 366,000 shares of common stock of Waldorf, or 68%. This great hotel was erected 1931 at a cost of $22,000,000 and occupies a k bounded by Park and Lexington aves., and 49th and 50th Sts. It has 47 stories and 2,000 st rooms. Gross income is about $19,000,000 ear. It stands on ground leased from the New k State Realty and Terminal Co., a subsidiary he New York Central and New Haven Rail- is and rental, which includes a percentage of its, is now about $1,600,000 a year. Lease runs 955, with renewal privilege to 1977 and option purchase of hotel at that time.

irectors of the Hotel Waldorf Astoria Corp. ned Oct. 24 were Conrad N. Hilton, Joseph P. ns (who was made executive vice president general manager), Henry Crown, Martin W. nent, Howard Cullman, William D. Dana, nur V. Davis, Robert W. Dowling, Robert V. ming, Herbert Hoover, Frank K. Houston, n P. Kirby, Maurice Newton, Clarkson Potter, nk A. Ready, T. Rieber, Daniel E. Taylor, Juan Trippe, Robert P. Williford and Charles Deere nan.

onrad N. Hilton was born in San Antonio, M., Dec. 25, 1887. His father operated a five- n adobe hotel there and Conrad met trains hustled baggage. His first experience in management was gained in small Texas hotels. The Hilton Hotels Corp. was organized June 1, 1946. This corporation, which Mr. Hilton heads, owns, operates or manages under lease agreements a number of hotels in the United States and abroad. They include the Waldorf Astoria, Plaza and Roosevelt hotels in New York, N. Y., with a total of 4,265 rooms; Stevens (2,700) and Palmer House (2,245) Chicago; Mayflower (809) Washington, D. C.; Dayton Biltmore (475) Dayton, O.; Town House (280) Los Angeles, Calif.; Hilton (295) El Paso, Tex.; Hilton (200) Lubbock, Tex.; Hilton (170) Albuquerque, N. M.; Palacio Hilton, (100) Chihuahua, Mexico. In 1949 the Puerto Rican government financed the erection of a 300 room hotel in San Juan, the Caribe-Hilton. Early construction of a 500-room hotel in Oakland, Calif., backed by the Chamber of Commerce, was announced in 1949. The Hilton management also has operated and since relinquished the Bermudiana, Castle Harbor and St. George hotels of Bermuda and the Palm Beach Biltmore. Hilton Hotels International is a subsidiary corporation organized to operate hotels abroad. The Hilton Hotels Corp. in 1948 reported a gross revenue of $43,028,965 and a net income of $3,917,805, or $29.14 on the preferred and $2.29 on the common stock. The net income for 1947 was reported as $5,540,159, or $28.07 on the preferred and $3.15 on the common stock. Mr. Hilton owns 380,223 shares.

When Mr. Hilton was asked what prompted him to buy control of the Waldorf Astoria he recalled a day in 1942 when he was walking along Park avenue, New York, and admiring the building. He thought to himself: "It sure would be a great thing to have that hotel." In 1949 the keys of the hotel were in his hands.

Nine Women in the 81st Congress

When the 81st Congress completed its roster early in 1949 it included nine women, two more than sat in the 80th Congress. Leading the list was **Mrs. Margaret Chase Smith,** Republican senator from Maine, who had been a member of the House of Representatives from Maine's 2nd District for nearly nine years when she became the first Republican woman elected to a full term in the Senate, and the first woman elected for six years without a preliminary appointment. Preceding her as woman senator was Hattie Caraway, Democrat of Arkansas, who filled out her husband's unexpired term as well as two six-year terms of her own. She was 52 in 1949.

Another woman in Congress is **Mrs. Mary T. Norton,** Democrat from the 13th District of New Jersey, which includes Bayonne and parts of Jersey City, who has served in the House of Representatives continuously since 1924. In 1949 she was 74. She had served in child welfare and Red Cross work before entering Democratic politics and had held office and worked on the State Democratic Committee. From 1924 to 1948 she took part in national conventions. She headed the House labor committee for 10 years and has represented the United States at the International Labor Conference in Paris.

Mrs. Edith Nourse Rogers, Republican from the 5th District of Massachusetts, which comprises Lowell, Woburn and 27 towns, has served in Congress since 1925. She is 68. Her husband, John Jacob Rogers, was a Representative from 1913 to his death in 1925. She has been associated with veterans' causes since the first world war, when she was a Red Cross worker. She introduced the bill creating the Women's Army Auxiliary Corps, later Women's Army Corps. (WAC)

Mrs. Frances P. Bolton, Republican from the 22nd District of Ohio, part of Cleveland and suburbs, entered Congress in 1940 and has a long record of association with public health and nursing activities. She is 63. She, too, was chosen to fill the unexpired term of her husband, Chester Castle Bolton, in 1940. As head of a subcommittee of the Foreign Affairs Committee she was responsible for two valuable reports, "The Strategy and Tactics of World Communism" and "Communism in China." She has three sons and eight grandchildren.

Mrs. Helen Gahagan Douglas, Democrat from the 14th District of California, a part of L Angeles, was first elected in 1944. She is 49. S has starred on the New York stage and sung opera. She married Melvyn Douglas in 1931 a has two children. She has been active in Democratic organization, is a member of the F sign Affairs committee and in 1946 was appoin an alternate delegate to the General Assembly the U. N.

Mrs. Katharine St. George, Republican from 29th District of New York, which includes so suburbs of New York City, is a native of Engla but has lived in Tuxedo, N. Y. since she was She married George Baker St. George and has daughter and two grandchildren. She has be engaged in many Republican, Red Cross and Ag cultural society activities and is a member of t Post Office and Civil Service Committee.

Mrs. Chase Going Woodhouse, Democrat fr the 2nd district of Connecticut, which inclu New London, first served in the 79th Congre She was defeated in 1946, but in 1948 defeated H former opponent for the same office. Her w experience as an economist made her a member the Banking and Currency committee. She h studied at McGill, the University of Chicago a the University of Berlin, and taught economi at Smith, the University of Texas, Teachers C lege of Columbia University and Connecticut Co lege, and served as senior economist of the U. Bureau of Home Economics. She has been secr tary of the state of Connecticut. She is the moth of two and as two grandchildren.

Mrs. Reva Beck Bosone, Democrat from t 2nd District of Utah, is the first woman elected Congress from Utah. She has been a teach and is a lawyer. She was a member of the Sta legislature of Utah and active in unemployme insurance and welfare legislation for women a children in industry. She was thrice elected the Salt Lake City civic bench in 1936, was know for her work on traffic safety, and was named the Utah Hall of Fame for her work in the re habilitation of alcoholics and juvenile delinquent She has one child.

Mrs. Cecil Murray Harden, Republican from t 6th District of Indiana, including Terre Haute a Covington, has taught school and been active party organizations. She married Frost P. Harde in 1914. They have one son, Dr. Murray E. Harde of Indianapolis, and three grandchildren.

Personal Aircraft in Operation in the United States

Fully 90,000 personal planes were in use in the United States during 1949. These were used by executives of corporations in their business and by individuals for private trips, and included up to 5-seater planes. With commercial transports added the number registered with the Civil Aeronautics Commission by Oct. 1, 1949, was 92,461. In the first 8 months of 1949 2,631 planes, valued at $10,999,000, had been shipped to private owners. In August 260 planes were delivered, including 17 four-seaters, 73 two-seaters, and 10 single-seaters valued at $1,051,000, made by 9 companies. In July the total was 290, according to reports received by the Aircraft Industries Assn., New York, N. Y.

ASTRONOMICAL CALCULATIONS FOR 1950

The Astronomical Calculations, beginning on the next page, are in local Mean Time, except as otherwise indicated, and are made expressly for The World Almanac by H. F. M. Hedrick, Washington, D. C.

The Seasons

In the temperate zones, these are four in number: Spring, Summer, Autumn and Winter; beginning respectively at the vernal equinox, the summer solstice, the autumnal equinox and the winter solstice; for which, in the north temperate zone, the approximate dates are March 21, June 21, September 23, and December 21.

In the south temperate zone, the vernal equinox is the beginning of spring is September 23, the summer solstice or the beginning of summer is December 21, and so on.

The earth's axis continually points in the same direction, and if the axis were perpendicular to the plane of the earth's orbit around the sun there would be no change of seasons. Day and night would everywhere be of equal length and equable conditions of temperature would prevail.

But the axis is tilted 23° 27′ away from a perpendicular to the orbit, and only in March and September is the axis at right angles to the direction of the sun.

At those months occur the equinoxes, when day and night are equal the world over.

On June, the North Pole is tilted 23° 27′ toward the sun and the days in the northern hemisphere are longer than the nights; at the same time, the days in the southern hemisphere are shorter than the nights.

In December the North Pole is tilted 23° 27′ away from the sun, and the nights in the northern hemisphere are longer than the days; at the same time the nights in the southern hemisphere are shorter than the days.

The heating influence of the sun increases with the length of the day and with the sun's altitude at noon. The greatest daily accession of heat is, therefore, at the time of the summer solstice.

In June, in the north temperate zone, the heat received by day far exceeds the loss through radiation by night, and it is not until July or August that the two become equal and the maximum temperature of the year is experienced.

In December, the heat received by day fails to make good the loss by night, and it is not until January or February that gain and loss become equal and the thermometer ceases to show a downward tendency.

The seasons in 1950 (Eastern Standard Time) begin as follows: Vernal Equinox (Spring), March 20, 11:36 P.M.; Summer Solstice (Summer), June 21, 6:37 P.M.; Autumnal Equinox (Autumn), September 23, 9:44 A.M.; Winter Solstice (Winter), December 22, 5:14 A.M.

1st Month — JANUARY, 1950 — 31 Days

(Local Mean Time, A.M., light figures; P.M., black)

To obtain Standard Time see directions on page 784.

Directions: For New York City, for example, subtract 4m. from the Calendar for that city and the result is in Eastern standard time; for other cities, use the Calendar named at head of column and add or subtract the given number of minutes; this gives the required standard time, which is Eastern, Central, Mountain or Pacific, according as the letter E, C, M or P is found in the table. A small letter indicates that in case of sunrise and sunset, a correction for latitude is advisable, which correction is to be found in the table below, in the column headed by the small letter and on line with the date.

CORRECTION TO SUNRISE

NOTE—The same correction is applied to sunset as to sunrise, but in the opposite way subtracted.

Army-Navy Time

The United States Army adopted (July 1, 1942) the 24-hour clock system, a system long in effect in the Navy and which is patterned on the English system of beginning the day at midnight and numbering the hours around the clock. Thus 8 A.M. is written as 0800 and 8:25 A.M. as 0825. Under this system 4 P.M. becomes 1600 and the time of 7.52 P.M. becomes 1952 or 19 hours and 52 minutes past midnight. Under the new system the common time standard is divorced from the local time area in the handling of messages from one time zone to another. Within time zones messages are timed according to local reckoning. For long distance messages Greenwich time is the standard.

The Sun's Apparent Right Ascension and Declination, 1950

STUDY REVEALS GOLD IN THE SUN

Evidence of gold in the Sun was obtained (1943) by a comparative study of gold spectrum lines and the solar spectrum.

The planet Pluto was an object of search for many years in accordance with predictions made by Dr. Percival Lowell, founder and director of the Lowell Observatory, Flagstaff, Arizona. It was finally located by C. W. Tombaugh of that observatory and public announcement made on March 13, 1930. Its mass, according to a recent determination by new methods, is about 0.83 of the mass of the earth. Its average distance from the Sun is about 3,700,000,000 miles. Perihelion will occur in 1989 and Aphelion in 2114. It lies in the constellation of Cancer. On January 1, 1950 its predicted position in the sky will be 9 hours 32 minutes in Right Ascension and 23 degrees 17 minutes in North Declination.

*At mean distance.

The Moon

The moon completes a circuit around the earth in a period whose mean or average length is 27 days 7 hours 43.2 minutes; but in consequence of its motion in common with the earth around the sun, the mean duration of the lunar month—that is, the time from new moon to new moon—is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period.

The mean distance from the earth according to the American Ephemeris is 238,857 miles. The maximum distance, however, may reach 252,710 miles, and the least distance to which the moon can approach the earth is 221,463 miles.

Its diameter is 2,160 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon—viz., 3,963 and 1,080 miles, respectively—we shall have for the nearest approach of the surfaces of the two bodies 216,420 miles.

The orbit's form is that of a serpentine curve, always concave toward the sun.

The moon revolves on an axis and the time of rotation is exactly equal to the time of revolution around the earth—27.321666 days. The moon's revolution around the earth is performed irregularly because of the elliptical orbit. The moon's rotation is regular and this produces what is called "libration in longitude" which permits us to see first around the east side and then around the west side of the moon.

The tides are caused mainly by the moon, the tide-raising power of moon and sun is 11 to 5.

Each month the moon is said to be in perigee when nearest to the earth and in apogee when farthest from the earth.

The average time for perigee to perigee, or from apogee to apogee, is 27d. 13h. 18m. 33s; known as the anomalistic month.

To find the time when star is on meridian, subtract R. A. M. S. of the sun table below from the star's Right Ascension, first adding 24h to the latter, if necessary; mark this result P. M. If less than 12h; but if greater than 12h subtract 12h and mark the remainder A. M.

Right Ascension of Mean Sun, 1950

(At Washington-Mean Noon)

The Right Ascension of Mean Sun increases 3.943 minutes daily.

Eclipses in 1950

FOUR ECLIPSES DUE
Two of Sun, Two of Moon

In the year 1950 there will be four eclipses, two of the Sun and two of the Moon.

I. An Annular Eclipse of the Sun, March 18, 1950, not visible in the United States. It is visible as a partial eclipse in southern Africa, the extreme southern tip of South America, and part of Antarctica. The annulus is visible over a small part of Antarctica and a part of the South Indian Ocean.

CIRCUMSTANCES OF THE ECLIPSE
Greenwich Mean Time

	d.	h.	m.
Eclipse begins	March 18	1	10.8 p.m.
Annular eclipse begins	March 18	3	8.9 p.m.
Greatest eclipse	March 18	3	31.9 p.m.
Annular eclipse ends	March 18	3	54.9 p.m.
Eclipse ends	March 18	5	52.7 p.m.

The magnitude of the Annular eclipse is 0.928 of the Sun's diameter.

II. A Total Eclipse of the Moon, April 2, 1950, not visible in the United States. The beginning is visible generally in Europe, Asia except the extreme northeastern part, Africa, the southeastern Atlantic, the Indian Ocean, Arctic and Antarctic regions, Australia, and the western Pacific. The ending is visible generally in central and eastern South America, the Atlantic Ocean except the extreme northwestern part, Europe, Asia except the northeastern part, Africa, the Indian Ocean, Arctic and Antarctic regions, and extreme western Australia.

CIRCUMSTANCES OF THE ECLIPSE
Greenwich Mean Time

	d.	h.	m.
Moon enters penumbra	April 2	6	9.3 p.m.
Moon enters umbra	April 2	7	9.0 p.m.
Total eclipse begins	April 2	8	29.5 p.m.
Middle of the eclipse	April 2	8	44.1 p.m.
Total eclipse ends	April 2	8	58.7 p.m.
Moon leaves umbra	April 2	10	19.2 p.m.
Moon leaves penumbra	April 2	11	18.8 p.m.

The magnitude of the eclipse is 1.039 of the Moon's diameter.

III. A Total Eclipse of the Sun, September 11-12, 1950, not visible in the United States, visible as a partial eclipse in northern Asia, Hawaii, and Alaska. The path of totality begins in the Arctic Ocean, crosses the northeastern tip of Siberia and ends in the northern Pacific.

CIRCUMSTANCES OF THE ECLIPSE
Local Standard Times
September 11, 1950

Place	Beginning h. m.	Middle h. m.	Ending h. m.	Mag.
Nome, Alaska	3 27 p.m.	4 30 p.m.	5 30 p.m.	.86
Fairbanks, Alaska	4 33 p.m.	5 32 p.m.	. . .	82
Anchorage, Alaska	4 40 p.m.	5 39 p.m.	. . .	82
Honolulu, Hawaii	5 21 p.m.	. . .	. . .	72
Juneau, Alaska	5 47 p.m.	. . .	. . .	65

IV. A Total Eclipse of the Moon, September 25-26, 1950, visible in the United States. The beginning is visible generally in the eastern Pacific Ocean. North America except the extreme northwestern part, South America, the Arctic and Antarctic regions, the Atlantic Ocean, Europe except the extreme eastern part, Africa, and southwestern Asia. The ending is visible generally in the central and eastern Pacific Ocean, North America, South America, the Arctic and Antarctic regions, the Atlantic Ocean except the southeastern part, and extreme western parts of Europe and Africa.

CIRCUMSTANCES OF THE ECLIPSE
Eastern Standard Time

	d.	h.	m.
Moon enters penumbra	September 25	8	20.0 p.m.
Moon enters umbra	September 25	9	31.5 p.m.
Total eclipse begins	September 25	10	53.8 p.m.
Middle of eclipse	September 25	11	16.7 p.m.
Total eclipse ends	September 25	11	39.6 p.m.
Moon leaves umbra	September 26	1	1.9 a.m.
Moon leaves penumbra	September 26	2	13.5 a.m.

The magnitude of the eclipse is 1.084 of the Moon's diameter.

Morning and Evening Stars, 1950

MORNING STARS

Mercury—Jan. 17 to March 27; May 14 to July 10; Sept. 17 to Nov. 1.
Venus—Jan. 31 to Nov. 13.
Mars—Jan. 1 to March 23.
Jupiter—Feb. 3 to Aug. 26.
Saturn—Jan. 1 to March 7; Sept. 15 to end of year.

EVENING STARS

Mercury—Jan. 1 to Jan. 17; March 27 to May 14; July 10 to Sept. 17; Nov. 1 to end of year.
Venus—Jan. 1 to Jan. 31; Nov. 13 to end of year.
Mars—March 23 to end of year.
Jupiter—Jan. 1 to Feb. 3; Aug. 26 to end of year.
Saturn—March 7 to Sept. 15.

The Weather Bureau

A national weather service was established (1870) under the Army Signal Corps. The present Weather Bureau, formed in the Department of Agriculture, took over the meteorological work of the Signal Corps (July 1, 1891). Subsequent legislation and executive decisions extended the Bureau's responsibilities in the fields of weather and climate until its service now applies to civil aeronautics and other modern fields as well as to general agricultural, commercial, industrial, and transportation interests. The Fourth Plan of Government Reorganization, 1940, transferred it from Agriculture to the Department of Commerce, effective June 30, 1940).

The Central Office of the Weather Bureau is in Washington, D. C. For administrative purposes, the United States (including Alaska) is divided into eight regions, each with a regional office. On the operational plane, state forecasts and much of the general public service of the Bureau originate in 18 forecast centers throughout the country. These forecast centers aid approximately 200 local offices, which have the most direct contact with the public in discharging their functions.

General Public Service

The General Public Service provides daily bulletins and forecasts for business, commerce, industry, and the general public. These forecasts are published in practically all daily newspapers and broadcast from most radio stations daily. The automatic telephone forecast repeater, installed in seven cities, is a popular service. The Airways Weather Service includes the regional and terminal forecasts issued from 22 Airways Forecast Centers and transmitted every six hours over the national teletype weather circuits. These forecasts give invaluable weather information not only for all the civil airways of the United States and Alaska but also for some 400 important airports. The Bureau also provides weather advices and forecasts for transoceanic airline operations. As a further aid to safety in the air, a Flight Advisory Weather Service unit is maintained in each of the 26 CAA traffic control centers.

Corn and Wheat Crop Service

The Corn and Wheat Crop Weather Service and the Cotton Crop Weather Service, organized by state divisions in the principal crop areas, furnish special weather bulletins to growers during the crop season. The Fruit-Frost Service provides detailed and localized forecasts and warnings to fruit growers in those states where Winter and spring fruit and vegetable production is a major activity. The Fire-Weather Warning Service warns against atmospheric conditions conducive to disastrous fires in the forest areas of the nation. The Hurricane Warning Service prepares its highly important advisories and warnings at special hurricane forecast centers along the nation's coasts.

Climatological Service

The Climatological Service is supervised through 43 field offices, most of which also serve as headquarters of the special crop weather services in the corn, wheat, and cotton belts. The collected and tabulated climatological data published by the Bureau constitute a priceless but as yet largely unrealized asset to a host of national activities.

River and Flood Service

The River and Flood Forecasting Service is conducted through 85 river district offices and four river forecasting centers and issues river stage and flood warnings for all the principal rivers and tributaries of the United States. Rainfall studies conducted in cooperation with the Army Corps of Engineers and the Bureau of Reclamation assist in the planning of engineering works for flood control and navigation, as well as for water utilization and power development.

The Weather Bureau is authorized to carry on research into the causes of weather and climate because of their vital influence on the national welfare. Through a Joint Meteorological Committee in Washington, it maintains close liaison with the Army and the Navy to coordinate military and civil meteorological operations. It also cooperates closely with the Civil Aeronautics Authority and other interested agencies.

Standard Time and Daylight Saving Time

Source: National Bureau of Standards; Interstate Commerce Commission; Commerce and Industry Ass'n of New York, Inc.

STANDARD TIME

The United States has used Standard Time since 1883, but no legislative action for the country as a whole is recorded until March 19, 1918, when Congress directed the Interstate Commerce Commission to establish limits for the various time zones in this country.

The United States is divided into four standard time zones, each approximately 15° of longitude in width. All places in each zone use, instead of their own local time, the time counted from the transit of the "mean sun" across the meridian which passes through the approximate center of that zone.

These time zones are designated as Eastern, Central, Mountain, and Pacific, and the time in these zones is reckoned from the 75th, 90th, 105th, and 120th meridians west of Greenwich, respectively. The time in the various zones is slower than Greenwich time by 5, 6, 7, and 8 hours, respectively.

The following municipalities located on the boundary between the Central and the Mountain Time Zones use Central Standard Time:

Murdo Mackenzie, S. D.; Phillipsburg, Kans.; Stockton, Kans.; Plainville, Kans.; Ellis, Kans. All other places on this boundary use Mountain Standard Time.

All municipalities on the boundary between the Mountain and the Pacific Time Zones use Mountain Standard Time except Huntington, Oreg., which uses Pacific Standard Time.

The adoption of Standard Time by any State has no official bearing on the time zone boundaries, as the control of these boundary lines rests with the Interstate Commerce Commission. After holding hearings in Georgia, the Commission officially moved the boundary line westward to place the entire State of Georgia in the Eastern Zone.

Effective Sept. 28, 1947, by order of the Interstate Commerce Commission, the boundary between the Eastern and the Central zones was changed. All of Virginia and North Carolina, and certain sections in the eastern parts of Kentucky and Tennessee were placed in the Eastern zone. The new location of the line passes west of Knoxville, Tenn. There are no large cities on this new section of the boundary line.

DAYLIGHT SAVING TIME

During World War II Standard Time was advanced one hour, from Feb. 9, 1942 to Sept. 30, 1945. It was called War Time.

Daylight Saving Time means advancing the clock by one hour during the summer, usually from 2 a.m. on the last Sunday in April until 2 a.m. on the last Sunday in September, when the clock is turned back one hour.

Daylight Saving Time is quite generally observed throughout the United States and Canada as well as in many other parts of the world.

Official Alaska time is 10 hours slower; Guam 10 hours faster; Hawaii, 10 hours slower; Panama Canal Zone, 5 hours slower; Philippines 8 hours faster; Puerto Rico, 4 hours slower; Samoa, 11 hours slower; Virgin Islands, 4 hours slower than Greenwich Time.

Alaska time, by act of Congress in 1918 was fixed as that of the 150° meridian west, 10 hours slower than Greenwich. Actually, however, four times are used in the territory 120°W, 135°W, 150°W, 165°W, 8 hours, 9 hours, 10 hours, and 11 hours slow, respectively.

Standard time signals are transmitted from the U. S. Naval Observatory through NSS (Annapolis) and over wires to various points using this service.

The National Bureau of Standards broadcasts continuously over Station WWV, second signals of very high precision, on 2.5, 5, 10, 15, 20, 25, 30 and 35 megacycles.

Standard Time Zones of the World

Source: U. S. Navy Hydrographic Office

Standard time for the world, as in the case of longitude, is reckoned from Greenwich, England, which is recognized as the Prime Meridian. The world is considered as being divided into 24 zones, each 15° of arc, or one hour in time apart. The meridian of Greenwich (0°) extends through the center of the initial zone, and the zones to the eastward are numbered from 1 to 12 with the prefix "minus" indicating the number of hours to be subtracted to obtain Greenwich time. The zones to the westward are similarly numbered, but prefixed "plus" showing the number of hours that must be added to get Greenwich time. While these zones apply generally to sea areas, it should be noted that the standard time maintained in many countries does not coincide with zone time. A graphical representation of the zones is shown on the Time Zone Chart of the World (H.O. 5192) published by the U. S. Hydrographic Office, Washington, D. C.

To facilitate the designation of zone time in coded messages and for quick references, a system employing alphabetical suffixes is coming into wider usage for expressions of zone time. The 12 "plus zones" west of the Greenwich, or "Zero (Z) zone", use the letters N through Y, consecutively; the 12 "minus zones", east of Greenwich, use the letters A through M (except J). The following table shows the time zones, descriptions and suffixes:

Zone	Description	Suffix	Zone	Description	Suffix
7½° W. to 7½° E.	0	Z	7½° W. to 22½° W.	+ 1	N
7½° E. to 22½° E.	− 1	A	22½° W. to 37½° W.	+ 2	O
22½° E. to 37½° E.	− 2	B	37½° W. to 52½° W.	+ 3	P
37½° E. to 52½° E.	− 3	C	52½° W. to 67½° W.	+ 4	Q
52½° E. to 67½° E.	− 4	D	67½° W. to 82½° W.	+ 5	R
67½° E. to 82½° E.	− 5	E	82½° W. to 97½° W.	+ 6	S
82½° E. to 97½° E.	− 6	F	97½° W. to 112½° W.	+ 7	T
97½° E. to 112½° E.	− 7	G	112½° W. to 127½° W.	+ 8	U
112½° E. to 127½° E.	− 8	H	127½° W. to 142½° W.	+ 9	V
127½° E. to 142½° E.	− 9	I	142½° W. to 157½° W.	+10	W
142½° E. to 157½° E.	−10	K	157½° W. to 172½° W.	+11	X
157½° E. to 172½° E.	−11	L	172½° W. to 172½° E.	+12	Y
172½° E. to 172½°W.	−12	M			

Note.—G. C. T. is indicated by suffix Z. For time midway between zones both letters should be used.

Standard Time Differences—United States Cities

Source: Interstate Commerce Commission

At 12 o'clock U. S. Eastern Standard Time, the clocks in the cities of the United States are:

Atlanta, Ga.	12.00 NOON	Galveston, Tex.	11.00 A.M.	Omaha, Nebr.	11.00 A.M.

Cape Town	7.00 P.M.						

*Indicates morning of the following day.

In recent years, the following territories have decreed Summer or Daylight Saving Time (one hour in advance of Standard Time); normally these changes may be expected annually during the local summer season: Albania, Argentina, Australia, Balearic Is., Belgium, Bermuda, Chatham Is., China, Cuba, Cyprus, Cyrenaica, Denmark, Dominica, Egypt, Eire, Falklands, France, French Guiana, Gambia, Germany, Gibraltar, Great Britain and Northern Ireland, Iceland, Italy, Lebanon, Mexico, Monaco, Netherlands, Newfoundland, Norway, Palestine, Peru, Portugal, South Africa, Spain, Spanish Morocco, Syria, Turkey, United States of America, and U.S.S.R. (in force throughout the year).

Astronomical Time

Source: National Bureau of Standards; Interstate Commerce Commission

Time is the measurement of the earth's rotation on its axis. This rotation causes the stars to appear to cross the sky from east to west, in the same manner as the Sun.

Even if the Earth did not rotate at all on its own axis, the Sun would rise and set once during the year because of the Earth's journey around it.

The stars are not within the Earth's orbit. They are so far distant that their apparent positions are only very slightly affected by the Earth's orbital motion.

The positions of the stars are commonly reckoned from a point in the sky known as the vernal equinox. That point moves very slowly among the stars.

The period of the Earth's rotation measured with respect to the Vernal Equinox is called a sidereal day, or apparent equinoctial day.

The period measured with respect to the Sun is called an apparent solar day.

The apparent solar and sidereal days are of variable length.

The longest apparent solar day occurs about Dec. 23, and it exceeds the average day in length by approximately 30 seconds. In order to overcome this objection, *mean* time has been devised.

Mean solar time, which is universally used in ordinary life, is sometimes ahead of and sometimes behind apparent solar time, the two being the same only four times in a year. The difference between these two kinds of time is called the equation of time. Its maximum value is a little over 16 minutes.

The difference between mean equinoctial and apparent equinoctial or sidereal time is due to nutation. Its greatest value is only a little over a second, and its greatest daily change is a little more than a hundredth of a second.

On account of the fact that this difference is so small, sidereal time has generally been used by astronomers. In recent years a few observatories, including the Naval Observatory, have begun to employ mean equinoctial time in computing the rates of precision clocks.

The Calendar Year begins at the stroke of 12 on the night of Dec. 31. The solar day and the calendar month also begin at midnight. The interval during which the Earth makes one absolute revolution round the Sun is called a Sidereal Year, and consists of 365 days, 6 hours, 9 minutes and 9.6 seconds of mean solar time.

The Tropical Year, on which the return of the seasons depends, is the interval between two consecutive returns of the Sun to the Vernal Equinox.

The Tropical Year, therefore, consists of 365 days, 5 hours, 48 minutes and 46 seconds. The Tropical Year is not of uniform length; it is now slowly decreasing at the rate of .530 second per century, but this variation will not always continue.

"International" Date Line

Source: U. S. Navy Hydrographic Office

In 1884, the International Meridian Conference, held at Washington, D. C., established the meridian passing through Greenwich, England, as the prime meridian from which time was to be counted or reckoned. Inasmuch as there was no formal agreement entered into by the nations attending, as to an "International Date Line", as such, the line delineating the change from American to Asiatic time is designated simply as the "Date Line." The 180th meridian, because it is midway around the earth from the prime meridian and passes generally through ocean areas, became the logical selection for a Date Line. The line deviates somewhat from the 180th meridian to include islands of the same group in the time zone having the same date. The Date Line is defined as follows:

Starting at the North Pole (theoretically) it extends southward on the 180th meridian to 75° N.; thence southwestward, passing between the Diomede Is. to 65° N., 169° W.; thence southwestward to 52° 30′ N., 170° E.; thence southeastward to the 180th meridian at 48° N.; thence south on the 180th meridian to 5° S.; thence southeastward to 15° 30′ S., 172° 30′ W.; thence south on the 172° 30′ W. meridian to 45° 30′ S.; thence southwestward to 51° 30′ S. on the 180th meridian; thence south on the 180th meridian to the South Pole (theoretically).

When crossing this line in a westerly direction (i. e., from west longitude to east longitude), the date must be advanced 1 day, and when crossing in an easterly direction (east longtitude to west longtitude), the date must be set back 1 day.

The line is so bent that it passes through Bering Strait with Asia to the West and Alaska to the East, then bends West so as to leave all the Aleutian Islands on the East. The line turning east again follows the 180° meridian again until 5° below the equator, when it bends to the east toward the Samoan Islands which are left to the east and away from the Fiji Islands to the west. It continues south on the meridian of 172°30′ W., east of Tonga Islands and New Zealand, to 45°30′ S., thence the line continues southwesterly to the 180th meridian at 51°30′ S., thence southerly on the 180th meridian to the Pole.

Table of Magnetic Declination

Values observed at selected points, reduced to January 1949; also the annual change. A plus (+) sign to the annual change denotes increasing declination, and a minus (—) sign the reverse. (Specially prepared for The World Almanac in the Office of the U. S. Coast and Geodetic Survey. Further information may be obtained by addressing The Director, U. S. Coast and Geodetic Survey, Washington 25, D. C.)

The Aurora

Source: Department of Research in Terrestrial Magnetism, Carnegie Institution of Washington

The Aurora Borealis and Aurora Australis are displays of light in the high levels of the Earth's atmosphere which at times become very bright and colorful. They are most frequently seen in two broad belts which lie approximately along the boundaries of the polar regions.

The Aurora Borealis or northern lights show greatest intensity and frequency along a path which crosses North America from Alaska in a southeasterly direction to Hudson Bay and Labrador. This line skirts the northern coast of Norway and Siberia, crosses northern Alaska, and skirts the south coast of Greenland and Iceland.

The Australis or southern-light zone is situated over the Antarctic continent and the little-known Antarctic seas.

Intense and widely spread auroral displays are associated with high sunspot-activity and worldwide magnetic-electric storms. At such times auroral displays are seen as far south as the West Indies in the Northern Hemisphere, and as far north as Australia and New Zealand in the Southern Hemisphere.

The region in which auroral displays occur has been found to be approximately between fifty and two hundred miles above the Earth's surface. Analysis of the light of aurora has shown that it is produced by electrical discharges in oxygen and nitrogen.

The various shapes and directions usually assumed by the aurora and their positions with respect to the Earth's magnetic field show that this magnetic field and its variations are controlling factors in the formation of displays.

The association of aurorae with solar and terrestrial magnetic-electric phenomena indicates that the sun is the source of energy that produces the aurorae. The electrical condition of the upper atmosphere is largely determined by the incident ultra-violet light and streams of charged corpuscles from the sun and by high-speed charged corpuscles from outer space, known as cosmic rays.

The exact mechanism by which one or more of these forms of energy produce the aurorae is not known. New researches under way upon auroral and geomagnetic data, also using radio waves to analyze the different regions of the Earth's upper atmosphere, will facilitate an understanding of this mechanism.

Weather Bureau Signals

Source: Weather Bureau

Small Craft Warning—A red pennant indicates at moderately strong winds that will interfere th the safe operation of small craft are expected. night display of small craft warnings is made.

Northeast Storm Warning—A red pennant above square red flag with black centre displayed by y, or two red lanterns, one above the other, dis- ayed by night, indicates the approach of a storm marked violence with winds beginning from the rtheast.

Southeast Storm Warning—A red pennant below square red flag with black centre displayed by y, or one red lantern displayed by night, in- cates the approach of a storm of marked violence th winds beginning from the southeast.

Southwest Storm Warning—A white pennant be- w a square red flag with black centre displayed by day, or a white lantern below a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the southwest.

Northwest Storm Warning—A white pennant above a square red flag with black centre displayed by day, or a white lantern above a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the northwest.

Hurricane, or Whole Gale Warning—Two square flags, red with black centres, one above the other, displayed by day, or two red lanterns, with a white lantern between, displayed by night, indicate the approach of a tropical hurricane, or of one of the extremely severe and dangerous storms which occasionally occur.

LOCAL INDICATIONS FOR FORETELLING THE WEATHER

(Adapted for use with aneroid barometers)

Barometer	Wind from	Weather Indicated
gh and steady	SW to NW	Fair and little temperature change for one or two days.
gh and rising rapidly	SW to NW	Fair followed by warmer and rain within two days.
ry high, falling slowly	SW to NW	Fair and slowly rising temperature for two days.
gh and falling slowly	S to SE	Rain within 24 hours.
gh and falling rapidly	S to SE	Increasing wind with rain in 12 to 24 hours
gh and falling slowly	SE to NE	Rain in 12 to 18 hours.
gh and falling rapidly	SE to NE	Increasing wind with rain in 12 hours.
gh and falling slowly	E to NE	Summer—light winds, fair. Winter—rain in 24 hours.
gh and falling rapidly	E to NE	Summer—rain in 12 to 24 hours. Winter—rain or snow and increasing winds.
w and falling slowly	SE to NE	Rain will continue one or two days.
w and falling rapidly	SE to NE	Rain and high wind; clearing and cooler in 36 hours.
w and rising slowly	S to SW	Clearing soon and fair several days.
w and falling rapidly	S to E	Severe storm soon, clearing and cooler in 24 hours.
w and falling rapidly	E to N	Northwest gales with heavy rain or snow, followed in winter by cold wave.
w and rising rapidly	Going to W	Clearing and colder.

Normally, highs that follow lows, bring clearing ather, while lows that follow highs cause un- tled weather.

Although highs and lows sometimes remain sta- nary or even retrograde, they usually move across the country from a westerly quarter, passing off to the northeast. The average speed of lows ranges from 477 to 718 miles a day, of highs from 485 to 594 miles a day; the higher speeds governing in Winter, lower in Summer.

Winds, Their Force and Official Designations

ght.....	4 to 7	Fresh.....	19 to 24				

Cyclone is the name applied to a system of nds circulating about a center of low barometric ssure at the earth's surface. The winds blow rally inward toward the center and the whole tem may travel at the rate of 20 miles or more hour. The direction in equatorial latitudes is m east to west and in northern latitudes from st to east. In a cyclone the wind rotates around e center in a direction opposite the hands of lock.

A tornado is a storm along a path seldom more an a few hundred yards in width and of 20 to miles in length. The tornado is generally ac- mpanied by a funnel shaped cloud around which the winds revolve in a direction opposite to the hands of a clock. Tornadoes sometimes rise and fall, which accounts for whole sections unscathed along a path of demolished buildings and up- rooted trees.

A hurricane is a tropical cyclone, accompanied by low barometric pressure and high winds which sometimes attain a velocity of 100 miles an hour or more. The winds take the form of a circle or oval shaped area, sometimes as much as 300 miles in diameter. Hurricanes usually move toward the west or northwest at from 10 to 15 miles an hour. When the center of the hurricane approaches 25 to 30 degrees North latitude the direction of the motion usually changes to northeast.

Notable Telescopes

Astronomical telescopes are of two kinds, refracting and reflecting.

In the first, the light falls upon a lens which converges the rays to a focus, where the image may be magnified by a second lens, called the eyepiece, or may be directly photographed.

The reflector consists of a concave mirror, generally of glass coated with silver or aluminum, which throws the rays back toward the upper end of the telescope, where they fall on the eyepiece or on the photographic plate, as in the case of the refractor. In some telescopes the light is reflected again by a secondary mirror and comes to a focus either to the side or after passing through a hole in the principal mirror.

Since the rays of light do not pass through the mirror, far less perfect glass is required and reflectors can be made much larger than refractors.

For many kinds of celestial photography reflectors are better than refractors.

The largest refractors in the world are: 40-inch of the University of Chicago, at the Yerkes Observatory, William Bay, Wis. (62 feet long); 36-inch of the University of California, at the Lick Observatory, Mount Hamilton; 32½-inch, in the observatory at Meudon, France; 31½-inch, in the astrophysical observatory at Potsdam, Germany; 30-inch, at Pulkova, Russia; 30-inch, Univ. of Paris, at Nice; 28-inch, in Royal Observatory, Greenwich, England; 30-inch photographic refractor of the University of Pittsburgh; the 26-inch instruments at the U. S. Naval Observatory, Washington, and at the University of Virginia; the 27-inch refractor of the University of Michigan, at Bloemfontein, South Africa; the 26-inch refractor of Yale University, at Johannesburg, South Africa.

The largest reflectors are: 74-inch, David Dunlop Observatory, University of Toronto, at Richmond Hill, 12 miles north of Toronto, Can.; 72-inch, in the Dominion Astrophysical, Victoria, B. C.; 69-inch, Ohio Wesleyan University, Delaware, O.; 100-inch, Carnegie Institution, Mt. Wilson, Calif.; 61-inch, Oak Ridge station of Harvard; 60-inch, Harvard Univ., in South Africa; 48½-inch, Berlin-Babelsburg, Germany; 42-inch, Lowell Observatory, Flagstaff, Ariz.; 39¼-inch, Hamburg University, Bergedorf, Germany; 37½-inch, Observatory of the University of Michigan, at Ann Arbor; 36-inch, of the University of California, in the Lick Observatory, Mt. Hamilton; 36-inch, in The Catholic University, at Santiago, Chile; 36-inch, in the Steward Observatory, Tucson, Ariz. A new 82-inch reflector (dedicated May 5, 1939) is on Mt. Locke, near Fort Davis, Texas, financed jointly by the University of Texas and the University of Chicago; 24-inch, Observatory of the University of Michigan, near Portage Lake 15 miles west of Ann Arbor.

A 200-inch reflecting telescope of the California Institute of Technology, Pasadena, Calif., is the largest in the world. It is situated on Mt. Palomar, 66 miles north of San Diego, Calif. The telescope, dedicated (June 3, 1948) penetrates 1,000 million light years in the sky. It was christened Hale Telescope in honor of the astronomer, George Ellery Hale.

The 74-inch reflector of the Dunlop Observatory has a glass of Pyrex.

A 74-inch reflector is being made for the new Radcliffe Observatory at Pretoria, So. Africa. The mirror is of Pyrex glass.

Pyrex Mirror, the 82-inch of the McDonald Observatory on Mt. Locke.

Photographic refractions having a two, three or four lens objective are smaller in size and shorter in length. The best known of these are: the 24-inch of the Harvard Observatory at its station in South Africa; two of 16 inches at Heidelberg and at the Harvard Observatory; the 10-inch Bruce telescope at the Yerkes Observatory; and the twin 20-inch at the University of California.

The light-gathering power of a telescope is proportional to the area of its lens or mirror. The 40-inch Yerkes refractor increases the amount of light forty thousand times that received by the eye.

The magnifying power of a telescope is proportional to the ratio of the length of focus of the large lens to that of the eyepiece.

Comets, Meteors

Donati's was the finest comet of the nineteenth century and is known as the typical comet. In October, 1858, its tail reached halfway from the horizon to the zenith. Its period is 2,000 years.

A comet increases in brilliancy as it approaches the sun and fades rapidly as it departs. There are three parts, nucleus, coma, and tail; the nucleus is supposed to be composed of stones or particles of dust. One can see stars through comets.

COMETS THAT HAVE MADE PERIHELION PASSAGES

The largest meteorite of which the date of fall is known is the one which crashed to earth on Feb. 17, 1930, about 14 miles southwest of Paragould, Ark. It split into fragments. One weighed 820 lbs., another 80 lbs., and there were many small pieces.

Polar Star, 1950

Mean time of upper transit (at Washington) and Polar Distance of Polaris

Upper transit of Polaris occurs, on the average, 3m. 56s. earlier each day. The interval between lower and upper transit of Polaris is 11h. 58m. 2s. At the latitude of Washington, D. C., the greatest Eastern elongation of Polaris occurs 5h. 56m. before upper transit and 6h. 2m. after lower transit, while the greatest Western elongation occurs 5h. 56m. after upper transit and 6h, 2m. before lower transit.

The Sun

The Sun has a diameter of 864,100 miles, and is stant, on the average, 92,900,000 miles from the rth. It is supposed to be about one-and-a-half nes as dense as water. The light of the Sun aches the earth in 498.7 seconds or slightly more an eight minutes. The average surface solar mperature has been measured by several indirect thods which agree very closely on a value of 00 degrees, Centigrade, or about 10,000 degrees, hrenheit.

When sunlight is analyzed with a spectroscope, is found to consist of a continuous spectrum mposed of all colors of the rainbow, in order, ossed by dark lines. These "absorption lines" e produced by the gaseous materials in the mosphere of the Sun. Of these materials, almost t have been identified. More than 60 of the 92 own terrestrial elements have been identified in e Sun, all in vaporous form because of the in- nse heat of the Sun.

The radiating surface of the Sun is called the otosphere, and just above it is the chromosphere, hich is a kind of atmosphere in a constant state agitation as if stirred by spouting gases. The romosphere is visible to the naked eye only at nes of total solar eclipse, appearing to be a nkish-violet layer sometimes with great flame- e masses which are called prominences projecting ove its general level. With proper instruments e chromosphere can be seen or photographed henever the Sun is visible without waiting for an lipse. Above the chromosphere is the corona, also sible to the naked eye only at times of total eclipse, but instruments have been developed to permit the brighter portions of the corona to be studied at certain high mountain observatories without waiting for an eclipse. Its pearly light surges, in places, as far as 1,000,000 miles or more. The corona, in the opinion of astronomers, probably always is visible at points outside the atmosphere of the earth.

While it was believed for a while that the corona might consist of materials unknown on the earth, the increasing knowledge of the composition and behavior of matter made it certain that materials in the corona would be found to be familiar, but conditions in the corona would be quite unlike those in terrestrial laboratories. In 1942, theoretical studies indicated that iron, nickel and calcium, all in a terrifically high state of excitation because of some unknown source of energy, are the principal contributors to the composition of the corona.

There is an intimate connection between Sun spots and the corona. Sun spots are dark, cloud like regions from 500 to 50,000 miles in diameter which sometimes last more than a year; the record is 18 months. It is common to find a Sun spot which persists for three weeks. They increase in number in 11-year cycles.

The Sun sends out 400,000 times as much light as the moon. We receive from the Sun more light than we receive from the star Aldebaran. Aldebaran sends out 160 times as much light as the Sun but we receive 4,000,000,000 times as much light from the Sun as we receive from Aldebaran because the Sun is so much closer than the star.

The Poles of the Earth

Source: Department of Research in Terrestrial Magnetism, Carnegie Institution of Washington

The geographic (rotation) poles, or points where ie Earth's axis of rotation cuts the surface, are ot absolutely fixed in the body of the Earth. The ole of rotation describes an irregular curve about s mean position.

Two periods have been detected in this motion: .) an annual period due to seasonal changes in arometric pressure, load of ice and snow on the rface and to other phenomena of seasonal char- cter; (2) a period of about fourteen months due the shape and constitution of the Earth.

In addition there are small but as yet unpre- ctable irregularities. The whole motion is so nall that the actual pole at any time remains ithin a circle of thirty or forty feet in radius entered at the mean position of the pole.

The pole of rotation for the time being is of ourse the pole having a latitude of 90° and an ndetermined longitude.

The north magnetic pole of the Earth is that egion where the magnetic force is vertically ownward and the south magnetic pole that region here the magnetic force is vertically upward. A ompass placed at the magnetic poles experi- nces no directive force.

There are slow changes with time in the dis- ribution of the Earth's magnetic field. These anges were at one time attributed in part to a eriodic movement of the magnetic poles around ie geographic poles, but later evidence refutes his theory and points, rather, to a slow migra- on of "disturbance" foci over the Earth.

There appear shifts in position of the magnetic oles due to the changes with time in the Earth's agnetic field. The center of the area designated s the north magnetic pole was estimated to be in about latitude 70.°5 N and longitude 96° W in 1905; from measurements nearby on board the British plane "Aries" the position in 1945 was tentatively estimated as latitude 76° N and longitude 102° W.

The position of the south magnetic pole in 1912 was near 71° S and longitude 150° E; a shift to about 68° S, longitude 145° E by 1945 has been estimated but not confirmed.

The direction of the horizontal component of the magnetic field at any point is known as magnetic north at that point, and the angle by which it deviates east or west of true north is known as the magnetic declination, or in the mariner's terminology the variation of the compass.

A compass without error points in the direction of magnetic north. (In general this is *not* the direction of the magnetic north pole.) If one follows the direction indicated by the north end of the compass, he will travel along a rather irregular curve which eventually reaches the north magnetic pole (though not usually by a great-circle route). However, the action of the compass should not be thought of as due to any influence of the distant pole, but simply as an indication of the distribution of the Earth's magnetism at the place of observation.

There is always some part of the Earth where the variation of the compass is zero, that is, the northward compass-direction coincides with the true northward direction.

About 1800 the line of no variation crossed the United States, passing between Washington and Baltimore. It now crosses the United States from Michigan to South Carolina. In Europe the line of no variation passed through London in 1655, through Paris in 1670, and now passes near Athens.

Chronological Eras

Name	Began
Grecian Mundane Era	B. C. 5598, Sept. 1
Civil Era of Constantinople	" 5508, Sept. 1
Alexandrian Era	" 5502, Aug. 29
Julian Period	" 4713, Jan. 1
Mundane Era	" 4008, Oct. 1
Jewish Mundane Era	" 3761, Oct. 1
Era of Abraham	" 2015, Oct. 1
Era of the Olympiads	" 776, July 1
Roman Era (A. U. C.)	" 753, April 24
Era of Metonic Cycle	" 432, July 15
Grecian or Syro-Macedonian Era	B. C. 312, Sept. 1
Era of Maccabees	" 166, Nov. 24
Tyrian Era	" 125, Oct. 19
Sidonian Era	" 110, Oct. 1
Julian Era	" 45, Jan. 1
Spanish Era	" 38, Jan. 1
Augustan Era	" 27, Feb. 14
Christian Era	A. D. 1, Jan. 1
Destruction of Jerusalem	" 69, Sept. 1
Mohammedan Era	" 622, July 16

The year 1950 of the Christian era comprises the atter part of the 174th and the beginning of the 75th year of the independence of the United States f America.

The year 1950 corresponds to the year 7458-7459 f the Byzantine era; 5710-5711 of the Jewish era, he year 5711 commencing at Sunset, September 11, 1950; 2703 since the foundation of Rome, according to Varro; 2726 of the Olympiads, or the second year of 682 Olympiad commencing July 1; 2610 of the Japanese era, and the 25th year of the period Showa; 1369-1370 of the Mohammedan era, the year 1370 commencing at Sunset, October 12, 1950.

Chronological Cycles, 1950

Dominical Letter	A	Solar Cycle	27
Epact	11	Roman Indiction	3
Lunar Cycle or Golden Number	13	Julian Period	6663

Astronomical Constants

Mean solar parallax, 8″.80. Nutation constant, 9″.21.

Aberration constant, 20″.47. Annual precession, 50″.2564+0″.000222 (t—1900).

Obliquity of the ecliptic, 23° 27′ 8″.26—0″.4684 (t—1900).

Annual diminution of obliquity, 0″.4684.

Moon's equatorial horizontal parallax, 57′ 2″.70.

Moon's mean distance from the earth (centre to centre), 238,857 miles.

Sun's mean distance from the earth (astronomical unit), 92,897,416 miles.

Velocity of light, 186,324 miles per second.

Light travels unit of distance—viz. 92,897,416 miles in 498.5800 seconds.

Length of the Year—Tropical (equinox to equinox) 365.2421988 days. Sidereal or absolute revolution, 365.2563604 days. Anomalistic (from perihelion to perihelion), 365.2596413 days.

Length of Day—Sidereal, 23 hours 56 minutes 4.091 seconds (mean solar time). Mean solar, 24 hours 3 minutes 56.555 seconds (sidereal time).

Length of the Month—Synodical (from new moon to new moon), 29 days 12 hours 44 minutes 2.8 seconds. Tropical, 27 days 7 hours 43 minutes 4.7 seconds. Sidereal (absolute revolution), 27 days 7 hours 43 minutes 11.5 seconds. Anomalistic (from perigee to perigee), 27 days 13 hours 18 minutes 33.1 seconds.

Dimensions of the Earth—Equatorial radius, 3,963.34 miles; equatorial diameter, 7,926.677 miles; equatorial circumference, 24,902 miles. Polar radius, 3,949.99 miles; polar diameter, 7,899.998 miles; meridianal circumference, 24,860 miles. Eccentricity of the oblate spheroid, 0.0819981.

Astronomical Signs and Symbols

☉	The Sun.	⊕	The Earth.
☾	The Moon.	♂	Mars.
☿	Mercury.	♃	Jupiter.
♀	Venus.	♄	Saturn.
♅	Uranus.	□	Quadrature.
♆	Neptune.	☍	Opposition.
♇	Pluto.	☊	Ascending Node.
☌	Conjunction	☋	Descending Node.

Two heavenly bodies are in "conjunction" (☌) when they have the same Right Ascension, or are on the same meridian, i. e., when one is due north or south of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time; they are in "opposition" (☍) when in opposite quarters of the heavens, or when one rises as the other is setting. "Quadrature" (□) is half way between conjunction and opposition. By "greatest elongation" is meant the greatest apparent angular distance from the sun the planet is then generally most favorably situated for observation. Mercury can be seen with the naked eye only at this time. When a planet is in its "ascending" (☊) or "descending" (☋) node it is passing through the plane of the earth's orbit. The term "Perihelion" means nearest to the sun, and "Aphelion" farthest from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

The Zodiac

The sun's apparent yearly path among the stars is known as the ecliptic. The zone 16° wide, 8° on each side of the ecliptic, is known as the zodiac. Beginning at the point on the ecliptic which marks the position of the sun at the vernal equinox, and thence proceeding eastward, the zodiac is divided into twelve signs of 30° each, as shown herewith.

These signs are named from the twelve constellations of the zodiac with which the signs coincided in the time of the astronomer Hipparchus, about 2,000 years ago. Owing to the precession of the equinoxes, that is to say, to the retrograde motion of the equinoxes along the ecliptic, each sign in the zodiac has, in the course of 2,000 years, moved backward 30° into the constellation west of it; so that the sign Aries is now in the constellation Pisces, and so on. The signs of the zodiac with their Latin and English names are as follows:

Spring Signs.	1. ♈ Aries.	The Ram.
	2. ♉ Taurus.	The Bull.
	3. ♊ Gemini.	The Twins.
Summer Signs.	4. ♋ Cancer.	The Crab.
	5. ♌ Leo.	The Lion.
	6. ♍ Virgo.	The Virgin.
Autumn Signs.	7. ♎ Libra.	The Balance.
	8. ♏ Scorpius.	The Scorpion.
	9. ♐ Sagittarius.	The Archer.
Winter Signs.	10. ♑ Capricornus.	The Goat.
	11. ♒ Aquarius.	The Water-Bearer.
	12. ♓ Pisces.	The Fishes

Days Between Two Dates

(The table applies to ordinary years only. For leap year, one day must be added after Feb. 28.)

Day Mo.	Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.

The minus (—) sign indicates temperatures below zero. Fahrenheit thermometer registration.

Annual Snowfall (Inches)—Denver, Colo., 55.2; Eastport, Maine, 70.2; Boston, Mass., 43.0; Detroit, Mich., 39.7; Sault Ste. Marie, Mich., 79.7; Minneapolis, Minn., 41.0; Helena, Mont., 54.5; Albany, New York, 49.7; Rochester, N. Y., 75.4; Cleveland, O., 41.6; Salt Lake City, Utah, 46.2; Burlington, Vt., 65.6; Cheyenne, 56.8; Juneau, Alaska, 105.7.

Highest Temperature—The National Geographic Society notes the highest temperature ever recorded under standard conditions was taken on Sept. 13, 1922 in northwestern Iibia, about 25 miles south of Tripoli, the thermometer soared to 136.4 degrees.

Lowest Temperature—A reading still recognized as the world's record for sub-freezing temperatures was taken in February 1892 in the northern Siberia village of Verkhoyansk, the thermometer there hit 90 degrees below zero.

These are the meteorological champions—the official temperatures extremes—but there are plenty of other claimants to thermometer fame. However, sun readings are unofficial records, since meteorological data to qualify officially must be taken on instruments in sheltered and ventilated locations.

The Meaning of "1 Inch of Rain"

An acre of ground contains 43,560 square feet. Consequently, a rainfall of 1 inch over 1 acre of ground would mean a total of 6,272,640 cubic inches of water. This is equivalent to 3,630 cubic feet.

As a cubic foot of pure water weighs about 62.4 pounds, the exact amount varying with the density, it follows that the weight of a uniform coating of 1 inch of rain over 1 acre of surface would be 226,512 pounds, or 113¼ short tons.

The weight of 1 U. S. gallon of pure water is 8.345 pounds. Consequently a rainfall of 1 inch over 1 acre of ground would mean 27,143 gallons of water. This is equivalent to 603 barrels of 45 gallons each.

A rainfall of 1 inch on a roof of 3.000 square feet would mean 432,000 cubic inches, or 250 cubic feet available for the cistern. This is equal to 1,870 U. S. gallons, or 41.5 barrels of 45 gallons each.

Ten inches of snow equals in water content, on the average, about one inch of rain.

Daily Precipitation, New York City (Inches) 1948

Includes sleet; "T," trace, less than 0.1 inch. Highest in each column in bold-face figures.

The heaviest snowfall in New York City's history buried the city Dec. 26-27, 1947. Between 3:20 a.m. Dec. 26 and 3:05 a.m. Dec. 27, 25.8 inches of snow fell, or 4.9 inches more than during the blizzard of 1888, which began at 12:10 a.m. March 12 and ended 2:30 p.m. March 14. But the 1947 snowstorm was not classified as a blizzard by the Weather Bureau.

The snowfall for the 1947-48 season was the next to heaviest in the records of the New York Weather Bureau. Between Dec. 10, 1947, and March 11, 1948, 61.5 inches fell. The all-time record was set in the 1892-93 season when 77.6 inches fell.

It is Never Too Cold to Snow

Too cold to snow?

As winter grips many parts of the world in subfreezing temperatures, this age-old "true or false" phrase bobs up to test the lore of weather-wise amateurs. It never gets too cold to snow, but it frequently gets too cold for snow to fall in "flakes."

Flakes fall when the air through which they pass is 32° Fahrenheit or slightly lower. At this temperature the air usually holds enough moisture to allow the flakes to become fat and mat together, and the fall is likely to be heavy.

Absolute Zero—Absolute Temperature

Absolute zero—the point at which, theoretically, all molecular motion ceases—exists at 459.6 degrees below the Fahrenheit and 273.15 degrees below the Centigrade zero points. This is the beginning of what is known in dynamic meteorology as Absolute Temperature, as determined by observation of the contraction of gases when cooled, and from thermo-dynamical considerations.

"A temperature 0.8 degrees, Centigrade, from the absolute zero was reached in 1921 by Kamerling Onnes in the physical laboratory of the University of Leyden," says C. G. Abbott, Secretary of the Smithsonian Institution, at Washington, under date of June 27, 1933.

*Highest and lowest in bold-face figures.

Weather forecasts are furnished in New York City through a special voice recording and reproducing machine of the New York Telephone Company. Four times each day, at 7 and 10:15 A.M. and 4:15 and 10:15 P.M. weather reports are compiled by the Weather Bureau for territory within 50 miles of the city and transmitted to the telephone company. There the reports are recorded on a slender steel tape by a telephone voice expert. When the recorded message has been approved for clarity it is switched to a machine that "speaks" to anyone calling for the weather.

Days' Lengths at N. Y. City—Sunrise to Sunset

(*a*) Also in 1876, 1st day.

New York City Tide Tables 1950

Source: U. S. Coast and Geodetic Survey; Eastern Standard Time; observations made at The Battery

Time meridian 75° W. The hours of the day are numbered consecutively from 0h (midnight) to 24h (11 00 p.m.). 12h is noon. All hours greater than 12 are in the afternoon (p.m.).

Heights are reckoned from the datum of soundings on charts of the locality which is mean low water.

Tide is the rising and falling of the sea and is rightly attributed to the attractive influence of the moon, modified by a similar influence of the sun, which is less in influence because of the distance from the attracting body. Tides at most places occur twice each day, becoming each day later by half an hour to an hour and a half. The rising of the tide is called the flood tide and the falling the ebb tide. Tides do not always rise to the same height. At new and full moon the range is increased (spring tides) while at the moon's quadrature the range is decreased (neap tides). The rise and fall of the tides is also increased when the moon is in perigee (nearest the earth) and decreased when the moon is in apogee (farthest from the earth).

Time of Tides at Points on the Atlantic Coast

Washington, D. C.	2	11

Note—At New Orleans, the periodic rise and fall of the tide varies with the stage of the Mississippi River, being about one foot at low river stage and zero at high river stage.

The highest tides in the world are reported in the Bay of Fundy, between Nova Scotia and New Brunswick, where, under favorable wind and weather conditions, they have been known to reach a height of approximately 60 feet and under normal conditions 50 feet. The mean range at Calais, Maine, is 20 feet but a range in excess of 23 feet can be expected each month.

Visibility at Sea

Source: United States Coast Guard

The table following gives the approximate geographic range of visibility for an object which may be seen by an observer whose eye is at sea level; in practice, therefore, it is necessary to add to these distance of visibility corresponding to the height of the observer's eye above sea level.

DISTANCES OF VISIBILITY FOR OBJECTS OF VARIOUS ELEVATIONS ABOVE SEA LEVEL

Height, Feet	Nautical Miles	Height, Feet	Nautical Miles	Height, Feet	Nautical Miles	Height, Feet	Nautical Miles
5	2.5	55	8.5	110	12.0	450	24.3
10	3.6	60	8.9	120	12.6	500	25.6

45	7.7	95	11.2	350	21.5	1,000	36.2
50	8.1	100	11.5	400	22.9		

The table following gives the approximate geographic range of visibility for an object which may be seen by an observer whose eye is at lake level; in practice, therefore, it is necessary to add to these distance of visibility corresponding to the height of the observer's eye above lake level.

DISTANCES OF VISIBILITY FOR OBJECTS OF VARIOUS ELEVATIONS ABOVE LAKE LEVEL

Height, in feet	Statute Miles	Height, in feet	Statute Miles	Height, in feet	Statute Miles	Height, in feet	Statute Miles
5	2.9	55	9.8	110	13.8	450	28.0
10	4.2	60	10.2	120	14.5	500	29.5
15	5.1	65	10.6	130	15.1	550	31.0
20	5.9	70	11.0	140	15.6	600	32.3
25	6.6	75	11.4	150	16.2	650	33.7
30	7.2	80	11.8	200	18.7	700	34.9
35	7.8	85	12.2	250	20.9	800	37.3
40	8.3	90	12.5	300	22.9	900	39.6
45	8.9	95	12.9	350	24.7	1,000	41.7
50	9.3	100	13.2	400	26.4		

Roughly speaking, the distance of visibility in nautical miles is equal to eight-sevenths of the square root of the height of the light above sea level.

The actual curvature of the surface of the earth for the first mile is about 9 inches, and increases at first approximately as the square of the distance. The approximate curvature effect may be found by multiplying the square of the distance in miles by .6, the answer being in feet.

30-Mile Point, N. Y.	600,000				
Anacapa Isl., Calif.	600,000				
Pauwela Pt., Hawaii	560,000				

The Fire Island, N. Y., Light is 167. ft. high; visible 19.3 nautical miles; distance based on observer's eye being 15 feet above sea level.

Electricity is the illuminant now used in most of the larger lighthouses, electric incandescent lamps placed inside the larger sizes of lenses producing beams of as much as 5,500,000 candlepower where such brilliance is required.

The highest light maintained by the U. S. Coast Guard is on top of the island of Lehua, Hawaiian Islands. This light is 707 feet above the level of the sea.

The highest light on the Pacific coast of continental United States is at Cape Mendocino, Calif., 422 feet above the level of the sea.

The highest light on the Atlantic coast of continental United States is the rear range light of Marcus Hook Range, on the Delaware River, 27 feet above the level of the sea.

Photographic Atlas of the Heavens

A photographic mapping of the heavens, to be known as the National Geographic Society-Palomar Observatory Sky Survey, was begun July 1, 1949, at Mt. Palomar, Calif., as a joint undertaking of the National Geographic Society and the California Institute of Technology. The heavens will be mapped by the Schmidt 48-inch photo-telescope, which, according to the sponsors, "can reach out some 300,000,000 light years" and will be occupied in the task four years. The resulting atlas will contain 2,000 reproductions of photographic plates overlapping 10 to 20 percent. Identical exposures of each area will be made with blue and red filters for purposes of comparison. Possibly 500,000,000 stars will be photographed. Scientific director is Dr. Edwin P. Hubble; photographic director, Dr. Albert G. Wilson.

The Atmosphere

Source: United States Weather Bureau, Washington

e atmosphere is composed of a mixture of which envelops the earth. The permanent near the surface of the earth are mainly gen, oxygen, and argon, which are present in amounts of approximately 78, 21, and 1 per by volume, respectively. Other constituents, nting to less than one-tenth of one per cent, carbon dioxide, hydrogen, neon, helium, con, and xenon. However, there is always a amount of water vapor in the air. It occupies independently of the other gases and varies nount from practically zero to an extreme of 4 per cent by volume. These proportions in the same up to about 65,000 feet; above height observations indicate a slight increase e proportion of the lighter gases. Ozone ap- in very small quantities at low levels, in- es to a maximum at about 65,000 feet, and diminish to about 180,000 feet. Recent spec- pic evidence also indicates the presence of amounts of methane in the upper atmo- e.

e attraction of gravity prevents the gases from ing into space. The air rests upon the earth's ce with the weight equivalent to a layer of 34 feet deep. In other words, at the bottom e atmosphere, the mixture of gases exerts a ure of about 15 pounds per square inch. This ure is exerted equally in all directions.

do not feel the pressure exerted by the air se an equal pressure is exerted from within odies. Neither can we see the gases. We ware of their presence only when the air is otion as wind.

Air, of course, is easily compressed. The density, therefore, is greatest near the surface of the earth because the air is compressed by the weight of all the air that lies above. At sea level the density is only about one eight-hundredth that of water; it follows, then, that the atmosphere would be 800 times 34 feet, in depth, or about 5 miles, if it were of the same density at all altitudes. Actually, however, the density decreases as the height increases because the weight of the air that lies above decreases.

The temperature of the air, except near the surface of the earth, normally decreases with increasing height until a level called the tropopause is reached. The portion of the atmosphere below the tropopause is known as the troposphere, and that above the tropopause, as the stratosphere.

The height of the tropopause, at any one place, varies from day to day; on the average it is higher at lower latitude and higher in summer than in winter, and its range is from 25 to 60 thousand feet, approximately. From the tropopause to 100 or 130 thousand feet, the temperature changes little with height; in this layer the temperature ranges from about —65 degrees Fahrenheit to —115 degrees Fahrenheit. Recent studies have provided some information regarding temperatures of the atmosphere to 400 thousand feet. A warm layer exists near 180 thousand feet, with temperatures as high as 200 degrees Fahrenheit. This warm air is thought to be associated with the heating of the ozone by the ultraviolet component of solar radiation. Another relatively cold layer is found near 260 thousand feet, above which the temperature increases again.

Time, with Respect to the Earth's Rotation

Source: Smithsonian Physical Tables, Eighth Revised Edition

e fluctuations in the earth's rate of rotation ated by astronomical evidence are of a quite er order of magnitude. Moreover, the changes in sign, whereas frictional effects should not. e observations come from deviations of the nd moon from their gravitational orbits, the its of Mercury, the eclipses of Jupiter's satel- Changes in the speed of rotation of the rotation seem the only explanation. s may be due to shifts of matter within or on arth. The following figure by Brown indicates in 1928 the earth was about 25 sec. ahead of erage rotational motion during the last three ries.

The greatest apparent change is the loss or gain of one second in a whole year (1 part in 30,000,000).

Tidal friction should make the earth rotate more slowly and the moon recede from the earth. The rate of dissipation of energy by friction is about 1.4×10^{19} ergs per second.

The earth's rotation from this cause should have slowed by four hours during geologic time.

The moon should continue to recede until its period of revolution and that of the earth's rotation are equal to 47 of our present days.

The moon should then gradually approach the earth, ultimately coming within Roche's limit (about twice the earth's radius), breaking up, possibly, into a ring like Saturn's.

Knots and Miles

Source: United States Coast and Geodetic Survey

e **U. S. Statute Mile** is 5,280 feet in length. he Continent most of the old miles, which ti in length from about 3,300 feet to over 36,000 have been replaced, officially at least, by the eter, which equals 0.62 statute mile or 3,280.8

e **Nautical, Geographic,** or **Sea Mile** at any is considered, for purposes of navigation, to be to the length of one minute of latitude at place.

e **U.S. Nautical Mile** is 6,080.20 feet in length qual to one-sixtieth of a degree of a great of a sphere whose surface is equal in area e area of the surface of the earth (Clarke's oid of 1866).

The **Knot** is a measure of speed; a speed of one knot being a speed of one nautical mile an hour.

A **Nautical Mile**—1.152 statute miles; a **Fathom**—6 feet; a **Cable**—100 fathoms or 600 feet or approximately 0.1 nautical mile.

To convert statute miles into nautical miles, multiply statute miles by 0.8684; to convert nautical miles into statute miles, multiply nautical miles by 1.1516, or roughly 1 1/7.

United States Air Forces and the Navy use the knot as the standard aeronautical unit of speed and the nautical mile as the corresponding unit of distance.

Colors of the Spectrum

or, an electromagnetic wave phenomenon, ensation produced through the excitation of tina of the eye by rays of light. The colors of pectrum may be produced by viewing a light refracted by passage through a prism (tri- ar glass bar) which breaks the light into its is wave lengths.

tomarily, the primary colors of the spectrum nought of as those six monochromatic colors occupy relatively large areas of the spectrum: range, yellow, green, blue and violet. How- Sir Isaac Newton named a seventh, indigo, ed between blue and violet on the spectrum; t estimated (1865) the solar spectrum to con- approximately 1,000 distinguishable hues of , according to Rood (1881) 2,000,000 tints and s can be distinguished; Luckiesh stated (1915) that 55 distinctly different hues have been seen in a single spectrum.

By many physicists, only three primary colors are recognized: red, yellow and blue (Mayer, 1775); red, green and violet (Thomas Young, 1801); red, green and blue (Prof. Clerk Maxwell, 1860).

The color sensation of black is due to complete lack of stimulation of the retina, that of white to complete stimulation. The infra-red and ultraviolet rays, below the red (short) end of the spectrum and the violet end (long end) respectively, are invisible. Heat is the principal effect of the infrared rays, and chemical action that of the ultraviolet rays.

Color has three characteristics: hue, saturation and luminosity. A tint contains more white than a normal spectral hue, while a shade is darker than normal and is produced by decreased illumination or the addition of black.

United States Public Health Service

Surgeon General, Dr. Leonard A. Scheele. Address, Fourth & Independence Ave. S.W. Washington 25, D.C.

The United States Public Health Service is the principal Federal agency specifically charged with matters relating to the protection and improvement of the public health. It engages in extensive health programs in cooperation with States, other Federal agencies, governments of foreign nations, and international agencies. Its affairs are administered by the Surgeon General, the Deputy Surgeon General, and assistant surgeons general in charge of designated administrative bureaus, to which are delegated specific functions by the Surgeon General. Officers of the Regular Corps of the Public Health Service are commissioned by the President, with the advice and consent of the Senate, after they have passed an examination given according to professional category in the several branches of medicine, dentistry, sanitary engineering, pharmacy, nursing or related scientific specialties in the field of public health. The commissioned Regular Corps is supplemented by a Reserve Corps.

The functions of the Public Health Service are prescribed in the Public Health Service Act of 1944 (2) and its amendments and other statutes.

Outstanding Functions of the Service Are:

Research relating to the causes, diagnosis, treatment, control, and prevention of physical and mental diseases and impairments of man. In this work, the Public Health Service maintains several research laboratories, chief among which are those of the National Institutes of Health—including the National Cancer Institute, the National Institute of Mental Health, the National Heart Institute, the National Institute of Dental Research, the Experimental Biology and Medicine Institute, and the Microbiological Institute. In addition to investigations carried on at the Institutes and their field stations, financial assistance is given through research grants to universities, laboratories, and other public and private institutions for research projects, upon recommendations of Service advisory councils. Funds are also available for research fellowships, both in the institutes and in various university medical schools.

Maritime quarantine and inspection of passengers and crews of vessels and airplanes arriving from foreign ports, for the protection of the United States from the importation of quarantinable diseases from other countries. The medical inspection of aliens is performed in collaboration with the Immigration and Naturalization Service of the Department of Justice.

Interstate quarantine for prevention of the spread of diseases from State to State. The Public Health Service assists States in controlling epidemics and may, on request, take complete charge of serious outbreaks.

Financial assistance, through grants-in-aid to States, counties, cities, and health districts, in establishing and maintaining proper sanitation facilities, general public health services—including industrial hygiene, mental hygiene, heart disease control, and cancer control—and special programs for the control of the venereal diseases and tuberculosis; administration of Federal grants-in-aid to the States for the construction of hospitals and community health centers.

Administration of the program for control of pollution of interstate waters.

Supervisory control and licensure of the manufacturers of biological products—vaccines, serums, toxins, anti-toxins, arsenicals, and similar preparations—used in the prevention and treatment of diseases.

Provisions of hospitalization, general medical and dental care, and preventive health services for American merchant seamen, members of the United States Coast Guard, Coast and Geodetic Survey, and for other legal beneficiaries of the Public Health Service.

Assignment of professional personnel to the Coast Guard and Bureau of Prisons to administer and provide health services under, their medical programs; assignment of Public Health Service professional personnel to the Office of Indian Affairs to administer the public health and medical programs of that Office.

Participation in the organization and subsequent functioning of international health organizations.

Collection and publication of national data on births, deaths, marriages, divorces, and similar statistics; assistance to States in establishment of uniform collecting and reporting systems; collection and publication of current data on the prevalence of disease in the United States and foreign countries; dissemination of information relating to the prevention of diseases, the advancement of health and the activities of the Service.

SPORTING EVENTS OF 1949 AND RECORDS

World Series of 1949

Won by New York Yankees (AL), 4 games to 1.

New York	0	0	1	0	0	0	0	0	3	3—4
Brooklyn	0	0	0	1	0	0	0	0	0	2—3

Runs batted in—Rizzuto, Reese, Mize 2, Coleman, Olmo, Campanella.

Two-base hit—Woodling. Home runs—Reese, Olmo, Campanella. Double play—Berra and Coleman. Earned runs—New York 4, Brooklyn 3. Left on bases—New York 5, Brooklyn 6. Bases on balls—Off Branca 4 (Mapes, Henrich, Berra, Woodling), Byrne 2 (Robinson, Hodges), Page 2 (Robinson, Reese). Struck out—By Branca 6 (Berra, DiMaggio 2, Coleman 2, Page), Byrne 1 (Branca), Page 4 (Branca 2, Snider, Edwards), Banta 1 (Page). Hits and runs—Off Byrne, 2 and 1 in 3⅓ innings, Branca 4 and 4 in 8 2-3, Banta 1 and 0 in 1-3, Page 3 and 2 in 5 2-3. Hit by pitcher—By Byrne (Reese). Winner—Page. Loser—Branca.

Umpires—Passarella (AL), plate; Jorda (NL), first base; Hubbard (AL), second base; Reardon (NL), third base; Barr (NL), left field foul line; Hurley (AL), right field foul line. Time of game—2:30. Attendance—32,788 (paid).

How runs were scored—The Yankees' first run was scored in the third. After Mapes walked and Coleman took a third strike, Byrne knocked a 2-1 pitch past Robinson into right field for a single. Mapes advancing to third and scoring after the catch of Rizzuto's fly to right field. The Dodgers' first score came in the fourth inning on Reese's home run into the left field stands. In the ninth inning the Yankees scored three runs to break the tie and win the game. With one out, Berra went to 3-2 and walked. DiMaggio fouled out to third. Brown fouled one, then singled to right, Berra stopping at second. Woodling walked, filling the bases. Mize, batting for Mapes with Bauer running for him, singled to right field, scoring Berra and Brown. Woodling followed to score on Coleman's single to center, Bauer reaching third. Page fanned out. Two home runs into the left field stands, by Olmo and Campanella respectively, completed Dodger scoring for the day.

Statistics—Paid attendance, 32,788; total net receipts, $164,016.71; players' share, $83,648.43; Commissioner's share, $24,602.50; clubs' and leagues' share, $55,765.78.

Three-game totals—Paid attendance, 169,065; total net receipts, $794,556.06; players' share, $405,223.50; Commissioner's share, $119,183.40; clubs' and leagues' share, $270,149.16.

New York	0	0	0	3	3	0	0	0	0	0	—6
Brooklyn	0	0	0	0	0	0	4	0	0	0	—4

Runs batted in—Mapes 2, Lopat, R. Brown 3, Robinson, Olmo, Campanella, Hermanski.

Two-base hits—Reese, R. Brown, Mapes, Lopat. Three-base hit—R. Brown. Double plays—Miksis, Campanella and Robinson; Rizzuto and Henrich. Earned runs—New York 6, Brooklyn 4. Left on bases—New York 7, Brooklyn 5. Bases on balls—Off Newcombe 3 (DiMaggio, Brown, Woodling); Lopat 1 (Robinson); Hatten 2 (Henrich, DiMaggio); Banta 1 (Rizzuto). Struck out—By Lopat 4 (Hermanski, Newcombe, Miksis, Hodges); Reynolds 5 (Jorgensen, Snider, Olmo, Hermanski, Whitman); Banta 1 (DiMaggio). Hits and runs—off Newcombe 5 and 3 in 3 2-3 innings, Hatten 3 and 3 in 1 1-2, Erskine 1 and 0 in 1, Banta 1 and 3 in 3, Lopat 9 and 4 in 5 2-3, Reynolds 0 and 0 in 3 1-3. Winner—Lopat. Loser—Newcombe.

Umpires—Jorda (NL), plate; Hubbard (AL), first base; Reardon (NL), second base; Passarella (AL), third base; Hurley (AL), left field foul line; Barr (NL), right field foul line. Time of game—2:42. Attendance—33,934 (Paid).

How runs were scored—The Yankees first scored in the fourth inning, marking up three runs. With one out, Brown lined a double against the left-center field wall. Woodling walked. Mapes doubled inside the left field corner, scoring Brown and Woodling. Coleman flied out to Olmo, then Lopat doubled off the left center field wall, scoring Mapes. After Hatten replaced Newcombe on the mound, Rizzuto singled to left, but Lopat was out at the plate, Olmo to Campanella. A second three-run score was made by the Yankees in the fifth. Henrich walked and Berra singled past Hodges sending Henrich to second, and Berra advancing to second himself when Miksis missed Hermanski's throw-in. DiMaggio walked to fill the bases. Brown rifled a three-bagger down the right field line, scoring Henrich, Berra and DiMaggio. Woodling flied to Snider in short center. Hermanski caught a bid for a Texas Leaguer by Bauer hitting for Mapes, and Reese threw out Coleman at first on a sharp grounder. The Dodgers did their only scoring—four runs—in the sixth inning. Reese singled on a looping fly in short center. Cox, hitting for Miksis, beat out a roller to left of the mound for a single, Reese stopping at second. Rizzuto stopped Snider's grounder, forced Cox and threw to first to complete a double play, Reese moving to third. Robinson singled to left, scoring Reese, advancing to third on Hodges' single through the middle. Robinson scored on Olmo's single to center, Hodges going to third. Campanella lined Lopat's first pitch over Rizzuto's head for a single, scoring Hodges and sending Olmo to second. Olmo scored on Hermanski's single over Henrich's head, and Campanella reached third base. Reynolds, replacing Lopat on the Yankee mound, struck out Jorgensen, batting for Erskine.

Statistics—Paid attendance, 33,934; total net receipts, $176,906.37; players' share, $85,632.25; Commissioner's share, $25,185.96; clubs' and leagues' share, $57,088.16.

Four-game totals—Paid attendance, 202,999; total net receipts, $962,462.43; *players' share, $490,855.75; Commissioner's share, $144,369.36; clubs' and leagues' share, $327,237.32.

New York	2	0	3	1	1	3	0	0	0	—10
Brooklyn	0	0	1	0	0	1	4	0	0	— 6

Runs batted in—DiMaggio 2, R. Brown 2, Coleman 3, Raschi, Berra, Reese, Hermanski, Robinson, Hodges 3.

Two-base hits—Campanella, Woodling 2, Snider, Coleman, Miksis. Three-base hit—R. Brown. Home runs—DiMaggio, Hodges. Sacrifices—Rizzuto, Mapes. Double play—Page, Rizzuto and Henrich. Earned runs—New York 10, Brooklyn 6. Left on bases—New York 9, Brooklyn 9.

Bases on balls—Off Barney 6 (Rizzuto, Henrich, Woodling, Raschi, R. Brown, Mapes); Erskine 1 (Rizzuto); Palica 1 (DiMaggio); Raschi 4 (Robinson, Campanella, Jorgensen, Hermanski); Page 1 (Hermanski). Struck out—By Barney 2 (Berra, Mapes); Banta 2 (R. Brown, Raschi); Palica 1

(Rizzuto); Raschi 7 (Snider 2, Rackley 2, T. Brown, Hodges, Cox); Page 4 (Olmo, Snider, Robinson, Hodges). Hits and runs—Off Barney 3 and 5 in 2 2-3 innings, Banta 3 and 2 in 2 1-3, Erskine 2 and 3 in 2-3, Hatten 1 and 0 in1-3, Palica 1 and 0 in 2, Minner 1 and 0 in 1, Raschi 9 and 6 in 6 2-3, Page 2 and 0 in 2 1-3. Winner—Raschi. Loser—Barney.

Umpires—Hubbard (A), plate; Reardon (N), first base; Passarella (A), second base; Jorda (N), third base; Barr (N), left field foul line; Hurley (A), right field foul line. Time of game—3:04. Attendance—33,711 (paid).

How runs were scored—The Yankees' first two runs were scored in the first inning. Rizzuto and Henrich walked. Berra struck out and DiMaggio flied out to center field, Rizzuto scoring. Henrich scored on Brown's line single through the middle. Three Yankee runs were scored in the third. Brown walked, Woodling singled past Robinson, and Mapes walked, filling the bags. Brown and Woodling scored on Coleman's single into left field. Rizzuto flied out. Mapes scored on Raschi's single to center. The Dodgers scored once in their half of the third. With one out, Campanella doubled hard down the left line. Banta rolled out. Campanella scored on Reese's single to right. The Yankees scored one run in the fourth—a homer by DiMaggio into the lower stands—and another in the fifth when Woodling opened with a hot double to right and later scored on Coleman's grounder to Hodges. The Yankees' final three winning runs were scored in the sixth inning. Rizzuto walked, reaching third on Henrich's single through the vacant left side. Rizzuto scored on Berra's deep fly to left, followed by Henrich on Brown's triple. Brown scored when Robinson's relay to the plate skipped past Campanella. The Dodgers scored their second run of the game in the sixth. Snider doubled to left center. Robinson walked. Snider scored on Hermanski's single through the right. Robinson reaching third on Mapes' bobble. Hodges fanned, Rackley bounced out to Henrich, and pinch-hitter Cox went out on a called third strike. Brooklyn scored four more runs in the seventh. With one out, Jorgensen walked, advancing to third on Snider's single through the right side, and scoring on Robinson's deep fly to left. Hermanski walked. Robinson, Hermanski and Hodges scored on Hodges' home run into the left field stands.

Statistics—Paid attendance, 33,711; total net receipts, $167,165.45; Commissioner's share, $25,074.81; clubs' and leagues' share, $142,090.64.

Five-game totals—Paid attendance, 236,710; **total net receipts, $1,129,627.88; *players' share, $490,859.75; Commissioner's share, $169,444.17; clubs' and leagues' share, $469,327.96.

*Players share in first four games only.

Little World Series of 1949

The Indianapolis Indians, playoff champions of the American Association, defeated the Montreal Royals of the International League, 4 games to 2 in the 1949 Little World Series.

First game, Montreal, Canada, Oct. 1

										r.	h.	e.
Indianapolis	0	3	1	0	1	0	0	0	0	5	8	2
Montreal	0	0	0	1	0	0	0	0	0	1	3	2

Batteries—Muir and Turner; Van Cuyk, Podbielan, Lare and Lembo. Winning pitcher, Muir; losing pitcher, Van Cuyk. Attendance, 11,457.

Second game, Montreal, Canada, Oct. 2

										r.	h.	e.
Indianapolis	2	1	1	0	1	0	0	0	0	5	6	1
Montreal	0	0	1	0	0	0	0	0	0	1	6	1

Batteries—Lint, Main and Turner; King, Lee and Lembo. Winning pitcher, Lint; losing pitcher, King. Attendance, 16,095.

Third game, Montreal, Canada, Oct. 3

										r.	h.	e.
Indianapolis	0	0	0	0	0	1	0	0	0	1	5	2
Montreal	0	0	0	0	3	0	0	0	0	3	3	3

Batteries—Queen and Kluttz; Bankhead and Atwell. Winning pitcher, Bankhead; losing pitcher, Queen. Attendance, 9,956.

Fourth game, Indianapolis, Ind., Oct. 6

										r.	h.	e.
Montreal	2	1	3	0	0	1	0	0	0	7	9	0
Indianapolis	0	0	0	1	0	0	0	0	0	1	2	1

Batteries—Podbielan and Lembo; Muir, Johnson, Main and Kluttz. Winning pitcher, Podbielan; losing pitcher, Muir. Attendance, 10,123.

Fifth game, Indianapolis, Ind., Oct. 7

										r.	h.	e.
Montreal	0	2	0	0	0	0	2	0	0	4	9	0
Indianapolis	0	0	0	1	1	0	0	1	1	5	6	0

Batteries—Bankhead, Lee and Atwell; Muir, Queen, Main and Ganss. Winning pitcher, Muir; losing pitcher, Lee.

Sixth game; Indianapolis, Ind., Oct. 8

										r.	h.	e.
Montreal	0	0	0	1	0	0	0	1	0	2	8	1
Indianapolis	1	0	4	1	0	4	2	0	.	12	17	0

Batteries—Van Cuyk, Podbielan, King, Lare, Himes and Lembo; Lint and Turner. Winning pitcher, Lint; losing pitcher, Van Cuyk. Attendance, 8,400.

Professional Baseball Government

Commissioner—Albert B. Chandler.
Secretary-treasurer—Walter W. Mulbry.
Office—2601 Carew Tower, Cincinnati 2, Ohio.

NATIONAL LEAGUE

President, secretary, treasurer—Ford C. Frick.
Chairman of Board—John A. Heydler.
Manager Service Bureau—Charles M. Segar.
Office—30 Rockefeller Plaza, New York 20, N. Y.

AMERICAN LEAGUE

President, secretary, treasurer—William Harridge.
Manager Service Bureau—Earl Hilligan.
Office—310 South Michigan Avenue, Chicago 4 Ill.

NATIONAL ASSOCIATION

President-treasurer—George M. Trautman.
Vice President—Frank J. Shaughnessy.
Office—720 East Broad Street, Columbus 15, Ohio.

*Robertson pitched a perfect game, not a man reaching first base. **Newsom pitched nine hitless innings and allowed one hit in tenth. ***Night game. ****Opening game of season.

Baseball's Longest Throw

Sheldon Lejeune, in Cincinnati, O., Oct. 12, 1910, threw a baseball 426 feet 9½ inches. Later records do not mention that this throw has been eclipsed (1/5.45). Spalding's The Little Red Book. 1926, page 121.

Babe Ruth's Lifetime Record, 1914-1935

George Herman (Babe) Ruth, one of baseball's greatest players, died in Memorial Hospital, New York City (Aug. 16, 1948), of cancer after two years' illness. He was 53. Born in Baltimore, Feb. 6, 1895, Babe Ruth spent most of his youth in St. Mary's Industrial School in that city. When he left the school in 1914, he joined the Baltimore Orioles as a pitcher and outfielder, and later in the same year was sold to the Boston Red Sox where he quickly made his mark as a left-handed pitcher. Thus began his baseball career which continued until 1938 and during which he established many records. He played with the New York Yankees from 1920 to 1934 as an outfielder, and in 1927 set a new record of 60 home runs in one season. His last public appearance was at the premiere of the motion picture "The Babe Ruth Story" in New York City (July 26, 1948).

RECAPITULATION

	W	L
American	12	4
National	4	12

Total attendance, 606,587; total receipts, $1,008,717.07.

After deductions for taxes and expenses from the receipts, the balance from the first eight games went to the Ball Players' Benevolence Fund for the support of indigent former players. The balance from the ninth game went to the United Service Organizations, and of the receipts of the tenth game $50,000 went to purchase baseball equipment for the soldiers and sailors in the service of their country and the remainder to the Army Emergency Relief. The receipts of the 11th game were turned over to the Bat and Ball Fund that provides athletic equipment for service men. To the gate receipts of $65,174, there was added $50,000—$25,000 from radio rights, $20,000 from the office of Baseball Commissioner Kenesaw M. Landis and $2,500 from each major league club—bringing the total for the fund to $115,774. Receipts from the twelfth game were added to the Bat and Ball Fund. To the gate receipts of $81,275 there was added $25,000 paid for the radio rights to the game, a total of $106,275. From the receipts of the 13th game, a contribution was made to the families of nine players killed in a bus accident near Spokane, Wash. (June 25, 1946), and the balance went to the Ball Players' Benevolence Fund. The major portion of the receipts of the 14th, 15th and 16th games went to the baseball players' pension fund.

Major league baseball established a new all-time attendance record during 1948 by drawing 20,972,601 fans. The Cleveland Indians led, setting an all-time attendance mark by playing before 2,620,627 fans at home.

The record paid attendance for a baseball game was established (Oct. 10, 1948) in the fifth game of the World Series when 86,288 paid their way into Municipal Stadium in Cleveland, Ohio.

The record paid attendance for a regular season game was established (June 20, 1948) when 82,781 paid their way into the Municipal Stadium in Cleveland, Ohio, to view a double header between the Cleveland Indians and the Philadelphia Athletics. Including the pass list, 653, the overall attendance was 83,434. In New York City (May 30, 1938) 81,841 paid their way into the Yankee Stadium for a game between the Boston Red Sox and the New York Yankees.

The record attendance for a night game is 78,382, established in the Municipal Stadium, Cleveland (Aug. 20, 1948) in a game between the Cleveland Indians and the Chicago White Sox.

National Non-Professional Baseball Champions

Forty-eight State champions qualify annually in the National Baseball Congress Tournament in Wichita, Kans., in mid-August. To the United States champions there is awarded a $10,000 cash purse. The National Baseball Congress also sanctions District and State tournaments.

Ralph; 1913, Alfredo DeOro; 1913-15, Bennie Allen; 1916, John Layton; 1916-18, Frank Taberski; 1919-24, Ralph Greenleaf; 1925, Frank Taberski; 1926, Ralph Greenleaf; 1926, Erwin Rudolph; 1926, Thomas Hueston; 1927, Frank Taberski; 1927-28, Ralph Greenleaf; 1928, Frank Taberski; 1929, Ralph Greenleaf; 1929, Frank Taberski; 1930, Erwin Rudolph; 1930-32, Ralph Greenleaf; 1933-34, Erwin Rudolph; 1935, Andrew Ponzi; 1936, James Caras; 1937, Ralph Greenleaf; 1938, James Caras; 1939, James Caras; 1940, Andrew Ponzi; 1941, Willie Mosconi; 1942, Erwin Rudolph. In a challenge match (May, 1942) Irving Crane defeated Rudolph. In a challenge match (April 1, 1943) Ponzi defeated Mosconi. Mosconi defeated Ponzi (challenge match) Feb.-March, 1944; 1945, Willie Moscon. (defeated Ralph Greenleaf in challenge match); 1946, Willie Mosconi (defeated Jimmy Caras in challenge match); Mosconi (defeated Crane in challenge match); Crane (world's tournament); 1947, Mosconi (defeated Crane in challenge match); 1947, Mosconi defeated Caras, match; 1948, Mosconi defeated Ponzi, match; 1949, James Caras defeated Mosconi.

NATIONAL POCKET BILLIARD CHAMPION

1948, Andrew Ponzi; 1949, James Caras.

14-2 BALKLINE

1888, Eugene Carter; 1889, Frank C. Ives; 1890, Frank Maggioli; 1891, Eugene Carter; 1891, Frank C. Ives. No tournaments since.

18-2 BALKLINE

1904, Al. Taylor; 1907, Albert Cutler; 1923, Chas. C. Peterson. No tournaments since.

High run, 162, Albert Cutler; high average, 40, Albert Cutler; high grand average, 26.67, Charles C. Peterson

JUNIOR CHAMPIONS

18-2 Balkline Billiards

1923-24, Tadeo Suganuma; 1924, Albert Cutler; 1924, Dave McAndless; 1925, Tadeo Suganuma; 1925, Kamatare-Suzuki; 1926, Kinrey Matsuyama. No tournaments since.

High Run, 18.5, Jean Bruno; high overage, 42.85, Tadeo Suganuma-Kinrey Matsuyama; grand average, 21.05, Kinrey Matsuyama.

14-1 POCKET BILLIARDS RECORDS

High run, 126, Ralph Greenleaf; high run, 153, Andrew Ponzi; high run, 125, Bennie Allen; high run, 125, George Kelly; high single average, 63, Ralph Greenleaf; high single average, 41.75, Bennie Allen; high individual grand average, 11.02, Ralph Greenleaf; high individual grand average, 8.14, James Caras; high run, 125, Bennie Allen; high single average, 41.60, Bennie Allen; 1941, Willie Mosconi, eight runs of 125 and one of 126 in league tournament for the championship. High single average, 125. Exhibition high run, Irving Crane (1939) and Mosconi (1945) 309; 1945, Willie Mosconi, high run 127 (match play with Greenleaf); 1946, Jimmy Caras, high run, 127 in match with Mosconi.

Ponzi's run of 153 and the Mosconi-Caras runs of 127 were made in world's challenge match play. Ponzi's run was made in continuous billiards, where a player continues a run from one block to another. Mosconi's run of 127 was made in a single block of a match. Mosconi had two scratches against him when he started the run and he needed a total of 127 to get a net of 125, since his score was minus 2 when he started. All other pocket billiard records listed here were made in tournament play.

CUSHION CAROM CHAMPION

1933, Willie Hoppe; no tournament since.

CUSHION CAROM RECORDS

High Runs—Willie Hoppe (match), 53; Charles C. Peterson (exhibition), 104.

High Averages—Willie Hoppe, high single, 11.36; Willie Hoppe, high grand average, 6.43.

AMATEUR BALKLINE CHAMPIONS

18-2 Balkline

1910, E. W. Gardner; 1911, J. F. Poggenburg. 1912, M. D. Brown; 1913, Joseph Mayer; 1914, E. W. Gardner; 1915, Nathan Hall; 1916, C. Huston; 1917, Dave McAndless; 1918, Percy Collins; 1919, C. Heddon; 1920, E. T. Appleby; 1921, Percy Collins; 1922, E. T. Appleby, International champion; 1923, Percy Collins, National, 18-1 champion—F. S. Appleby; 1924, E. T. Appleby; 1925, F. S. Appleby; 1926-28, John Clinton; 1929, E. T. Appleby, Amateur Billiard Assn.; 1929, Percy Collins, Amateur Billiard Assn.; 1929, M. C. Walgren, Amateur Billiard Assn.; 1929, R. V. Source: National Boxing Association; New York State Athletic Commission; as of Oct. 1, 1949

	National Boxing Association	New York State Athletic Commission
Heavyweight (over 174 lbs.)	Ezzard Charles	(Vacant)
Light-Heavyweight (175 lbs.)	Freddie Mills	Freddie Mills
Middleweight (160 lbs.)	Jake LaMotta	Jake LaMotta
Welterweight (147 lbs.)	Ray Robinson	Ray Robinson
Lightweight (135 lbs.)	Ike Williams	Ike Williams
Featherweight (126 lbs.)	Willie Pep	Willie Pep
Bantamweight (118 lbs.)	Manuel Ortiz	Manuel Ortiz
Flyweight (112 lbs.)	Rinty Monaghan	Rinty Monaghan

Ring Champions by Years

HEAVYWEIGHTS

1882-1892	John L. Sullivan (A)
1892-1897	James J. Corbett (B)
1897-1899	Robert Fitzsimmons
1899-1905	James J. Jeffries (C)
1906-1908	Tommy Burns
1908-1915	Jack Johnson
1915-1919	Jess Willard
1919-1926	Jack Dempsey
1926-1928	Gene Tunney (retired)
1928-1930	Vacant
1930-1932	Max Schmeling
1932	Jack Sharkey
1933	Primo Carnera
1934	Max Baer
1935-1936	James J. Braddock
1937-1949	Joe Louis*
1949	Ezzard Charles (NBA only)

(A) London Prize Ring (bare knuckle champion).

(B) First Marquis of Queensbury Champion.

(C) Jeffries abandoned the title (1905) and designated Marvin Hart and Jack Root as logical contenders and agreed to referee a fight between them, the winner to be declared champion. Hart defeated Root in 12 rounds (1905) and in turn was defeated by Tommy Burns (1906) who immediately laid claim to the title. Jack Johnson defeated Burns (1908) and was recognized as champion. He clinched the title by defeating Jeffries in an attempted comeback (1910).

*Abandoned title.

LIGHT HEAVYWEIGHTS

1903	Jack Root, George Gardner
1903-1905	Bob Fitzsimmons
1905-1912	Philadelphia Jack O'Brien*
1912-1916	Jack Dillon
1916-1920	Battling Levinsky
1920-1922	Georges Carpentier
1922	Gene Tunney (outpointed Levinsky and gained American title)
1922	Harry Greb (outpointed Tunney for American title)
1923	Battling Siki (knocked out Carpentier for world title)
1923	Gene Tunney* (outpointed Greb)
1923-1925	Mike McTigue (outpointed Siki for world title)
1925	Paul Berlenbach (outpointed McTigue)
1926-1927	Jack Delaney* (outpointed Berlenbach)
1927-1929	Tommy Loughran* (outpointed McTigue)
1930-1934	Maxey Rosenbloom (outpointed Jimmy Slattery, recognized as champion by the New York State Athletic Commission. National Boxing Association vacated Rosenbloom's title)
1934-1935	Bob Olin (outpointed Rosenbloom, recognized in New York as champion)
1935-1939	John Henry Lewis*
1939-1940	Melio Bettina (defeated Jack Fox in elimination tournament to gain title vacated by Lewis)
1939-1941	Billy Conn*
1941	Anton Christorforidis (won N. B. A. elimination tourney for title)
1941-1949	Gus Lesnevich, Freddie Mills.
1949	Freddie Mills

*Abandoned title.

MIDDLEWEIGHTS

1884-1891	Jack "Nonpareil" Dempsey
1891-1897	Bob Fitzsimmons*
1897-1907	Tommy Ryan*
1907-1908	Stanley Ketchel, Billy Papke
1908-1910	Stanley Ketchel
1911-1913	Claimed by Billy Papke, Frank Klaus, Mike Gibbons, Ed McGoorty and George Chip
1914-1917	Al McCoy
1917-1920	Mike O'Dowd
1920-1923	Johnny Wilson
1923-1926	Harry Greb
1926	Tiger Flowers, Mickey Walker
1926-1931	Mickey Walker*
1931-1932	Gorilla Jones (A), Ben Jeby (A)
1932-1937	Marcel Thil (B)
1938	Al Hostak, Solly Krieger
1939-1940	Al Hostak
1940-1947	Tony Zale
1947-1948	Rocky Graziano
1948	Tony Zale, Marcel Cerdan
1949	Marcel Cerdan, Jake LaMotta

(A) Walker retired in 1931 and Gorilla Jones won an N.B.A. tourney to select a new champion, while Ben Jeby won a similar tourney of the New York Boxing Commission to name a New York champion. (B) Jones lost on a foul to Marcel Thil in Paris and the N.B.A. title passed to Thil. In the period 1932-1937, the New York title changed hands several times. Lou Brouillard knocked out Jeby and was recognized as champion. Vince Dundee beat Brouillard and the title passed to him until he lost it in 1934 to Teddy Yaroz. Yaroz was defeated the next year by Babe Risko who was defeated by Freddie Steele in 1936, Steele becoming New York champion. Thil came to New York and was defeated by Fred Apostoli, but the championship was not at stake, Apostoli and Thil having been forced to sign an agreement to that effect before the New York Commission would sanction the bout. Apostoli did not claim the title. Meanwhile, Steele had defeated Risko and was recognized by the N.B.A. as champion. He held the title until defeated by Al Hostak in 1938.

*Abandoned title.

WELTERWEIGHTS

1892	Danny Needham, Mysterious Billy Smith
1892-1894	Mysterious Billy Smith
1894-1896	Tommy Ryan
1896	Kid McCoy (outgrew class)
1900	Mysterious Billy Smith, Rube Ferns, Matty Matthews
1901	Matty Matthews, Rube Ferns
1901-1904	Joe Walcott
1904-1906	Dixie Kid, Joe Walcott, Honey Mellody
1907-1911	Mike Sullivan (A)
1911-1915	Vacant
1915-1919	Ted Lewis, Jack Britton
1919-1922	Jack Britton
1922-1926	Mickey Walker
1926	Pete Latzo
1927-1929	Joe Dundee
1929	Jackie Fields
1930	Jackie Fields, Jack Thompson, Tommy Freeman
1931	Freeman, Thompson, Lou Brouillard
1932	Jackie Fields
1933	Young Corbett, Jimmy McLarnin
1934	Barney Ross, Jimmy McLarnin
1935	Jimmy McLarnin, Barney Ross
1936-1938	Barney Ross
1938-1939	Henry Armstrong
1940	Fritz Zivic
1941-1946	Fred Cochrane
1946-1947	Marty Servo*; Ray Robinson (B)
1947-1949	Ray Robinson

(A) Sullivan outgrew class and the title was claimed by Jimmy Gardner, Jimmy Clabby, Ray Bronson, Clarence Ferns, Mike Gibbons, Kid Graves, Mike Glover, Ted Lewis and Jack Britton; none of whom was recognized until Lewis established his claim in 1915.

(B) Robinson gained the title by defeating Tommy Bell, only contender willing to meet him, in an elimination agreed to by the New York Commission and the N.B.A.

*Abandoned title.

LIGHTWEIGHTS

1885-1896	Jack McAuliffe* (American champion)
1896-1899	Kid Lavigne
1899-1902	Frank Erne

* Awarded for services during World War II.

Dog Show Winners

The origin of the dog is shrouded in obscurity, although evidence of its existence as man's companion as early as 3500 B.C. has been found in Egyptian tombs. At some early time man began to breed dogs for particular purposes; in the beginning for hunting and guarding the home, later for herding and protecting flocks and, finally, for sport and diversion.

At present there are two main divisions or classes of dogs, with a number of sub-divisions in each: sporting dogs—Pointers, Retrievers, Setters, Spaniels, and various hounds; the working dog group, including Sheepdogs, Boxers, Mastiffs, Collies, Eskimos, Great Danes, Newfoundlands, St. Bernards, etc.; the terrier group; the toy group, including Chihuahuas, Toy Spaniels, Mexican Hairless, Pekingese, Pomeranians, Toy Poodles, etc.; and the non-sporting group which includes Boston Terriers, Bulldogs, Chowchows, Dalmatians, French Bulldogs, Keeshonden, Poodles and Schipperkes. In all more than 111 different breeds are recognized and shown in the United States. Of the estimated dog population of 20,000,000 in America (1948), 2,500,000 pedigrees are registered.

James E. Sullivan Memorial Trophy Winners

The James E. Sullivan Memorial Trophy is awarded annually to the athlete who "by his (or her) performance, example and influence as an amateur, has done the most during the year to advance the cause of sportsmanship." The A. A. U. polls sports leaders throughout the country in its search for the No. 1 sportsman of the year.

Olympic Games Records

The modern Olympic Games, first held in Athens, Greece (1896), were the result of efforts by Baron ierre de Coubertin, a French educator, to promote interest in education and culture, also to foster etter international understanding through the universal medium of youth's love of athletics.

His source of inspiration for the Olympic Games was the ancient Greek Olympic Games, most otable of the four Panhellenic celebrations. The games were combined patriotic, religious and thletic festivals held every four years. The first such recorded festival was that held in 776 B.C., ate from which the Greeks began to keep their calendar by "Olympiads," or four-year spans between ne games.

Originally the games were simple—the first is said to have consisted merely of a foot race of pproximately 200 yards on the plain near the small city of Olympia—but they rapidly gained both n scope and in popular acclaim as demonstrations of national pride. Competition was based on the ghest ethical standards and only amateurs who also were Greek citizens were allowed to participate. 'inners were awarded laurel, wild olive and palm wreaths, and were accorded many special privileges iereafter in their individual communities.

Under the Roman emperors, the original concept of the games was lost and they deteriorated into rofessional carnivals and circuses until they were banned by the Emperor Theodosius (394 A.D.).

Baron de Coubertin planned a revival of the games on a world-wide basis (1894) and was able to nlist nine nations to send their athletes to the first modern Olympics (1896). Since then, many housands of athletes representing more than 50 nations have competed, and the games further ex- nded (1924) to include the Winter Olympic Games. World War II was responsible for cancellations f the games scheduled for 1940 and 1944.

The 14th Olympic Games were held in Wembley, England, July 29-Aug. 14, 1948. The official team oint scores by nations follow:

nited States	662	Czechoslovakia	93	South Africa	35	Portugal	9
weden	353	Turkey	88	Jamaica	29	Panama	8

Because of the war there was no international tennis play during 1940-1945.

1949 DAVIS CUP PLAY

Twenty-seven nations challenged in 1949 for the Davis Cup, international team tennis championship trophy. The draw was made by Hon. Trygve Lie, Secretary General of the United Nations, in New York, Feb. 8. Twenty-three nations challenged in the European Zone and four in the North American Zone.

Results: European Zone Final—Italy-France, 3-2. American Zone Final—Australia-Mexico, 5-0. Inter-Zone Final, Australia-Italy, 5-0. Challenge Round—United States-Australia, 4-1.

Yale-Harvard Rowing

e Yale-Harvard rowing contests were begun in by six-oar crews without coxswains on a three- course on Lake Winnepesaukee, N. H., Har- winning. The two colleges rowed their first tta with eight-oared boats with coxswains on 30, 1876 over a four-mile course on the aecticut River at Springfield, Mass., Yale win- in 22 m. 2 sec. The course was changed to Thames River at New London, Conn., in 1878. e race was omitted in 1917, but in 1918 a mile race was rowed on the Housatonic River, y, Conn., on June 1, which Harvard won, time 1. 58 sec. From 1876 to 1923 inclusive Yale won 28 races and Harvard 18. The records of the crews since 1923 are given herewith; previous records for the varsity, freshmen and junior varsity crews will be found in *THE WORLD ALMANAC* for 1936 on page 817.

The regatta was suspended 1943, 1944, 1945 (World War II) and resumed in 1946.

Yale-Harvard freshmen eights began their contests in 1899 on the Thames, Harvard winning. The 1902 race was a dead heat. The course has been two miles except 1915 and as noted below. From 1899 to 1923 inclusive the record was: Freshmen —Yale 9, Harvard 13.

world record distance for water ski jumping is 68 feet, held by Buddy Boyle.

Intercollegiate Rowing at Poughkeepsie

The leading American rowing colleges (except Yale and Harvard) have sent eight-oared crews to compete over the four-mile course on the Hudson River at Poughkeepsie, N. Y., since 1895. Columbia won that year, defeating Cornell and Pennsylvania in that order. In 1896 Cornell defeated Harvard, Pennsylvania and Columbia.

In 1897 Cornell defeated Columbia and Pennsylvania on July 2, after defeating Yale and Harvard at New London on June 25. The following year, 1898, the three-mile course on Lake Saratoga was used, Pennsylvania defeating Cornell, Wisconsin and Columbia. In 1899 the crews returned to Poughkeepsie. Pennsylvania won that year, and subsequent winners were: 1900, Pennsylvania; 1901, Cornell; 1902, Cornell; 1903, Cornell; 1904, Syracuse; 1905, Cornell; 1906, Cornell; 1907, Cornell; 1908, Syracuse; 1909, Cornell; 1910, Cornell; 1911, Cornell; 1912, Cornell; 1913, Syracuse; 1914, Columbia; 1915, Cornell; 1916, Syracuse.

Racing was dropped during Word War I years and was resumed by four crews over a two-mile course on Lake Cayuga, Ithaca, N. Y., on June 19, 1920, when Syracuse won in 11 m. 2⅗ sec. The colleges again returned to Poughkeepsie in 19[illegible] and for four years rowed over a three-mile course but resumed the four-mile course in 1925.

The regatta was suspended 1942-1946 and was resumed in 1947 over the three-mile course.

Freshman races were rowed over a two-mile course at Poughkeepsie from 1896 to 1916, the winners being: 1896, Cornell; 1897, Cornell; 1[illegible] (at Saratoga), Cornell; 1899, Cornell; 1900, Wisconsin; 1901, Pennsylvania; 1902, Cornell; 1903, Cornell; 1904, Syracuse; 1905, Cornell; 1906, Syracuse; 1907, Wisconsin; 1908, Cornell; 1909, Cornell; 1910, Cornell; 1911, Columbia; 1912, Cornell; 1913, Cornell; 1914, Cornell; 1915, Syracuse; 1916, Cornell. They rowed at Lake Cayuga in 1920 Cornell winning, and returned with the varsities to the Hudson in 1921 when Cornell won.

The Junior varsities first rowed at Poughkeepsie on the two-mile course in 1914, Cornell winning. In 1915 Cornell won and in 1916 Syracuse. The race was rowed on Lake Cayuga in 1920, Cornell winning. In 1926 the course was lengthened to three miles.

1927	E. H. Temme, England	14 h., 29 m.	1949	Philip Mickman, England	23 h., 48 m.
1927	*Mercedes Gleitze, England	15 h., 15 m.		Fernand Dumoulin, Belgium	22 h., 1 m.
1927	Mrs. Ivy Hill, England	15 h., 9 m.		Egyptian 6-Man Relay Team	11 h., 11 m.
1928	Miss Ivy Hawks, England	19 h., 16 m.		Hassan Abd el Rehim, Egypt	15 h., 38 m.
1928	Miss Laddie Sharp, England	15 h., 5 m.		Sgt. Marie Hassen, Egypt	
				Jason A. Ziganos, Greece	18 h., 55 m.

The usual route of the channel swimmers, from Cape Griz Nez, France, to Dover, England, is 19 miles.

*Record considered doubtful.

**Temme is the first swimmer to swim the channel in both directions. In 1934 he swam from S. Foreland, England, to Blanc Nez, France.

Daniel Carpio, a Peruvian, swam the Strait of Gibraltar, from Continental Spain to Spanish Morocco, a distance of eight miles (July 22, 1948) in 9 hours 20 minutes. His feat was duplicated shortly afterward by Eduardo Villaneuva of Spain and by Jose Cortinas of Cuba, Sept. 21.

Shirley May France, 17-year-old Somerset (Mass.) schoolgirl sponsored by NEA Service, Inc. New York newspaper syndicate, and other commercial sponsors, failed by six miles to span the Channel, Sept. 6, 1949, after 57 days' rigorous training. By contrast, Fernand Dumoulin, the Belgian swimmer who completed the course, had had no intensive training and began his swim after a beach party topped off with a glass of champagne.

World Track and Field Records

Source: These records are recognized by the International Athletic Federation to June 1, 1949. tter records in several cases have been reported but await official consideration.

United States Wins "Little Olympics"

A United States track and field team defeated a combined Scandinavian squad by a score of 238½ points to 224½ in a three-night meet in Bislet Stadium in Oslo, July 27-29, 1949. Representing the Scandinavian team were Sweden, Finland, Norway, Denmark and Iceland.

James Fuchs of Yale threw the 16-lb. shot 58 feet 4-27/64 inches, and Fortune Gordien of Minnesota threw the discus 182 feet 3-53/64 inches, both figures being better than the listed world records.

Other American-won events included the following:

100-meter and 200-meter dashes—Andrew Stanfield.

400-meter and 800-meter runs—Mal Whitfield.

110-meter hurdles—Craig Dixon.

400-meter hurdles—Richard Ault.

400-meter and 1600-meter relays—United States team.

Broad jump—Herbert Douglas.

Pole vault—Robert Richards

Decathlon—Robert Mathias.

American Track and Field Records

ource: Amateur Athletic Union; performances approved to June 1, 1949; indoor and outdoor rds are given where both types of competition are listed; * indicates indoor record on tracks not e than 220 yards per lap unless otherwise noted. (F) designates foreign holder of American record. such instances best comparable records by American citizens also are listed.)

RELAY RACING

(Long track—More than 220 yards per lap)

400 meters (4x100)—40s. United States Team (Robert Kiesel, Emmett Toppino, Hector Dyer, Frank Wykoff), Los Angeles, Aug. 7, 1932.

440 yards (4x110)—40.5s. University of Southern California (Leland LaFond, William C. Anderson, Payton Jordan, Adrian Talley), Fresno, Calif., May 14, 1938.

800 meters (4x200)—1m. 24.8s. University of Southern California (Draper, Fitch, Abbott, Parsons), Los Angeles, Calif., June 1, 1934.

880 yards (4x220)—1 m. 24.8s. University of Southern California (Draper Fitch, Abbott, Parsons), Los Angeles, Calif., June 1, 1934.

1000 meters medley relay (100, 200, 300, 400)—1m. 56.1s. New York A .C. (Willard Allen, John Kunitzky, Milton Flewellin, James McPoland), New York City, July 9, 1935. *(400, 100, 200, 300)—1m. 59.7s. New York Curb Exchange A. A. (James Herbert, Harry Hoffman, Edward O'Sullivan, George Dee), New York City, Feb. 27, 1937.

1060 yards sprint medley (440, 100, 220, 300)—*1m. 54.1s. Fordham University A. A. (John Campbell, William Schwarz, Raymond Fallon, Francis Keane), New York City, Jan. 24, 1942.

1600 meters (4x400)—3m. 8.2s. United States Team (Ivan Fuqua, Ed Ablowich, Warl D. Warner, William A. Carr), Los Angeles, Calif., Aug. 7, 1932.

1 mile (4x440)—3m. 9.4s. University of California (John Reese, F. A. Froom, Clarence Barnes, Grover Klemmer), Los Angeles, Calif., June 17, 1941.

2 miles (4x880)—7m. 34.5s. University of California (John Reese Grover Klemmer, Dick Peter, Clarence Barnes). Los Angeles, May 24, 1941.

*7m. 33.9s.—Seton Hall College (Anthony Luciano, Robert Rainer, Frank Fletcher, Chet Lipski), New York City, March 25, 1942.

4 miles (4x1 mile)—17m. 16.1s. Indiana University (M. Truitt, J. Smith T. Deckard, D. Lash), Philadelphia, April 23, 1937. *17 m. 21.7s. Univ. of Pennsylvania (Gene Venzke, Carl Coan, William McKniff, Daniel Dean), Buffalo, N. Y. Mar. 11, 1933.

2,900 meters medley (400, 200 800, 1,500)—*7m. 8.3s., New York A. C. (Edgar Stripling, Ed O'Sullivan, Gene Venzke, Phil Graves), New York City, Feb. 25, 1939.

Medley (440, 220, 880, mile)—7m. 18.8s New York University (Leslie MacMitchell, Frank Cotter, Dave Lawyer, Bill Hulse), New York City, Mar. 26, 1942. *7m. 25.3s., New York University (Fabian Francis, Jared Fangboner, Joe Gares, Leslie MacMitchell), New York City, Feb. 22, 1941.

HURDLE RACING

60 yards: Five 3 ft. 6 in. hurdles—*7.1s., Harrison Dillard, New York City, March 20, 1948. Five 2 ft. 6 in. hurdles—*6.8s., Medill Gartiser, Kansas City, Mo., Feb. 28, 1948. Dirt track—*6.8s., Harrison Dillard, Lafayette, Ind. March 22, 1947.

65 meters: Five 3 ft. 6 in. hurdles—8.3s., Allan Tolmich, New York City, Feb. 22, 1941.

70 yards: Six 3 ft. 6 in. hurdles—8.4s., Allan Tolmich, New York City, Mar. 31, 1940. Six 2 ft. 6 in. hurdles (dirt track)—7.8s., Robert E. Wright, Chicago, March 6, 1942: Harrison Dillard, Chicago, Ill., March 15, 1947.

120 yards: Ten 3 ft. 6 in. hurdles—13.6s. Harrison Dillard, Lawrence, Kans., April 17, 1948.

*Indicates indoor record on tracks not more than 220 yards per lap unless otherwise noted.

110 meters: Ten 3 ft. 6 in. hurdles—13.7s., Fred Wolcott, Philadelphia, June 29, 1941. *14.4s., Haakon Lidman (Sweden), Davisville, R. I., April 7, 1945. *15.8s., Sol Furth, Brooklyn, N. Y., Jan. 16, 1932.

200 meters: Ten 2 ft. 6 in. hurdles—22.3s., Fred Wolcott, Princeton, N. J., June 8, 1940.

220 yards: Ten 2 ft. 6 in. hurdles—22.3s., Harrison Dillard, Salt Lake City, Utah, June 21, 1947.

400 meters: Ten 3 ft. hurdles—51.6s., Glenn Hardin, Princeton, N. J., July 4, 1936; Carl McVain, Fresno, Calif., June 29, 1940.

440 yards: Ten 3 ft. hurdles—52.2s., Roy Cochran, Des Moines, Ia., April 25, 1942.

STEEPLECHASE

3,000 meters—9m. 8.2s., Harold Manning, Randall's Island, N. Y. July 12, 1936.

3,000 meters—*8m. 48.6s., Thomas Deckard, New York City, Feb. 27, 1937.

2 miles—9m. 55.2s., Tom Deckard, New Orleans, La., Jan. 1, 1939.

JUMPING—WITHOUT WEIGHTS

Standing high jump—5 ft. 5¾ in., Leo Goehring, Travers Island, N. Y., June 14, 1913. *5 ft. 5¾ in. Harold M. Osborn, St. Louis, Mo., April 19, 1936.

Running high jump—6 ft. 11 in., Les Steers, Los Angeles, Calif., June 17, 1941. Board take-off—6 ft. 9¼ in., Ed Burke, New York City, Feb. 27, 1937. Dirt take-off—*6 ft. 9¾ in., Melvin Walker, Indianapolis, Ind., March 20, 1937.

Standing broad jump—11 ft. 4⅞ in., Ray C. Ewry, St. Louis, Aug. 29, 1904.

Running broad jump—26 ft. 8¼ in., Jesse Owens, Ann Arbor, Mich., May 25, 1935. *25 ft. 8¼ in., Jesse Owens, New York City, Feb. 23, 1935.

Running, hop step and jump—51 ft. 7 in., Chuhei Nambau (Japan), Los Angeles, Calif., Aug. 4, 1932.

POLE VAULT

For height—15 ft. 7¾ in., Cornelius Warmerdam, Modesto, Calif., May 23 1942. *15 ft. 8½ in., (board runway), Cornelius Warmerdam, Chicago, Ill., Mar. 20, 1943.

For distance—*28 ft. 2 in., Platt Adams, New York City, Oct., 31, 1910.

THROWING 16-LB. HAMMER

Weight (including handle) 16 lbs., entire length 4 feet, thrown from 7-foot circle 189 ft. 6½ in. P. L. Ryan, Celtic Park, N. Y., Aug. 17, 1913.

PUTTING 16-LB. SHOT

58 ft. ⅜ in., Charles Fonville, Lawrence, Kans., April 17, 1948. *56 ft. 10⅝ in., Charles Fonville, Ann Arbor, Mich., Feb. 22, 1948 (under outdoor conditions). *56 ft. 4½ in., Al Blozis, Cleveland, O., Mar. 16, 1941.

Right and left hands, with toe board—91 ft. 10½ in. (right hand, 50 ft. 6 in.; left hand, 41 ft. 4½ in.), Ralph Rose, Oakland, Calif., June 2. 1912. Without toe board—91 ft. 10 in. (right hand, 49 ft. 10 in.; left hand, 42 ft.), Ralph Rose, American League Park, New York City, June 12, 1912.

THROWING WEIGHTS

56-lb. weight for distance, thrown with both hands from a 7-ft. circle, without follow—41 ft. 6 in., Francis J. Berst, Buffalo, N. Y., Aug. 3, 1947.

56-lb. weight for height—16 ft. 11¼ in., P. Donovan, San Francisco, Calif., Feb. 20, 1914.

35-lb. weight for distance—*58 ft. 7½ in., Niles Perkins, Brunswick, Me., March 8, 1940.

THROWING THE DISCUS

Weight, 4 lbs. 6½ oz. From 8 ft. 2½ in. circle—180 ft. 2¾ in., Robert E. Fitch, Minneapolis, Minn., June 8, 1946.

Right and left hands, from 8 ft. 2½ in. circle—252 ft. 8⅞ in.; (right hand, 156 ft. 1⅜ in.; left hand, 96 ft. 7½ in.), James Duncan, Celtic Park, L. I., May 27, 1912.

THROWING THE JAVELIN

Javelin, 248 ft. 10 in., Stephen A. Seymour, Lincoln, Nebr., July 5, 1947.

ALL-ROUND TRACK AND FIELD RECORD

7,499 points—F. C. Thompson, Princeton, N. J., June 5, 1913.

DECATHLON

7,880 points—Glenn Morris, Milwaukee, Wis., June 26-27, 1936.

PENTATHLON

3,596 points—Robert Clark, Eureka, Calif., June 6, 1936.

Public Schools Athletic League of New York

By Tom Orr, School Sports Authority

The Public Schools Athletic League of New York s organized in 1903 by the late General George ngate as its first president. On Dec. 31, 1904, P. S. A. L. presented its first athletic program h a track meet in Madison Square Garden and s held meets every year.

The league's program has been devoted to the development of health, sportsmanship and good citizenship through athletics. More than 100,000 boys annually participate in its outdoor and indoor track meets, cross-country, baseball, basketball, handball, soccer football, swimming, fencing, golf, tennis, hockey and football games.

Point score—N.Y.A.C., 15; N.Y.U., 10; Cornell, 8; U.S.M.A., 8; Manhattan, 7; Illinois A.C., Villanova and Sweden, 6; N. Y. Pioneer Club, 5¼; Kauffman Center, Los Angeles A.C., R.I. Officials, Seton Hall, Netherlands, Boston A.A., Maccabi A.C., Police Sports Assn., Belgium, Penn, and Brown, 5; Georgetown, 4; Yale, France, Penn State, 3; Dayton A.C., 2¼; Syracuse, 2; Long Branch Shore A.C., 1¼; Wayne, Norway, R.I.S., German-American A.C., Shanahan C.C., Morgan State College, 1; Temple, ¼; Unattached, 14.

High Schools Division

60 yds.—1, Stonehouse, Westdale; 2, Thresher, Garden City; 3, Conaway, Boys High. **Time—0:06.3.**

440 yds.—1, Sax, Kearny; 2, Montgomery, Boys High; 3, Lacey, Boston Tech. **Time: 0:54.4.**

1,000 yds.—1, Meader, Nott Terrace; 2, Dowden, Loughlin; 3, Behensky, Andrew Jackson. **Time—2:21.8.**

1-mile—1, Jones, Geo. Washington (Va.); 2, Philpotts, Morris; 3, Lynch, Lawrence Park. **Time—4:26.0.**

1-mile relay—1, St. Michael's (McLaughlin, Sobolenski, Nowicki, Turner); 2, Loughlin; 3, Boys High. **Time—3:30.9.**

Six-lap relay—1, Cardozo High (Walker, Storm, Jones, Carter); 2, Boys High; 3, Atlantic City. **Time—1:44.5** (meet record).

2-mile relay—1, Mt. St. Michael's (McAneney, Sullivan, Forrest, Enright); 2, Bishop Loughlin; 3, Dover. **Time—8:13.0.** (new meet record).

60-yd. hurdles—1, Johnson, Perth Amboy; 2, Compagnone, LaSalle (Providence); 3, Gilvain, West Phila. Catholic. **Time—0:08.0.**

High jump—1, Cooley Hingham (Mass.), **6 feet 3 inches**; 2, Shaw, Boys High; 3, Rei, Hope (R.I.).

12-lb shot put—1, Lawshe, Bronxville, **52 feet 5 inches**; 2, Kelleman, New Utrecht; 3, Berger, DeWitt Clinton.

Point score—Boys High 21; Bishop Loughlin 17; Mt. St. Michael's 7; LaSalle Academy (Providence) 6; Bronxville 5; DeWitt Clinton 5; Westdale 5; George Washington (Alexandria, Va.) 5; Kearny, N.J. 5; Nott Terrace (Schenectady) 5; Mt. St. Michael's (Jersey City) 5; Cardozo (Washington, D. C.) 5; Hingham, Mass. 5; Perth Amboy 5; New Utrecht 4; Garden City 4; Norris 4; Andrew Jackson 4; West Philadelphia Catholic 3; Dover, N. J. 3; Lawrence Park, Toronto 3; Boston Technical 3; Hope 3; Atlantic City 3; Gorton 2; Mt. Pleasant 2; Bayside 2; Harbord Toronto 2; George Washington (New York) 1; Medford, L. I. 1; East Orange 1; Roxbury 1; Cardinal Hayes 1; St. Augustine 1; Iona ½; Xavier ½.

55th Annual Pennsylvania Relays

Franklin Field, Philadelphia, April 29-30

Colleges

440 yds.—1, Wayne (Wingo, Petross, Wright, Coleman); 2, Indiana; 3, Army. **Time—0:41.7.**

880 yds.—1, Wayne (Wingo, Petross, Wright, Coleman); 2, Seton Hall; 3, Indiana. **Time—1:26.0.**

1 mile (championship)—1, NYU (Nelson, Maiocco, Gilhooley, Pearman); 2, Cornell; 3, Seton Hall. **Time—3:15.6.**

1 mile (freshman championship)—1, Seton Hall (Evans, Carter, Bestys, Slade); 2, Villanova; 3, Manhattan. **Time—3:20.2.**

1 mile, Class B (championship)—1, Western Ontario (Pierce, LaRochelle, D. McFarlane, R. McFarlane); 2, Princeton; 3, Navy. **Time—3:20.1.**

Sprint Medley (440-220-220-880)—1, NYU (Gilhooley, Lewis, Kaplan, Pearman); 2, Ohio State; 3, Pennsylvania. **Time—3:24.9.**

1 mile, Mason-Dixon Conference—1, Washington (Sutton, Hubbard, Twilley, Brandenburg); 2, Johns Hopkins; 3, Catholic Univ. **Time—3:25.4.**

1 mile, Middle Atlantic States Ass'n—1, Swarthmore (Tietz, Van Duesen, Spaulding, Battin); 2, Washington; 3, Haverford. **Time—3:26.7.**

2 miles (championship)—1, Ohio State (Reilly, Davis, Washington, Whitfield); 2, Pennsylvania; 3, Michigan. **Time—7:44.4.**

4 miles (championship)—1, Penn State (Williams, W. Ashenfelter, Freebairn, H. Ashenfelter); 2, NYU; 3, Manhattan. **Time—17:35.4.**

Distance medley (880-440-1320-1 mi.)—1, Syracuse (Fitzgerald, Khars, Church, Pratt); 2, NYU; 3, Princeton. **Time—10:08.1.**

480-yd. shuttle hurdles—1, North Carolina (Morrow, Moody, Albans, Taylor); 2, Morgan State; 3, Army. **Time—0:59.3** (new meet record).

Individual Events

100 yds.—1, Peters, Indiana; 2, Wright, Wayne; 3, Coleman, Wayne. **Time—0:09.7.**

2 miles—1, H. Ashenfelter, Penn State; 2, Magill, North Carolina; 3, Hart, Pennsylvania. **Time—9:21.5.**

120-yd. high hurdles—1, Gehrdes, Penn State; 2, Mitchell, Georgetown; 3, Payne, Princeton. **Time—0:14.4.**

400-meter hurdles—1, Moore, Cornell; 2, Gates, Seton Hall; 3, LaRochelle, Western Ontario. **Time—0:52.1** (relays record).

High jump—1, Phillips, Brown, **6 feet 5 inches**; 2 (tie), Murphy, Ohio State; Webb, Brooklyn College, **6 feet 4 inches.**

Broad jump—1, Wright, Wayne, **23 feet 8¼ inches**; 2, Mondschein, NYU, **23 feet 2¼ inches**; 3, Gillcrest, Manhattan, **22 feet 8⅝ inches.**

Pole vault—1 (tie), Ulvestad, Michigan; Sherman, Rhode Island State; Korik, Tennessee; King, Yale; Appel, Yale; Bastor, Army, **13 feet.**

Shot put—1, Fuchs, Yale, **55 feet 10⅝ inches**; 2, Lampert, NYU, **51 feet 11 inches**; 3, Frank, Yale, **51 feet 3¼ inches.**

Discus—1, Frank, Yale, **170 feet 7¾ inches**; 2, Seligman, North Carolina, **159 feet 4½ inches**; 3, Scholz, Army, **157 feet 9¾ inches.**

Javelin—1, Kirk, North Carolina, **198 feet 5½ inches**; 2, Harnley, Albright, **194 feet 5¾ inches**; 3, Bouten, Yale, **188 feet 2¼ inches.**

Hammer throw—1, Scholz, Army, **164 feet 11¼ inches**; 2, Richmond, Dartmouth, **159 feet 11⅝ inches**; 3, Burnham, Dartmouth, **159 feet 6¾ inches.**

Schools

440 yds. (prep schools)—1, Seton Hall (Clancy, Lee, Terranova, Fielding); 2, Episcopal Academy (Philadelphia); 3, Lawrenceville, N. J. **Time—0:43.5.**

1 mile (prep championship)—1, Seton Hall (Terranova, LaPierre, Dwyer, Cusick); 2, Borough Hall (Brooklyn); 3, Lawrenceville. **Time—3:27.4.**

440 yds. (high schools)—1, Boys High (Brooklyn) (Shaw, Holmes, Hoffich, Conaway); 2, Loughlin (Brooklyn); 3, Chester, Pa. **Time—0:43.2.**

1 mile (high school championship)—1, Loughlin (Marsh, Roy Lucas, Ronald Lucas, Dixon); 2, Brooklyn Boys; 3, Chester, Pa. **Time—3:24.8.**

1 mile (South Jersey)—1, Haddonfield (Hall, Hulleberg, Obey, Branch); 2, Haddon Heights; 3, Palmyra. **Time—3:32.5.**

2 miles (high school championship)—1, Loughlin (Kaufmann, Murphy, Kubic, Mulligan); 2, Cardinal Hayes; 3, Bayside, L. I. **Time—8:12.7.**

Distance medley (880-440-1320-1 mi.)—1, Loughlin (Murphy, Roy Lucas, Kubic, Mulligan); 2, Bayside; 3, Newtown, N. Y. **Time—10:47.9.**

28th Annual National Collegiate Track Championships

Los Angeles, Calif., June 18, 1949

100 yds.—1, Patton, USC; 2, Stanfield, Seton Hall; 3, Work, UCLA. **Time—0:09.7.**

220 yds.—1, Patton, USC; 2, Stanfield, Seton Hall; 3, Bienz, Tulane. **Time—0:20.4.**

440 yds.—1, Moore, Cornell; 2, Pearman, NYU; 3, Fox, Seton Hall. **Time—0:47.0.**

880 yds.—1, Whitfield, Ohio State; 2, Barten, Michigan; 3, Pruitt, USC. **Time—1:50.3.**

1 mile—1, Gehrmann, Wisconsin; 2, McGuire, Missouri; 3, Wittreich, Princeton. **Time—4:09.6.**

2 miles—1, Ashenfelter, Penn State; 2, Dreutzler, Michigan State; 3, Black, Rhode Island State. **Time—9:03.9.**

120-yd. high hurdles—1, Dixon, UCLA; 2, Attlesey, USC; 3, Gehrdes, Penn State. **Time—0:13.9.**

220-yd. low hurdles—1, Dixon, UCLA; 2, Gehrdes, Penn State; 3, Frazier, USC. **Time—0:22.7.**

High jump—1, Phillips, Brown, 6 feet 7 inches; 2 (tie), McGrew, Rice; Mondschein, NYU, 6 feet 5 inches.

Broad jump—1, Johnson, Michigan State, 25 feet 2½ inches; 2, Biffle, Denver, 24 feet 3¼ inches; 3, Aihara, USC, 24 feet ¼ inch.

Pole vault—1, Smith, San Diego State, 14 feet 3 inches; 2 (tie), Carroll, Oklahoma; Bennett, Wisconsin, 14 feet.

Shot put—1, Fuchs, Yale, 56 feet 1½ inches; 2, Lampert, NYU, 55 feet 2¼ inches; 3, Chandler, Stanford, 54 feet 11½ inches.

Discus—1, Frank, Yale, 168 feet 9½ inches; 2, Thompson, Minnesota, 166 feet 2⅛ inches; 3, Miller, Ohio State, 161 feet 6½ inches.

Javelin—1, Held, Stanford, 224 feet 8¼ inches; 2, Pickarts, Santa Barbara, 221 feet 10½ inches; 3, Roylance, Utah State, 216 feet 1¾ inches.

Point Score—USC, 55 2/5; UCLA, 31; Stanford, 30; Michigan State, 26; Penn State, 25; Seton Hall, 23; NYU, 23; Yale, 22; Wisconsin, 22; Ohio State, 16; Tulane, San Diego, Missouri, Cornell, Brown, 10; Santa Barbara, 9; Denver, Michigan, Minnesota, 8; Rhode Island State, 7 2/5; Oklahoma State, Brigham Young, Haverford, Washington State, 2; Oregon, College of Pacific, 1 2/5; Auburn, Bradley, Temple, Colorado, Georgetown, Illinois, Occidental, 1.

22nd Annual Texas Relays

Memorial Stadium, Austin, Texas

Universities

440 yds.—1, Oklahoma (McConnell, Thomas, Gilstrap, Gray); 2, Nebraska; 3, Texas A&M. **Time—42.0.**

880 yds.—1, Oklahoma A&M (Aldridge, Bowers, Stolpe, Voight); 2, Nebraska; 3, Oklahoma. **Time—1:27.4.**

1 mile—1, Texas A&M (Mitchell, Ludwick, Elderback, Holbrook); 2, Oklahoma A&M; 3, Oklahoma. **Time—3:17.3.**

Sprint medley—1, Oklahoma A&M (Voight, Aldridge, Stolpe, Tarrant); 2, Texas Tech; 3, Nebraska. **Time—3:32.4.**

2 miles—1, Oklahoma A&M (Teakell, Mincher, Jones, Tarrant); 2, Nebraska; 3, Oklahoma. **Time—7:46.6.**

Distance medley—1, Kansas (Schutzel, Hinchee, Bowers, Karnes); 2, Texas A&M; 3, Oklahoma A&M. **Time—10:25.0.**

4 miles—1, Kansas (Hinchee, Breidenthal, Bowers, Karnes); 2, Oklahoma A&M; 3, Texas A&M. **Time—17:41.9.**

Point score—Oklahoma A&M, 26; Texas, 23; Texas A&M, 17.

Colleges

880 yds.—1, Loyola (Willingham, Egan, Cagney, Grohwin); 2, North Texas State; 3, Oklahoma Baptist. **Time—1:28.5.**

1 mile—1, Loyola (Lahart, Grohwin, Egan, Cagney); 2, Abilene Christian; 3, Howard Payne. **Time—3:19.4.**

Sprint medley—1, East Texas State (Ochoa, Williams, Hurst, Mercado); 2, Abilene Christian; 3, Pepperdine. **Time—3.27.9.**

Point score—Loyola (Chicago), 10; Abilene Christian College, 7½; George Pepperdine, 7.

Individual Events

100 yds.—1, Bienz, Tulane; 2, Samuels, Texas; 3, Brown, Rice. **Time—0:10.1.**

2 mile—1, Thompson, unattached; 2, Montes, Texas College of Mines; 3, Prohaska, Oklahoma A&M. **Time—4:12.3.**

3000 meters—1, Kohl, Pepperdine; 2, Efaw, Oklahoma A&M; 3, Whisenant, Texas. **Time—8:55.2.**

120-yd. high hurdles—1, Erfurth, Rice; 2, Hawkins, Southwest Texas State; 3, Rowland, SMU. **Time—14.4.**

High jump—1, McGrew, Rice, 6 feet 5⅞ inches; 2 (tie), Walters, Texas; Clepper, Texas Tech; Heintzman, Bradley, 6 feet 3⅞ inches.

Broad jump—1, Robertson, Texas, 24 feet 5¾ inches; 2, Hoskins, Kansas State, 23 feet 11½ inches; 3, Fambro, North Texas State, 23 feet 9½ inches.

Pole vault—1, Rasmussen, Oregon, 14 feet 2¼ inches (relays record); 2 (tie), Kehl, Nebraska; Faulkner, Abilene Christian; Smith, San Diego State; Carroll, Oklahoma, 13 feet 6 inches.

Shot put—1, Prather, Kansas State, 50 feet 11¾ inches; 2, Mayes, Oklahoma, 50 feet 3½ inches; 3, Piderit, Nebraska, 49 feet 10½ inches.

Discus—1, Kadera, Texas A&M, 154 feet 10¾ inches; 2, Prather, Kansas State, 150 feet 9¾ inches; 3, Gregg, Arizona, 145 feet 5¼ inches.

Javelin—1, Marek, Texas, 183 feet 5 inches; 2, Guess, Texas, 178 feet 11 inches; 3, Rote, Rice, 172 feet 11 inches.

High Schools

100 yds.—1, McWhirter, Texas City; 2, Daniels, Tivy (Kerrville); 3, Anderson, Brackenridge (San Antonio). **Time—0:10.5.**

440 yds.—1, Franks, Santa Fe (Alta Loma); 2, Thompson, Brackenridge (San Antonio); 3, Quinn, Ball (Galveston). **Time—0:52.9.**

440-yd. relay—1, Corpus Christi (Watts, Dean, Priour, Webber); 2, Austin; 3, Jeff Davis. **Time—0:42.9.**

1 mile relay—1, Gladewater (Looney, Briggs, Mayo, Honeycutt); 2, Corpus Christi; 3, John Reagan. **Time—3:30.3.**

Sprint medley relay—1, Reagan (Tomasco, Summerlin, Wottrich, Davis); 2, Brackenridge; 3, Gladewater. **Time—3:42.0.**

120-yd. high hurdles—1, Kleb, John Reagan (Houston); 2, Strelau, Stephen F. Austin (Houston); 3, Carson, Corpus Christi. **Time 0:15.6.**

High jump—1 (tie), Dimmitt, Beaumont; Jeanes, Milby (Houston), 6 feet 1 inch; 3, (tie), Carson, Corpus Christi; Clark, Kingsville, 6 feet.

Shot put—1, Hooper, North Side (Fort Worth), 59 feet 5½ inches; 2, Jones, Laredo, 51 feet 4¼ inches; 3, Forester, Woodrow Wilson (Dallas), 51 feet 3 inches.

Point score—John Reagan, 12; Corpus Christi, 11½; Brackenridge, 8; Gladewater, 7.

19th Annual Western Conference Track, Field Championships

Northwestern University, Evanston, Ill., May 21, 1949

100 yds.—1, Peters, Indiana; 2, Rice, Minnesota; 3, Omer, Purdue. **Time—0:09.8.**

220 yds.—1, Peters, Indiana; 2, Mason, Minnesota; 3, Buster, Illinois. **Time—0:21.2.** (meet record).

440 yds.—1, Whitfield, Ohio State; 2, Cogswell, Ohio State; 3, Comer, Minnesota. **Time—0:48.5.**

880 yds.—1, Whitfield, Ohio State; 2, Gehrmann, Wisconsin; 3, Barten, Michigan. **Time—1:52.4.**

1 mile—1, Gehrmann, Wisconsin; 2, Owens, Indiana; 3, D'Arcy, Ohio State. **Time—4:17.9.**

2 miles—1, Urquhart, Wisconsin; 2, Twomey, Illinois; 3, Williams, Michigan. **Time—9:22.6.**

1 mile relay—1, Ohio (Kunz, Cogswell, Whitaker, Whitfield); 2, Wisconsin; 3, Minnesota. **Time—3:16.7.**

120 yd. high hurdles—1, Brass, Minnesota; 2, Nielsen, Minnesota; 3, Gill, Wisconsin. **Time—14.6.**

220 yd. low hurdles—1, Hofacre, Minnesota; 2, Brass, Minnesota; 3, Garrett, Indiana. **Time—0:23.5.**

High jump—1, Eddleman, Illinois, 6 feet 6⅛ inches; 2, Dolan, Michigan, 6 feet 4⅛ inches; 3, Irons, Illinois, 6 feet 3⅛ inches.

Broad jump—1, Holland, Northwestern, 24 feet 5½ inches; 2, Kallas, Wisconsin, 24 feet 3 inches; 3, Irons, Illinois, 24 feet 1½ inches.

Pole vault—1, Bennett, Wisconsin, 14 feet; 2, Stotlar, Illinois, 13 feet 8 inches; 3 (tie), Cooper, Minnesota; Fox, Indiana; Busby, Purdue, 13 feet 4 inches.

Shot put—1, Roberson, Indiana, 52 feet 8 inches; 2, Thompson, Minnesota, 51 feet 10¼ inches; 3, Wasser, Illinois, 51 feet 9½ inches.

Discus—1, Miller, Ohio State, 167 feet 4 inches; 2, Thompson, Minnesota, 159 feet 11¾ inches; 3, Roberson, Indiana, 159 feet 7 inches.

Point score—Minnesota, 49; Ohio State, 37¾; Wisconsin, 36; Illinois, 35; Indiana, 34; Michigan, 15; Purdue, 10¾; Northwestern, 6¾; Iowa, ¾.

73rd Annual I.C.A.A.A.A. Track and Field Championships

Triborough Stadium, New York, N. Y., May 27-28, 1949

100 yds.—1, Stanfield, Seton Hall; 2, Brooks, Wesleyan; 3, Zegger, Columbia. **Time—0:09.8.**

220 yds.—1, Stanfield, Seton Hall; 2, Kaplan, N.Y.U.; 3, Lancaster, Penn State. **Time—0:20.6** (new meet record).

440 yds.—1, Fox, Seton Hall; 2, Moore, Cornell; 3, Gillhooley, N.Y.U. **Time—0:48.2.**

880 yds.—1, Grosholz, Haverford; 2, Dianetti, Michigan State; 3, Mealey, Cornell. **Time—1:53.3.**

1 mile—1, Pratt, Syracuse; 2, Kirwan, Pennsylvania; 3, Weaver, Syracuse. **Time—4:16.4.**

2 miles—1, Ashenfelter, Penn State; 2, Black, Rhode Island State; 3, Church, Syracuse. **Time—9:09.2** (new meet record).

1 mile relay—1, N.Y.U. (Nelson, Malocco, Gillhooley, Pearman); 2, Cornell; 3, Manhattan. **Time—3:14.4.**

120-yd. high hurdles—1, Smith, Michigan State; 2, Gehrdes, Penn State; 3, Christiansen, Michigan State. **Time—0:14.3.**

220-yd. low hurdles—1, Smith, Michigan State; 2, Johnson, Michigan State; 3, Gehrdes, Penn State. **Time—0:22.9.**

High jump—1 (tie), Mondschein, N.Y.U.; Phillips, Brown, 6 feet 7⅞ inches (new meet record); 3, Webb, Brooklyn College, 6 feet 5½ inches.

Broad jump—1, Johnson, Michigan State, 24 feet 2 inches; 2, Mondschein, N.Y.U., 24 feet 1⅝ inches; 3, Thomas, Michigan State, 23 feet 7¾ inches.

Pole vault—1 (tie), Sherman, Rhode Island State; King, Yale, 13 feet; 3 (tie), Bowerman, Michigan State; Kirk, Pennsylvania; Bensley, Yale, 12 feet 4 inches.

Shot put—1, Fuchs, Yale, 56 feet 3⅝ inch (new meet record); 2, Lampert, N.Y.U., 54 feet 5⅜ inches; 3, Frank, Yale, 49 feet 10⅜ inches.

Discus—1, Frank, Yale, 159 feet 6¼ inches; 2, Fuchs, Yale, 152 feet 5½ inches; 3, Servis, Cornell, 147 feet ⅛ inch.

Javelin—1, Bouton, Yale, 197 feet 7½ inches; 2, Thomas, Pittsburgh, 188 feet 10 inches; 3, Keith, Harvard, 178 feet 2 inches.

Hammer—1, Reed, Harvard, 160 feet, 9¼ inches; 2, Adams, M.I.T., 160 feet 7¾ inches; 3, Thorndike, Harvard, 159 feet 5¼ inches.

Point score—Michigan State, 43; Yale, 30½; N.Y.U., 28½; Seton Hall, 18; Cornell, 18; Penn State, 15; Harvard, 12; Syracuse, 11; R.I. State, 8½; Pennsylvania, 8; Manhattan, Pittsburgh, Haverford, 5; Brown, 4½; M.I.T., Wesleyan, 4; Georgetown, Princeton, Brooklyn, 3; Villanova, Columbia, 3; Dartmouth, 2; New Hampshire, Temple, Northwestern, 1.

Special Events

80-meter hurdles (women)—1, F. E. Blankers-Koen, Netherlands; 2, Phillips, German-American A.C.; 3, Darnowski, German-American A.C. **Time—0:12.0.**

200 meters (women)—1, F. E. Blankers-Koen, Netherlands; 2, Faggs, P.A.L.; 3, Taylor, P.A.L. **Time—0:25.2.**

28th Annual I.C.A.A.A.A. Track Championships (Indoors)

Madison Square Garden, New York City, Feb. 26, 1949

60 yds.—1, Stanfield, Seton Hall; 2, Johnson, Michigan State; 3, Kaplan, N.Y.U. **Time—0:06.2.**

1,000 yds.—1, Thigpen, Seton Hall; 2, Dreutzler, Michigan State; 3, Stoltman, Yale. **Time—2:14.2.**

1 mile—1, Wade, Yale; 2, Dianetti, Michigan State; 3, Pratt, Syracuse. **Time—4:13.6.**

60-yd. high hurdles—1, Smith, Michigan State; 2, Gehrdes, Penn State; 3, Mitchell, Georgetown. **Time—0:07.2.**

Freshman medley relay (880-440-220-mile)—1, Manhattan (Sheehan, Garty, McGinley, Lucas); 2, Alfred; 3, Yale. **Time—7:39.2.**

High jump—1 (tie), Phillips, Brown; Lyster, Temple, 6 feet 4½ inches. 3 (tie), Gillcrist, Manhattan; Robeson, Cornell; Lenox, N.Y.U.; Revelle, Syracuse; Webb, Brooklyn College, 6 feet 2½ inches.

35 lb. weight throw—1, Scholtz, Army, 60 feet 7¾ inches (new I.C.4-A. and indoor record); 2, Servis, Cornell, 55 feet 11 inches; Johnson, Yale, 53 feet 4 inches.

Shot put—1, Fuchs, Yale, 55 feet 5¼ inches; 2. Lampert, N.Y.U., 51 feet 5⅝ inches; 3. Frank, Yale, 51 feet 2 inches.

Special Events

Three-quarter mile run handicap (first race)—1, Foy, N.Y.U.A.C. (45 yds.); 2, Grevious, N. Y. Pioneer Club (45 yds.); 3, Marks, N.Y.U.AA. (38 yds). **Time—3:07.8. (Second race)**—1, Baker, New York A.C. (scratch); 2, Bambrick, Police S.A. (15 yds.); 3, Duffy, Manhattan College A.A. (35 yds.). **Time—3:08.**

A.A.U. 16-lb. shot put handicap—1, Sullivan, Police S.A. (9 feet), 52 feet 3 inches; 2, Mondschein, N. Y. Pioneer Club (7 feet), 52 feet 2½ inches; 3, Seully, St. John's (9 feet), 51 feet 7½ inches.

A.A.U. 600-yd. run handicap (first race)—1, Marshall, N.Y.A.C. (10 yds.); 2, Armstrong, N.Y.A.C. (17 yds.); 3, Grossberger, Police S.A. (scratch). **Time—1:14. (Second race)**—1, Valentine, N. Y. Pioneer Club (15 yds.); 2, Shelley, N.Y.A.C. (12 yds.); 3, Tyson, St. Francis (4 yds.). **Time—1:15.2.**

A.A.U. 1 mile walk handicap—1, Casey, Police S.A. (60 seconds); 2, Forrester, Police S.A. (45 seconds); 3, Laskau, Maccabi A.C. (scratch). **Time—7:19.5.**

23rd Annual West Coast Relays.

Ratcliffe Stadium, Fresno, Calif., May 14, 1949

Open Intercollegiate Events

100 yds.—1, Work, UCLA; 2, Biffle, Denver; 3, McKenley, unattached. **Time—0:09.8.**

220 yds. (special)—1, McKenley, unattached; 2, Bradley, USC; 3, Matson, San Francisco. **Time—0:20.9.**

5,000 meters—1, Blair, California; 2, Seamount, California; 3, Vierra, Fresno State. **Time—15:20.2** (new meet record).

440-yd. relay—1, USC (Pasquali, Frazier, Scott, Patton); 2, UCLA; 3, San Jose. **Time—0:40.7.**

880-yd. relay—1, USC (Pasuali, Frazier, Stocks, Patton); 2, UCLA; 3, Stanford. **Time—1:24.4** (new world record).

1-mile relay (special college class)—1, Occidental (Ruprecht, Kamanski, Lee, Parker); 2, College of the Pacific; 3, Fresno State. **Time—3:18.5** (new meet record).

1-mile relay (open intercollegiate)—1, Stanford (Bly, Johnson, Hoff, Bryan); 2, Olympic Club; 3, USC. **Time—3:14.9.**

2-mile relay—1, USC (Cherry, Wilson, Pruitt, Chambers); 2, California; 3, Stanford. **Time—7:39.7.**

Medley relay (440-880-1,320-1 mile)—1, California (Jackson, Clark, Mello, Vefling); 2, UCLA; 3, Stanford. **Time—10:09.3.**

120-yd. high hurdles—1, Dixon, UCLA; 2, Attlesey, USC; 3, McKee, Stanford. **Time—0:14.1** (new meet record).

High jump—1 (tie). Stanich, UCLA; Bryan, Stanford, 6 feet 3⅝ inches; 3 (tie), Razetto, unattached; Varneck, Olympic Club.

Broad jump—1, Bryan, Stanford, 24 feet ¾ inch; 2, Biffie, Denver, 23 feet 8¾ inches; 3, Aihara, USC, 23 feet 3 inches.

Pole vault—1, Montgomery, USC, 14 feet 3 inches; 2, Smith, San Diego State, 14 feet; 3 (tie), Mattos, San Jose State; Rowan, USC; Kring College of the Pacific, 13 feet 6 inches.

Shot put—1, Thompson, Los Angeles Athletic Club, 55 feet 1⅝ inches (new meet record); 2, Chandler, Stanford, 53 feet 1⅜ inches; 3, Davis, Stanford, 52 feet 3⅞ inches.

Discus—1, Gordien, Olympic Club, 176 feet 11¾ inches (new meet record); 2, Iness, Compton College, 161 feet 3⅜ inches; 3, Lewis, UCLA, 160 feet.

Javelin—1, Held, Stanford, 222 feet 4½ inches; 2, Biles, Olympic Club, 221 feet 11½ inches; 3, Pickarts, Santa Barbara, 210 feet 11⅜ inches.

Junior Colleges

100 yds.—1, Fell, Compton; 2, Sims, Los Angeles; 3, Mejia, Compton. **Time—0:09.7.**

880-yd. relay—1, Compton (Mejia, Thompson, Anderson, Fell); 2, Los Angeles; 3, Pasadena. **Time—1:25.8.**

Cedar Rapids, Iowa, April 8-9

115 lbs.—A. Plaza, Purdue, defeated L. Christen-, San Francisco Olympic Club.
121 lbs.—J. Harrison, Iowa Teachers College, eated G. Lybbert (unattached), Cedar Falls, a.
128 lbs.—R. Bush, Iowa Teachers, defeated R. iser, Cornell.
135 lbs.—L. Lange, Cornell, defeated L. Thom-, Cornell.
145 lbs.—K. Young, Iowa Teachers, defeated N. ple, Nebraska.
155 lbs.—W. Nelson, Iowa Teachers, defeated J. Fletcher, Navy.
165 lbs.—W. Smith, Iowa Teachers, defeated E. Gibbons, Michigan State.
175 lbs.—S. Swift, Navy, defeated F. Dexter, Cornell.
191 lbs.—V. Gagne, Minnesota, defeated R. Geigel, Iowa.
Heavyweight—R. Maldegan, Michigan State, defeated C. Apell (unattached), Columbus, Ohio.

NATIONAL COLLEGIATE A. A. CHAMPIONSHIPS
Colorado A & M College, Fort Collins, Colo., March 25-26

121 lbs.—Arnold Plaza, Purdue.
128 lbs.—Charles Hetrick, Oklahoma A&M.
136 lbs.—Lowell Lange, Cornell.
145 lbs.—Keith Young, Iowa State Teachers.
155 lbs.—Bill Nelson, Iowa State Teachers.
165 lbs.—Bill Smith, Iowa State Teachers.
175 lbs.—Jim Gregson, Oklahoma A&M.
Heavyweight—LaVerne Gagne, Minnesota.
Team—Oklahoma A&M, 32 points.

WESTERN CONFERENCE WRESTLING TOURNAMENT
Indiana University, Bloomington, Ind., March 4-5

121 lbs.—Plaza, Purdue.
128 lbs.—Patascil, Purdue.
136 lbs.—Rice, Minnesota.
145 lbs.—Puchany, Indiana.
155 lbs.—Keough, Ohio State.
165 lbs.—Powers, Michigan.
175 lbs.—Scarpello, Iowa.
Heavyweight—Gagne, Minnesota.
Team—Purdue, 19 points.

EASTERN INTERCOLLEGIATE WRESTLING ASSOCIATION
Cornell University, Ithaca, N. Y., March 11-12

121 lbs.—M. Filipos, Lehigh.
128 lbs.—D. Poor, Princeton.
136 lbs.—R. Kelsey, Lehigh.
145 lbs.—B. Downes, Navy.
155 lbs.—K. Hunte, Syracuse.
165 lbs.—P. Perri, Syracuse.
175 lbs.—G. Gebhardt, Syracuse.
Heavyweight—Barr, Penn State.
Team—Syracuse, 35 points.

Belmont Park

Time is expressed in minutes and seconds. Dollars means the winner's share of the purse. A mile is 5,280 feet, or 1,760 yards. A furlong is one-eighth of a mile, or 660 feet, or 220 yards; + sign = 70 yards.

FUTURITY STAKES (2 YR. OLDS, COLTS AND FILLIES)

(Distance 6½ furlongs)

Year	Winner, weight	Time	Dollars	Year	Winner, weight	Time	Dollars
1891	His Highness (130)	1.15 1-5	61,675	1922	Sally's Alley (116)	1.11	47,550

Total						$166,140

*Established record time. **Match race against Sir Barton.

Man o' War died of a heart attack (Nov. 1, 1947) at the Faraway Farm of his owner, Samuel D Riddle, in the rolling meadow country eight miles north of Lexington, Ky., where the big red stallion had spent most of his life. It is estimated that Man o' War brought approximately $1,000,000 in prize money, stud fees and the sale of foals, to his owner.

Man o' War was foaled March 29, 1917, in the late August Belmont's stables near Lexington. His sire was Fair Play and his dam Mahubah. Riddle bought him at the Saratoga yearling sales (1918) for $5,000. Man o' War made his first start, as a two-year-old, at Belmont, June 6, 1919, and won. The only time he lost in 21 starts was when Upset beat him in the Sanford Stakes at Saratoga (Aug. 13, 1919).

Man o' War, after his retirement (1921), sired many famous racing horses, including War Admiral, Crusader, Mars, Battleship, Clyde Van Dusen, Bateau and Fair Manhurst. During the 26 years of his retirement, more than 1,500,000 persons visited his farm to view him at close quarters. After he suffered the first of three heart attacks in 1947, the public was excluded.

Football Coach of the Year

Source: The New York World-Telegram, a Scripps-Howard newspaper, conducts each year a poll to determine the outstanding Football Coach of the Year. Under the supervision of the World-Telegram, football coaches of the country choose from their ranks the one they consider entitled to the national ranking as the football coach of the year.

Year	Coach	School
1935	Lynn Waldorf	Northwestern
1936	Richard C. Harlow	Harvard
1937	Edward E. Mylin	Lafayette
1938	William F. Kern	Carnegie Tech
1939	Dr. Edward A. Anderson	Iowa
1940	Clark D. Shaughnessy	Stanford
1941	Frank W. Leahy	Notre Dame
1942	William A. Alexander	Georgia Tech
1943	Alonzo A. Stagg	Pacific
1944	Carroll Widdoes	Ohio State
1945	Alvin N. McMillan	Indiana
1946	Earl Blaik	Army
1947	H. O. (Fritz) Crisler	Michigan
1948	Bennie G. Oosterbaan	Michigan
1949	Charles B. (Bud) Wilkinson	Univ. of Oklahoma

The Four Horsemen of Notre Dame

Back in 1924 The Four Horsemen achieved fame s the greatest backfield turned out by Knute ockne in his years as football coach at Notre Dame University. The players were James Crowey, Elmer Layden, Harry Stuhldreher and Don Miller.

The four held a reunion in New York during a adio appearance in October, 1949. During the years ollowing their gridiron career Stuhldreher became director of athletics at the University of Wisconsin, while Crowley rose to fame as the pre-war football mentor at Fordham and Layden coached at Notre Dame before becoming Commissioner of the National Football League, from which he retired in 1946. Both Crowley and Layden later went into business in Chicago. Don Miller, one of five brothers and two nephews who played for Notre Dame, never did any coaching, but went into business following graduation.

New Books means new titles as reported by publishers. New Editions does not mean new printings of a title, but books reissued after being out of print, revised, or reprinted in new formats.

Highlights of Book Publishing

In the literature of 1949 creative achievement of a high order was not immediately apparent. If established novelists were passing the torch to younger writers, the latter were not yet strong enough to jeopardize the reputations of their elders. The tide of war stories receded; books of spiritual import, not always inspired, multiplied. Major contributions were in the fields of history, biography, political memoirs and social analysis. Such writing disclosed a spirit of democratic inquiry and respect for the integrity of the individual intelligence.

Best-selling books reflected the public demand for entertainment, the stimulation of book club distribution and a marked appetite for spiritual solace and direction. Lloyd Douglas' novel, The Big Fisherman, led all titles when 1949 began and was still in demand at its end. But aside from Sholem Asch's Mary, To Every Man a Penny, by Bruce Marshall and a few other novels with religious connotations, most of the spiritual messages were non-fiction. Of these The Seven-Storey Mountain, by Thomas Merton, published in 1948, the spiritual experience of a Trappist convert, had the most sensational success. Also important in this category were Peace of Soul by Fulton J. Sheen, Peace of Mind, by Joshua L. Liebman, still in demand in its third year; A Guide to Confident Living, by Norman V. Peale, The Greatest Story Ever Told, by Fulton Oursler, Why Jesus Died, by Pierre van Paassen, The Man from Nazareth, by Harry E. Fosdick, Father Flanagan of Boys Town, by Fulton and Will Oursler, In Our Image, by Houston Harte and Lead, Kindly Light (Gandhi) by Vincent Sheean.

While lists of best-sellers vary according to categories of books and reports from booksellers and publishers, the following titles were recognized nationally as having the largest sales in new, standard-priced editions:

FICTION

Sales figures as of Nov. 15, 1949.

Dinner at Antoine's, by Francis Parkinson Keyes. Julian Messner, Inc., reported 206,778 copies sold through the bookstores and 969,731 through the Dollar Book Club and other media—total 1,176,509.

High Towers, by Thomas Costain. Combined sales of stores and book club over 850,000.

The Chain, by Paul Wellman. Combined bookstore and book club sales, 660,000.

The Big Fisherman, by Lloyd Douglas. Sold 516,638 without book club help.

Point of No Return, by John P. Marquand. Trade sales, 127,500; book club (est.) 400,000.

Father of the Bride, by Edward Streeter. Sold 68,000 copies through bookstores; book club additional.

A Rage to Live, by John O'Hara. Random House reported 123,232 copies sold without book club help.

Pride's Castle, by Frank Yerby. Dial Press reported 35,000 sold through stores; 740,000 through book clubs, total, 825,000.

The Egyptian, by M. Waltari.

Let Love Come Last, by Taylor Caldwell.

Cutlass Empire, by Van Wyck Mason. Trade and Fiction Book Club sales 380,000.

Kinfolk, by Pearl S. Buck. Trade and book club sales, 256,000.

Other popular novels included The Brave Bulls, by Tom Lea, 1984, by George Orwell, The Way West, by A. B. Guthrie, Jr., Prairie, by Arthur Meeker, Hunter's Horn, by Harriet Arnow, and Elephant Walk, by Robert Standish.

Critical opinion esteemed highly a number of novels less widely read, including The Golden Warrior, a tale of 1066, by Hope Muntz, Ceremony of Innocence, by the late Elizabeth C. Webster, Eight April Days, by Scott Hart, The Heat of the Day, by Elizabeth Bowen, and The Man With the Golden Arm, by Nelson Algren. Also Knight's Gambit, short stories by William Faulkner.

NON-FICTION

Sales figures as of Nov. 15, 1949

Cheaper By the Dozen, by the Gilbreths. Thos. Y. Crowell Co. reported bookstore and book club sales as 472,000.

The Seven Storey Mountain, by Thomas Merton. Over 300,000 sold.

Their Finest Hour, by Winston Churchill.

The Mature Mind, by Harry Overstreet. Bookstore and trade sales, 250,000.

Peace of Soul, by Fulton J. Sheen. From April 5 to Nov. 1, 161,000 were sold.

The Greatest Story Ever Told, by Fulton Oursler. Bookstore and book club sales, 500,000.

Also listed as best selling non-fiction, though hardly competing with literary prose, was a book of photographs with amusing captions, bound in boards: **White Collar Zoo,** by Clare Barnes, which sold 250,000 copies, and **How to Win at Canasta,** by Oswald Jacoby, which sold 330,000, thus reflecting the popularity of the newest card game, which was also the subject of several other large-selling pamphlets.

A Selection of Representative Titles from 1949 Publications

HISTORY

The public continued to read avidly in Crusade in Europe, by Dwight D. Eisenhower, Roosevelt and Hopkins, by Robert E. Sherwood, and The Gathering Storm, by Winston Churchill, issued in 1948.

Schlesinger, Jr.

Changing Values in Book Publishing

Source: Bureau of the Census, 1949

(Money figures in millions of dollars)

	1939	1947
Number of establishments	554	648
Total number of employees (average for year)	.....	39,942
Total salaries and wages	.....	104.3
Production and related workers	6.158	.....
Wages of production workers	88.5	20.1
Valued added by manufacturer	103.7	262.9

	1939	1947
Cost of materials, fuel, electricity, contract work	50.9	200.9
Expenditures for plant and equipment	.....	7.3
Total receipts	154.6	463.8

Value added by manufacture is calculated by subtracting cost of materials, supplies, fuel, purchased electric energy and contract work from the value of products.

HOLIDAYS

Christmas and New Year are observed by Christians, the world over.

In Episcopal countries, such as England, the only church days which are regular legal holidays, aside from Christmas, are Good Friday, Easter Monday, and Whit-Monday.

In Roman Catholic countries, the church days other than Christmas which are usually legal holidays are Epiphany, Ascension, Assumption, All Saints', and Immaculate Conception. Throughout the Latin-American countries it is usual to observe Good Friday and Corpus Christi.

In Lutheran countries Epiphany, Annunciation, Good Friday, Easter Monday, Ascension Day, Whit-Monday, Ash Wednesday, and Corpus Christi are holidays.

OLD ENGLISH HOLIDAYS

Jan. 6. TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany (Feast of the Three Kings). It is celebrated in Spain as Christmas and in Italy as Epiphany (Befana Day). The previous evening is Twelfth Night. Since 1900 the Russian Orthodox Church has observed Jan. 7 as Christmas, inasmuch as 13 days instead of 12 now mark the difference between the old and the new or Gregorian calendar.

Feb. 2. CANDLEMAS: Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year. Also known as "Groundhog Day" in the United States

Feb. 14. OLD CANDLEMAS: St. Valentine's Day

March 25. LADY DAY: Annunciation of the Virgin.

April 6 is Old Lady Day.

June 24. MIDSUMMER DAY: Feast of the Nativity of John the Baptist.

July 7 is Old Midsummer Day.

July 15. ST. SWITHIN'S DAY. There was an old superstition that if rain fell on this day it would continue forty days.

Aug. 1. LAMMAS DAY. Originally in England the festival of the wheat harvest. In the church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

Sept. 29. MICHAELMAS: Feast of St. Michael the Archangel. Old Michaelmas is Oct. 11.

Nov. 1. ALL-HALLOMAS: All-hallows, or All Saints' Day. The previous evening is All-hallow-e'en.

Nov. 2. ALL SOULS' DAY. Day of prayer for the souls of the dead.

Nov. 11. MARTINMAS: Feast of St. Martin. Old Martinmas is Nov. 23.

Dec. 28. CHILDERMAS: Holy Innocents' Day.

Legal or Public Holidays in the United States in 1950

There are no "National" holidays in the United States. Each State has jurisdiction over the holidays it will observe. They are designated either by legislative enactment or executive proclamation. The only instance where Congress has purported to declare a "National holiday throughout the United States" appears to be the act of March 2, 1889 which used the expression with reference to April 30, 1889, the centennial anniversary of the inauguration of the first President of the United States. The President and Congress designate only for the District of Columbia and Federal employees throughout the nation.

The legal holidays in New York State are—**New Years** (January 1); **Lincoln's Birthday** (February 12); **Washington's Birthday** (February 22); **Memorial Day** (May 30); **Independence Day** (July 4); **Labor Day** (1st Monday in September); **Columbus Day** (October 12); **Election Day** (1st Tuesday after 1st Monday in November); **Armistice Day** (November 11); **Thanksgiving Day** (4th Thursday in November); **Christmas** (December 25).

CHIEF LEGAL OR PUBLIC HOLIDAYS

Saturday—In most of the States banks close at noon or are closed all day.

Jan. 1—New Year's Day. In all the States, District of Columbia, Alaska, Canal Zone, Hawaii, Puerto Rico, Virgin Islands.

It is **Fraternal Day** in Alabama; **Discovery Day** in Indiana and North Dakota; **Landing Day** in Wisconsin.

Nov. 7—General Election Day (1st Tuesday after the first Monday in November All States, except Alabama, Connecticut, District of Columbia, Georgia, Kansas, Kentucky, Maine, Massachusetts, Mississippi, Missouri, Nebraska, New Mexico, Utah, Vermont, (Observed usually, only when General Elections or Presidential Elections are held. Primary election day also observed in some states.)

Nov. 11—Armistice Day. In all the States, District of Columbia, Alaska, Canal Zone (not by banks), Hawaii, Puerto Rico, Virgin Islands. (Called "Victory Day" in Tennessee).

Nov. 23—Thanksgiving Day. (Always the fourth Thursday in November). All States, District of Columbia, Canal Zone, Hawaii, Puerto Rico, Virgin Islands.

Dec. 25—Christmas Day. In all States, District of Columbia, Alaska, Canal Zone, Hawaii, Puerto Rico, Virgin Islands.

OTHER LEGAL OR PUBLIC HOLIDAYS

Jan. 6—Three Kings' Day (Epiphany). In Puerto Rico, Virgin Islands (half holiday in St. Thomas and St. John).

Jan. 8—Battle of New Orleans. In Louisiana.

Jan. 11—De Hostos' Birthday. In Puerto Rico

Jan. 19—Robert E. Lee's Birthday. In Alabama Arkansas, Florida, Georgia, Kentucky, Louisiana Mississippi, North Carolina, South Carolina, Tennessee, Texas. It is **Lee-Jackson Day**, in Virginia

Jan. 26—General Douglas MacArthur Day. A Memorial Day in Arkansas.

Jan. 30—Franklin D. Roosevelt Day. In Kentucky and West Virginia.

Feb. 14—Admission Day. In Arizona.

Feb. 21—Mardi Gras (Shrove Tuesday). In Alabama; Florida cities where carnival is celebrated; Louisiana (Parishes of Orleans, St. Bernard, Jefferson, St. Charles, St. John the Baptist, and East Baton Rouge, and in all municipalities in the State where the governing authorities of the same so declare by ordinance duly adopted), Canal Zone.

March 2—Texas Independence Day. In Texas.

March 15—Andrew Jackson's Birthday. In Tennessee.

March 17—Evacuation Day. In Boston and Suffolk County, Mass.

March 22—Emancipation Day. In Puerto Rico.

March 25—Maryland Day. In that State.

March 30—Seward's Day. In Alaska. (Not observed by Federal employes)

March 31—Transfer Day. In the Virgin Islands.

April 6—Holy Thursday. Virgin Islands (except at St. Croix).

April 10—Easter Monday. In North Carolina; Virgin Islands.

April 12—Date of Passage of Halifax Independence Resolution. In North Carolina.

April 13—Thomas Jefferson's Birthday. Alabama, Missouri, Oklahoma and Virginia.

April 16—De Diego's Birthday. In Puerto Rico.

April 19—Patriots' Day. In Maine, Massachusetts.

April 21—San Jacinto Day. In Texas.

April 22—Arbor Day. In Nebraska.

April 22—Oklahoma Day. In that State.

April 26—Confederate Memorial Day. In Alabama, Florida, Georgia, Mississippi.

April 27—Fast Day. In New Hampshire. (Usually the fourth Thursday in April, but the date is determined by the Governor and Council. The date given is on the basis of the usual custom, but can be changed.)

May 4—Rhode Island Independence Day. In that State. Also Arbor Day.

May 10—Confederate Memorial Day. In North Carolina, South Carolina.

May 20—Mecklenburg Declaration of Independence. In North Carolina.

June 3—Birthday of Jefferson Davis or (*) Confederate Memorial Day. In Alabama, Florida, Georgia, *Kentucky, *Louisiana, Mississippi, South Carolina, *Tennessee, Texas, Virginia. (In Arkansas a Memorial Day.)

June 6—Whit Monday. In the Virgin Islands

June 11—Kamehameha Day. In Hawaii.

June 14—Flag Day. In Pennsylvania.

June 15—Pioneer Day. In Idaho. (Observed in some manner, but no longer a legal holiday).

June 17—Bunker Hill Day. In Boston and Suffolk County, Mass.

June 20—West Virginia Day. In that State

June 24—San Juan Day. In Puerto Rico (bank holiday).

July 13—Nathan Bedford Forrest's Birthday. In Tennessee.

July 17—Munoz Rivera's Birthday. In Puerto Rico.

July 24—Pioneer Day. In Utah.

July 25—Occupation Day. In Puerto Rico. It is also Supplication Day in the Virgin Islands (except at St. Croix).

July 27—Barbosa's Birthday. In Puerto Rico.

Aug. 1—Colorado Day. In that State.

Aug. 14—Victory Day. In Rhode Island.

Aug. 16—Bennington Battle Day. In Vermont.

Aug. 30—Huey P. Long's Birthday. In Louisiana.

Sept. 9—Admission Day. In California.

Sept. 12—Defenders' Day. In Maryland

Sept. 16—Cherokee Strip Day. In Oklahoma.

Sept. 16—Regatta Day. In Hawaii (Always the 3rd Saturday in September).

Oct. 2—Missouri Day. In that State. (First Monday of October is set apart as a day commemorative of State's history, to be observed by teachers, pupils and patrons with appropriate exercises).

Oct.—South Carolina. On Thursday of State Fair Week.

Oct. 10—Oklahoma Historical Day. In that State.

Oct. 18—Alaska Day. In Alaska. (Not observed by Federal employes.)

Oct. 25—Thanksgiving Day (Hurricane). The Virgin Islands (except in St. Croix).

Oct. 31—Nevada Day. In that State.

Nov. 10—First move toward Independence from Spain. In the Canal Zone.

Nov. 19—Discovery Day. In Puerto Rico.

Nov. 23—Repudiation Day. In Maryland (bank nalfholiday in Frederick County).

Dec. 2—Arbor Day. In Arkansas. (Observed on the 1st Saturday in December as a Memorial Day, not Legal Holiday.)

DAYS USUALLY OBSERVED

The following days are usually observed but are not legal or public holidays:

Air Force Day (see Armed Forces Day).

American Indian Day. is the fourth Friday in September.

Arbor Day. Tree-planting day. It was first observed (April 10, 1872), in Nebraska, when more than one million trees were set out in that State. Today it is observed in every state in the Union and in the District of Columbia. It is a legal holiday in Nebraska, April 22nd; Rhode Island, May 4th; and in Wyoming by gubernatorial designation.

Armed Forces Day. 3d Saturday in May. Designated August 31, 1949, by Defense Secretary Louis Johnson, replacing Army, Navy and Air Force Days. (Air Force Day was the 2nd Saturday in September; Army Day April 6th; Navy Day October 27, the birthday of Theodore Roosevelt. October is also the month in which the American Navy was founded (1775) by the Continental Congress.)

Army Day (see Armed Forces Day).

Bird Day. Observed in many places in connection with Arbor Day.

Child Health Day, May 1, by Presidential Proclamation.

Citizenship Day. (See "I Am An American Day ")

Constitution Day, Sept. 17.

Elizabeth Cady Stanton Day, Nov. 12. (See Susan B. Anthony day. Is observed for like reasons.)

Father's Day. The .ird Sunday in June.

Forefathers' Day, Dec. 21. Landing on Plymouth Rock, in 1620 Is celebrated with dinners by New England societies, especially "Down East."

Gen. Pulaski Memorial Day, Oct. 11. A native of Poland, Gen. Pulaski was a hero in the Revolutionary War. He died (Oct. 11, 1779) from wounds received at the siege of Savannah, Ga. (Legislation signed by President Truman, June 21, 1946).

I Am An American Day. Third Sunday in May. On May 3, 1940, by act of Congress, Public Resolution No. 67, a day was authorized to be set aside as Citizenship Day, and was designated I Am An American Day. It is proclaimed annually by the President.

May Day. Name popularly given to the first day of May.

Mother's Day. The second Sunday in May

National Aviation Day, Aug. 19.

National Freedom Day, February 1. To commemorate the signing, by President Lincoln, of the document to abolish slavery, Feb. 1, 1865.

National Maritime Day, May 22. First proclaimed (1935) in commemoration of the departure of the SS Savannah, from Savannah, Ga., on May 22, 1819, on the first successful transatlantic voyage under steam propulsion.

Navy Day (see Armed Forces Day).

Pan American Day, April 14. Observed on that date because, in 1890, the First International Conference of American States, meeting in Washington, was held on that date. A resolution was adopted which resulted in the creation of the organization known today as the Pan American Union.

St. Patrick's Day, March 17. Widely observed, especially by Irish Societies and with St. Patrick Day Parades.

Susan B. Anthony Day, Feb. 15. Is observed in honor of the birthday of the pioneer crusader for equal rights for women. (See Elizabeth Cady Stanton Day)

PUBLIC DAYS IN CANADA, 1950

New Year's, Jan. 1; Good Friday, April 7; Easter Monday, April 10; Victoria Day, May 24; King's Birthday (a); Dominion Day, July 1; Labour Day, Sept. 5; Thanksgiving Day (b); Remembrance Day, Nov 11; Christmas, Dec. 25.

(a) The birthday of the reigning Sovereign, or the day fixed by proclamation for its celebration, usually June 9; (b) The second Monday of October seems to be the date usually settled upon for this holiday. (When New Year's, Christmas, Victoria Day, Dominion Day and Sovereign's Birthday fall on Sunday, the following day is observed as the holiday.)
